A perfect gift for a loved one or ourselves, this deceptively simple book is a touchstone to return to for a boost of motivation and inspiration. "This book will help you own your calendar, block time for what matters most and reclaim your life." —Paula Rizzo, author of *Listful Living: A List-Making Journey to a Less Stressed You* You want more time to spend with family, to achieve big goals, and to simply enjoy life. Yet, there seem to be more and more things competing for your time, and more distractions interrupting your day. Craig Jarrow has spent many years testing time management tactics, tools, and systems and written hundreds of articles on productivity, goals, and organization, Through it all he's learned a simple truth: Time management should be easy, not complicated and unwieldy. And it shouldn't take up more of your precious time than it gives back! *Time Management Ninja* offers 21 rules that will show you an easier and more effective way to take control of your time and manage your busy life. Follow these simple principles and get more done with less effort. It's no-stress, uncomplicated time management that works. "Read this book, apply its rules, and you'll find freedom." —Hyrum Smith, bestselling author of *Purposeful Retirement* Culled from business headlines and corporate files, *Why Smart People Do Dumb Things* is an in-depth examination of the ultimate in boardroom breakdown—a postmortem of the mega-mistakes made by highly regarded leaders in business and public life. From the "New Coke" debacle to the poor subscription showing of the Olympic Triplecast to the swirling controversy of Whitewater, Feinberg describes how strong minds can misuse their power, and why bright people often seize upon—and advocate brilliantly—ideas that others recognize as ridiculous. "Well-written and fascinating . . . this is the kind of book you want everyone to read."—Cleveland Plain Dealer "Curiosity, awareness, attention," Laurence Gonzales writes. "Those are the tools of our everyday survival. . . . We all must be scientists at heart or be victims of forces that we don't understand." In this fascinating account, Gonzales turns his talent for gripping narrative, knowledge of the way our minds and bodies work, and bottomless curiosity about the world to the topic of how we can best use the blessings of evolution to overcome the hazards of everyday life. *Everyday Survival* will teach you to make the right choices for our complex, dangerous, and quickly changing world—whether you are climbing a mountain or the corporate ladder. Cartoons show the kinds of work done by fishermen, builders, hotel managers, teachers, bakers, farmers, reporters, pilots, fire fighters, doctors, TV producers, police officers, vets, ballet dancers, and auto mechanics. "Why Smart People Do Stupid Things: Revised and Updated" follows the original publication by more than seven years. We worried and fretted then particularly about the stupidity exhibited by two of our recent presidents. Of course, we worried about ourselves and the host of other intelligent people who behaved out of character at one time or another. Today, rather than seeing improvement, we see a worsening of the condition in which obviously intelligent people do tragically stupid things. Not only that. The increased stupidity is operating at an institutional level. Note the functioning of major financial corporations, regulatory agencies of the federal government, and the United States congress. It is mind bogling. Answers aren't easy to come by because there are complex political and sociological factors that have bearing on the problem. But at the core—and where it most matters—are psychological and spiritual forces. We need to take a look at individuals and individuals need to take a look at themselves. This book explores why and it offers possible solutions. The analyses are presented in a readily

understandable style with numerous illustrations. Why Smart People Do Stupid Things addresses a question that's frequently on our minds. When Bill Clinton's affair with Monica Lewinsky was exposed many people were utterly astounded. How could he? Most of us were asking. Answers aren't easy to come by because we have spent considerable time building on our strengths to the neglect of our dark side. We aren't only puzzled when we see friends, co-workers, or public leaders engage in stupid, unseemly, unexplainable acts, we are personally threatened by it. If them, why not still others or perhaps ourselves. This book looks at numerous examples of apparently unexplainable stupidities with particular focus upon Richard Nixon and Bill Clinton. Every mindless act doesn't turn out wrong. There are occasions when the outcome greatly benefits us. On the other hand, there are many times when the result goes against us to our disadvantage if not to the point of tragedy. Why? This book addresses the complex issues involved in making rational decisions, including excusable error. Analyses are offered in a readily understandable style. Potential solutions are described. The topic is of vital interest to us individually as well as to the nation. Working with the Shadow is not working with evil, per se. It is working toward the possibility of greater wholeness. We will never experience healing until we can come to love our unlovable places, for they, too, ask love of us. How is it that good people do bad things? Why is our personal story and our societal history so bloody, so repetitive, so injurious to self and others? How do we make sense of the discrepancies between who we think we are—or who we show to the outside world—versus our everyday behaviors? Why are otherwise ordinary people driven to addictions and compulsions, whether alcohol, drugs, food, shopping, infidelity, or the Internet? Why are interpersonal relationships so often filled with strife? Exploring Jung's concept of the Shadow—the unconscious parts of our self that contradict the image of the self we hope to project—Why Good People Do Bad Things guides you through all the ways in which many of our seemingly unexplainable behaviors are manifestations of the Shadow. In addition to its presence in our personal lives, Hollis looks at the larger picture of the Shadow at work in our culture—from organized religion to the suffering and injustice that abounds in our modern world. Accepting and examining the Shadow as part of one's self, Hollis suggests, is the first step toward wholeness. Revealing a new way of understanding our darker selves, Hollis offers wisdom to help you to acquire a more conscious conduct of your life and bring a new level of awareness to your daily actions and choices. Have you ever been at work and someone did something that pissed you off? Like being in a meeting and it's always that one person who thinks they are smarter than everyone, but they really aren't, annoying the heck out of everyone with their irrelevant questions? Or what about the person who uses the bathroom but does not wash their hands after they are done! They want to shake everybody's hands, but they didn't care enough to run those hands through soap and water! Nasty! And the beggar, you want a quarter, you want a dollar, you want a cigarette, heck, you even want a freaking bite of my sandwich—the sandwich that I made with my time and energy! The things people do that piss you off at work! This book offers the easiest way yet to learn the key principles of investing. Weighing in at just 136 pages, it conveys more knowledge than many books twice as long, with charm and humor that makes it a pleasure to read. For those who are new to the subject, the book starts at the very beginning, explaining such basics as the difference between stocks and bonds. The book isn't just for beginners, though. People who have invested for years will learn how to achieve faster growth at lower risk by eliminating unnecessary (and sometimes hidden) expenses and maintaining better diversification. The first section of the book, "Laying a Foundation," explains how money grows and the relationship between risk and reward. The second section, "The Investor's Toolbox," introduces stocks, bonds and other categories of investments, as well as different types of investment accounts. The final section, "Building a Strategy," explains how investments really work (why a stock's price might go down, not up, immediately after a company announces good news, for example) and shows how to put sound investment principles into action. The author isn't content to point his readers in the right direction. He also offers a way to develop habits of thought that will help them stick with a good strategy through difficult times. Read this slim volume and you'll be prepared for a lifetime of investing. Have you, or has anyone you know, ever suffered from stupidity? From Dr. Larry, the Internationally Renowned Psychotherapist, Self-Righteous Occupier of the Moral High Ground, and All-Around Better Person than You, comes 563 Stupid Things People Do to Mess Up Their Lives. Dr. Larry's previous books, such as You Can't Spell Stupid Without U and I and Why Mediocre Things Happen to Mediocre People, have changed the lives of millions of intelligence-challenged individuals all over the world. So if you're interested in hearing a perfect stranger explain to you how stupid and useless you really are, you'll love Dr. Larry's latest collection of condescending wisdom. For example, don't do the following: Stupid Thing #50: Attempt the Vulcan mind meld. If you don't know what you're doing, this can lead to permanent melding. Stupid Thing #228: Accentuate the positive. Rather than accentuate the positive or eliminate the negative, I'd recommend messing around with Mr. In-Between. Stupid Thing #44: Send in the clowns. I can think of no situation that would be improved by sending in the clowns. Text and photographs of real people at work as well as authentic detailed costumes present the key aspects of over 50 occupations. Illustrations. Eleven vignettes that exposes the reader to the dark side of humanity and the struggles that people experience against the evil temptations of alcohol, smoking and family abuse. For many of us, planning our own financial future presents pitfalls at every turn, because the truth is, when it comes to money, we are not always rational. Now you can take control of your economic life with confidence. Bert Whitehead, one of the top money-management advisors in America, gives you all the information you need to manage your wealth wisely by relying on your strongest asset—yourself. Book jacket. Teach your little one about different career options with this illustrated guess-and-reveal book—perfect for reading aloud with preschool-age children and up Who wears what to work? The clues in each lively verse can be spotted hanging from the clotheslines. A mail carrier's uniform, the artist's brushes, and the chef's apron all hang from the clothesline. Then turn the page to learn which professionals wear and use the special gear in the jobs they do. Clever illustrations show the workers helping one another, and in the end, everyone joins together for a celebration that is out of this world. A perfect choice for reading aloud and encouraging kids to join in the guessing and reveal. We are all deceived, driven by selfish desires, and incapable of doing what we know to be right in our own human strength. Premier Bible teacher Dr. Erwin Lutzer explains the hopeful reality that change is possible through the sometimes painful process of God-given revelation and honesty. Three powerful mini e-books about high productivity, now together in paperback Laura Vanderkam has combined her three popular mini e-books into one comprehensive guide, with a new introduction. It will help readers build habits that lead to happier, more productive lives, despite the pressures of their busy schedules. Trough interviews and anecdotes, she reveals . . . What the Most Successful People Do Before Breakfast—to jump-start the day productively. What the Most Successful People Do On the Weekend—to recharge and prepare for a great week. What the Most Successful People Do at Work—to accomplish more in less time. How to Make People Do What You Want takes the core foundations of psychology based on a decade's worth of scientific studies and information and has created this roadmap for success. Based on her experiences and studies, Moore reveals the common denominator of those who are in danger of being seduced by Satan, and presents a guide to authentic repentance and restoration. It is reported in the headlines, confessed in the pulpits, and hidden in the pews in churches around the world. The seduction of God's people by the deceiver is a tale as old as the garden, but we are always surprised when it happens. We must realize that Satan is a lion on the prowl and we are his prey. Beth writes with a passion fueled by the Biblical warnings of the schemes of Satan's seductive activity and the broken-hearted concern of a teacher who receives countless letters from repentant Christians limping on the road to finding restoration. Delivering dire warnings to Christians to safeguard themselves against Satan's attacks, Beth also reveals how you can know if someone is vulnerable. Beth writes, "We, Christ's church, are in desperate need of developing His heart and mind in issues like these." She fears that often God is far more merciful than the Body of Christ is with the deeply repentant and those desperate to find their way home. When Godly People Do Ungodly Things will be a guide to authentic repentance and restoration. How to Do Things with Dead People studies human contrivances for representing and relating to the dead. Alice Dailey takes as her principal objects of inquiry Shakespeare's English history plays, describing them as reproductive mechanisms by which living replicas of dead historical figures are regenerated in the present and re-killed. Considering the plays in these terms exposes their affinity with a transhistorical array of technologies for producing, reproducing, and interacting with dead things—technologies such as literary doppelgängers, photography, ventriloquist puppetry, X-ray imaging, glitch art, capital punishment machines, and cloning. By situating Shakespeare's historical drama in this intermedial conversation, Dailey challenges conventional assumptions about what constitutes the context of a work of art and contests foundational models of linear temporality that inform long-standing conceptions of historical periodization and teleological order. Working from an eclectic body of theories, pictures, and machines that transcend time and media, Dailey composes a searching exploration of how the living use the dead to think back and look forward, to rule, to love, to wish and create. Why do people

behave in ways that cause environmental harm? Despite not wanting to create environmental problems, we all do so regularly in the course of living our everyday lives. This book looks at how social structures, incentives, information, habits, attitudes, norms, and the inherent characteristics of environmental resources explain and influence how we behave, and how those causes influence what we can do to change behavior. Why do even the smartest among us make dumb mistakes with our money? Pinpoint your biggest money blind spots and take control of your finances with these tools from CBS News business analyst and host of the nationally syndicated radio show *Jill on Money*, Jill Schlesinger. Do you have a "friend" who is super smart, has a great career, holds a graduate degree, has even saved a chunk of money for retirement, but who keeps making the same dumb mistakes when it comes to money? Is this "friend" you? After decades working as a Wall Street trader, investment advisor, and money expert for CBS, Jill Schlesinger reveals thirteen costly mistakes you're probably making right now with your money, without even knowing it. Drawing on heartfelt personal stories (yes, money experts screw up, too), Schlesinger argues that it's not lack of smarts that causes even the brightest, most accomplished people among us to behave like financial dumb-asses, but simple emotional blind spots. By breaking bad habits and following her practical and accessible rules for managing your finances, you can save tens, even hundreds of thousands of dollars, not to mention countless sleepless nights. *The Dumb Things Smart People Do with Their Money* tells you what you really need to hear about investing, retirement, college financing, insurance, real estate, and more. It might be the smartest investment you make all year. We all want people to do stuff. Whether you want your customers to buy from you, vendors to give you a good deal, your employees to take more initiative, or your spouse to make dinner—a large amount of everyday is about getting the people around you to do stuff. Instead of using your usual tactics that sometimes work and sometimes don't, what if you could harness the power of psychology and brain science to motivate people to do the stuff you want them to do - even getting people to want to do the stuff you want them to do. In this book you'll learn the 7 drives that motivate people: The Desire For Mastery, The Need To Belong, The Power of Stories, Carrots and Sticks, Instincts, Habits, and Tricks Of The Mind. For each of the 7 drives behavioral psychologist Dr. Susan Weinschenk describes the research behind each drive, and then offers specific strategies to use. Here's just a few things you will learn: The more choices people have the more regret they feel about the choice they pick. If you want people to feel less regret then offer them fewer choices. If you are going to use a reward, give the reward continuously at first, and then switch to giving a reward only sometimes. If you want people to act independently, then make a reference to money, BUT if you want people to work with others or help others, then make sure you DON'T refer to money. If you want people to remember something, make sure it is at the beginning or end of your book, presentation, or meeting. Things in the middle are more easily forgotten. If you are using feedback to increase the desire for mastery keep the feedback objective, and don't include praise. Updated for today's readers, Dale Carnegie's timeless bestseller *How to Win Friends and Influence People* is a classic that has improved and transformed the professional and personal lives of millions. One of the best-known motivational guides in history, Dale Carnegie's groundbreaking book has sold tens of millions of copies, been translated into almost every known language, and has helped countless people succeed. Originally published during the depths of the Great Depression—and equally valuable during booming economies or hard times—Carnegie's rock-solid, time-tested advice has carried countless people up the ladder of success in their professional and personal lives. *How to Win Friends and Influence People* teaches you: -How to communicate effectively -How to make people like you -How to increase your ability to get things done -How to get others to see your side -How to become a more effective leader -How to successfully navigate almost any social situation -And so much more! Achieve your maximum potential with this updated version of a classic—a must-read for the 21st century. *Why Good People Do Bad Things* sheds new light on the ethical dilemmas of modern life. It shows how people of good will who are generally thoughtful, caring, and reasonably well balanced can unwittingly contribute to the evils present in our social systems. In exposing these situations, this book also offers the hope that these same "good people" can take a fresh look at the world around them. In doing so, they can then see the potential of our world as well as its defects, and determine to be part of the solution rather than part of the problem. *100 Things Successful People Do* is a guidebook to achieving success in any aspect of your life. You will discover the habits that are common to successful people and find out how to adopt them into your own life so that you can be successful too. Mixing simple instructions with activities to get you started, whether you are looking to succeed in your family life, at work, in sports, at school or in retirement, you will find, mindsets, habits and techniques here that will help you get the results you want. As a parent, discussing diversity with your child/children can be difficult, especially if you have your own questions. "Some People Do" boils this topic down to provide the simplest of answers. By the time your child/children finish reading this book, they will have been introduced to all facets of people, without any one being more revered than the other. You're smart. So don't be dumb about money. Pinpoint your biggest money blind spots and take control of your finances with these tools from CBS News Business Analyst and host of the nationally syndicated radio show *Jill on Money*, Jill Schlesinger. "A must-read . . . This straightforward and pleasingly opinionated book may persuade more of us to think about financial planning."—Financial Times Hey you . . . you saw the title. You get the deal. You're smart. You've made a few dollars. You've done what the financial books and websites tell you to do. So why isn't it working? Maybe emotions and expectations are getting in the way of good sense—or you're paying attention to the wrong people. If you've started counting your lattes, for god's sake, just stop. Read this book instead. After decades of working as a Wall Street trader, investment adviser, and money expert for CBS News, Jill Schlesinger reveals thirteen costly mistakes you may be making right now with your money. Drawing on personal stories and a hefty dose of humor, Schlesinger argues that even the brightest people can behave like financial dumb-asses because of emotional blind spots. So if you've saved for college for your kids before saving for retirement, or you've avoided drafting a will, this is the book for you. By following Schlesinger's rules about retirement, college financing, insurance, real estate, and more, you can save money and avoid countless sleepless nights. It could be the smartest investment you make all year. Praise for *The Dumb Things Smart People Do with Their Money* "Common sense is not always common, especially when it comes to managing your money. Consider Jill Schlesinger's book your guide to all the things you should know about money but were never taught. After reading it, you'll be smarter, wiser, and maybe even wealthier."—Chris Guillebeau, author of *Side Hustle* and *The \$100 Startup* "A must-read, whether you're digging yourself out of a financial hole or stacking up savings for the future, *The Dumb Things Smart People Do with Their Money* is a personal finance gold mine loaded with smart financial nuggets delivered in Schlesinger's straight-talking, judgment-free style."—Beth Kobliner, author of *Make Your Kid a Money Genius (Even If You're Not)* and *Get a Financial Life* Sir John Templeton, legendary investor, was famous for saying, "The four most dangerous words in investing are, 'This time it's different.'" He knew that though history doesn't repeat, not exactly, history is an excellent guide for investors. In *Markets Never Forget But People Do: How Your Memory Is Costing You Money and Why This Time Isn't Different*, long-time Forbes columnist, CEO of Fisher Investments, and 4-time New York Times bestselling author Ken Fisher shows how and why investors' memories fail them—and how costly that can be. More important, he shows steps investors can take to begin reducing errors they repeatedly make. The past is never indicative of the future, but history can be one powerful guide in shaping forward looking expectations. Readers can learn how to see the world more clearly—and learn to make fewer errors—by understanding just a bit of investing past. "Kick bad mental habits and toughen yourself up."—Inc. Master your mental strength—revolutionary new strategies that work for everyone from homemakers to soldiers and teachers to CEOs. Everyone knows that regular exercise and weight training lead to physical strength. But how do we strengthen ourselves mentally for the truly tough times? And what should we do when we face these challenges? Or as psychotherapist Amy Morin asks, what should we avoid when we encounter adversity? Through her years counseling others and her own experiences navigating personal loss, Morin realized it is often the habits we cannot break that are holding us back from true success and happiness. Indulging in self-pity, agonizing over things beyond our control, obsessing over past events, resenting the achievements of others, or expecting immediate positive results holds us back. This list of things mentally strong people don't do resonated so much with readers that when it was picked up by Forbes.com it received ten million views. Now, for the first time, Morin expands upon the thirteen things from her viral post and shares her tried-and-true practices for increasing mental strength. Morin writes with searing honesty, incorporating anecdotes from her work as a college psychology instructor and psychotherapist as well as personal stories about how she bolstered her own mental strength when tragedy threatened to consume her. Increasing your mental strength can change your entire attitude. It takes practice and hard work, but with Morin's specific tips, exercises, and troubleshooting advice, it is possible to not only fortify your mental muscle but also drastically improve the quality of your life.
