Yet again, the author's odd and dark sense of humour is expressed in the doings of man and beast. New York based fashion photographer Rick Day has a gift of capturing the beauty of the male figure. In addition to numerous calendars, his work has been published in magazines like "Elle," "Genre," "Details," "Teen Vogue," and "GQ." In addition, he has compiled several books devoted to his photography, including "Players, "Players Two," "All Players," and "Pioneers." His new collection, "Rick Day Bel Ami," sets the stage for modern male photography, matching his talent for capturing the "world's sexiest exhibitionists" with the beauty and youth of Bel Ami's impressive roster of talent. ***Instant Happy Notes offers 101 mini-messages of joy and has the power to instantly boost anyone's happiness. Packed full of quotes, doodles, coupons, and thoughts, it's a small book of stickies that creates a big impact on happiness. Based on the runaway web phenomenon (dogshamingdotcom), Dog Shaming features the most hilarious, most shameful, and never-before-seen doggie misdeeds. Our dogs are our best friends. They are always happy to see us. They comfort us in our times of need. They also eat our shoes, stain our carpets, and embarrass us in front of our guests. Dog owners everywhere have found their outlet in Dog Shaming, where they can confess their dogs' biggest (and often grossest!) sins, which turn out to be recognizably universal—complete with snapshots of ridiculously cute but shamed pups who don't seem capable of humping humans, pooping on pillows, or snagging steak straight from a grill. So share in the shaming and laugh through your frustration as Dog Shaming reminds us that unconditional love goes both ways. Texts from Mittens is a series of text message conversations between a snappy, self-absorbed housecat named Mittens and his long-suffering human, a single woman who works away from home during the day. Mittens relentlessly hassles his human all day long, while only taking breaks to watch Judge Judy, hang with his best friend Stumpy, complain about the antics of Drunk Patty the neighbor, ask Grandma for money to buy useless items from QVC, and harass the “filthy beast” dog, Phil. Shift your energy and attract what you desire. Create a life you totally love. And start creating it NOW. Make some damn money already. The kind you've never made before. By the end of *You Are a Badass*, you'll understand how to blast past what's holding you back, make some serious changes, and start living the kind of life that once seemed impossible. When *Paris Sizzled* vividly portrays the City of Light during the fabulous 1920s, *les Années folles*, when Parisians emerged from the horrors of

*war to find that a new world greeted them—one that reverberated with the hard metallic clang of the assembly line, the roar of automobiles, and the beat of jazz. Mary McAuliffe traces a decade that saw seismic change on almost every front, from art and architecture to music, literature, fashion, entertainment, transportation, and, most notably, behavior. The epicenter of all this creativity, as well as of the era's good times, was Montparnasse, where impoverished artists and writers found colleagues and cafés, and tourists discovered the Paris of their dreams. Major figures on the Paris scene—such as Gertrude Stein, Jean Cocteau, Picasso, Stravinsky, Diaghilev, and Proust—continued to hold sway, while others now came to prominence—including Ernest Hemingway, Coco Chanel, Cole Porter, and Josephine Baker, as well as André Citroën, Le Corbusier, Man Ray, Sylvia Beach, James Joyce, and the irrepressible Kiki of Montparnasse. Paris of the 1920s unquestionably sizzled. Yet rather than being a decade of unmitigated bliss, les Années folles also saw an undercurrent of despair as well as the rise of ruthless organizations of the extreme right, aimed at annihilating whatever threatened tradition and order—a struggle that would escalate in the years ahead. Through rich illustrations and evocative narrative, Mary McAuliffe brings this vibrant era to life. Strikingly beautiful and a pleasure to read, *Women Artists* surveys female painters and sculptors from the Renaissance to the present, illuminating both the obstacles the artists encountered and the contributions they made. 179*

*the changing role of art and artists in a democratic, industrial, and technological society stands behind the spate of artists' words and the public's hunger for them--even some of the general public out there beyond art's little circle. Statements by artists appeal somewhat the way drawings do: they bring us, or at least they hold the promise of bringing us, closer to the artist's thoughts and feelings and to an understanding of his or her modus operandi; they hold the keys to a mysterious realm. And sometimes they offer us the sheer pleasure of good reading. Such is the primary raison d'etre of this book. Its other motivation is educational, and stems from the frustrating lack, in teaching contemporary art, of any single compilation of statements by American artists from 1940 to the present.... This anthology differs in several respects from those others that do include documents of American art since 1940.... The selection I have made is devoted exclusively to statements of artists; it is limited to the last four decades; it presents in a single volume a representative and fairly comprehensive coverage of major developments in American art beginning with Abstract Expressionism; and, whenever possible, it cites the first, or among the very earliest, documents signaling a shift in the definition, intent, or direction of art."* The prestigious Maison Laduree, adored by lovers of French delicacies the world over, shares its sophisticated teatime recipes and menus, as well as tips on the art of taking tea the Laduree way. A taste of Zen for the seeker and the curious alike. This small but wise book collects Eastern and Western sayings, haiku, poetry, and inspiring quotations from ancient and modern thinkers. Its aim is not to define Zen or answer its famous koan—What is the sound of one hand clapping?—but rather to point to a fresh way of looking at the world: with mindfulness, clarity, and joy. “Do not seek to follow in the footsteps of the wise. Andrew Marttila has been a professional animal photographer for the past five years and most of that time has been dedicated to photographing cats exclusively. With his set-up he's able to capture wonderful split-second images of cat's most abandoned expressions as they enjoy every cat's favourite treat, catnip. Andrew rescues and raises orphan kittens with his partner Hannah Shaw (the internet's famous Kitten Lady), and many of the models were hand-raised by Andrew and Hannah from newborns. Catnip, or *Nepeta cataria*, grows wild in many parts of the world and is*

***extremely easy to grow at home in most climates. It's part of the mint family and contained within the bulbs, stems, and leaves is an oil called nepetalactone. Once eaten, rolled on, or crushed, the oil binds to the cat's nasal receptors and stimulates a response that affects a number of areas in the brain, including the hypothalamus and amygdala, two regions that are key in regulating emotional and behavioral responses to stimuli. This produces a mild euphoric effect and typically lasts about ten to twenty minutes. Catnip is non-addictive and harmless and provides a temporary respite from your cat's gruelling workload of napping all day. It can also be seen as a gateway to further exploration of historic photographic methods. In addition, it gives experienced photographers and artists a great excuse to take their eyes off the computer screen and get their hands dirty. *Blueprint to cyanotypes* is all you will need to get started with cyanotypes. ***tips. Even the experienced cyanotyper may learn a thing or two. Blueprint to cyanotypes is published by AlternativePhotography.com - a website and information center dedicated to alternative photographic processes. From Malin Fabbri, the author: Why a book on cyanotypes? Of all the alternative processes the cyanotype is the one closest to my heart. I made my first cyanotype in 1999. I was intrigued by the blue images and wanted to test the cyanotype process to see what it had to offer. I bought chemicals and spent an evening coating paper and cloth. The results of the next day's printing surprised me. Although the alchemy of the darkroom had always captivated me, developing a print in the sun was like a liberation. One of the things I found most refreshing about the process was the unpredictability of the results. Some of my best prints were the product of 'happy accidents'. The developing process is straightforward. The chemicals are cheap, and most of the other items used can be found around the house. Pre-coated paper is available, but one of the benefits of working with cyanotypes is the great flexibility of material and paper available to you. Cyanotypes print on anything made of natural fibre. Cotton, linen, silk, handmade paper, watercolor paper and rags are just number of alternatives. Some artists even print on wood. So, if you want to explore a fun alternative photographic process or seriously want to experiment with producing unique fine art, make a cyanotype. It is estimated that on average an English-speaking adult has acquired a functioning vocabulary of 25,000 words by the time they reach middle age. That sounds like a lot - and more than enough for the daily purposes of communicating with each other in speech and writing. However, it is hard to feel quite so sanguine about our word power when considering those 25,000 words account for less than fifteen per cent of the total words in current usage in the English language. Furthermore, new words are created all the time and, as the word pool flourishes, can we afford to allow our vocabulary to stagnate?
