*Recent Advances in Technologies for Inclusive Well-Being Mar 19 2023 In a time of ongoing pandemic when well-being is a priority this volume presents latest works across disciplines associated to Virtual Patients, Gamification and Simulation. Chapters herein present international perspectives with authors from around the globe contributing to this impactful third edition to the series following a 2014 Springer book on Technologies for Inclusive Well-Being and a 2017 Springer book Recent Advances in Technologies for Inclusive Well-Being. Digital technologies are pervasive in life and the contributions herein focus on specific attributes and situations, especially in training and treatment programmes spanning across ranges of diagnosis, conditions, ages, and targeted impacts. This volume purposefully does not cover all (even if that was possible) aspects on how virtual interactive space can align to staital computing, which in turn can align with related embodied entities (whatever the terms used e.g. Virtual, Augmented, Extended, Mixed Realities) along with AI, Deep Learning etc. It also doesn't cover what some may refer to as 'trendy terms' such as 360 degree, video, WebXR, cryptocurrency, blockchain, virtual goods, AR museums, travel and teleportation...however, what is covered in this book, and the prior volumes it builds upon (as above), is a sharing and questioning of advancing technologies for inclusive well-being through research and practices from an avant-garde perspective.*

*The ONE Thing* Sep 20 2020 • More than 500 appearances on national bestseller lists • #1 *Wall Street Journal*, *New York Times*, and *USA Today* • Won 12 book awards • Translated into 35 languages • Voted Top 100 *Business Book of All Time* on Goodreads People are using this simple, powerful concept to focus on what matters most in their personal and work lives. Companies are helping their employees be more productive with study groups, training, and coaching. Sales teams are boosting sales. Churches are conducting classes and recommending for their members. By focusing their energy on one thing at a time people are living more rewarding lives by building their careers, strengthening their finances, losing weight and getting in shape, deepening their faith, and nurturing stronger marriages and personal relationships. YOU WANT LESS. You want fewer distractions and less on your plate. The daily barrage of e-mails, texts, tweets, messages, and meetings distract you and stress you out. The simultaneous demands of work and family are taking a toll. And what's the cost? Second-rate work, missed deadlines, smaller paychecks, fewer promotions--and lots of stress. AND YOU WANT MORE. You want more productivity from your work. More income for a better lifestyle. You want more satisfaction from life, and more time for yourself, your family, and your friends. NOW YOU CAN HAVE BOTH — LESS AND MORE. In *The ONE Thing*, you'll learn to \* cut through the clutter \* achieve better results in less time \* build momentum toward your goal\* dial down the stress \* overcome that overwhelmed feeling \* revive your energy \* stay on track \* master what matters to you *The ONE Thing* delivers extraordinary results in every area of your life--work, personal, family, and spiritual. WHAT'S YOUR ONE THING?

*Just Being Difficult?* Dec 04 2021 Is academic writing, particularly in the disciplines of literary theory and cultural studies, needlessly obscure? The claim has been widely circulated in the media and subject to passionate debate, but it has not been the subject of serious discussion. *Just Being Difficult?* provides learned and thoughtful analyses of the claim, of those it targets, and of the entire question of how critical writing relates to its intended publics and to audiences beyond them. In this book, a range of distinguished scholars, including some who have been charged with willful obscurity, argue for the interest and importance of some of the procedures that critics have preferred to charge with obscurity rather than confront in another way. The debate on difficult writing hovers on the edges of all academic writing that seeks to play a role in the public arena. This collection is a much-needed contribution to the discussion.

*Just Kids* Jun 10 2022 It was the summer Coltrane died, the summer of love and riots, and the summer when a chance encounter in Brooklyn led two young people on a path of art, devotion, and initiation. Patti Smith would evolve as a poet and performer, and Robert Mapplethorpe would direct his highly provocative style toward photography. Bound in innocence and enthusiasm, they traversed the city from Coney Island to Forty-second Street, and eventually to the celebrated round table of Max's Kansas City, where the Andy Warhol contingent held court. In 1969, the pair set up camp at the Hotel Chelsea and soon entered a community of the famous and infamous—the influential artists of the day and the colorful fringe. It was a time of heightened awareness, when the worlds of poetry, rock and roll, art, and sexual politics were colliding and exploding. In this milieu, two kids made a pact to take care of each other. Scrappy, romantic, committed to create, and fueled by their mutual dreams and drives, they would prod and provide for one another during the hungry years. *Just Kids* begins as a love story and ends as an elegy. It serves as a salute to New York City during the late sixties and seventies and to its rich and poor, its hustlers and hellions. A true fable, it is a portrait of two young artists' ascent, a prelude to fame.

Assessing Recent Soil Erosion Rates Through the Use of Beryllium-7 (Be-7) Apr 08 2022 This open access book is the first comprehensive guideline for the beryllium-7 (Be-7) technique that can be applied to evaluate short-term patterns and budgets of soil redistribution in agricultural landscapes. While covering the fundamental and basic concepts of the approach, this book distinguishes itself from other publications by offering step-by-step instructions on how to use this isotopic technique effectively. It covers experimental design considerations and clear instruction is given on data processing. As accurate laboratory measurement is crucial to ensure successful use of Be-7 to investigate soil erosion, a full chapter is devoted to its specific determination by gamma spectrometry. This open access contribution further describes new developments in the Be-7 technique and includes a concluding chapter highlighting its potential benefits to support the implementation of area-wide soil conservation policy.

*A Beleaguered City: Being a Narrative of Certain Recent Events in the City of Semur, in the Department of the Haute Bourgogne. A Story of the Seen and the Unseen* Feb 18 2023 This early work by Margaret Oliphant was originally published in 1900 and we are now republishing it with a brand new introductory biography. 'A Beleaguered City' has a luminous intensity, a psychological realism and a gripping evocation of place. The story tells us about the citizens of a town who are driven outside their walls when their dead invade their city and push them out. The citizens are terrified by nothing but a deep sense of thousands of dead people who they once knew inhabiting their houses, streets, intimate spaces. Margaret Oliphant was born in Wallyford, Scotland in 1828. In 1849 she had her first novel published: *Passages in the Life of Mrs. Margaret Maitland*. By the late 1850's, Oliphant's husband passed away, leaving her almost entirely without resources, and therefore left to support her three remaining children by her own literary activity. Her fictional works encompass domestic realism, the historical novel and tales of the supernatural.
