Sparks fly when Orion and Ray meet for the first time at a roller rink in Memphis. But these star-crossed souls have a past filled with secrets that threaten to tear them apart before their love story even begins. Found poetry, grief, and fate collide in this powerful debut. Ray: Just once I'd like my birthday to be about me, and not the day my father died. I want to be Ray Jr., the tall girl from Memphis with the poetry beats and the braids that stay poppin'. And when I meet Orion at the skating rink, that's exactly who I am. He pulls my hand, and instead of being defined by my past, he races me toward my future. Orion: When I dive into the pool, it's just me and my heartbeat. There's no dad, no dead sister, and no distracting noises. But I can't hold my breath forever. And since I met Ray, I don't want to. The closer we get, though, the more I see I'm not the only one caught in her wake. With a lyrical blend of found poetry and poignant prose, this stunning debut captures young Black love

and a decades-old family secret that may shatter a romance that feels written in the stars. With the exception of Christianity, the major religions of the world have a peculiar doctrine in common. Though it goes by many names, the belief in Multiple Mortal Probations is held by most of earth's inhabitants, so why isn't it taught among Christianity? Traces of the doctrine can be found in the Bible, and other precious remnants of it are preserved in biblical apocryphal texts. Was the concept of multiple lives once taught among biblical peoples, but lost through the doctrinal biases of the members of the Second Council of Constantinople? If so, could this be the single potentially most unifying doctrine among all the world religions? Authors of this book explore these and other related questions providing an array of historical sources in this unique narrative. From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that

communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author’s friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers’ lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green’s Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together* The author shares what she saw concerning future events and how we can prepare for them: "The hastening of the Lord's work ; The power of family history and temple work ; Spiritual and temporal preparations for the future ; The gathering of the righteous to places of safety ; Upcoming natural disasters across the earth ; Plagues and sicknesses that will strike ; The implementation of martial law ; Foreign troops arriving in the United States ; The Elders of Israel defending their liberty ; Life in New Jerusalem ; The Second Coming of Jesus Christ"--Cover. This is an updated second edition with new insights. In comparison to the great nations of the earth, the United States of America is very young. Less than 250 years ago she experienced one of the most dramatic and historic changes that would transform not only her own destiny as a rising nation, but the future of the entire earth. In 2004, Julie Rowe's spirit left her deathly ill body, ascending to the brightest realm's in the universe where she witnessed many historic and future events related to this nation. Her descriptions of those realms are eye-opening and humbling. Her accounts of future events are sobering and riveting. Whatever emotions are stirred within her readers, the future events spoken of will surely affect them in a very personal way. When

events more horrific than ever before take place; when the values and people of this young nation are hanging as if by a single thread, watch as another revolution takes place with greater miraculous wonder than ever before, and America defies her enemies and the great destruction they are planning against her. Julie Rowe has had remarkable sensory gifts since she was a toddler, and despite enormous opposition from people all around her, she is now sharing her unique insights with the world. She is the founder of the 501c3 charitable organization known as The Greater Tomorrow Relief Fund. Julie is a passionate and fearless defender of truth, as can be attested by her haters, and those who love her and recognize her as a voice worth listening to. Today’s food and agribusiness managers operate in a rapidly changing, highly volatile, international, high technology, consumer-focused world. This new edition of *Agribusiness Management* was written to help prepare students and managers for a successful career in this new world of food and fiber production and marketing. *Agribusiness Management* uses four specific approaches to help readers develop and enhance their capabilities as agribusiness managers. First, this edition of the book offers a contemporary focus that reflects the issues that agribusiness managers face both today and are likely to face tomorrow. Specifically, food sector firms and larger agribusiness firms receive more attention in this edition, reflecting their increasing importance as employers of food and agribusiness program graduates. Second, the book presents conceptual material in a pragmatic way with illustrations and examples that will help the reader understand how a specific concept works in practice. Third, the book has a decision-making emphasis, providing contemporary tools that readers will find useful when making decisions in the contemporary business environment. Finally, *Agribusiness Management* offers a pertinent set of discussion questions and case studies that will allow the reader to apply the material covered in real-world situations. The bottom-line on this fourth edition of *Agribusiness Management*: this book is contemporary, solid on the fundamentals, practical and applicable. It provides students and adult learners with an essential

understanding of what it takes to be a successful agribusiness manager in today's rapidly evolving, highly unpredictable marketplace. "Nineteenth-century Latter-day Saints looked forward to apocalyptic events that would unseat corrupt governments across the globe but would particularly decimate the tyrannical government of the United States. Mormons turned to prophecies of divine deliverance by way of plagues, natural disasters, foreign invasions, American Indian raids, slave uprisings, or civil war unleashed on American cities and American people ... Blythe examines apocalypticism across the history of the Church of Jesus Christ of Latter-day Saints particularly as it would take shape in localized and personalized forms in the writings and visions of ordinary Latter-day Saints outside of the Church's leadership"-- Dr. Greg Zacharias, former Chief Scientist of the United States Air Force (2015-18), explores next steps in autonomous systems (AS) development, fielding, and training. Rapid advances in AS development and artificial intelligence (AI) research will change how we think about machines, whether they are individual vehicle platforms or networked enterprises. The payoff will be considerable, affording the US military significant protection for aviators, greater effectiveness in employment, and unlimited opportunities for novel and disruptive concepts of operations. Autonomous Horizons: The Way Forward identifies issues and makes recommendations for the Air Force to take full advantage of this transformational technology. Julie Rowe first gained national attention in 2014 with the publication of her books *A Greater Tomorrow* and *The Time is Now*. In those books she told of her near-death experience when she was taken to the Spirit World and was shown future world events. Julie also appeared on several radio talk shows to spread her message of the need to prepare for troubled times. The social media firestorm that followed was very intense, as supporters defended her and naysayers ridiculed her. Through it all, Julie stood by her story. Now Julie is ready to share more about her life. In this book, she explains that she has been a visionary person since childhood. She has also been through many trials that have shaped who she is, and why she knows her message is inspired from heaven.

Julie Rowe received her Bachelor of Science degree from Brigham Young University in 1999, and her teaching certificate from the University of Saint Mary in 2010. She and her husband Jeff have three children and live in the Ralph V. Jensen's fascinating experience in the Spirit World after suffering a massive heart attack gives great insight on the following gospel topics: The Grand Council in Heaven The Creation of the Earth The Garden of Eden The Fall of Adam and Eve The power and effect of the Atonement How the Spirit World is organized Descriptions of events from the mortal life of Jesus Christ The Savior's journey into the Spirit World while His body was in the tomb The Ministry of the Resurrected Christ And many more intriguing observations. Your dream life awaits - start today! Each year, more than 33 million Americans receive health care for mental or substance-use conditions, or both. Together, mental and substance-use illnesses are the leading cause of death and disability for women, the highest for men ages 15-44, and the second highest for all men. Effective treatments

exist, but services are frequently fragmented and, as with general health care, there are barriers that prevent many from receiving these treatments as designed or at all. The consequences of this are serious—for these individuals and their families; their employers and the workforce; for the nation's economy; as well as the education, welfare, and justice systems. Improving the Quality of Health Care for Mental and Substance-Use Conditions examines the distinctive characteristics of health care for mental and substance-use conditions, including payment, benefit coverage, and regulatory issues, as well as health care organization and delivery issues. This new volume in the Quality Chasm series puts forth an agenda for improving the quality of this care based on this analysis. Patients and their families, primary health care providers, specialty mental health and substance-use treatment providers, health care organizations, health plans, purchasers of group health care, and all involved in health care for mental and substance-use conditions will benefit from this guide to achieving better care.

NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon Sapiens, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? Homo Deus explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is Homo Deus. With the same insight and clarity that made Sapiens an

international hit and a New York Times bestseller, Harari maps out our future. The prophetic clock is ticking. We are living in tumultuous times. From corrupt world politics to global pandemics to an unprecedented rebellion against God and His Word, humanity has reached a critical stage. What happens next? In this eye-opening book, Jimmy Evans examines biblical prophecies about the end times and points to their unmistakable parallels with today's world. With clear, insightful analysis of Scripture, he answers many common questions, such as: • Are we living in the end times? • How should Believers respond to increasing immorality? • Will Christians go through the Tribulation? • What role does Israel play in God's prophetic plan? • Are COVID-19 and other world events announcing the imminent return of Jesus? Ultimately, Tipping Point will help you understand current events with confidence. There is no going back, but hope and peace are possible as God's plan unfolds and we approach the end of the age. Jimmy Evans is senior pastor of Gateway Church in the Dallas/Fort Worth Metroplex and holds an honorary doctorate of literature from The King's University. In addition to authoring more than seventeen books, Jimmy has studied eschatology for more than 45 years and is passionate about helping believers find hope, peace, and encouragement in the Word of God. "There are many changes coming, and you must be prepared. There is nothing that you need to fear. There is nothing you have ever had; there is nothing you will ever lose." So said the Eighty-Second Regime of Light Workers, a collective of four different personalities from the spirit world who communicated this book through Julie MacDonald and dictated to Yves Nazon. Revealing exciting truths about the nature of the soul, the Eighty-Second Regime of Light Workers present an empowering way to view consciousness changes in this new era; and are a powerful wake-up call to our consumerist society. According to this group of beings, the information contained in this book is meant to meet each reader wherever they are in their own spiritual development, be they novice or experienced and help to bring them to the next step of their own growth, unfoldment, evolution, and subsequently, to the next step of evolution for human consciousness itself. "Reverend Julie

MacDonald is a medium by birth, a professional psychic, and a spiritual activist at the cutting edge of consciousness. What comes through her is radical, credible, and utterly compassionate to the plight of humanity. The gift of this message is a measure of the depth of her connection. It is a monumental synthesis of our relationship with who we are: spirits in search of ourselves. In this book are the blueprints of what it takes to get back to that zero point module that is ourselves, and bow to this message with great reverence." - Malidoma P. Some, Ph.D., Dagara Elder, author of "Of Water and the Spirit," "The Healing Wisdom of Africa," and "Ritual: Power, Healing and Community" "This is a straight forward, no nonsense guide to understanding the essential spiritual principles that we modern folks have lost sight of. It calls attention to the damage that we humans have inflicted on each other and on the planet through our disconnection with the natural world and points the way toward a higher vision of living - a conscious and conscientious reconnection with All That Is. The wisdom offered is just what we need to heed in order to heal." - Mama Donna Henes, author of "Celestially Auspicious Occasions: Seasons, Cycles and Celebrations" and "Queen of My Self" "Special Forces soldier and medic Walter River would give anything to snatch more than a few seconds of down time to see if he can rattle the no-nonsense and incredibly hot Dr. Lloyd he's protecting. But dodging explosions, snipers, and student radicals who've unleashed a lethal bio-engineered microorganism have made that almost impossible. Maybe he'll get a chance—if he can figure out how to keep them both alive. CDC microbiologist Ava Lloyd races to find a cure for a bio-terrorism organism sweeping El Paso. The few stolen moments with her very hot bodyguard, River, have been explosive, but no matter how alluring he is, she can't afford to get distracted. The clock is ticking, people are dying by the hundreds, and once this crisis is solved, they'll both be off on their next assignment, thousands of miles apart. Each book in the Outbreak Task Force series is STANDALONE: \* Viable Threat \* Smoke & Mirrors \* Sleight of Hand \* Search & Destroy \* Hell & Back "A tour de force." That is, until Emilie arrives, and he's irresistibly drawn to her warmth and inner strength. Emilie has no desire to get involved with another adventurer, and Tom has made it clear he's not interested in putting down roots. But as they work together to survive in the harshest of climates, they turn to one another for comfort. Is the heat between them enough to melt the ice around their hearts, and bind them together forever? 50,000 words "In ICEBOUND, Julie Rowe blends the perfect cocktail of action and romance. Get ready for a rip-roarin' read!" —Brenda Novak, New York Times best selling author. In 2014, Julie Rowe published a book entitled "A Greater Tomorrow," in which she shared near death experiences and subsequent dreams and visions where she was shown many of the destructions to precede the Second Coming of the Savior. In the years that have followed, she has continued to lift a warning voice, publishing two other books, speaking at conventions and on radio programs, and publishing podcasts. She is even soon to release a video documentary, meant to help her message get to a new audience. Her story has sent ripples through the LDS community, and has caused many to question whether or not she is a true messenger. Some have even challenged her right to share such a message at all. This book examines the doctrinal case for messengers such as Julie Rowe, providing clarity not only on why such individuals can arise in a society ripening for destruction, but why they absolutely must exist. In 2004, Julie Rowe was a happy wife and mother. Then her health took a turn for the

worse. While in a weakened state, her spirit left her body and entered the Spirit World. An ancestor named John greeted her and showed her many wonderful places there. He also allowed her to read from the Book of Life, which showed her a panorama of the earth's past, present, and future. Julie saw the lives of many historical figures, such as Adam and Eve, Enoch, Noah, and Moses. She witnessed the Savior's mortal life, including his crucifixion and resurrection. She also saw the restoration of the Church of Jesus Christ through the prophet Joseph Smith, and key events that have led to the Church's growth. Then Julie was shown upcoming world events that will be both tragic and glorious. She saw earthquakes, tsunamis, famines, plagues, and wars, but she also witnessed how the Lord is watching over His people and is preparing places of refuge to protect them from the coming calamities. Julie was filled with joy as she saw the Saints establish the New Jerusalem and other Cities of Light in preparation for the Savior's Second Coming. Prior to her return, she was told that at a future time she would be expected to tell others about her experience. That time has come. In 2004, Julie Rowe was a happy wife and mother. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve

professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children. In this faith-bolstering book, best-selling author Edward T. Welch investigates the roots of fear in the human heart and the ramifications of living in the grips of anxiety, worry, and dread. Running Scared explores how fear inescapably takes root in all of our lives—and how our race for the good life finds us all too often “running scared.” Welch encourages readers to discover for themselves how the Bible is full of beautiful words of comfort and peace for fearful people. Everyone is afraid of something, and Welch guides readers to see how Jesus enters in to fear. Within thirty topical meditations, Welch offers sound biblical theology, gospel answers, and moment-by-moment, thoughtful encouragement for those in a heart and mind battlefield of rampant, panic-stricken fear. This comprehensive primer on the topic of fear, worry, and the rest of God will have readers retreating to Scripture for invariable constancy, stalwart care, and robust comfort rather than human independence, control, and self-protectiveness. Running Scared affirms that, through Scripture, God speaks directly to our fears, including: Money and possessions People and their judgments Death, pain, suffering, and punishment Welch's lively text provides convincing evidences that humanity's struggle against active and dormant fears are countless. He presents the good news that God provides both the remedy and the cure for this malady in the person of Jesus Christ, the work of the Holy Spirit, and through powerful, life-altering promises in Scripture. Far more than merely another psychology "self-help" guide, Running Scared serves as a biblical road map to a life of serenity and security. Depression: The Way Out of Your Prison gives us a way of understanding our depression which matches our experience and which enables us to take charge of our life and change it. Dorothy Rowe shows us that depression is not an illness or a mental disorder but a defence against pain and fear, which we

can use whenever we suffer a disaster and discover that our life is not what we thought it was. Depression is an unwanted consequence of how we see ourselves and the world. By understanding how we have interpreted events in our life we can choose to change our interpretations and thus create for ourselves a happier, more fulfilling life. Depression: The Way Out of Your Prison is for depressed people, their family and friends, and for all professionals and non-professionals who work with depressed people. Hector Sosa Jr. was born in Puerto Rico. He began having visions of future events as a young boy, a gift he inherited from his mother. At age 13 he and his family joined the LDS Church, and the visions he had been receiving began to make sense as he learned more about the prophecies and doctrines taught by church leaders. Among the events he has foreseen are: ☿☿ Earthquakes in Utah ☿☿ A national financial collapse ☿☿ Plagues and sicknesses ☿☿ Concentration camps on U.S. soil ☿☿ An invasion from foreign troops ☿☿ The Saints prevail against the enemy Hector's visions are specifically meant to serve as warnings to his own family, but he hopes that by sharing what he has seen, it will help others prepare for the challenging times that will soon come upon the world. Food Wine Rome is a tightly focused guidebook and traveler's companion to the culinary delights of Rome. For each neighborhood, listings are in three categories: 1) dining: restaurants, trattorie, osterie; 2) gourmet shopping: bakeries, markets, salami makers, cheesemongers, and more; 3) wine: shops and wine bars. A dozen or more sidebars add entertaining and informative bits of city lore,

culture, customs, quotes, and anecdotes to bring alive the city's historic culinary richness: the Roman love affair with artichokes; the watermelon festival held for years on August 24, when giant, ripe watermelons would be released into the river upstream and Roman kids would dive into the river to grab them; Lucullus' Kitchen Garden; the Cacio e Pepe Family of Pastas; the cult of the strawberries of Nemi (one of whose devotees was Caligula); Papal cuisine; the Renaissance of Rome's wines; Holy Water and the Aqueducts; Spring Fever (lamb, favas, artichokes, zucchini flowers); and dozens more. A glossary of essential Roman/Italian food terms helps make shopping, marketing, and eating fun and rewarding. It is illustrated with scores of atmospheric photographs and an overall map of central Rome, plus detailed maps for each of Rome's nine central neighborhoods, so that readers can find addresses immediately.
