Exploring the Bible's message is easy and exciting with these complete do-it-yourself Bible study guides. Each study includes helpful outlines, charts, maps, diagrams and explanations. For personal, group or classroom use. In the face of false teachings about Jesus, the apostle John took a direct approach. "I heard Jesus speak," he wrote. "I saw him . . . I even touched him." Just as we would write about someone we knew and loved, John told the early believers the truth about the Savior. But he didn't let them off the hook without an examination of their lives. Pastor John MacArthur will take you through these short but impactful letters, passage by passage, so that you can better understand their message of forgiveness, how to uphold a biblical faith,

and the real dangers of spiritual warfare. John was not alone in his concern about the influence of false teachers in the early church. Jude, a half-brother of Christ, also wrote to the believers. In his letter, he firmly urged all believers to fight for truth, and encouraged all followers of Jesus to stand firm in the faith. –ABOUT THE SERIES– The MacArthur Bible Study series is designed to help you study the Word of God with guidance from widely respected pastor and author John MacArthur. Each guide provides intriguing examinations of the whole of Scripture by examining its parts and incorporates: Extensive, but straight-forward commentary on the text. Detailed observations on overriding themes, timelines, history, and context. Word and phrase studies to help you unlock the broader meaning and apply it to your life. Probing, interactive questions with plenty of space to write down your response and thoughts. Each chapter in this physics study guide contains a description of key ideas, potential pitfalls, true-false questions that test essential definitions and relations, questions and answers that require qualitative reasoning, and problems and solutions. gives you the flexibility to take only what you need to class and add your own notes -- all at an affordable price. For loose-leaf editions that include MyLab(tm) or Mastering(tm), several versions may exist for each title and registrations are not transferable. You may need a Course ID, provided by your instructor, to register for and use MyLab or Mastering products. For courses in chemistry. Actively engage students to become expert problem solvers and critical thinkers Nivaldo Tro's Chemistry: A Molecular Approach presents chemistry visually through multi-level images--macroscopic, molecular, and symbolic representations--to help students see the connections between the world they see around them, the atoms and molecules that compose the world, and the formulas they write down on paper. Interactive, digital versions of select worked examples instruct students how to break down problems using Tro's unique "Sort, Strategize, Solve, and Check" technique and then complete a step in the example. To build conceptual understanding, Dr. Tro employs an active learning approach through interactive media that requires students to pause during videos to ensure they understand before continuing. The 5th Edition pairs digital, pedagogical innovation with insights from learning design and educational research to create an active, integrated, and easy-to-use framework. The new edition introduces a fully integrated book and media package that streamlines course set up, actively engages students in becoming expert problem solvers, and makes it possible for professors to teach the general chemistry course easily and effectively. Also available with Mastering Chemistry By combining trusted author content with digital tools and a flexible platform, MyLab [or Mastering] personalizes the learning experience and improves results for each student. The fully integrated and complete media package allows instructors to engage students before they come to class, hold them accountable for learning during class, and then confirm that learning after class. NOTE: You are purchasing a standalone product; Mastering(tm) Chemistry does not come packaged with this content. Students, if interested in purchasing this title with Mastering Chemistry, ask your instructor to confirm the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you use our guide and take the time to really understand the concepts, we are confident you will pass the CFA Exam and be on your way to a new career as a financial analyst! The 40 Days through the Book series has been designed to help believers more actively engage with God's Word. Each study encourages participants to read through one book in the New Testament at least once during the course of 40 days (approximately 6 weeks of meetings) and will provide them with (1) a clear understanding of the background and culture in which the book was written, (2) insights into key passages of Scripture, and (3) clear applications and takeaways from the particular book that participants can apply to their lives. Each study will be recorded in the author's place of residence and will highlight stories and applications that are relevant to his or her ministry in that area. In 40 Days through Colossians, author and pastor Jay Kim guides small-group members through Paul's letter to the believers in Colossae, revealing what his words meant to his original readers . . . and how they apply to us today. Participants will be encouraged as they listen to Jay's teachings and, though the accompanying study guide, challenged to read Colossians on their own during the forty days in the study. Sessions and run times include: The True Center (Colossians 1:1-29) (20:00) Broken Gauges (Colossians 2:1-15) (20:00) A Greater Reality (Colossians 2:16-23) (22:30) Constant Dissonance (Colossians 3:1-11) (20:30) The Right Attire (Colossians 3:12-4:1) (23:00) God Alone (Colossians 4:2-18) (21:00) Designed for use with 40 Days Through the Book: Colossians Video Study (sold separately).

Study Guide including DEMO DOCS and e-Working Papers -- Introductory accounting students consistently tell us, When doing homework, I get stuck trying to solve problems the way they were demonstrated in class. Instructors consistently tell us, I have so much to cover in so little time; I can't afford to go backwards and review homework in class. Those challenges inspired us to develop Demo Docs. Demo Docs are comprehensive worked-through problems available for nearly every chapter of our introductory accounting text to help students when they are trying to solve exercises and problems on their own. The idea is --help students duplicate the classroom experience outside of class. Entire problems that mirror end of chapter material are shown solved and annotated with explanations written in a conversational style, essentially imitating what an instructor might say if standing over a student's shoulder. All Demo Docs will be available in the study guide--in print and on CD in Flash so students can easily refer to them when they need them. choice and short answer questions for students to test their knowledge.
