## A surgeon turned soldier. A courageous research mission. Will he survive his own wartime trauma?

Texas, 1970. Vascular specialist Brian Levin has steady hands and a cool head under pressure. Eager to investigate the firsthand effects of traumatic stress, he enlists as an infantryman in the Vietnam War. But the real terror comes when an ambush stains his soul with blood.

Through ceaseless rain and jungles dense with enemies, Brian takes and saves lives with numbing repetition. And the battles continue when he rejoins civilian life, still haunted by his emotional wounds. But his pain worsens when he witnesses his platoon mates and their families suffer through Post Traumatic Stress Disorder.

Can Brian use his investigation into his own experiences with the hidden costs of war to heal others and save his own sanity?

*War and Consequence* is a harrowing book in the American Journeys Historical Fiction series. If you like gripping combat scenes, exploring the horrors of heroism, and true-to-life depictions of PTSD, then you'll love Vietnam Veteran Richard Alan Schwartz's unforgettable novel.

*Season of the Wind* Feb 06 2022 When Chicago hit man Ray Dylan started out he was one more young professional struggling to get ahead of the pack. But he knows his world is about to change quickly when he takes on a job for high-level KGB elitist Leonid (The Professor) Volkov, founder of a unique Cuban-Russian spy community operating out of Southern Florida. After Volkov double-crosses him and tries to have him killed, Dylan must take on the entire criminal spy operation even as a wild hurricane named Dennis ravages its way up the heart of the Florida peninsula. True to his calling, the young gunman will stop at nothing as he kills his way closer to Volkov, learning more and more about the man, including one of the best kept secrets in the dark underworld of crime and espionage—what was the wily Russian operative doing in Dallas the day President John F. Kennedy was assassinated. \*Preview of Ralph Cotton's Friend of a Friend and While Angels Dance at the end of this book.

*RV Capital of the World* Jul 19 2020 Time spent with the family in a Coachmen Leprechaun or a Holiday Rambler is unforgettable. Indiana retains a unique place in the RV industry going back to the 1930s, when pioneering individuals like Milo Miller, Harold Platt and Wilbur Schult created the original RV businesses in the Elkhart-South Bend area, making campers for sale. By the end of World War II, the national media was identifying Elkhart as the "Trailer Capital of the World." That status has been reinforced ever since, and the industry is still thriving in Indiana with the successes of Thor Industries and Forest River. Join author and RV expert Al Hesselbart as he chronicles how the Hoosier State became the RV Capital of the World.

**Take the Slow Road: Ireland** Oct 02 2021 Forget hurrying. Forget putting your foot down and racing through sweeping bends. Forget the understeer (whatever that is). Forget the blur of a life lived too fast. This is a look at taking life slowly. It's about taking the time to enjoy journeys and places for their own sake. It's about stopping and putting the kettle on. Stopping to take a picture. Stopping to enjoy stopping. How are you going to do it? In a camper van or a motorhome, of course. In this book we define the best driving routes around Ireland for camper vans and motorhomes. We show you the coolest places to stay, what to see, what to do and explain why it's special. We meander around Ireland on the most breathtaking roads, chugging up mountain passes and pootling along the coast. We show you stuff that's fun; often free. We include the best drives for different kinds of drivers; for surfers, wildlife watchers, climbers and walkers. We include the steepest, the bendiest, the scariest and most interesting. And you don't even have to own a camper van or motorhome – we'll tell you the many places you can rent one to take you on the journey. All of this is interspersed with beautiful photos, handy maps and quirky travel writing from the king of camper vans and motorhomes, Martin Dorey. So if all you want to do is flick through it on a cold day and plan your next outing, you'll be transported (albeit slowly) to pastures, beaches, mountains and highways that make you want to turn the key and go, go, go!

**Small-Scale Renewable Energy Systems** Dec 24 2020 A revolution is ongoing in the field of small-scale energy solutions, which can enable lower impact on the environment, more robust supply and self-determination. Solar power and other forms of renewable energy sources, which you can implement to generate your own electricity, are growing quickly. Electromobility is transforming the car industry and transportation systems and can also play a role in your energy system. Electricity can be used

much more efficiently than before, for example by using LED light, variable speed motor drives and efficient home appliances. Smart controls are available, sometimes with free open source software. All this opens up tremendous opportunities for energy independence, which is the focus of this book. The book introduces the reader to a number of renewable energy sources, to different options for storing electricity and to smart use of electricity, particularly in the context of small isolated systems. This is important because many renewable energy sources are weather- and season-dependent and usually require storage and smart control, in order to obtain a system that is completely independent of the electricity grid. In the book, overall system design is explained, including how to combine different sources in a hybrid system. Different system sizes and architectures are also covered. A number of real cases are described, where homes, businesses and communities have achieved a high level of energy independence or are on their way to achieving it. This book will prove useful in university education in renewable energy at bachelor and master level, and also for companies and private individuals, who want to start or expand activities in the area of renewable energy.

**Windsock Wesley & His Wild & Wonderful Weather Machine, Living in Cloud 9** Feb 18 2023 If your children have ever wondered about the weather, this fun and informative book will have them Living in Cloud 9! Windsock Wesley & His Wild & Wonderful Weather Machine provides an exciting peek into how the world's weather systems form. Windsock Wesley, a nutty yet loveable professor-like man, circumnavigates the planet following its weather systems. He is accompanied on the trip by his assistant, Cirrus, a capuchin monkey. Cirrus was named after the cirrus type of clouds, and that's exactly where Wesley and Cirrus live: inside a magic motor home named Cloud 9. But this motor home is unlike any other motor home you've ever seen! It can travel through time and space to find itself anywhere on the planet where wild weather is raging. Wesley finds himself saving the Kayapo tribe from torrential rains in the Amazon. The two save the tribe members, feed them and help rebuild their homes. Wesley advises them to build their new houses on stilts! The book includes a weather glossary to understand weather terms and also discusses weather phenomena such as thunder and lightning, and the incredible things happening in the sky when storms and tornadoes are brewing. Author Alex Fox has been writing professionally for 17 years. She moved from the UK to Qatar a few years ago with her husband, a meteorologist. She plans to write a series of five Windsock Wesley books and then move on to another series Publisher's website: <http://www.strategicpublishinggroup.com/title/WindsockWesley-LivingInCloud9.html>

*Leaves in the Wind* Apr 20 2023 Montana LeFandra claims to be the founding father of the Iron Horsemen Motorcycle Club, which started out as himself and a bunch of buddies drinking, carousing with women, and spending weekends at various hideaways on the desert and in the mountains of Southern California. They had so much fun that the Club gradually grew in size to over 200,000 members ... and also became a major management problem! How Montana handled it is a story in itself, but what he did after an all-out life and death war with Hell's Angels is another story again ...

**At Your Own Pace** Jan 17 2023 Hailed by recreational vehicle industry leaders as a demystifying, real-life account, *At Your Own Pace: Traveling Your Way in Your Motorhome*, 2nd Edition, details motorhome travel from the wheels up--the questions, conflicts, and adjustments as well as the joys, excitement, and discoveries. More than a travelogue, this book (with an updated and expanded appendix) is the perfect introduction to motorhoming.

**Leaves in the Wind** May 09 2022 The central figure of this short story is a biker named Montana LeFandra (not his real name). I was about to say hero of this story, but, on thinking about it, the shoe doesn't really fit the foot. Though the teller of the story might well see himself as a hero, there's some question about whether others would. Montana swears to God the story is absolutely true. The only trouble I have with his statement is that I'm not at all sure who his God is . or how much of the story he lived himself, heard from someone else, or read about. Montana claimed to be the Founding Father of the Iron Horsemen Motorcycle Club which started out as himself and a bunch of his biker buddies drinking, carousing with women, and spending weekends at various hideaways on the desert and in the mountains of southern California. They had so much fun that the Club gradually grew in size to over two thousand members . and also became a major management problem! How Montana handled it is a story in itself, but what he did after an all-out life and death war with Hell's Angels is another story again . all of it written as faithfully as I can remember it between these two covers.

**Dr. Hill's Poet** Dec 04 2021 A sixty-three-year-old literature professor and his forty-one-year-old student fall in love despite criticism (and moral judgement) from his university, the community, and their circle of friends. Sam and Cassie's commitment to each other, and their love of poetry, sustains the relationship and brings them new awareness about the connections between art and life. Brought together by a powerful destiny, their romance is also nurtured by the world of nature and honest and direct communication. Dr. Hill's Poet is richly descriptive of the Platte River Valley in central Nebraska. This pleasant and fast-moving story contains textual elements common to traditional fiction, poetry, and the screen play genre.

*The Boy Who Harnessed the Wind* Nov 22 2020 Now a Netflix film starring and directed by Chiwetel Ejiofor, this is a gripping memoir of survival and perseverance about the heroic young inventor who brought electricity to his Malawian village. When a terrible drought struck William Kamkwamba's tiny village in Malawi, his family lost all of the season's crops, leaving them with nothing to eat and nothing to sell. William began to explore science books in his village library, looking for a solution. There, he came up with the idea that would change his family's life forever: he could build a windmill. Made out of scrap metal and old bicycle parts, William's windmill brought electricity to his home and helped his family pump the water they needed to farm the land. Retold for a younger audience, this exciting memoir shows how, even in a desperate situation, one boy's brilliant idea can light up the world. Complete with photographs, illustrations, and an epilogue that will bring readers up to date on William's story, this is the perfect edition to read and share with the whole family.

**Bumping Down Highways** Sep 13 2022 That's exactly what Prada heel-wearing, running-through-airports, successful business woman and entrepreneur, Jenni Edwards did. Even with all her achievements, she discovered something was missing in her life. So, she set out—searching for the adventure of a lifetime. Boy, did she find it! Jenni launches a cross-country adventure in her SUV with the barest of essentials and ends up falling in love with the open road. Along the way, she learns from mistakes, sees incredible sights, and meets people from every walk of life. Jenni's new “Tiny Life” journey takes her from coast to coast as she zigzags in a fifth wheel and motorhome. Faith and courage are her guides as she faces challenges and dangers with her “can-do attitude.” Have you ever dreamed of hitting the open road in an RV? Or maybe re-writing the trajectory of your story? If so, climb in and take the adventure of a lifetime with Jenni as she bumps down one highway after another.

*Wind Power* Oct 14 2022 Wind energy today is a booming worldwide industry. The technology has truly come of age, with better, more reliable machinery and a greater understanding of how and where wind power makes sense -- from the independent homestead to a grid-connected utility-wide perspective. Heightened concerns about our environment mean that this resurgence of interest in wind -- a natural and widespread power source -- is here to stay. *Wind Power* is the completely revised and expanded edition of Paul Gipes' definitive 1993 book, *Wind Power for Home and Business*. In addition to expanded sections on gauging wind resources and siting wind turbines, this edition includes new examples and case studies of successful wind systems, international sources for new and used equipment, and hundreds of color photographs and illustrations.

**Wake of the Wind Dancer** Nov 03 2021 Author retraced the route of several early American explorers, paddling and porting a kayak from Washington State to Florida via the Columbia, Snake, Missouri, Mississippi, Ohio, and Tennessee rivers, and the Florida Intracoastal Waterways, a distance of 5,111 miles, in 202 days, in 1987.

*Small Wind* Sep 01 2021 Small wind turbines utilize wind energy to produce power with rated capacities of 100 kilowatts or less. With this increasingly popular technology, individual businesses, farms, and homes can generate their own electricity and cut their energy bills , while generating power in an environmentally sound manner. The challenges facing the engineers who are tasked with planning and developing these small wind systems are multifaceted, from choosing the best site and accurately estimating power output, to obtaining proper permitting and troubleshooting operational inefficiencies. Optimization of project development for small wind applications is a necessity. *Small Wind: Planning and Building Successful Installations* provides a cohesive guide to achieving successful small wind installations from an informed expert. It is a comprehensive information resource from one of the world's most experienced small wind professionals, covering all the key issues for small wind system development, from site and machine selection to international standards compliance. Establishes technical guidelines for the growing number of engineers called upon to plan small wind projects Identifies and explains the critical issues for small wind

installations, including siting, turbine choice, applications and permitting, economics, load management, and grid integration Examples from real projects demonstrate key considerations for success, complete with template spreadsheets and measurements needed to support project planning efforts Includes reports on the most commonly used turbines and designs and synthesizes and clarifies relevant wind industry documentation, saving readers endless hours of research

**Europe in a Motorhome** Dec 16 2022 Bored with the daily grind and keen to escape the rat-race, Hazel and Simon Jackson did what so many dream of - they sold their house and possessions, bought a motor home, took their thirteen year old son out of school and travelled Europe. They left winter behind and for the next year they barbecued on beaches, skied on mountains, swam in warm seas and danced at fiestas. Encountering everything from Spanish hospitals, and the Guardia Civil when they were robbed in Spain - to being ripped off in Rome, propositioned in Sicily, dazzled in Dubrovnik, and almost drowned in Slovenia... they wild-camped their way through southern Europe, in a motor home affectionately known as The Beast. They slept, ate and lived in a different place almost every day, meeting locals off the beaten track, making new, lasting friendships... and shared it all with their teenage son Jack. If you enjoy travel and need to be re-assured that you aren't the only ones who break-down, get lost, or stuck in impossible situations, then this is the book for you. Join them as they travel for a year through Europe, from the luxury of your arm-chair. Brimming with useful tips and historical information, this is a book full of humour, catastrophes and everything else that comes with life on the road. It is a dream come true. **Camping Experiences of Two Old Broads** Jun 17 2020 Once, there were two interesting women who led separate lives ... until fate decided it had other plans for them. Marie, who is single, lives in an apartment in the city and is a social worker. Jane is divorced and a mother of two; she lives in a home in the suburbs and works in real estate. When they happen to meet at a conference, they bond on the spot. A casual invitation to go tent camping turns into the start of a beautiful relationship-and the seed of an epic, four-year adventure in which they will explore the United States in an RV. Along the way, the ladies find themselves in some sticky situations. They find love and lust in unexpected places. They find themselves floating high above Albuquerque, New Mexico, in a hot-air balloon. They somehow wind up trapped in a den of foxes. And then they witness an abusive relationship that ends in murder ... The two friends soon learn that life in an RV is much different than they expected. But through it all, they are carried forward on a wave of fun, friendship, and excitement. What will they get into next?
