Students to jump straight into researching an issue and coming up with practical suggestions for how they can improve wellbeing in their school. Take an active, enquiry-based and reiterative approach to skills development. Each investigation in Section 2 asks students to engage with a different global issue and builds skills through a carefully structured activity sequence that leads to a final task and opportunity for reflection. These skills will be extended and applied in Sections 3, 4 and 5. Support students to respond effectively to given sources. Section 3 asks students to analyse, evaluate and respond to two sets of sources, to help students prepare for written examinations. Help students to tackle independent projects with confidence. In Section 4 learners undertake a mini research project to help them understand how to plan, structure and write an individual report, while Section 5 guides students through the process of planning, carrying out and reflecting on a team project. Show students how to progress: throughout the book, models and annotated examples help students understand how their own work can be improved. Encourage reflection through the structured Reflective plenary prompts in each unit and the Check your progress and Next steps features at the end of each section. The clear lesson-by-lesson approach is easy to use and build into teachers' own schemes of work. The Collins resources offer different entry points, whether your students are new to Global Perspectives or have studied the subject before, and whether they are completing the course in one year or two.
