It has been brought up to date with all the current accounting standards in as much detail as is required at this level. Frank Wood's Business Accounting Volume 1, the world's best-selling textbook on book-keeping and accounting, continues to provide an indispensable introduction for students and professionals across the globe. Now celebrating more than 50 years in publication, Frank Wood's Business Accounting Volume 2 continues to provide an essential guide for accounting students around the world. With the 14th edition now repositioned to take a deeper focus on financial accounting, analysis and reporting, this book builds upon the fundamentals of financial accounting to provide you with all the necessary tools you need to help pass your accounting exams. New to this edition: · Focus on financial accounting, analysis and reporting to provide further depth · 'Maths for Accounting' Chapter · 'Earnings Management' Chapter For lecturers, visit www.pearsoned.co.uk/wood for our suite of resources to accompany this textbook, including: · a complete solutions guide · PowerPoint slides for each chapter Alan Sangster is Professor of Accounting at the University of Sussex and formerly at other universities in the UK, Brazil, and Australia. Frank Wood formerly authored this text and he remains one of the best-selling authors of accounting textbooks. "This edition marks a major change in focus that reflects the consolidation of the previous two volumes into one. The emphasis is now exclusively on financial accounting. This change, and the resulting increased focus on company accounting and International GAAP within the text, were made in response to the comments of reviewers of the previous edition, who felt this was what we should be focusing on. This textbook has been written to provide a very thorough introduction to accounting. Anyone seeking to obtain a good grounding in financial accounting will find this book suitable to their needs. This includes those studying accounting on courses at school, college or university; or studying for qualifications from the LCCI, Association of Accounting Technicians, the Institute of Secretaries and Administrators; or for qualifications of any of the six UK and Irish Chartered Accountancy bodies. The financial accounting requirements for National Vocational Qualifications and Scottish Vocational Qualifications are also fully covered"-- This is the latest edition of the world's best-selling textbook on bookkeeping and accounting. It contains a large number of questions and answers and worked examples. Business Accounting Basics is the ideal introduction into the fundamentals of bookkeeping and financial accounting. The book utilises both the IFRS and IAS framework making the text accessible to students and professionals from all around the globe. Its user-friendly worked examples and clear explanations help students build their knowledge of accounting standards one step at a time. With over 250 assessment questions containing full solutions, Business Accounting Basics is the perfect introduction to Business Accounting. Guide students through the new syllabus with a full-colour, revised edition of a well-known and trusted title, and prepare them for post-secondary and professional studies in Accounting. - Ensure students understand a range of theoretical and practical techniques used in accounting. - Enable students to participate more effectively and responsibly in today's business environment and improve management of budgeting, savings and investment. - Navigate the revised syllabus with ease with a book matching the structure and coverage, as well as including a detailed section on the Student Based Assessment with an annotated example to help students when planning their own. - Prepare for examinations with the 'Helpful hints' feature, containing study tips, practice tips and examiner tips; practice questions are also included in the Student eTextbook. - Make topics relatable with case studies included. Frank Wood's Business Accounting volumes are the world's best-selling textbooks on bookkeeping and accounting. Now, for the first time, the authors have produced a textbook specifically for users of UK GAAP practice and terminology. This is the leading introductory text for accounting students and professionals alike. Now going into its 9th edition, the successful textbook Book-keeping and Accounts is a vital guide for students undertaking studies of book-keeping and accounting for the first time.
