Psychologists Magazine August 2021 issue Dec 08 2021 Psychologists is a Mental Health Magazine that offers a wide range of awareness and knowledge about Mental health published by Utsaah Psychological Services. Reliable & authentic source of expert advice from renowned Mental Health professionals in India.

English-Medium Instruction in European Higher Education Apr 19 2020 This volume provides a focused account of English Medium Instruction (EMI) in European higher education, considering issues of ideologies, policies, and practices. This is an essential book for academics, students, policy makers, and educators directly or indirectly implicated in the internationalization of European higher education.

Energy Poverty Oct 18 2022 This edited volume looks at energy poverty, an issue whose pivotal role in the fight for human development is only now being recognised by policymakers. Nearly one quarter of humanity still lacks access to electricity. Close to one third rely on traditional fuels like firewood and cow dung for cooking, at great cost to their health and welfare. While most prevalent in parts of Africa and Asia, energy poverty is a global problem which concerns us all. This book, which brings together economists, policymakers, entrepreneurs, and other practitioners from all over the world, is dedicated to a single goal: finding a solution to this haunting problem. It is part history, part economics, part political analysis, part business case review, and part field handbook. Part One focuses on defining and measuring the problem and benchmarking progress in solving it, an obvious prerequisite to any successful energy-access policy. Part Two reviews past and current energy access programs, with an eye towards finding out what worked and what didn't and what can be replicated elsewhere. These case reviews are told as seen on the ground - China's experience by top Chinese officials and Africa's by African regulators and scholars. Based in part on those cases, the book's last, more forward-looking section aims to present practitioners with a tool kit, a menu of options to speed up their efforts. The energy access agenda is gaining traction at a time of rising concerns about climate change and resource constraints. This book shows that bringing modern energy to those who lack it not just a moral imperative, but will likely benefit the world as a whole without harming the environment or unduly stretching finite resources.

National Human Rights Commission News Paper Compendium Sep 24 2020

High-Performance Computing in Finance Aug 04 2021 High-Performance Computing (HPC) delivers higher computational performance to solve problems in science, engineering and finance. There are various HPC resources available for different needs, ranging from cloud computing- that can be used without much expertise and expense - to more tailored hardware, such as Field-Programmable Gate Arrays (FPGAs) or D-Wave's quantum computer systems. High-Performance Computing in Finance is the first book that provides a state-of-the-art introduction to HPC for finance, capturing both academically and practically relevant problems.

Europe as a Stronger Global Actor Oct 26 2020 This book considers the principal challenges facing the European Union, which has been buffeted by a series of profound crises, both internal and external. These range from the future of Ukraine, the Union's reactions to China's 'One Belt, One Road' initiative, how to help stabilize countries to its south, and relations with the United States. The core argument is that the EU lacks a meta-narrative that could indicate priorities and linkages between the various continental, regional, national and thematic strategies. As a result, the EU often appears to be a confusing and even contradictory actor to many international partners. In response to these challenges the EU needs to develop a deeper sense of strategic awareness and confidence so that it may give a more convincing response to fundamental questions about the Union's role, purpose and identity in a changing world.

English Solved Papers (2023-24 UGC NTA NET/SLET/JRF) Jun 26 2023 2023-24 UGC NTA NET/SLET/JRF English Solved Papers

The Political Economy and Media Coverage of the European Economic Crisis Sep 17 2022 The European economic crisis has been ongoing since 2008 and while austerity has spread over the continent, it has failed to revive economies. The media have played an important ideological role in presenting the policies of economic and political elites in a favourable light, even if the latter's aim has been to shift the burden

of adjustment onto citizens. This book explains how and why, using a critical political economic perspective and focusing on the case of Ireland. Throughout, Ireland is compared with contemporary and historical examples to contextualise the arguments made. The book covers the housing bubble that led to the crash, the rescue of financial institutions by the state, the role of the European institutions and the International Monetary Fund, austerity, and the possibility of leaving the eurozone for Europe's peripheral countries. Through a systematic analysis of Ireland's main newspapers, it is argued that the media reflect elite views and interests and downplay alternative policies that could lead to more progressive responses to the crisis.

Smart Device to Smart Device Communication Apr 12 2022 This book presents a comprehensive analysis of D2D communication over LTE-A band. The book uses 3GPP LTE-A as a baseline and explains all fundamental requirements for deploying D2D network under cellular systems from an architectural, technical and business point of view. The contributors explain the standardization activities of Release 12 of LTE-A, which has been recently acknowledged as support of D2D communication in LTE-A. The text updates the research community on the D2D roadmap as well as new features emerging for consideration in 3GPP.

Clean Power Politics Nov 26 2020 Clean Power Politics explains clean energy policy and the need for a successful transition to clean energy in the future.

Divisive integration. The triumph of failed ideas in Europe – revisited Jul 03 2021 This book is a follow-up to the ETUI 2012 volume 'The triumph of failed ideas'. The focus of the book is the weight attributed to the different economic and social development paths in ten individual EU countries, and their interaction with the austerity regime established at EU level which in fact is deepening the crisis rather than paving ways out of it. The most dangerous implication of this policy approach is, according to this study, that it is driving countries apart - misleadingly in the name of 'Europe', hence the title of the book 'divisive integration'. The main message of the book is that a gradual recovery is possible only if there is a change of course in individual countries that then triggers reactions in the policies of other countries and perturbations at the EU level. However, these changes in individual countries is no longer feasible without a green light or at least toleration from the level of the European institutions.

The Handbook of Global Health Policy Nov 19 2022 The Handbook of Global Health Policy provides a definitive source of the key areas in the field. It examines the ethical and practical dimensions of new and current policy models and their effect on the future development of global health and policy. Maps out key debates and policy structures involved in all areas of global health policy Isolates and examines new policy initiatives in global health policy Provides an examination of these initiatives that captures both the ethical/critical as well as practical/empirical dimensions involved with global health policy, global health policy formation and its implications Confronts the theoretical and practical questions of 'who gets what and why' and 'how, when and where?' Captures the views of a wide array of scholars and practitioners, including from low- and middle-income countries, to ensure an inclusive view of current policy debates

Proposed Revisions to the Common Rule for the Protection of Human Subjects in the Behavioral and Social Sciences Jun 14 2022 Proposed Revisions to the Common Rule for the Protection of Human Subjects in the Behavioral and Social Sciences examines how to update human subjects protections regulations so that they effectively respond to current research contexts and methods. With a specific focus on social and behavioral sciences, this consensus report aims to address the dramatic alterations in the research landscapes that institutional review boards (IRBs) have come to inhabit during the past 40 years. The report aims to balance respect for the individual persons whose consent to participate makes research possible and respect for the social benefits that productive research communities make possible. The ethics of human subjects research has captured scientific and regulatory attention for half a century. To keep abreast of the universe of changes that factor into the ethical conduct of research today, the Department of Health and Human Services published an Advance Notice of Proposed Rulemaking (ANPRM) in July 2011. Recognizing that widespread technological and societal transformations have occurred in the contexts for and conduct of human research since the passage of the National Research Act of 1974, the ANPRM revisits the regulations mandated by the Act in a correspondingly comprehensive manner. Its proposals aim to modernize the Common Rule and to improve the efficiency of the work conducted under its auspices. Proposed Revisions to the Common Rule for the Protection of Human Subjects in the Behavioral and Social Sciences identifies issues raised in the ANPRM that are critical and feasible for the federal government to address for the protection of participants and for the advancement of the social and behavioral sciences. For each identified issue, this report provides guidance for IRBs on techniques to address it, with specific examples and best practice models to illustrate how the techniques would be applied to different behavioral and social sciences research procedures.

Quick Revision for Financial Accounting (For ICWA Intermediate: Paper 5) Feb 10 2022 Tulsian's Quick Revision for Financial Accounting is a self-study handbook. Forests and Globalization Dec 28 2020 The overarching contribution of this book is a review and assessment of the current and future impacts of globalization on the world's forests. The work has been developed by the "Resources for the Future" Task Force for the International Union of Forest Research Organizations (IUFRO). Four key themes are addressed: the effect of globalization on forests (including future trade flows); plantations as the primary source of forest products and its consequences, including plant breeding and forest health; the effect of new products such as bio-products and markets on forests; and the emergence of forest ecosystem services and their impact on the landscape and human communities. These four themes are examined in detail to map out the impacts of these trends for forests throughout the world and at multiple scales, and how forest research needs to be adapted to address these trends. Overall, the volume provides a major synthesis of current thinking and knowledge on the topic for advanced students, as well as policy-makers and professionals in the forest sector.

Volatile State Feb 27 2021 An exploration of the future geopolitical landscape of the Middle East in postnuclear Iran and what that means for US foreign policy in the region. In an age of nuclear experimentation, military conflicts, and ISIS, the Middle East is unstable, and the Iranian nuclear deal is shrouded in controversy and mistrust. How will this agreement impact US relations and strengths, not only in the region, but around the world? Will the United States be challenged for world leadership? In *Volatile State: Iran in the Nuclear Age*, global affairs analyst David Oualaalou explores the new geopolitical landscape and how it will allow a nuclear Iran to flex its military, economic, and ideological muscles with the assistance of Russia and China. Taking under consideration how other governments have reacted to the agreement, Oualaalou provides a fresh perspective on current and future relations among the United States and its current allies and provides a compelling path forward for future strategies in the Middle East. *Volatile State* is a "must read" to help understand the implications and future with a nuclear deal with Iran. "David Oualaalou, a geopolitical analyst, writer, speaker, teacher, military veteran, Middle East specialist and linguist with unique first-hand experiences and knowledge gained from personal field intelligence in Middle East wars—combined with his fresh and unique writing style—has produced a challenging perspective and a thought-provoking book. David's unembellished bold critiques, with credible analytical interpretation of geopolitical implications and national security challenges, for not only the USA but for the Iran, Saudi Arabia, Russia, China and others in the new Middle East region (and world), will be much discussed in this impressive approach to eye-opening questions with credible rival answers. I believe this book is crucial reading for any person interested in the future nuclear Middle East." —William A.

Mitchell, author of *Baylor in Northern Iraq During Operation Iraqi Freedom* "Once again Dr. Oualaalou has brought to life a complex current topic. His balanced and in-depth investigation of the topic allows the reader to not only learn the history of the parties involved, but also to follow the historic threads that have led to today's geopolitical situation. Dr. Oualaalou has the experience and expertise to give a clear picture of the region's issues today and projection of possible scenarios in the future." —Mortada Mohamed, President, World Affairs Council of Austin

EVOLVE - A Bridge between Probability, Set Oriented Numerics, and Evolutionary Computation V Jan 29 2021 This volume encloses research articles that were presented at the EVOLVE 2014 International Conference in Beijing, China, July 1-4, 2014. The book gathers contributions that emerged from the conference tracks, ranging from probability to set oriented numerics and evolutionary computation; all complemented by the bridging purpose of the conference, e.g. Complex Networks and Landscape Analysis, or by the more application oriented perspective. The novelty of the volume, when considering the EVOLVE series, comes from targeting also the practitioner's view. This is supported by the Machine Learning Applied to Networks and Practical Aspects of Evolutionary Algorithms tracks, providing surveys on new application areas, as in the networking area and useful insights in the development of evolutionary techniques, from a practitioner's perspective. Complementary to these directions, the conference tracks supporting the volume, follow on the individual advancements of the subareas constituting the scope of the conference, through the Computational Game Theory, Local Search and Optimization, Genetic Programming, Evolutionary Multi-objective optimization tracks.

HM Government: Scotland Analysis: Assessment of a Sterling Currency Union - Cm. 8815 May 13 2022 This assessment finds that the UK is a successful union because taxation, spending, monetary policy and financial stability policy are co-ordinated across the whole UK. It means risks are pooled, there is a common insurance against uncertainty and no one area or sector of the larger economy is too exposed. Within a sterling currency union, an independent Scottish state would find it more difficult to adjust to the effects of economic challenges. The continuing UK would become unilaterally exposed to much greater fiscal and financial risk from a separate state. Greater fiscal risk would come from UK taxpayers being asked to support the wider economy of another state and also financial risk were banks from that state to fail. The experience of the euro area in the financial crisis highlighted the challenges of creating a durable and effective currency union, illustrated by the very difficult economic adjustments required by some members and the financial risks that have been accepted by other members and their taxpayers. On the basis of the scale of the challenges, and the Scottish Government's proposals for addressing them, HM Treasury would advise the UK Government against entering into a currency union. There is no evidence that adequate proposals or policy changes to enable the formation of a durable currency union could be devised, agreed and implemented by both governments.

The Book: A Cover-to-Cover Exploration of the Most Powerful Object of Our Time Mar 11 2022 "Everybody who has ever read a book will benefit from the way Keith Houston explores the most powerful object of our time. And everybody who has read it will agree that reports of the book's death have been greatly exaggerated."—Erik Spiekermann, typographer We may love books, but do we know what lies behind them? In *The Book*, Keith Houston reveals that the paper, ink, thread, glue, and board from which a book is made tell as rich a story as the words on its pages—of civilizations, empires, human ingenuity, and madness. In an invitingly tactile history of this 2,000-year-old medium, Houston follows the development of writing, printing, the art of illustrations, and binding to show how we have moved from cuneiform tablets and papyrus scrolls to the hardcovers and paperbacks of today. Sure to delight book lovers of all stripes with its lush, full-color illustrations, *The Book* gives us the momentous and surprising history behind humanity's most important—and universal—information technology.

Encyclopedia of Human Services and Diversity Jul 23 2020 *Encyclopedia of Human Services and Diversity* is the first encyclopedia to reflect the changes in the mission of human services professionals as they face today's increasingly diverse service population. Diversity encompasses a broad range of human differences, including differences in ability and disability, age, education level, ethnicity, gender, geographic origin, religion, sexual orientation, socioeconomic class, and values. Understanding the needs and problems of Asian Americans, Hispanic Americans, the deaf, the blind, the LGBT community, and many other groups demands an up-to-date and cutting-edge reference. This three-volume encyclopedia provides human services students, professors, librarians, and practitioners the reference information they need to meet the needs of an increasingly diverse population. Features: 600 signed entries are organized A-to-Z across three volumes. Entries, authored by key figures in the field, conclude with cross references and further readings. A Reader's Guide groups related articles within broad, thematic areas, such as aging, community mental health, family and child services, substance abuse, etc. A detailed index, the Reader's Guide, and cross references combine for search-and-browse in the electronic version. A helpful Resource Guide guides students to classic books, journals, and web sites, and a glossary assists them with the terminology of the field. Available in both print and electronic formats, *Encyclopedia of Human Services and Diversity* is an ideal reference for students, practitioners, faculty and librarians.

Interlaw Book on Renewables Energies Oct 06 2021 The Interlaw book

on Renewable Energy is a comprehensive overview of renewable energy policies and developments in the major countries active in the field. It addresses, in a practical and legal perspective, the main interrogations encountered by investors and policy makers on how to efficiently deploy renewable energy, particularly in terms of support schemes, grid connection costs, priority and congestion rules or permitting.
