A Christmas crime shocks the merchants of a quaint shopping district in this latest installment of The New York Times bestselling Victoria Square series. It's Christmastime, but not everyone is jolly--especially not Vonne Barnett. Her dead body has been found in Victoria Square. Katie Bonner, the manager of Artisan's Alley, happens to be at the tea shop Vonne's mother, Francine, owns when the news is delivered. Vonne left a trail of men behind her so the suspects are many--but the clues are few. A broken teacup leads Katie to one of the suspects, but before she can investigate, she's attacked. Katie may be closing in on a murderer, but time is ticking because the murderer is definitely closing in on her.

Though numerous studies have been conducted regarding perceived racial bias in newspaper reporting of violent crimes, few studies have focused on the intersections of race and gender in determining the extent and prominence of this coverage, and more specifically how the lack of attention to violence against women of color reinforces their invisibility in the social structure. This book provides an empirical study of media and law enforcement bias in reporting and investigating homicides of African American women compared with their white counterparts. The author discusses the symbiotic relationship between media coverage and the response from law enforcement to victims of color, particularly when these victims are reported missing and presumed to be in danger by their loved ones. Just as the media are effective in helping to increase police response, law enforcement officials reach out to news outlets to solicit help from the public in locating a missing person or solving a murder. However, a deeply troubling disparity in reporting the disappearance and homicides of female victims reflects racial inequality and institutionalized racism in the social structure that need to be addressed. It is this disparity this important study seeks to solve. Studies of "near-death experiences" show that such experiences not only provide a new certainty of post-mortem survival, but often function as a call for fundamental change in the present. Reported aftereffects encompass changes in attitudes, beliefs, and life orientation. It is said that "experiencers" have lost their fear of death, found their purpose in life, or become "more spiritual." The experience - often declared to be indescribable, inexplicable, or ineffable - is held by many to be the most important of their lives and, moreover, the best proof available for matters "transcendent." In What Is It Like To Be

Dead?, Jens Schlieter argues that to understand recent testimonies of near-death experiences, we need to be aware of the history of innumerable reports of earlier near-death experiences that were communicated and handed down in scores of newspapers, journals, and books. Collections of such testimonies have been published for more than 150 years, accompanied by attempts to classify and interpret them. Schlieter analyzes the religious relevance of near-death experiences -for the experiencers themselves, but also for the growing audience attracted by these testimonies. Near-death experiences bear ontological, epistemic, intersubjective, and moral significance, ranging from reassurance that religious experience is still possible to claims that they initiate a new spiritual orientation in life, or offer evidence for the transcultural validity of afterlife beliefs. This study is the first to document and analyze four centuries of near-death testimonies before the codification of the genre in the 1970s, offering the first full account of the modern genealogy of "near-death experiences." One of NPR's Best Books of the Year A DEBUT COLLECTION OF FIERCE, FUNNY ESSAYS ABOUT GROWING UP THE DAUGHTER OF INDIAN IMMIGRANTS IN WESTERN CULTURE, ADDRESSING SEXISM, STEREOTYPES, AND THE UNIVERSAL MISERIES OF LIFE In *One Day We'll All Be Dead* and *None of This Will Matter*, Scaachi Koul deploys her razor-sharp humor to share all the fears, outrages, and mortifying moments of her life. She learned from an early age what made her miserable, and for Scaachi anything can be cause for despair. Whether it's a shopping trip gone awry; enduring awkward conversations with her bikini waxer; overcoming her fear of flying while vacationing halfway around the world; dealing with Internet trolls, or navigating the fears and anxieties of her parents. Alongside these personal stories are pointed observations about life as a woman of color: where every aspect of her appearance is open for critique, derision, or outright scorn; where strict gender rules bind in both Western and Indian cultures, leaving little room for a woman not solely focused on marriage and children to have a career (and a life) for herself. With a sharp eye and biting wit, incomparable rising star and cultural observer Scaachi Koul offers a hilarious, scathing, and honest

look at modern life. "Whether you're an individual woman looking for help or a reader looking for the truth about the thousands of women who are battered by the men they live with, *Next Time, She'll Be Dead* is the one book you should read." —Gloria Steinem At least 1 in 4 women will be abused during her lifetime—that is 25% of our mothers, daughters, sisters, partners, and friends. Thousands will be killed. As author Ann Jones observes, despite its devastation battering is regarded not as a serious crime, but instead as an inevitable "problem" blandly labeled "domestic violence." Stories of household assaults and murders are all over the news, but the blame is usually pinned on the woman who is said to have either provoked the attack or failed to "leave." In this groundbreaking book, Jones points instead to the many factors in society that promote, trivialize, and perpetuate brutality against women: from popular psychology, academic "expertise," mass media, and pop culture, to the criminal justice system and the law itself. Delving deep into the history, legality, and personal politics of male violence against wives and girlfriends, *Next Time, She'll Be Dead* fearlessly reframes the issue. This critically acclaimed masterwork offers productive ways of thinking and speaking about battering and explains what must be done to stop it. From New York Times bestselling author and blogger Heather B. Armstrong comes an honest and irreverent memoir—reminiscent of the New York Times bestseller *Brain on Fire*—about her experience as the third person ever to participate in an experimental treatment for depression involving ten rounds of a chemically induced coma approximating brain death. For years, Heather B. Armstrong has alluded to her struggle with depression on her website, dooce. It's scattered throughout her archive, where it weaves its way through posts about pop culture, music, and motherhood. In 2016, Heather found herself in the depths of a depression she just couldn't shake, an episode darker and longer than anything she had previously experienced. She had never felt so discouraged by the thought of waking up in the morning, and it threatened to destroy her life. For the sake of herself and her family, Heather decided to risk it all by participating in an experimental clinical trial. Now, for the first time, Heather recalls the torturous eighteen

months of suicidal depression she endured and the month-long experimental study in which doctors used propofol anesthesia to quiet all brain activity for a full fifteen minutes before bringing her back from a flatline. Ten times. The experience wasn't easy. Not for Heather or her family. But a switch was flipped, and Heather hasn't experienced a single moment of suicidal depression since. "Breathtakingly honest" (Lisa Genova, New York Times bestselling author), self-deprecating, and scientifically fascinating, *The Valedictorian of Being Dead* brings to light a groundbreaking new treatment for depression. *The Valedictorian of Being Dead* was previously published with the subtitle "The True Story of Dying Ten Times to Live." An award-winning exploration of the presence of the dead in the lives of the living A common remedy after suffering the loss of a loved one is to progress through the "stages of grief," with "acceptance" as the final stage in the process. But is it necessary to leave death behind, to stop dwelling on the dead, to get over the pain? Vinciane Despret thinks not. In her fascinating, elegantly translated book, this influential thinker argues that, in practice, people in all cultures continue to enjoy a lively, inventive, positive relationship with their dead. Through her unique storytelling woven from ethnographic sources and her own family history, Despret assembles accounts of those who have found ways to live their daily lives with their dead. She rejects the idea that one must either subscribe to "complete mourning" (in a sense, to get rid of the dead) or else fall into fantasy and superstition. She explores instead how the dead still play an active, tangible role through those who are living, who might assume their place in a family or in society; continue their labor or art; or thrive from a shared inheritance or an organ donation. This is supported by dreams and voices, novels, television and popular culture, the work of clairvoyants, and the everyday stories and activities of the living. For decades now, in the West, the dead have been discreet and invisible. Today, especially as a result of the Covid-19 pandemic, Despret suggests that perhaps we will be willing to engage with the dead in ways that bring us happiness despite our loss. Despret's unique method of inquiry makes her book both entertaining and instructive. *Our Grateful Dead* offers a new,

pragmatic approach to social and cultural research and may indeed provide compassionate therapy for those of us coping with death. A significant book about one girl's struggle with suicide. Daelyn is fifteen years old, and in her mind she is a failure. She tried slitting her wrists, and she was rescued. She tried swallowing chemicals, and after burning through her esophagus enough to lose the ability to speak, she was rescued. But this time will be different. As readers see Daelyn's touching friendship with a quirky seventeen year-old boy develop and her newfound willingness to share all of the pain she has held inside of her, they may just see a glimmer of hope. Will Daelyn see it though? Raw and heartfelt, this is an inside look into the mind of a teen who has lost the will to fight and the parents that will do anything they can to help her survive. Still, there are some things that even loving parents can't protect you from--yourself. Please note that due to the sensitive nature of the material in this book, we will be providing back matter from key experts. We hope that this book will help to open a dialogue about this increasingly prevalent issue. Eleven years after his own thoughtlessness sent his only son, Paul, away from home, Nebraska businessman James Herold calls upon Nero Wolfe to track down the young man so that he can make amends. What if we responded to death... by throwing a party? By the time Erica Buist's father-in-law Chris was discovered, upstairs in his bed, his book resting on his chest, he had been dead for over a week. She searched for answers (the artery-clogging cheeses in his fridge?) and tried to reason with herself (does daughter-in-law even feature in the grief hierarchy?) and eventually landed on an inevitable, uncomfortable truth: everybody dies. While her husband maintained a semblance of grace and poise, Erica found herself consumed by her grief, descending into a bout of pyjama-clad agoraphobia, stalking friends online to ascertain whether any of them had also dropped dead without warning, unable to extract herself from the spiral of death anxiety... until one day she decided to reclaim control. With Mexico's Day of the Dead festivities as a starting point, Erica decided to confront death head-on by visiting seven death festivals around the world - one for every day they didn't find Chris. From Mexico to Nepal, Sicily, Thailand, Madagascar, Japan

and finally Indonesia - with a stopover in New Orleans, where the dead outnumber the living ten to one - Erica searched for the answers to both fundamental and unexpected questions around death anxiety. This Party's Dead is the account of her journey to understand how other cultures deal with mortal terror, how they move past the knowledge that they're going to die in order to live happily day-to-day, how they celebrate rather than shy away from the topic of death - and how when this openness and acceptance are passed down through the generations, death suddenly doesn't seem so scary after all. In 1905, white supremacist Lionel Terry murdered the Cantonese gold prospector Joe Kum Yung to draw attention to his crusade to rid New Zealand of Chinese and other east Asian immigrants. Author Chris Tse uses this story—and its reenactment for a documentary a hundred years later—to reflect on the experiences of Chinese migrants of the period, their wishes and hopes, their estrangement and alienation, their ghostly reverberation through a white-majority culture. Along the way readers visit the gold fields of the south; a shipwreck in the Hokianga that left the spirits of 500 Chinese gold miners in an unmemorialized limbo for a hundred years; and the streets of Newtown, Wellington, where Lionel Terry went out one night "looking for a Chinaman." Chris Tse's flickering use of imagery, resonant language, and flexible pronouns are particularly suited to the historic events he describes and the viewpoints he shifts through. *How to be Dead in a Year of Snakes* is a welcome poetic addition to New Zealand literature. The relation between life and death is a subject of perennial relevance for all human beings, and indeed, the whole world and the entire universe, in as much as, according to the saying of ancient Greek philosophy, all things that come into being pass away. Yet it is also a topic of increasing complexity, for life and death now appear to be more intertwined than previously or commonly thought. Moreover, the relation between life and death is also one of increasing urgency, as through the twin phenomena of an increase in longevity unprecedented in human history and the rendering of death, dying, and the dead person all but invisible, people living in the industrialized and post-industrialized Western world of today have lost

touch with the reality of death. This radically new situation, and predicament, has implications - medical, ethical, economic, philosophical, and, not least, theological - that have barely begun to be addressed. This volume gathers together essays by a distinguished and diverse group of scientists, theologians, philosophers, and health practitioners, originally presented in a symposium sponsored by the John Templeton Foundation. Studies of "near-death experiences" show that such experiences not only provide a new certainty of post-mortem survival, but often function as a call for fundamental change in the present. Reported aftereffects encompass changes in attitudes, beliefs, and life orientation. It is said that "experiencers" have lost their fear of death, found their purpose in life, or become "more spiritual." The experience - often declared to be indescribable, inexplicable, or ineffable - is held by many to be the most important of their lives and, moreover, the best proof available for matters "transcendent." In *What Is It Like To Be Dead?*, Jens Schlieter argues that to understand recent testimonies of near-death experiences, we need to be aware of the history of innumerable reports of earlier near-death experiences that were communicated and handed down in scores of newspapers, journals, and books. Collections of such testimonies have been published for more than 150 years, accompanied by attempts to classify and interpret them. Schlieter analyzes the religious relevance of near-death experiences -for the experiencers themselves, but also for the growing audience attracted by these testimonies. Near-death experiences bear ontological, epistemic, intersubjective, and moral significance, ranging from reassurance that religious experience is still possible to claims that they initiate a new spiritual orientation in life, or offer evidence for the transcultural validity of afterlife beliefs. This study is the first to document and analyze four centuries of near-death testimonies before the codification of the genre in the 1970s, offering the first full account of the modern genealogy of "near-death experiences." "Wholly original and captivating." - Brigid Kemmerer, *New York Times* bestselling author of *A Curse So Dark and Lonely* Girls team up to overthrow the kingdom in this unique and powerful retelling of Cinderella from a stunning new voice that's perfect

for fans of Dhonielle Clayton and Melissa Albert. It's 200 years after Cinderella found her prince, but the fairy tale is over. Teen girls are now required to appear at the Annual Ball, where the men of the kingdom select wives based on a girl's display of finery. If a suitable match is not found, the girls not chosen are never heard from again. Sixteen-year-old Sophia would much rather marry Erin, her childhood best friend, than parade in front of suitors. At the ball, Sophia makes the desperate decision to flee, and finds herself hiding in Cinderella's mausoleum. There, she meets Constance, the last known descendant of Cinderella and her step sisters. Together they vow to bring down the king once and for all--and in the process, they learn that there's more to Cinderella's story than they ever knew . . . This fresh take on a classic story will make readers question the tales they've been told, and root for girls to break down the constructs of the world around them. A profoundly moving and inspiring personal memoir on how to turn your mind from a negative spiral into realistic and rebellious hope. "I was alive when I should have been dead. In another movie, I missed the sliding door and departed this wondrous life long ago. Like so many others, I had to learn to live not knowing if I have a tomorrow, because, statistically, I didn't. At the age of 35, I was blindsided by incurable bowel cancer—I was given less than an 8 percent chance of surviving five years. Five years later, my only option was to live in the now and to value one day at a time." When Deborah James was diagnosed with incurable bowel cancer at just 35, she learned a powerful lesson: the way we respond to any given situation empowers or destroys us. And with the right skills and approach, we can all face huge challenges and find strength and hope in the darkest of places. *How to Live When You Could Be Dead*, a Sunday Times bestseller, will show you how. It will awaken you to question your life as if you didn't have a tomorrow and live it in the way you want to today. By harnessing the power of positivity and valuing each day as though it could be your last, you'll find out, as Deborah did, that it is possible to live with joy and purpose, no matter what. Praise for *How to Live When You Could Be Dead*: "Deborah James has captured the heart of the nation." —The Duke and Duchess of Cambridge @KensingtonRoyal

"Brave, bright, beautiful." —Lorraine Kelly "Deborah's ability to find positivity in the darkest of places is an inspiration to us all." —Davina McCall "A darkly comic inquiry into how to fake your own death, the disappearance industry, and the lengths to which people will go to be reborn. Is it still possible to fake your own death in the twenty-first century? With six figures of student loan debt, Elizabeth Greenwood was tempted to find out."-- They'll never see her coming. . . . When Evangeline Stone wakes up naked and bruised on a cold slab at the morgue—in a stranger's body, with no memory of who she is and how she got there—her troubles are only just beginning. Before that night she and the two other members of her Triad were the city's star bounty hunters, mercilessly cleansing the city of the murderous creatures living in the shadows, from vampires to shape-shifters to trolls. Then something terrible happened that not only cost all three of them their lives but also convinced the city's other Hunters that Evy was a traitor—and she can't even remember what it was. Now she's a fugitive, piecing together her memory, trying to deal some serious justice—and discovering that she has only three days to solve her own murder before the reincarnation spell wears off. Because in three days Evy will die again—but this time there's no second chance. . . . All over the tri-state area, something strange is happening. Teenagers who die aren't staying dead. They are coming back to life, but they come back different - they stutter and their reactions to everything are slower. Termed 'living impaired' or 'differently biotic', there are lots of conspiracy theories to explain this new phenomenon. But as their numbers keep on growing, so does the discomfort of the living people in the community. When Phoebe falls for Tommy Williams, her best friend and star of the football team, Adam, has conflicting emotions. And when Tommy decides to try out for the football team, it sets off a chain of events that escalates into deadly violence. A hilarious guide to the intricate rituals, customs, and etiquette surrounding death in the South—and a practical collection of recipes for the final send-off. As author Gayden Metcalfe asserts, people in the Delta have a strong sense of community, and being dead is no impediment to belonging to it. Down south, they don't forget you when you've up and

died-they may even like you better and visit you more often! But just as there is an appropriate way to live your life in the South, there is an equally essentially tasteful way of departing it-and the funeral is the final social event of your existence so it must be handled flawlessly. Metcalfe portrays this slice of American culture from the manners, customs, and the tomato aspic with mayonnaise that characterize the Delta way of death. Southerners love to swap tales, and Gayden Metcalfe, native of Greenville, MS, founder of the Greenville Arts Council and chairman of the St. James Episcopal Church Bazaar, is steeped in the stories and traditions of this rich region. She reminisces about the prominent family that drank too much and got the munchies the night before the big event-and left not a crumb for the funeral (Naturally some early rising, quick-witted ladies from the church saved the day, so the story demonstrates some solutions to potential entertaining disasters!). Then there was the lady who allocated money to have "Home on the Range" sung at the service, and the family that insisted on a portrait of their mother in her casket, only to refuse to pay for it on the grounds that "Mama looks so sad." Each chapter ends with an authentic southern recipe that will come in handy if you "plan to die tastefully", including Boiled Bourbon Custard; Aunt Hebe's Coconut Cake; Pickled Shrimp; Homemade Mayonnaise; and Homemade Rolls. From Kevin Brockmeier, one of this generation's most inventive young writers, comes a striking new novel about death, life, and the mysterious place in between. The City is inhabited by those who have departed Earth but are still remembered by the living. They will reside in this afterlife until they are completely forgotten. But the City is shrinking, and the residents clearing out. Some of the holdouts, like Luka Sims, who produces the City's only newspaper, are wondering what exactly is going on. Others, like Coleman Kinzler, believe it is the beginning of the end. Meanwhile, Laura Byrd is trapped in an Antarctic research station, her supplies are running low, her radio finds only static, and the power is failing. With little choice, Laura sets out across the ice to look for help, but time is running out. Kevin Brockmeier alternates these two storylines to create a lyrical and haunting story about love, loss and the power of memory. Continuing his acclaimed series of

meditations on life and death, David Horowitz turns to the consolation that his marriage and family have brought him amid the trials of age and illness. *You're Going to Be Dead One Day* is a political warrior's reflection on the mysterious rejuvenating power of love, the bittersweet way in which our children reward us while also leaving us behind, and how kindnesses to others bring blessings home. "This book is both brief and miraculous, and it will be finished before you're ready to let it go. Like life." —Ann Patchett, author of *Commonwealth* When Cheryl Strayed was asked by *The Boston Globe* to name a book she finds herself recommending time and again, she chose *The Glen Rock Book of the Dead*. Now, a decade later, that beloved book has a moving companion volume. *The Baltimore Book of the Dead* is a new collection of portraits of the dead, weaving an unusual, richly populated memoir of compressed narratives. Approaching mourning and memory with intimacy, humor, and an eye for the idiosyncratic, the story starts in the 1960s in Marion Winik's native New Jersey, winds through Austin, Texas, and rural Pennsylvania, and finally settles in her current home of Baltimore. Winik begins with a portrait of her mother, the Alpha, introducing locales and language around which other stories will orbit: the power of family, home, and love; the pain of loss and the tenderness of nostalgia; the backdrop of nature and public events. From there, she goes on to create a highly personal panorama of the last half century of American life. A haunting new novel about love, death, and the afterlife, from the author of *Quarantine Baritone Bay*, mid-afternoon. A couple, naked, married almost thirty years, are lying murdered in the dunes. "Their bodies had expired, but anyone could tell--just look at them--that Joseph and Celice were still devoted. For while his hand was touching her, curved round her shin, the couple seemed to have achieved that peace the world denies, a period of grace, defying even murder. Anyone who found them there, so wickedly disfigured, would nevertheless be bound to see that something of their love had survived the death of cells. The corpses were surrendered to the weather and the earth, but they were still a man and wife, quietly resting; flesh on flesh; dead, but not departed yet." Despite popular images of priests seeking enlightenment in snow-covered

mountain temples, the central concern of Japanese Buddhism is death. For that reason, Japanese Buddhism's social and economic base has long been in mortuary services—a base now threatened by public debate over the status, treatment, and location of the dead. *Bonds of the Dead* explores the crisis brought on by this debate and investigates what changing burial forms reveal about the ways temple Buddhism is perceived and propagated in contemporary Japan. Mark Rowe offers a crucial account of how religious, political, social, and economic forces in the twentieth century led to the emergence of new funerary practices in Japan and how, as a result, the care of the dead has become the most fundamental challenge to the continued existence of Japanese temple Buddhism. Far from marking the death of Buddhism in Japan, Rowe argues, funerary Buddhism reveals the tradition at its most vibrant. Combining ethnographic research with doctrinal considerations, this is a fascinating book for anyone interested in Japanese society and religion. Reissue of the legendary 3,500-year-old Papyrus of Ani, the most beautiful of the ornately illustrated Egyptian funerary scrolls ever discovered, restored in its original sequences of text and artwork. "Gilda, a twenty-something, atheist, animal-loving lesbian, cannot stop ruminating about death. Desperate for relief from her panicky mind and alienated from her repressive family, she responds to a flyer for free therapy at a local Catholic church, and finds herself being greeted by Father Jeff, who assumes she's there for a job interview. Too embarrassed to correct him, Gilda is abruptly hired to replace the recently deceased receptionist Grace. In between trying to memorize the lines to Catholic mass, hiding the fact that she has a new girlfriend, and erecting a dirty dish tower in her crumbling apartment, Gilda strikes up an email correspondence with Grace's old friend. She can't bear to ignore the kindly old woman, who has been trying to reach her friend through the church inbox, but she also can't bring herself to break the bad news. Desperate, she begins impersonating Grace via email. But when the police discover suspicious circumstances surrounding Grace's death, Gilda may have to finally reveal the truth of her mortifying existence."--Amazon. A movie-obsessed boy in 1960s Texas loses his

mother, and he and her ghost search for what happened to her. A modern, all-encompassing exploration of what happens after death combines spirituality with philosophy, history, and science, all of which guide readers toward the timeless truth that human consciousness lives on after death. As a contribution to the science of death and dying - not to mention the belief in life after death, or the belief in texts of the world, for its socio-cultural influence in this regard is without comparison."--BOOK JACKET. All Calliope Reaper-Jones ever wanted out of life was a fabulous job in New York City and a really hot boyfriend. But now, she's the brand-new President of Death, Inc. With the Board of Death breathing down her neck and her dad's copy of *How to be Death (A Fully Annotated Guide)* unopened, Callie's really feeling the tension. And when the guide book is stolen at a fancy formal dinner, Callie has to figure out how to be the boss--before the powers held within the book get out and destroy humanity forever... *How to Be Dead - A Love Story* by Laurel Schmidt explores what it means to be fully alive - even in the afterlife. A tale told with humor, heart and intelligence, it celebrates the power of memory and the lifesaving potential of an excellent espresso. Frances Beacon, longevity guru and best-selling author of *Sex, Drugs and Social Security*, is at the peak of her second career when a New York City cab catapults her into the afterlife. Shocked, confused, and royally pissed, all she wants is to go home. Instead, she's enrolled in the University of the Afterlife, where this over-achiever turns into a dropout after being hit with a tsunami of obstacles. Frances spars with a host of bureaucrats, misogynists, and a mysterious Court that can condemn her to frigus repono - permanent cold storage. But her fiercest opponent is her own heart, the thing she must explore and embrace to win her freedom. In this compassionate, comedic saga of self-discovery, Frances learns that the only way to live again is to learn how to be dead. This book is open access under a CC BY 4.0 licence. This book is a multidisciplinary work that investigates the notion of posthumous harm over time. The question what is and when is death, affects how we understand the possibility of posthumous harm and redemption. Whilst it is impossible to hurt the dead, it is possible to harm the wishes, beliefs and memories of persons

that once lived. In this way, this book highlights the vulnerability of the dead, and makes connections to a historical oeuvre, to add critical value to similar concepts in history that are overlooked by most philosophers. There is a long historical view of case studies that illustrate the conceptual character of posthumous punishment; that is, dissection and gibbetting of the criminal corpse after the Murder Act (1752), and those shot at dawn during the First World War. A long historical view is also taken of posthumous harm; that is, body-snatching in the late Georgian period, and organ-snatching at Alder Hey in the 1990s. A fantasy comedy adventure! -- Destined to become a wizard & save the world, Chauncy got a job instead. 25 years later, destiny is pissed. And this time, it won't take no for an answer! When destiny knocked on Chauncy's door, someone else answered it...and told destiny to take a hike. So instead of going on a grand adventure to become a great and powerful wizard so he could save the world from certain destruction, Chauncy got a job. Twenty-five years later, destiny came for Chauncy a second time...and when he told it to take a hike, it knocked him out, tied him up, and kidnapped him. Now Chauncy has no choice but to go on the grand adventure he'd been putting off, to become a great and powerful wizard. Except he doesn't believe in magic, and he doesn't particularly believe in destiny either. Problem is, if he doesn't fulfill his destiny, the world as he knows it will end. And even if he does learn to become the wizard he should have been long ago, it might be too late anyway! Experience this (inappropriate) fantasy comedy from the author of the Runic series, the Fate of Legends series, and the Magic of Havenwood series! NATIONAL BESTSELLER • Weaving together personal anecdote, biological fact, philosophical doubt, cultural criticism, and the wisdom of an eclectic range of writers and thinkers, a book that expertly renders both a hilarious family portrait and a truly resonant meditation on mortality. "Shields is a sharp-eyed, self-deprecating, at times hilarious writer." —The Wall Street Journal Mesmerized and somewhat unnerved by his 97-year-old father's vitality and optimism, David Shields undertakes an original investigation of our flesh-and-blood existence, our mortal being. The Thing About Life provokes us to contemplate the brevity and

radiance of our own sojourn on earth and challenges us to rearrange our thinking in crucial and unexpected ways. You've never, ever read a story like this. Ashley Young is stuck in an unsatisfying marriage and a dead-end job. But when a sexually transmitted plague breaks out in her small town—one that slowly transforms everyone infected into crazed zombielike sex fiends—everything about her life changes. Facing quarantine, National Guard barricades, the onset of winter, and a rapidly spreading, mysterious sex plague, Ashley and everyone else in her small Colorado town find their deepest feelings for one another surfacing...both amorously and violently. When everyone in Ashley's life begins taking comfort in one another's arms, no one really knows who's infected and who's not. And because the disease perpetuates itself as an aphrodisiac, sex—the very thing that offers comfort—only contributes to spreading the plague. In a crumbling world with little to lose, Ashley begins to discover a resilience she didn't know she possessed and a strength she's never had before. Her newly acquired agency may come at a price, however, when Ashley must ultimately choose between her own survival and saving the people she loves. DEAD IN BED by Bailey Simms delivers a tour-de-force series that's as emotionally incisive as it is shockingly sexy, as heartbreaking as it is hilarious, and as frightful as it is impossible to put down. The meaning of our concern for mortal remains—from antiquity through the twentieth century The Greek philosopher Diogenes said that when he died his body should be tossed over the city walls for beasts to scavenge. Why should he or anyone else care what became of his corpse? In The Work of the Dead, acclaimed cultural historian Thomas Laqueur examines why humanity has universally rejected Diogenes's argument. No culture has been indifferent to mortal remains. Even in our supposedly disenchanted scientific age, the dead body still matters—for individuals, communities, and nations. A remarkably ambitious history, The Work of the Dead offers a compelling and richly detailed account of how and why the living have cared for the dead, from antiquity to the twentieth century. The book draws on a vast range of sources—from mortuary archaeology, medical tracts, letters, songs, poems, and novels to painting and

landscapes in order to recover the work that the dead do for the living: making human communities that connect the past and the future. Laqueur shows how the churchyard became the dominant resting place of the dead during the Middle Ages and why the cemetery largely supplanted it during the modern period. He traces how and why since the nineteenth century we have come to gather the names of the dead on great lists and memorials and why being buried without a name has become so disturbing. And finally, he tells how modern cremation, begun as a fantasy of stripping death of its history, ultimately failed—and how even the ashes of the victims of the Holocaust have been preserved in culture. A fascinating chronicle of how we shape the dead and are in turn shaped by them, this is a landmark work of cultural history. “Examines our evolving mourning rituals, specifically in relationship to cemeteries . . . a levelheaded report on the death care industry.” —Los Angeles Review of Books

In modern society, we have professionalized our care for the dying and deceased in hospitals and hospices, churches and funeral homes, cemeteries and mausoleums to aid dazed and disoriented mourners. But these formal institutions can be alienating and cold, leaving people craving a more humane mourning and burial process. The burial treatment itself has come to be seen as wasteful and harmful—marked by chemicals, plush caskets, and manicured greens. Today’s bereaved are therefore increasingly turning away from the old ways of death and searching for a more personalized, environmentally responsible, and ethical means of grief. *Is the Cemetery Dead?* gets to the heart of the tragedy of death, chronicling how Americans are inventing new or adapting old traditions, burial places, and memorials. In illustrative prose, David Charles Sloane shows how people are taking control of their grief by bringing their relatives home to die, interring them in natural burial grounds, mourning them online, or memorializing them streetside with a shrine, ghost bike, or RIP mural. Today’s mourners are increasingly breaking free of conventions to better embrace the person they want to remember. As Sloane shows, these changes threaten the future of the cemetery, causing cemeteries to seek to become more responsive institutions. A trained historian, Sloane is

also descendent from multiple generations of cemetery managers and he grew up in Syracuse’s Oakwood Cemetery. Enriched by these experiences, as well as his personal struggles with overwhelming grief, Sloane presents a remarkable and accessible tour of our new American way of death. From Bob Beckel, the popular co-host of “The Five” on Fox News Channel, a deeply moving, redemptive memoir about his life as a political operative and diplomat, his long struggle with alcohol and drugs, and his unlikely journey to finding faith. Growing up poor in an abusive home, Bob Beckel learned to be a survivor: to avoid conflict, mask his feelings, and to lie—all skills that served him well in Washington, where he would become the youngest-ever Deputy Assistant Secretary of State and manage Walter Mondale's 1984 presidential campaign. But Beckel was living a double life. On January 20, 2001--George W. Bush's first Inauguration Day--he hit rock bottom, waking up in the psych ward. Written with captivating honesty, Beckel chronicles how his addictions nearly killed him until he found help in an unexpected ally, conservative Cal Thomas, who helped him find faith, get sober, and get his life back on track. *What Does Dead Mean?* is a beautifully illustrated book that guides children gently through 17 of the 'big' questions they often ask about death and dying. Questions such as 'Is being dead like sleeping?', 'Why do people have to die?' and 'Where do dead people go?' are answered simply, truthfully and clearly to help adults explain to children what happens when someone dies. Prompts encourage children to explore the concepts by talking about, drawing or painting what they think or feel about the questions and answers. Suitable for children aged 4+, this is an ideal book for parents and carers to read with their children, as well as teachers, therapists and counsellors working with young children. *Estimation of the Time Since Death* remains the foremost authoritative book on scientifically calculating the estimated time of death postmortem. Building on the success of previous editions which covered the early postmortem period, this new edition also covers the later postmortem period including putrefactive changes, entomology, and postmortem r
