The Bird and the Mirror By: Oscar Woolfolk Sr. *The Bird and the Mirror* is a heartwarming tale of animal friends discovering and learning about their world around them. Author Oscar Woolfolk Sr. was inspired to write this story after watching a bird fly around a mirror of an abandoned car each day for a full week. Woolfolk wants readers to enjoy reading the book as much as he enjoyed writing it, and to explore what one's imagination can do!

Lights that blink is an allusion to the Lighthouses which guide ships through the harbor channels to docking. The blinking lights from the shore's Lighthouses as well as the lights from the buoys in the approach to the harbor alert the vessels to steer clear of the danger zones, the shallow waters, the submerged boulders, rocks and hidden reefs. The purpose of this

publication is to pass on to future generations reflections of the past. How times can change and yet remain the same. How you can survive regardless of hard times. Also, the desire to inspire those that come after me is important. A wise person once said that gratitude is the memory of the heart. My memories enrich my life as the days and years go by. I recall treasured memories that continue to enrich my soul. I choose to review my memory bank with gratitude. Recalling the kindness of others brings a smile to my face and lifts my spirits. I appreciate the people who have shared this life with me. My memories of good times and good people reveal the light of God that shines unceasingly on us all. As I look back with gratitude for the loved ones and opportunities that have brought me great joy and fulfillment, I also enjoy the fullness of this present moment. Right now, I am making memories for the years to come. I hope to leave the world a better place because of my living in it—to love and be loved, to do good and show respect, to act justly and fairly, to care well for the earth in my small patch of the planet. "Pope Joan has all the elements one wants in a historical drama—love, sex, violence, duplicity, and long-buried secrets. Cross has written an engaging book."—Los Angeles Times Book Review In this international bestseller and basis for the 2009 movie of the same name, Donna Woolfolk Cross brings the Dark Ages to life in all their brutal splendor and shares the dramatic story of a woman whose strength of vision led her to defy the social restrictions of her day. For a thousand years her existence has been denied. She is the legend that will not die—Pope Joan, the ninth-century woman who disguised herself as a man and rose to become

the only female ever to sit on the throne of St. Peter. Now in this riveting novel, Cross paints a sweeping portrait of an unforgettable heroine who struggles against restrictions her soul cannot accept. Brilliant and talented, young Joan rebels against medieval social strictures forbidding women to learn. When her brother is brutally killed during a Viking attack, Joan takes up his cloak—and his identity—and enters the monastery of Fulda. As Brother John Anglicus, Joan distinguishes herself as a great scholar and healer. Eventually, she is drawn to Rome, where she becomes enmeshed in a dangerous web of love, passion, and politics. Triumphant over appalling odds, she finally attains the highest office in Christendom—wielding a power greater than any woman before or since. But such power always comes at a price . . . “Brings the savage ninth century vividly to life in all its alien richness. An enthralling, scholarly historical novel.”—Rebecca Fraser, author of *The Brontës*

Thomas G. Masaryk was founding and first president of the State of Czechoslovakia. He was also a dissident charter member of the theoretical vanguard that established modern sociology in the nineteenth century. Many social scientists are aware of Masaryk's political role, but do not know about his significant contributions to sociology. With the publication of this book, Imber and Woolfolk hope to restore Masaryk to his rightful place in history as a founding sociological theorist. This compilation of some of Masaryk's major writings reveals the intertwining of politics and social theory that is characteristic of his thinking. Chapters in *Constructive Sociological Theory* include "The Development of the Modern Suicide Tendency"; "Essence and Method of Sociology"; "The Epistemological Problem of Russian Philosophy"; "The Religious Question and Modern Philosophy"; "The Class Structure of Society"; "Central Problems of Marxist Policy"; and "Democracy versus Theocracy." *Constructive Sociological Theory* also presents these writings together in English for the first time. Alan Woolfolk's substantial introduction extensively discusses Masaryk's biographical background, academic life, political career, religious views, and interpretations of Marx and Comte, among other subjects. This landmark volume will be an essential addition to the libraries of political theorists, sociologists, philosophers, and theologians. Who was this scalawag? Simply a native, white,

Alabama Republican! Scorned by his fellow white Southerners, he suffered, in his desire for socioeconomic reform and political power, more than mere verbal abuse and social ostracism; he lived constantly under the threat of physical violence. When first published in 1977, Wiggin's treatment of the scalawag was the first book-length study of scalawags in any state, and it remains the most thorough treatment. According to *The Journal of American History*, this is the "most effective challenge to the scalawag stereotype yet to appear."

Woolfolk analyzes the institution of psychotherapy, exploring the roles that psychotherapy plays in the contemporary world. Psychotherapy emerges as a pivotal social force, one that both shapes and reflects the principal currents of western cultures. Rarely has any writer addressed the issue of values in psychotherapy as cogently and comprehensively as has Robert Woolfolk in this groundbreaking volume. From reviews of the First Edition: "[W]ell written with a clear focus on the undergraduate audience, it covers a wide range of relevant topics that undergraduates are interested in, it makes human development theories accessible to undergraduates, and it integrates multiple cultural lenses ... I absolutely love it compared to the other options on the market in this field ." -- Michelle Tichy, University of Northern Iowa "The writing style is excellent! ...The Introductory 'What would you do' scenarios are great for stimulating critical thinking at the beginning of the class discussions. . . . 'Connecting with Children' sections provide helpful guidelines for teachers, families and other professionals. . . . [The text makes an] intentional effort to cover diversity and culture." -- Winnie Mucherah, Ball State University "One of the reasons I changed to this text was the very clear and interesting writing style. I found myself absorbed in the information even though I have been using these types of texts for decades. The level is appropriate for the students. In addition, if a topic is introduced, it is presented in some depth. . . . There is a great deal of

material on practical considerations related to parenting and teaching as well as to cross-cultural issues and diversity. Topics are covered thoroughly and related to one another. I also like the layout of the material in terms of how it appears on the page, ease of reading the print, etc." -- Sandra Twardosz, University of Tennessee, Knoxville

From a seasoned scholar, clinician, and teacher, this lively, highly readable text probes where the field of psychotherapy is now and where it may be headed in the future. Robert L. "What kind of life is worth having, and how can I achieve it?" The book makes a strong case for the benefits of psychotherapy not only as a method for treating disorders, but also as a practice that can promote practical wisdom and human flourishing.
