Accounting Principles and Practice describes the principles and conventions which provide the structure of Accounting practice. Many of the questions are taken from the past examinations of the Royal Society of Arts, the Association of Certified and Corporate Accountants, the Society of Incorporated Accountants, and the Institute of Chartered Accountants. This book is divided into 19 chapters and begins with a brief introduction to the double entry system of accounting. Considerable chapters are devoted to the Accounting techniques concerning the management of different types of accounts, receipts, payments, and expenditures. Other chapters examine the validity of the principles involved and of the limitations of the conventions. This text is based upon the conviction that the oft-quoted distinction between theory and practice is disastrously misleading. It demonstrates that good theory and good practice are inseparable. This book will prove useful to accountants and accounting students. This is the latest edition of the world's best-selling textbook on bookkeeping and accounting. It contains a large number of questions and answers and worked examples. Camp Lawton was the largest prisoner of war camp constructed during the American Civil War. Built to

replace Andersonville, at 42 acres it was almost twice the size of that more notorious prison. Confederate plans called for Camp Lawton to house up to 40,000 Union prisoners. Only just over 10,000 prisoners were captive there when Sherman's March to the Sea forced its evacuation. This book is the only work ever published which focuses entirely on Camp Lawton. It contains over a dozen eyewitness accounts, most of them long out of print by Union soldiers held prisoner there. It also includes a short overview of the history of Camp Lawton and the "Roll of Honor," "names of the soldiers removed from Lawton National Cemetery to Beaufort National Cemetery." Camp Lawton is now on the site of Magnolia Springs State Park, where the editor is employed.
