Performance Theory May 17 2022 Few have had quite as much impact in both the academy and in the world of theatre production as Richard Schechner. For more than four decades his work has challenged conventional definitions of theatre, ritual and performance. When this seminal collection first appeared, Schechner's approach was not only novel, it was revolutionary: drama is not just something that occurs on stage, but something that happens in everyday life, full of meaning, and on many different levels. Within these pages he examines the connections between Western and non-Western cultures, theatre and dance, anthropology, ritual, performance in everyday life, rites of passage, play, psychotherapy and shamanism.

miniature, vigorous script,  
wide decorative borders and  
beautiful initials, the  
manuscript reproduced here

Parisian book illumination of  
the early 15th century. The  
French text, written by the

Count of Foix, between 1387  
and 1389, contains not only  
technical details about the  
practice of huntsmanship in the  
14th century, but also exact  
descriptions of the wild animals  
which were then hunted. Of the  
44 known manuscripts with  
Gaston Phebus's text - most of

century and a few from the

Dec 12 2021 After falling  
overboard from a yacht, Sanger  
Rainsford swims to a nearby  
island. There General Zaroff, a  
big-game hunter who knows of  
Rainsford from published  
accounts of his hunting snow  
leopards in Tibet, invites him to

dinner. Zaroff is bored of hunting because it no longer challenges him; he has moved to Ship-Trap Island in order to capture shipwrecked sailors. Any captives who can elude Zaroff, his manservant Ivan, and a pack of hunting dogs for three days is set free. No one has yet lasted that long, although a couple of sailors had come close. Zaroff offers sailors a choice—should they decline to be hunted, they will be handed over to Ivan, who had once been official knouter for The Great White Czar. Rainsford denounces this as barbarism, but has no way out. He reluctantly agrees to be hunted...

*Good Will Hunting* Sep 01 2023

As director Gus Van Sant observes in the introduction to Matt Damon's and Ben Affleck's screenplay *Good Will Hunting*, the two young actors somewhat resemble the characters they play in the film: they're best friends, and Affleck (who plays Chuckie) habitually chauffeurs Damon (Will), who doesn't drive. Van Sant says we can see how badly Damon drives by watching the film's last scene, in which he is actually driving the car with the camera mounted on it. But Damon and company write better than he drives; this script contains some of the boldest, best monologues since *Pulp Fiction*. Van Sant and cast member Robin Williams helped the young actors tame the tigers in their cranial tanks, trimming the script into a precision instrument. Though

the stills from the film are not perfectly matched to their places in the script, this story remains as much a joy to read as it is to watch on the big screen.

Tough Sh\*t Dec 24 2022 That Kevin Smith? The guy who did "Clerks" a million years ago? Didn't they bounce his fat ass off a plane once? What could you possibly learn from the director of "Cop Out"? How about this: he changed filmmaking forever when he was twenty-three, and since then, he's done whatever the hell he wants. He makes movies, writes comics, owns a store, and now he's built a podcasting empire with his friends and family, including a wife who's way out of his league. So here's some tough shit: Kevin Smith has cracked the code. Or, he's just cracked. Tough Sh\*t is the dirty business that Kevin has been digesting for 41 years and now, he's ready to put it in your hands. Smear this shit all over yourself, because this is your blueprint (or brownprint) for success. Kev takes you through

some big moments in his life to help you live your days in as Gretzky a fashion as you can: going where the puck is gonna be. Read all about how a zero like Smith managed to make ten movies with no discernible talent, and how when he had everything he thought he'd ever want, he decided to blow up his own career. Along the way, Kev shares stories about folks who inspired him (like George Carlin), folks who befuddled him (like Bruce Willis), and folks who let him jerk off onto their legs (like his beloved wife, Jen). So make this your daily reader. Hell, read it on the toilet if you want. Just make sure you grab the bowl and push, because you're about to take one Tough Sh\*t. *Ballad Hunting with Max Hunter* Oct 29 2020 A traveling salesman with little formal education, Max Hunter gravitated to song catching and ballad hunting while on business trips in the Ozarks. Hunter recorded nearly 1600 traditional songs by more than 200 singers from the mid-1950s through the

mid-1970s, all the while focused on preserving the music in its unaltered form. Sarah Jane Nelson chronicles Hunter's song collecting adventures alongside portraits of the singers and mentors he met along the way. The guitar-strumming Hunter picked up the recording habit to expand his repertoire but almost immediately embraced the role of song preservationist. Being a local allowed Hunter to merge his native Ozark earthiness with sharp observational skills to connect--often more than once--with his singers. Hunter's own ability to be present added to that sense of connection. Despite his painstaking approach, ballad collecting was also a source of pleasure for Hunter. Ultimately, his dedication to capturing Ozarks song culture in its natural state brought Hunter into contact with people like Vance Randolph, Mary Parler, and non-academic folklorists who shared his values.

*Situational Prevention of Organised Crimes* Oct 10 2021

Situational crime prevention is the art and science of reducing opportunities for crime. Despite accumulating evidence of its value in reducing many different kinds of crime - such as burglary, fraud, robbery, car theft, child sexual abuse and even terrorism - little has previously been published about its role in reducing organised crimes. This collection of case studies, by a distinguished international group of researchers, fills this gap by documenting the application of a situational prevention approach to a variety of organised crimes. These include sex trafficking, cigarette and drug smuggling, timber theft, mortgage fraud, corruption of private professionals and public officials, and subversion of tendering procedures for construction projects. By moving the focus away from the nature of criminal organisations to the analysis of the crimes committed by these organisations, the book opens up a fresh agenda for policy and research. Situational

Prevention of Organised Crimes will be of interest to those tasked with tackling organised crime problems, as well as those interested in understanding the ways that organised crime problems have manifested themselves globally, and how law enforcement and other agencies might seek to tackle them in the future.

*Constructing Dialogue* Nov 22 2022 Unlike most screenwriting guides that generally analyze several aspects of screenwriting, *Constructing Dialogue* is devoted to a more analytical treatment of certain individual scenes and how those scenes were constructed to be the most highly dramatic vis á vis their dialogue. In the art of screenwriting, one cannot separate how the scene is constructed from how the dialogue is written. They are completely interwoven. Each chapter deals with how a particular screenwriter approached dialogue relative to that particular scene's construction. From Citizen

Kane to *The Fisher King* the storylines have changed, but the techniques used to construct scene and dialogue have fundamentally remained the same. The author maintains that there are four optimum requirements that each scene needs in order to be successful: maintaining scenic integrity; advancing the storyline, developing character, and eliciting conflict and engaging emotionally. Comparing the original script and viewing the final movie, the student is able to see what exactly was being accomplished to make both the scene and the dialogue work effectively.

*Acting Indie* Apr 23 2020 This book illustrates the many ways that actors contribute to American independent cinema. Analyzing industrial developments, it examines the impact of actors as writers, directors, and producers, and as stars able to attract investment and bring visibility to small-scale productions. Exploring cultural-aesthetic factors, the book identifies the various traditions that shape

narrative designs, casting choices, and performance styles. The book offers a genealogy of industrial and aesthetic practices that connects independent filmmaking in the studio era and the 1960s and 1970s to American independent cinema in its independent, indie, indiewood, and late-indiewood forms. Chapters on actors' involvement in the evolution of American independent cinema as a sector alternate with chapters that show how traditions such as naturalism, modernism, postmodernism, and Third Cinema influence films and performances.

### **Crime Script Analysis**

Apr 27 2023 This book positions script analysis as a useful and pragmatic tool, which can guide the selection and implementation of preventive measures in business environments. It illustrates how the concept aligns with the crime-specific orientation found in environmental criminology, and particularly

explores the theoretical foundations of situational crime prevention, the approach to which it is deemed most relevant and supportive. The volume provides clear guidance on how to apply script analysis in daily practice, covering its main building blocks and key features. These are illustrated by a series of case studies into various crime types. Moving beyond the use of script analysis with the intent to disrupt the crime-commission process, the author further explores the wider benefits of the approach to both academics and practitioners. He identifies what is needed most if we want to embrace the full potential of script analysis for preventive purposes.

*Witch-Hunting in Scotland* Nov  
10 2021 Shortlisted for the  
2008 Katharine Briggs Award  
*Witch-Hunting in Scotland*  
presents a fresh perspective on

the trial and execution of the hundreds of women and men prosecuted for the crime of witchcraft, an offence that involved the alleged practice of maleficent magic and the worship of the devil, for inflicting harm on their neighbours and making pacts with the devil. Brian P. Levack draws on law, politics and religion to explain the intensity of Scottish witch-hunting. Topics discussed include: the distinctive features of the Scottish criminal justice system the use of torture to extract confessions the intersection of witch-hunting with local and national politics the relationship between state-building and witch-hunting and the role of James VI Scottish Calvinism and the determination of zealous Scottish clergy and magistrates to achieve a godly society. This original survey combines broad interpretations of the rise and fall of Scottish witchcraft prosecutions with detailed case studies of specific witch-hunts. *Witch-Hunting in Scotland* makes fascinating reading for

anyone with an interest in witchcraft or in the political, legal and religious history of the early modern period.

**Done Hunting** Jun 29 2023

The final installment of the critically acclaimed memoir series *Done Hunting* brings Martin Hunter's memoirs to a close, sharing adventures and observations from his sixth to ninth decades. With descriptions of theatrical productions he's written and directed, it also provides a subtle commentary on Canada and its social and cultural place in the world. *Done Hunting* also chronicles Hunter's experiences as a magazine and radio journalist and his unsuccessful attempts to break into film and television as a scriptwriter. Accounts of his travels in Mexico, Sweden, England, France, and Italy include fascinating encounters with Laurier LaPierre, Bill Glassco, David Earle, and Adrienne Clarkson and writers Barry Callaghan, Mavis Gallant, and Gore Vidal. His friendship with Richard Monette and peripheral

involvement with the Stratford Festival, as well as his work as a philanthropist as president of the K.M. Hunter Charitable Foundation, are highlights of this fascinating and insightful self-examination.

*Annotated Hunting of the Snark* Mar 03 2021 "Published on April Fool's Day, 1876, Lewis Carroll's *The Hunting of the Snark* remains one of the most amusing and bizarre works of modern verse. Carroll, who completed this classic poem eleven years after the publication of *Alice's Adventures in Wonderland*, invites readers along on a fictitious hunt to determine who - or what - the Snark actually is." "Now, over 130 years later, Martin Gardner,

the extraordinary "philosophical scrivener," returns to the Snark with a trove of new annotations and illustrations, offering readers fresh insights into Carroll's existential play of fancy and philosophy." "Henry Holiday's original drawings enhance the work, as does a new introduction by Adam Gopnik that communicates the relevance this strange and in many ways ominous poem holds for a new generation of readers."--BOOK JACKET.

*Pathways to Sexual Aggression* Jan 13 2022 Most people who read an article in the newspaper about the brutal rape of a woman by a stranger, or the long-standing sexual abuse of a young boy by his step-father have a strong visceral reaction which is a mix of anger, fear, and incomprehension. Apart from these aversive reactions, several questions also come to people's minds: Was this offender crazy or sexually obsessed? What is the purpose of such outrageous acts? To answer these questions, the

authors of this book review theoretical and empirical models of the processes that lead men to sexually assault children or women, whilst also presenting new results and models on this topic. In particular, this book focuses on empirical analyses of the pathways of six types of sexual aggressors, three of which (marital rapists, hebephilic sexual aggressors, and polymorphic sexual aggressors) have never been investigated before. Drawing on a large dataset on the offending processes of sexual aggressors, this book analyzes the influence of personality factors and lifestyle factors on offending pathways and brings together key researchers in the field of sexual aggression. This book will be of interest to psychologists, psychiatrists, criminologists, and social workers involved in the study, assessment and treatment of sexual aggressors. In addition, this information will be crucial for practitioners involved in the follow-up of these offenders in the community, and will

interest researchers and graduate students in the field of sexual aggression.
