Simon & Schuster has a great book for every reader. The story of the beliefs and practices called 'magic' starts in ancient Iran, Greece, and Rome, before entering its crucial Christian phase in the Middle Ages. Centering on the Renaissance and Marsilio Ficino - whose work on magic was the most influential account written in premodern times - this groundbreaking book treats magic as a classical tradition with foundations that were distinctly philosophical. Besides Ficino, the premodern story of magic also features Plotinus, Iamblichus, Proclus, Aquinas, Agrippa, Pomponazzi, Porta, Bruno, Campanella, Descartes, Boyle, Leibniz, and Newton, to name only a few of the prominent thinkers discussed in this book. Because pictures play a key role in the story of magic, this book is richly illustrated. Make story time a little spookier with the #1 bestselling chapter book series of all time! Written by the master magician himself, this fascinating work reveals the secrets behind how Houdini escaped numerous death-defying stunts and exposed a variety of fake spiritualists. He also gives instructions for 44 eye-catching stage tricks, as well as other fascinating material. 155 illustrations. A great many theorists have argued that the defining feature of modernity is that people no longer believe in spirits, myths, or magic. Jason ?. Josephson-Storm argues that as broad cultural history goes, this narrative is wrong, as attempts to suppress magic have failed more often than they have succeeded. Even the human sciences have been more enchanted than is commonly supposed. But that raises the question: How did a magical, spiritualist, mesmerized Europe ever convince itself that it was disenchanting? Josephson-Storm traces the history of the myth of disenchantment in the births of philosophy, anthropology, sociology, folklore, psychoanalysis, and religious studies. Ironically, the myth of mythless modernity formed at the very time that Britain, France, and Germany were in the midst of occult and spiritualist revivals. Indeed, Josephson-Storm argues, these disciplines' founding figures were not only aware of, but profoundly enmeshed in, the occult milieu; and it was specifically in response to this burgeoning culture of spirits and magic that they produced notions of a disenchanting world. By providing a novel history of the human sciences and their connection to esotericism, *The Myth of Disenchantment* dispatches with most widely held accounts of modernity and its break from the premodern past. NEW YORK TIMES bestselling author Tamora Pierce takes readers to a world filled with adventure and magic. In Book 1 of the Circle of Magic Quartet, gifted young weaver Sandry is brought to the Winding Circle community. There she meets Briar, a former thief with a way with plants; Daja, an outcast gifted at metalcraft; and Tris, whose connection with the weather unsettles everyone, including herself. The four misfits are taught how to use their magic, but when disaster strikes, it's up to Sandry to weave together four different kinds of power to save herself, her friends, and Winding Circle. *Koji Alchemy* guides readers through the history and diverse application of koji, the microbe behind the delicious, umami flavors of soy sauce, miso, mirin, and so much more.

Devoted authors Jeremy Umansky and Rich Shih share processes, concepts, and recipes for fermenting and culturing foods with this magical ingredient. Then they take it to the next level by describing how they rapidly age charcuterie, cheese, and other ferments, revolutionizing the creation of fermented foods and their flavor profiles for both chefs and home cooks. Readers will learn how to grow koji, including information on equipment and setting up your kitchen, as well as detailed concepts and processes for making amino sauces and pastes, alcohol and vinegar, and using it for flavor enhancement with dairy, eggs, vegetables, and baking. With the added tips and expertise from their friends, Umansky and Shih have developed a comprehensive look at modern koji use around the world. Fans of magic, mystery, and adventure will love this rollicking sequel to *The Sixty-Eight Rooms*—a perfect next step for kids who love the *Magic Tree House* series, and just right for readers who love *Chasing Vermeer*, *The Mixed-Up Files of Mrs. Basil E. Ruthie and Jack's quest to stop the thief takes them from modern day Chicago to 1937 Paris to antebellum South Carolina. But as more items disappear, including the key that allows them to shrink and access the past worlds, what was once just an adventure becomes a life and death race against the clock. Can Ruthie and Jack catch the thief and help the friends they meet on the way before the magic—and the rooms—are destroyed forever? Here's What People Are Saying about *The Sixty-Eight Rooms Adventures!* *The New York Times*: "Irresistible." *Chicago Sun-Times*: "Exhilarating." *Chicago Tribune*: "Marianne Malone has tapped into a fantasy that is . . . completely universal." "Hoffman certainly knows how to enchant" (*The New York Times Book Review*) in this breathtaking conclusion to the *Practical Magic* series—a spellbinding and bewitching novel that asks how far will you go to change your fate? For over three-hundred years a curse has kept the Owens family from love—but all of that is about to change. The novel begins in a library, the best place for a story to be conjured, when beloved aunt Jet Owens hears the deathwatch beetle and knows she has only seven days to live. Jet is not the only one in danger—the curse is already at work. A frantic attempt to save a young man's life spurs three generations of the Owens women, and one long-lost brother, to use their unusual gifts to break the curse as they travel from Paris to London to the English countryside where their ancestor Maria Owens first practiced the Unnamed Art. The younger generation discovers secrets that have been hidden from them in matters of both magic and love by Sally, their fiercely protective mother. As Kylie Owens uncovers the truth about who she is and what her own dark powers are, her aunt Franny comes to understand that she is ready to sacrifice everything for her family, and Sally Owens realizes that she is willing to give up everything for love. A heartfelt and satisfying conclusion to a beloved series, *The Book of Magic* celebrates mothers and daughters, sisters and brothers, and anyone who has ever been in love. When a jealous witch curses her family's well, it's up to Vonceil to set things right in an epic journey that will leave her changed forever. When Vonceil's older brother, Elber, comes home to their family's Oklahoma farm after serving on the front lines of World War I, things aren't what she expects. His experiences have changed him into a serious and responsible man who doesn't have time for Vonceil anymore. He even marries the girl he had left behind. Then a mysterious and captivating woman shows up at the farm and confronts Elber for leaving her in France. When he refuses to leave his wife, she puts a curse on the family well, turning the entire town's water supply into saltwater. Who is this lady dressed all in white, what has she done to the farm, and what does Vonceil's old uncle Dell know about her? To find out, Vonceil will have to strike out on her own and delve deep into the world of witchcraft, confronting dangerous relatives, shapeshifting animals, a capricious Sugar Witch, and the Lady in White herself—the foreboding Salt Witch. The journey will change Vonceil, but along the way she'll learn a lot about love and what it means to grow up. Superstition and Magic in Early Modern Europe brings together a rich selection of essays which represent the most important historical research on religion, magic and superstition in early modern Europe. Each essay makes a significant contribution to the history of magic and religion in its own right, while together they demonstrate how debates over the topic have evolved over time, providing invaluable intellectual, historical, and socio-political context for readers approaching the subject for the first time. The essays are organised around five key themes and areas of controversy. Part One tackles superstition; Part Two, the tension between miracles and magic; Part Three, ghosts and apparitions; Part Four, witchcraft and witch trials; and Part Five, the gradual disintegration of the 'magical universe' in the face of scientific, religious and practical opposition. Each part is prefaced by an introduction that provides an outline of the historiography and engages with recent scholarship and debate, setting the context for the essays that follow and providing a foundation for further study. This collection is an invaluable toolkit for students of early modern Europe, providing both a focused overview and a springboard for broader thinking about the underlying continuities and discontinuities that make the study of magic and superstition a perennially fascinating topic.
