Formation and Third Party Beneficiaries Dec 21 2020 Studies in the Contract Laws of Asia provides an authoritative account of the contract law regimes of selected Asian jurisdictions, including the major centres of commerce where limited critical commentaries have been published in the English language. Each volume in the series aims to offer an insider's perspective into specific areas of contract law - remedies, formation, parties, contents, vitiating factors, change of circumstances, illegality, and public policy - and explores how these diverse jurisdictions address common problems encountered in contractual disputes. A concluding chapter draws out the convergences and divergences, and other themes. All the Asian jurisdictions examined have inherited or adopted the common law or civil law models of European legal systems. Scholars of legal transplant will find a mine of information on how received law has developed after the initial adaptation and transplant process, including the mechanisms of and influences affecting these developments. At the same time, many points of convergence emerge. These provide good starting points for regional harmonization projects. Volume II of this series deals with contract formation and contracts for the benefit of third parties in the laws of China, India, Japan, Korea, Taiwan, Singapore, Malaysia, Hong Kong, Korea, Vietnam, Cambodia, Thailand, Indonesia, and Myanmar. Typically, each jurisdiction is covered in two chapters; the first deals with contract formation, while the second deals with contracts for the benefit of third parties.
