It's important to understand why most traders fail so that you can avoid those mistakes. In this book, I will teach you trading techniques that I personally use to profit from the market. Before diving into the trading strategies, we will first build your foundation for success as a trader by discussing the two most important skills you can possess. I like to say that a day trader is two things: a hunter of volatility and a manager of risk. We turn the tables by putting the odds for success in your favor. By picking up this book, you show dedication to improve your trading.
