One-Sheet-A-Day Math Drills Jan 19 2023 This One-Sheet-A-Day math drill workbook is for 3rd grade students who want extra practice with two numbers, one digit division. It contains 200 math practice sheets, one for each school day of the year. Upon completion, the student will be more competent in 4th grade mathematics and ready to proceed with more difficult exercises. Unlike other math drill books, this is one of 24 workbooks created to establish a daily routine for each student to practice on their own from grades 1 through 7. It is specifically designed to gradually increase mathematic ability with the least amount of stress for both parent and student. Kids need to practice at home to support what they are learning in school, but finding resources to help with that goal can be daunting. It takes a lot of time searching online for free resources to print or for books with enough exercises. Beyond that, the options include going to libraries, enrolling them in an afterschool class or hiring a personal tutor. Who has the time and money for all of that? The answer is, not many parents. Each and every parent wants to provide enough practice work to their kids, but on top of the challenges in finding resources, questions remain about how much practice a child needs to boost educational success: twenty sheets of practice work a day? One sheet a week? What's the optimum practice work during a whole academic year? Confused? The authors have a decade of classroom expertise and have spent a large amount of time researching and wasting resources trying all the options for their own kids. Now you can benefit from what they have learnt. The result is finding out that "ONE-SHEET-A-DAY" is the optimum way to support classroom learning, and it is amazingly simple. This book eliminates the need to take home prints or run around franchises, bookstores and libraries trying to find enough material. It also prevents you from overwhelming your kids with too many math drill worksheets. There are approximately 200 school days a year. Simply have your child complete ONE per day. Work is far easier when it is part of a routine, especially for kids. The One-Sheet-per-Day program is an easy routine to start and maintain because it takes less than 20 minutes per day, using basic skills your child already knows. Simply take one sheet from the book, ask your child to complete it in a quiet place, and return it to you to check the answers, a painless routine for you and your child, and instant feedback for both of you. Geared to follow most math curriculums, most kids can do the appropriate sheet on their own based on what they are learning at school. "One-Sheet-A-Day" math practice drills will give your child practice they need to score higher on test day, and build confidence in their math abilities. About the Author

Tennis Skills & Drills Aug 26 2023 Solid groundstrokes, a confident net game, a dictating serve, a sharp return game, and specialty shots for every situation—build your game from the ground up with the techniques and shots that are essential for success in today's versatile and powerful game. Combine that with winning tactics for singles and doubles, and Tennis Skills & Drills is your blueprint for taking your game to the next level. Start with assessing the basic techniques for the various strokes and see how you can improve your footwork, grip choices, and swing patterns. Then increase your options with spins, angles, and depth. Complete instruction for all of the strokes along with over 110 practice drills is like having your own personal coach. Since your technique is only as effective as your tactics, the book also covers the key tactical principles and game plans for maximizing your strengths while minimizing your opponent's. You'll learn to prepare for, adapt to, and counter every style of play. Whether your goal is to beat your favorite playing partner or to win the next league, state, or national title, Tennis Skills & Drills is your guide to mastering the game.

Volleyball Skills & Drills Jul 25 2023 Eleven of the nation's top coaches from the American Volleyball Coaches Association share the insight that helps build championship teams and Olympians. More than 90 drills reinforce instruction and help players advance.
