The Heart Broke In Sep 07 2021 From James Meek, the award-winning author of the international bestseller *The People's Act of Love*, comes a rich and intricate novel about everything that matters to us now: children, celebrity, secrets and shame, the quest for youth, loyalty and betrayal, falls from grace, acts of terror, and the wonderful, terrible inescapability of family. Ritchie Shepherd, an aging pop star and a producer of a reality show for teen talent, is starting to trip over his own lies. Maybe filming a documentary about his father, Captain Shepherd, a British soldier executed by Northern Irish guerrillas, will redeem him. His sister, Bec, is getting closer and closer to a vaccine for malaria. When she's not in Tanzania harvesting field samples, she's peering through a microscope at her own blood to chart the risky treatment she's testing on herself. She's as addicted to honesty as Ritchie is to trickery. Val Oatman is the editor of a powerful tabloid newspaper. The self-appointed conscience of the nation, scourge of hypocrites and cheats, he believes he will marry beautiful Bec. Alex Comrie, a gene therapist (and formerly the drummer in Ritchie's band), is battling his mortally ill uncle, a brilliant and domineering scientist, over whether Alex might actually have discovered a cure for aging. Alex, too, believes he will marry Bec. Colum O'Donabháin has just been released from prison, having served a twenty-five-year sentence for putting a gun to Captain Shepherd's head when he refused to give up an informer. He now writes poetry. Their stories meet and tangle in this bighearted epic that is also shrewd, starkly funny, and utterly of the moment. *The Heart Broke In* is fiction with the reverberating resonance of truth.

Island of Bones Apr 22 2020 What is "identity" when you're a girl adopted as an infant by a Cuban American family of Jehovah's Witnesses? The answer isn't easy. You won't find it in books. And you certainly won't find it in the neighborhood. This is just the beginning of Joy Castro's unmoored life of searching and striving that she's turned to account with literary alchemy in *Island of Bones*. In personal essays that plumb the depths of not-belonging, Castro takes the all-too-raw materials of her adolescence and young adulthood and views them through the prism of time. The result is an exquisitely rendered, richly detailed perspective on a uniquely troubled young life that reflects on the larger questions each of us faces in a world where diversity and singularity are forever at odds. In the experiences of her past—hunger and abuse, flight as a fourteen-year-old runaway, single motherhood, the revelations of her "true" ethnic identity, the suicide of her father—Castro finds the "jagged, smashed place of edges and fragments" that she pieces together to create an island all her own. Hers is a complicated but very real depiction of what it is to "jump class," to not belong but to find one's voice in the interstices of identity.

Evidence Based Coaching Handbook Jan 24 2023 The first reference to bring scientifically proven approaches to the practice of personal and executive coaching The Evidence Based Coaching Handbook applies recent behavioral science research to executive and personal coaching, bringing multiple disciplines to bear on why and how coaching works. A groundbreaking resource for this burgeoning profession, this text presents several different coaching approaches along with the empirical and theoretical knowledge base supporting each. Recognizing the special character of coaching--that the coaching process is non-medical, collaborative, and highly contextual--the authors lay out an evidence-

based coaching model that allows practitioners to integrate their own expertise and the needs of their individual clients with the best current knowledge. This gives coaches the ability to better understand and optimize their own coaching interventions, while not having to conform to a single, rigidly defined practice standard. The Evidence Based Coaching Handbook looks at various approaches and applies each to the same two case studies, demonstrating through this practical comparison the methods, assumptions, and concepts at work in the different approaches. The coverage includes: An overview: a contextual model of coaching approaches Systems and complexity theory The behavioral perspective The humanistic perspective Cognitive coaching Adult development theory An integrative, goal-focused approach Psychoanalytically informed coaching Positive psychology An adult learning approach An adventure-based framework Culture and coaching

To help us better understand what makes these extraordinary men and women such effective leaders, Dye examines the fourteen leadership traits embraced by every NCO. These qualities— including judgment, enthusiasm, determination, bearing, and unselfishness—are exemplified by men like Terry Anderson, the former Marine sergeant who spent nearly seven years as a hostage in Beirut, John Basilone, the hero of the Pacific, and many others. The Devil's Backbone Jan 29 2021 The last the boy Papa saw of his Momma, she was galloping away on her horse Precious in the saddle her father took from a dead Mexican officer after the Battle of San Jacinto, fleeing from his Daddy, Old Karl, a vicious, tight-fisted horse trader. Momma's flight sets Papa on a relentless quest to find her that thrusts him and his scrappy little dog Fritz into adventures all across the wild and woolly Hill Country of Central Texas, down to Mexico, and even into the realm of the ghostly "Shimmery People." In *The Devil's Backbone*, master storyteller Bill Wittliff takes readers on an exciting journey through a rough 1880s frontier as full of colorful characters and unexpected turns of events as the great American quest novel *Adventures of Huckleberry Finn*. Wittliff grew up listening to stories and memories like these in his own family, and in this imaginative novel, they come to vivid life, creating an engrossing story of a Texas Huck Finn that brims with folk wisdom and sly humor. A

rogue's gallery of characters thwart and aid Papa's path—Old Karl, hell-bent on bringing the boy back to servitude on his farm, and Herman, Papa's brother who's got Old Karl's horse-trading instincts and greed; Calley Pearsall, an enigmatic cowboy with "Other Fish to Fry" who might be an outlaw or a trustworthy "o'Amigo"; o'Jeffrey, a black seer who talks to the spirits but won't tell Papa what she has divined about his Momma; Mister Pegleg, a three-legged coyote with whom Papa forms a poignant, nearly tragic friendship; the "Mexkins" Pepe and Peto and their father Old Crecencio, whose longing for his lost family is as strong as Papa's; and blind Bird, a magical "blue baby" who can't see with his eyes but who helps other people see what they hold in their hearts. Papa's adventures draw him ever nearer to a mysterious cave that haunts his dreams—an actual cave that he discovers at last in the canyons of the Devil's Backbone—but will he find Momma before Old Karl finds him?

The Pale King May 23 2020 The "breathtakingly brilliant" novel by the author of Infinite Jest (New York Times) is a deeply compelling and satisfying story, as hilarious and fearless and original as anything Wallace ever wrote. The agents at the IRS Regional Examination Center in Peoria, Illinois, appear ordinary enough to newly arrived trainee David Foster Wallace. But as he immerses himself in a routine so tedious and repetitive that new employees receive boredom-survival training, he learns of the extraordinary variety of personalities drawn to this strange calling. And he has arrived at a moment when forces within the IRS are plotting to eliminate even what little humanity and dignity the work still has. The Pale King remained unfinished at the time of David Foster Wallace's death, but it is a deeply compelling and satisfying novel, hilarious and fearless and as original as anything Wallace ever undertook. It grapples directly with ultimate questions -- questions of life's meaning and of the value of work and society -- through characters imagined with the interior force and generosity that were Wallace's unique gifts. Along the way it suggests a new idea of heroism and commands infinite respect for one of the most daring writers of our time. "The Pale King is by turns funny, shrewd, suspenseful, piercing, smart, terrifying, and rousing." --Laura Miller, Salon

Encounters at the Heart of the World May 04 2021 Winner of the 2015 Pulitzer Prize for History Encounters at the Heart of the World concerns the Mandan Indians, iconic Plains people whose teeming, busy towns on the upper Missouri River were for centuries at the center of the North American universe. We know of them mostly because Lewis and Clark spent the winter of 1804-1805 with them, but why don't we know more? Who were they really? In this extraordinary book, Elizabeth A. Fenn retrieves their history by piecing together important new discoveries in archaeology, anthropology, geology, climatology, epidemiology, and nutritional science. Her boldly original interpretation of these diverse research findings offers us a new perspective on early American history, a new interpretation of the American past. By 1500, more than twelve thousand Mandans were established on the northern Plains, and their commercial prowess, agricultural skills, and reputation for hospitality became famous. Recent archaeological discoveries show how these Native American people thrived, and then how they collapsed. The damage wrought by imported diseases like smallpox and the havoc caused by the arrival of horses and steamboats were tragic for the Mandans, yet, as Fenn makes clear, their sense of themselves as a people with distinctive traditions endured. A riveting account of Mandan history, landscapes, and people, Fenn's narrative is enriched and enlivened not only by science and research but by her own encounters at the heart of the world.

The Heart-Led Leader Jun 16 2022 New York Times bestselling author Tommy Spaulding shows you how looking inwards--and leading with your heart--can transform your life. In his New York Times bestseller, It's Not Just Who You Know, world renowned leadership speaker and former CEO of Up with People Tommy Spaulding talked about the power of building genuine and lasting relationships both personally and professionally. In The Heart-Led Leader, Spaulding turns his focus to ourselves--to who

we are. Authentic leaders, Spaulding says, live and lead from the heart. The values and principles that guide our lives and shape our ability to lead others is far more important than our title, or our ability to crunch numbers, or the impressive degrees we display on our walls. To effect true transformational change, heart-led leaders draw on the qualities of humility, vulnerability, transparency, empathy and love. Illustrated with stories from his own life, and from some of the exceptional leaders he has met and worked with over the years, Spaulding unpacks what those qualities mean, talks about the 18-inch journey from the head to the heart--from our intellect to our emotions--and shows us how to incorporate them into our careers, into how we manage and lead others, and into how we live our lives. It is a vision of leadership that has the power to transform everything we do, and the lives of everyone we touch.

Presence-Based Coaching Apr 26 2023 Presence-Based Coaching offers coaches a hands-on resource for developing the capacities and skills needed to be reliably present in all situations, and shows how to let go of habitual--and often ineffective--ways of responding. As author and leadership expert Doug Silsbee explains, once a coach has mastered the inner moves of directing their own attention, they can work to develop the same capability in their clients. The ability of a coach to facilitate lasting, sustainable development in leaders rests on the presence a coach offers to the coach-client relationship.

Survival Schools Dec 31 2020 In the late 1960s, Indian families in Minneapolis and St. Paul were under siege. Clyde Bellecourt remembers, "We were losing our children during this time; juvenile courts were sweeping our children up, and they were fostering them out, and sometimes whole families were being broken up." In 1972, motivated by prejudice in the child welfare system and hostility in the public schools, American Indian Movement (AIM) organizers and local Native parents came together to start their own community school. For Pat Bellanger, it was about cultural survival. Though established in a moment of crisis, the school fulfilled a goal that she had worked toward for years: to create an educational system that would enable Native children "never to forget who they were." While AIM is best known for its national protests and political demands, the survival schools foreground the movement's local and regional engagement with issues of language, culture, spirituality, and identity. In telling of the evolution and impact of the Heart of the Earth school in Minneapolis and the Red School House in St. Paul, Julie L. Davis explains how the survival schools emerged out of AIM's local activism in education, child welfare, and juvenile justice and its efforts to achieve self-determination over urban

Indian institutions. The schools provided informal, supportive, culturally relevant learning environments for students who had struggled in the public schools. Survival school classes, for example, were often conducted with students and instructors seated together in a circle, which signified the concept of mutual human respect. Davis reveals how the survival schools contributed to the global movement for Indigenous decolonization as they helped Indian youth and their families to reclaim their cultural identities and build a distinctive Native community. The story of these schools, unfolding here through the voices of activists, teachers, parents, and students, is also an in-depth history of AIM's founding and early community organizing in the Twin Cities—and evidence of its long-term effect on Indian people's lives.

The Death of the Heart Apr 14 2022 *The Death of the Heart* is perhaps Elizabeth Bowen's best-known book. As she deftly and delicately exposes the cruelty that lurks behind the polished surfaces of conventional society, Bowen reveals herself as a masterful novelist who combines a sense of humor with a devastating gift for divining human motivations. In this piercing story of innocence betrayed set in the thirties, the orphaned Portia is stranded in the sophisticated and politely treacherous world of her wealthy half-brother's home in London. There she encounters the attractive, carefree cad Eddie. To him, Portia is at once child and woman, and her fears her gushing love. To her, Eddie is the only reason to be alive. But when Eddie follows Portia to a sea-side resort, the flash of a cigarette lighter in a darkened cinema illuminates a stunning romantic betrayal—and sets in motion one of the most moving and desperate flights of the heart in modern literature.

Relational Coaching Dec 11 2021 Manfred Kets de Vries, Professor of Leadership Development, INSEAD: "The author takes us on an exciting journey to explain what coaching is all about, providing us with a roadmap that is second to none. Anyone interested in better understanding what coaching is all about, would do well to have a serious look at this book." David Megginson, Professor of Human

Resources Development, Sheffield Hallam University: "From a vivid personal story just before the first chapter to the fascinating mass of data in the appendices, this book is a captivating read about the concrete particulars of coaching and the theoretical perspectives we can use to make sense of them. Erik de Haan makes a case for relational coaching and prescribes clearly what his research and the tradition within which it is embedded can tell practitioners in the field." Bruce E. Wampold, Professor of Counseling Psychology, University of Wisconsin: "I am thrilled that there is a coaching book that emphasizes the coachee and the relationship. In *Relational Coaching*, Erik de Haan places the emerging profession on a strong foundation that emphasizes the interpersonal aspects of the endeavour." *Relational Coaching* is a radically different way of looking at coaching that puts the relationship, from the perspective of the coachee, at the centre. Exploring both age-old tradition and reliable studies in recent decades, *Relational Coaching* gives the modern executive coach ten commandments to help improve his or her practice. The book demonstrates how each of these commandments is underpinned by sound quantitative research. The book begins by giving a complete overview of the profession and the latest developments in coaching. The second part of the book presents new quantitative and qualitative research into effects and experiences of coaching. Part three contains an introduction to the activities that make a good coach and the mechanisms used to verify coaches' understanding of their profession. Other topics covered include training, accreditation, supervision and recommended literature.

State of the Heart Jul 06 2021 In *State of the Heart*, Dr. Haider Warraich takes readers inside the ER, inside patients' rooms, and inside the history and science of cardiac disease. *State of the Heart* traces the entire arc of the heart, from the very first time it was depicted on stone tablets, to a future in which it may very well become redundant. While heart disease has been around for a while, the type of heart disease people have, why they have it, and how it's treated is changing. Yet, the golden age of heart science is only just beginning. And with treatments of heart disease altering the very definitions of human life and death, there is no better time to look at the present and future of heart disease, the doctors and nurses who treat it, the patients and caregivers who live with it, and the stories they hold close to their chests. More people die of heart disease than any other disease in the world and when any form of heart disease progresses, it can result in the development of heart failure. Heart failure affects millions and can affect anyone at anytime, a child recovering from a viral infection, a woman who has just given birth or a cancer patient receiving chemotherapy. Yet new technology to treat heart failure is fundamentally changing just what it means to be human. Mechanical pumps can be surgically sown into patients' hearts and when patients with these pumps get really sick, sometimes they don't need a doctor or a surgeon—they need a mechanic. In *State of the Heart*, the journey to rid the world of heart disease is shown to be reflective of the journey of medical science at large. We are learning not only that women have as much heart disease as men, but that the type of heart disease women experience is diametrically different from that in men. We are learning that heart disease and cancer may have more in common than we could have imagined. And we are learning how human evolution itself may have led to the epidemic of heart disease. In understanding how our knowledge of the heart evolved, *State of the Heart* traces the twisting and turning road that science has taken—filled with potholes and blind turns—all the way back to its very origin.
