Connecting to Change the World Jan 29 2021 Something new and important is afoot. Nonprofit and philanthropic organizations are under increasing pressure to do more and to do better to increase and improve productivity with fewer resources. Social entrepreneurs, community-minded leaders, nonprofit organizations, and philanthropists now recognize that to achieve greater impact they must adopt a network-centric approach to solving difficult problems. Building networks of like-minded organizations and people offers them a way to weave together and create strong alliances that get better leverage, performance, and results than any single organization is able to do. While the advantages of such networks are clear, there are few resources that offer easily understandable, field-tested information on how to form and manage social-impact networks. Drawn from the authors' deep experience with more than thirty successful network projects, *Connecting to Change the World* provides the frameworks, practical advice, case studies, and expert knowledge needed to build better performing networks. Readers will gain greater confidence and ability to anticipate challenges and opportunities. Easily understandable and full of actionable advice, *Connecting to Change the World* is an informative guide to creating collaborative solutions to tackle the most difficult challenges society faces.

Too Fast to Think Feb 27 2021 Our lives are getting faster and faster. We are engulfed in constant distraction from email, social media and our 'always on' work culture. We are too busy, too overloaded with information and too focused on analytical left-brain thinking processes to be creative. *Too Fast to Think* exposes how our current work practices, media culture and education systems are detrimental to innovation. The speed and noise of modern life is undermining the clarity and quiet that is essential to power individual thought. Our best ideas are often generated when we are free to think diffusely, in an uninterrupted environment, which is why moments of inspiration so often occur in places completely separate to our offices. To reclaim creativity, *Too Fast to Think* teaches you how to retrain your brain into allowing creative ideas to emerge, before they are shut down by interruption, distraction or the self-doubt of your over-rational brain. This is essential reading for anyone who wants to maximize their creative potential, as well as that of their team. Supported by cutting-edge research from the University of the Arts London and insightful interviews with business leaders, academics, artists, politicians and psychologists, Chris Lewis takes a holistic approach to explain the 8 crucial traits that are inherently linked to creation and innovation.

Bond of Brothers Apr 24 2023 What's up with men? Why are they so afraid to be known? According to Wes Yoder in *Bond of Brothers*, a whole lot of insecurity, secrets, shame, and silence keep men from growing strong in the broken places. Declare war on shallowness! The conversation starts here, in this groundbreaking book.

The Magic Lantern at Work Jun 14 2022 For centuries, various new media technologies have provided individuals with a set of powerful tools to affect their audiences. Among these the magic lantern show

was perhaps the most pervasive, and persuasive. Around the world audiences gathered together in darkened rooms to see a sequence of projected images transition one into another as they listened to personal stories or scripted narrations. Through the power of the magic lantern audiences, for the first time, became the direct witnesses to distant, often traumatic, political events; they visually learned new scientific and medical knowledge, virtually experienced distant places, and collectively experienced strange, often uncanny, phenomena. Although relatively neglected until recently, the apparatus of the magic lantern is now receiving the attention it deserves from historians, curators and artists. Through a set of case studies focusing on the use of the magic lantern by very different, but equally fascinating individuals, a team of international scholars analyses the emerging power of the lantern show in the nineteenth and twentieth centuries within politics, religion, travel, science, health, marketing and entertainment. The magic lantern's connections to today's multimedia environments are explored through the intertwined themes of connecting, experiencing, witnessing and persuading.

Bring Your Whole Self to Work Aug 16 2022 In today's work environment, the lines between our professional and personal lives are blurred more than ever before. Whatever is happening to us outside of our workplace—whether stressful, painful, or joyful—follows us into work as well. We may think we have to keep these realities under wraps and act as if we "have it all together." But as Mike Robbins explains, we can work better, lead better, and be more engaged and fulfilled if—instead of trying to hide who we are—we show up fully and authentically. Mike, a sought-after motivational speaker and business consultant, has spent more than 15 years researching, writing, and speaking about essential human experiences and high performance in the workplace. His clients have ranged from Google to Citibank, from the U.S. Department of Labor to the San Francisco Giants. From small start-ups in Silicon Valley to family-owned businesses in the Midwest. From what he's seen and studied over the years, Mike believes that for us to thrive professionally, we must be willing to bring our whole selves to the work that we do. Bringing our whole selves to work means acknowledging that we're all vulnerable, imperfect human beings doing the best we can. It means having the courage to take risks, speak up, have compassion, ask for help, connect with others in a genuine way, and allow ourselves to be truly seen. In this book, Mike outlines five principles we can use to approach our own work in this spirit of openness and humanity, and to help the people we work with feel safe enough to do the same, so that the teams and organizations we're a part of can truly succeed. "This book will offer you insights,

ideas, and tools to inspire you to bring all of who you are to the work that you do—regardless of where you work, what kind of work you do, and with whom you do it. And, if you're an owner, leader, or just someone who wants to have influence on those around you—this book will also give you specific techniques for how to build or enhance your team's culture in such a way that encourages others to bring all of who they are to work."

Connected Capitalism Jul 03 2021 In our present state of disconnect and loss, *Connected Capitalism* offers us a deeper and more satisfying approach to both work and life. What should our post-COVID work world look like? In *Connected Capitalism*, David Weitzner shows us how to draw from the classic teachings of Judaism in order to positively transform our workplaces and our working lives. He outlines a philosophy that will empower the disenfranchised to build a stable future in a world of crony capitalism, global pandemics, racial injustice, and social disconnect. Weitzner, a professor of management who chooses to look beyond management and mindfulness, envisions a workplace based on the ancient Jewish practices of mitzvah, creating a space for meaningful moments with other people, and chavrusa, co-creating and working on endeavors together. Combining these spiritual concepts with the voices of today's political strategists, business leaders, and artists, *Connected Capitalism* inspires us to approach our work with curiosity, engage with those who were once strangers, and tap into a hopeful and meaningful future.

A Pioneer of Connection Jul 23 2020 Sir Oliver Lodge was a polymathic scientific figure who linked the Victorian Age with the Second World War, a reassuring figure of continuity across his long life and career. A physicist and spiritualist, inventor and educator, author and authority, he was one of the most famous public figures of British science in the late nineteenth and early twentieth centuries. A pioneer in the invention of wireless communication and later of radio broadcasting, he was foundational for twentieth-century media technology and a tireless communicator who wrote upon and debated many of the pressing interests of the day in the sciences and far beyond. Yet since his death, Lodge has been marginalized. By uncovering the many aspects of his life and career, and the changing dynamics of scientific authority in an era of specialization, contributors to this volume reveal how figures like Lodge fell out of view as technical experts came to dominate the public understanding of science in the second half of the twentieth century. They account for why he was so greatly cherished by many of his contemporaries, examine the reasons for his eclipse, and consider what Lodge, a century on, might teach us about taking a more integrated approach to key scientific controversies of the day.

Connect First: 52 Simple Ways to Ignite Success, Meaning, and Joy at Work Oct 18 2022 #1 WALL STREET JOURNAL BESTSELLER • USA TODAY BESTSELLER A renowned business psychologist, advisor, and consultant to the world's leading companies reveals the key to greater success, meaning, and joy at work Technology has enabled us to be more interconnected today than ever before. So why do so many of us feel isolated and undervalued at work? Why does it feel like something is missing? It doesn't have to be this way. In these rapidly changing, challenging times, how do we—YOU—develop the intuition, self-awareness, and interpersonal agility required to prosper? Here's what we've lost track of: organizations are run by people, and people run on emotions. Strong relationships are the bedrock of lasting success, meaning, and joy at work. In this life-changing guide, Dr. Melanie Katzman shows you an impactful approach to connect first as fellow humans, then as coworkers and colleagues, to forge the deep bonds that make a significant difference. Learn how to: • Establish respect and make others feel valued • Engage all of your senses to create a truly inclusive culture • Become popular and be the person everyone wants to work with • Grow loyalty by making it about them—your coworkers • Resolve conflicts by remaining curious and open with others • Fight fear (and prepare for the future) by stepping outside your comfort zone and experimenting with new ideas • Have a big impact by leveraging your platform, living your values, and leading the change Dr. Katzman presents 52 actions you can take immediately to create a deeply rewarding work life by connecting to yourself, your organization, and the world at large. These are the same powerful techniques she has used with leaders and employees at the world's top companies to enhance productivity and foster fulfillment and joy at

work—the hallmarks of true success.

Connected World Dec 20 2022 The world as we know it is changing. Driverless cars, drone deliveries and autonomous weapon systems are no longer the stuff of science fiction. But what's next for technology and business, and how will it impact our society? In *Connected World*, Philip Larrey of the Pontifical Lateran University explores the consequences of the new digital age in conversation with leaders including Sir Martin Sorrell, CEO of WPP, Eric Schmidt, CEO of Google's parent company Alphabet, and Maurice Lévy, CEO of Publicis Groupe. Ranging from the death of privacy to the rise of artificial intelligence, *Connected World* asks the existential questions which will come to define our age.

It's Not Always Depression Jun 02 2021 Fascinating patient stories and dynamic exercises help you connect to healing emotions, ease anxiety and depression, and discover your authentic self. Sara suffered a debilitating fear of asserting herself. Spencer experienced crippling social anxiety. Bonnie was shut down, disconnected from her feelings. These patients all came to psychotherapist Hilary Jacobs Hendel seeking treatment for depression, but in fact none of them were

chemically depressed. Rather, Jacobs Hendel found that they'd all experienced traumas in their youth that caused them to put up emotional defenses that masqueraded as symptoms of depression. Jacobs Hendel led these patients and others toward lives newly capable of joy and fulfillment through an empathic and effective therapeutic approach that draws on the latest science about the healing power of our emotions. Whereas conventional therapy encourages patients to talk through past events that may trigger anxiety and depression, accelerated experiential dynamic psychotherapy (AEDP), the method practiced by Jacobs Hendel and pioneered by Diana Fosha, PhD, teaches us to identify the defenses and inhibitory emotions (shame, guilt, and anxiety) that block core emotions (anger, sadness, fear, disgust, joy, excitement, and sexual excitement). Fully experiencing core emotions allows us to enter an openhearted state where we are calm, curious, connected, compassionate, confident, courageous, and clear. In *It's Not Always Depression*, Jacobs Hendel shares a unique and pragmatic tool called the Change Triangle—a guide to carry you from a place of disconnection back to your true self. In these pages, she teaches lay readers and helping professionals alike

- why all emotions—even the most painful—have value.
- how to identify emotions and the defenses we put up against them.
- how to get to the root of anxiety—the most common mental illness of our time.
- how to have compassion for the child you were and the adult you are.

Jacobs Hendel provides navigational tools, body and thought exercises, candid personal anecdotes, and profound insights gleaned from her patients' remarkable breakthroughs. She shows us how to work the Change Triangle in our everyday lives and chart a deeply personal, powerful, and hopeful course to psychological well-being and emotional engagement.

[The Systems Work of Social Change](#) May 01 2021 The issues of poverty, inequality, racial injustice, and climate change have never been more pressing or paralyzing. Current approaches to social change, which rely on linear thinking and traditional power dynamics to 'solve' social problems, are not helping. In fact, they may only be entrenching the status quo. Systemic social challenges produce bewildering results when we try to solve them due to their complexity, scale, and depth. While strategies to tackle complexity and scale have received significant attention and investment, challenges that arise from deeply-held beliefs, values, and assumptions that no longer serve us well have been largely overlooked. This book draws on stories of committed social changemakers to uncover a set of principles and practices for social change that dramatically depart from the industrial approach. Rather than delivering solutions or being lured by grander visions of 'systems change', these principles and practices focus on the process of change itself. Simple yet profound, these stories distill a timely set of lessons for leaders, scholars, and policymakers on how connection, context, and power sit at the heart of the change process, ensuring broader agency for people and communities while building social systems that are responsive in a rapidly-changing world.

[How to Hear Your Angels](#) Aug 04 2021 How to Hear Your Angels is a

step-by-step manual on how to clearly receive messages from your angels and guides. The material was culled from Doreen Virtue's best-selling book *Messages from Your Angels* and from her workshops. Doreen has been assigning this reading material to her Angel Therapy Practitioner students for many years, and at their request has compiled the information in this handy book. Within these pages, you'll discover your communication "style" so that you can more easily recognize the visions, words, thoughts, and feelings you receive as Divine guidance. The book is filled with charts to help you discern the difference between true Divine guidance and the voice of the ego, and it will help you engage in clear and understandable conversations with Heaven.

The Long-Distance Teammate Jun 21 2020 What does it mean to "go to work" when you don't actually leave the house? This is the ultimate guide for remote workers who want to stay engaged as team members, maintain robust work relationships, and keep an eye on their long-term career goals. Even before the coronavirus hit, remote work was growing at nearly 30 percent per year, and now it's just a fact of life. There are many millions of people who once worked at a central location every day who now find themselves facing an entirely new way of working. Written by the founders of the Remote Leadership Institute, this book is the most authoritative single resource for helping remote workers get work done effectively, build relationships that are both productive and satisfying, and maintain a career trajectory when they are not in constant close contact with their leader, coworkers, or the organization in general. *The Long-Distance Teammate* tackles three important issues: navigating the personal and interpersonal, growing the skills to be productive, and communicating effectively—all from a distance. In short, there is a big difference between working at home and being an effective member of a team. This practical guide describes that difference and allows you to be a great remote teammate.

The Lost Art of Connecting: The Gather, Ask, Do Method for Building Meaningful Business Relationships Dec 28 2020 Named a Best Business Book of 2021 by Soundview Magazine Reclaim the power of genuine human connection Networking is often considered a necessary evil for all working professionals. With social media platforms like LinkedIn, Twitter, Instagram, and Facebook at our disposal, reaching potential investors or employers is much easier. Yet, these connections often feel transactional, agenda-driven, and dehumanizing, leaving professionals feeling burnt out and stressed out. Instead, we should connect on a human level and build authentic relationships beyond securing a new job or a new investor for your

next big idea. To build real and meaningful networking contacts, we need to go back to basics, remembering that technology is a tool and more than just a means to an end. We need to tap into our humanity and learn to be more intentional and authentic. As a "serial connector" and communications expert, Susan McPherson has a lifetime of experience building genuine connections in and out of work. Her methodology is broken down into three simple steps: Gather: Instead of waiting for the perfect networking opportunity to come to you, think outside the box and create your own opportunity. Host your own dinner party, join a local meet-up group, or volunteer at your neighborhood food pantry. Ask: Instead of leading with our own rehearsed elevator pitches asking for help, ask to help, opening the door to share resources, experience, contacts, and perspectives that add diversity to your own vision. Do: Turn new connections into meaningful relationships by taking these newly formed relationships deeper. Follow through on the promises you made and keep in touch. Woven together with helpful tips and useful advice on making the most out of every step, this book draws on McPherson's own experience as a renowned "serial connector," as well as the real life success stories of friends and clients. Filled with humor, humility, and wisdom, *The Lost Art of Connecting* is the handbook we all need to foster personal and professional relationships that blur the lines between work and play—and enrich our lives in every way.

Spirituality Matters in Social Work Apr 19 2020 Offering a focus that is lacking (or not clearly evident) in most spirituality books, Dudley addresses specific ways of incorporating spirituality into practice and integrates many of the contributions of other writers into an overall eclectic practice approach. His approach revolves around many of the core competencies of the EPAS accreditation (CSWE, 2008). Most of the core competencies are addressed with an emphasis on professional identity, ethical practice, critical thinking, diversity, practice contexts, and, a major practice framework of the book, the practice stages of engagement, assessment, intervention, and evaluation.

Work Matters Jul 27 2023 Work. For some this word represents drudgery and the mundane. For others work is an idol to be served. If you find yourself anywhere on the spectrum from workaholic to weekend warrior, it's time to bridge the gap between Sunday worship and Monday work. Striking a balance between theological depth and practical counsel, Tom Nelson outlines God's purposes for work in a way that helps us to make the most of our vocation and to join God in his work in the world. Discover a new perspective on work that will transform your workday and make the majority of your waking hours matter, not only now, but for eternity.

Every Good Endeavor Sep 17 2022 New York Times bestselling author of *The Prodigal Prophet* Timothy Keller shows how God calls on each of us to express meaning and purpose through our work and careers. "A touchstone of the [new evangelical] movement." —The New York Times Tim Keller, pastor of New York's Redeemer Presbyterian Church and the New York Times bestselling author of *The Reason for God*, has taught and counseled students, young professionals, and senior leaders on the subject of work and calling for more than twenty years. Now he pulls his insights into a thoughtful and practical book for readers everywhere. With deep conviction and often surprising advice, Keller shows readers that biblical wisdom is immensely relevant to our questions about work today. In fact, the Christian view of work—that we work to serve others, not ourselves—can provide the foundation of a thriving professional and balanced personal life. Keller shows how excellence, integrity,

discipline, creativity, and passion in the workplace can help others and even be considered acts of worship—not just of self-interest.

Relationships that Work Feb 22 2023 This unique book, written by bestselling author and psychologist Adam Sáenz and child/adolescent therapist Jeremy Dew, shows you how to increase job satisfaction and personal fulfillment by connecting with others.

Connection Culture Dec 08 2021 Organizations thrive when employees feel valued, the environment is energized, and high productivity and innovation are the norm. This requires a new kind of leader who fosters a culture of connection within the organization. Michael Lee Stallard's *Connection Culture* provides a fresh way of thinking about leadership and offers recommendations for how to tap into the power of human connection.

Mathematics Teachers at Work Sep 05 2021 This book compiles and synthesizes existing research on teachers' use of mathematics curriculum materials and the impact of curriculum materials on teaching and teachers, with a particular emphasis on - but not restricted to - those materials developed in the 1990s in response to the NCTM's Principles and Standards for School Mathematics. Despite the substantial amount of curriculum development activity over the last 15 years and growing scholarly interest in their use, the book represents the first compilation of research on teachers and mathematics curriculum materials and the first volume with this focus in any content area in several decades.

Working Memory Mar 31 2021 Working memory - the conscious processing of information - is increasingly recognized as one of the most important aspects of intelligence. This fundamental cognitive skill is deeply connected to a great variety of human experience - from our childhood, to our old age, from our evolutionary past, to our digital future. In this volume, leading psychologists review the latest research on working memory and consider what role it plays in development and over the lifespan. It is revealed how a strong working memory is connected with success (academically and acquiring expertise) and a poor working memory is connected with failure (addictive behavior

and poor decision-making). The contributions also show how working memory played a role in our cognitive evolution and how the everyday things we do, such as what we eat and how much we sleep, can have an impact on how well it functions. Finally, the evidence on whether or not working memory training is beneficial is explored. This volume is essential reading for students, researchers, and professionals with an interest in human memory and its improvement, including those working in cognitive psychology, cognitive neuroscience, developmental psychology, gerontology, education, health, and clinical psychology.

Every Good Endeavour Nov 26 2020 In today's increasingly competitive and insecure economic environment, we often question the reason for work: why am I doing this? Why is it so hard? And what can I do about it? Work may seem just a means to an end: we do it to earn the money to enjoy life outside the workplace. Here, Timothy Keller argues that God's plan is radically more ambitious: he actually created us to work. We are to work together to make the world a better place, to help each other, and so to find purpose for our lives. Our faith should enhance our work, and our work should develop our faith. With deep insight, Timothy Keller draws on essential and relevant biblical wisdom to address our questions about work. There is grace available if we have taken the wrong attitude, idolising money and using our careers to glorify ourselves rather than God. Keller shows how through excellence, integrity, discipline, creativity and passion in the workplace we can impact society for good. Developing a better attitude to work releases us to serve others humbly, to worship God everyday, and leaves us deeply fulfilled.

Connection You Jan 21 2023 Very little in life is more important than our relationships at work, in life and with self. How connected we feel to others is a strong predictor of our happiness and our feelings of self-worth. Our deeply connected relationships can ultimately give us true meaning and purpose. But, if we're feeling disconnected, alone, and segregated from those around us, how can we become more connected? Why does it seem so easy for some to create deep connections while it's hard for others? In Sheila Stabile's book, *Connection You! Build, Strengthen, and Profit by Making Connections in Work, Life, and Self* she shares insights in 45 stories that will open your eyes about the importance of connections with others. By identifying and developing your ability to create, build and maintain connections at work, in life, and with self, you can live a rich and rewarding life. *Connection You!* will help you build connections that will reward you for the rest of your life.

Teachers Matter: Connecting Work, Lives And Effectiveness May 25 2023 Based on a DfES funded study of 300 teachers in 100 primary and secondary schools in England, the authors identify different patterns of influence and effect between groups of teachers, which provide powerful evidence of the complexities of teachers' work, lives, identity and commitment, in relation to their sense of agency, well-being, resilience and pupil attitudes and attainment. This, in turn, provides a clear message for teachers, teachers' associations, school leaders and policy makers internationally, in understanding and

supporting the need to build and sustain school and classroom effectiveness.

The Work Connection May 21 2020 The authors use regulation to explain the antecedents to current welfare developments in Britain. From discussion of the 'Speenhamland System', the struggle for

Family Allowance and a National Minimum Wage, they show how first a Conservative government in the 1970s, and more recently 'New Labour', have used in-work benefits so that today they have become the preferred instrument of intervention in the labour market for

setting wages. The authors discuss the ways in which these measures - the new deals for lone parents and young people and the working family tax credit - address issues of child poverty and the adequacy of incomes, and how far they are disciplining devices to encourage a new moral order, supportive of family life.
