Bronze Age Military Equipment Oct 21 2020 "A very valuable piece of work, providing a splendid overview" of the weapons, armor, shields and chariots used in warfare from 3000 BC to 1200 BC (HistoryOfWar.org). This book is a fascinating discussion of the development of the military equipment of the earliest organized armies. Dan Howard describes the development of weapons, armor and chariots, how they were made and their tactical use in battle. Spanning from the introduction of massed infantry by the Sumerians (c. 26th century BC) through to the collapse of the chariot civilizations (c. 12th century BC), this is the period of the epic struggles described in the Old Testament and Homer's Iliad, the clashes of mighty empires like those of the Babylonians, Egyptians and Hittites. In Bronze Age Military Equipment, Howard provides "an able and readable review that is supported in the text by drawings and sketches, but there is also an excellent full color photographic section that shows replica weapons and armor created in bronze" (Firetrench).

Irregular Army Apr 14 2020 Since the launch of the Afghanistan and Iraq wars—now the longest wars in American history—the US military has struggled to recruit troops. It has responded, as Matt Kennard's explosive

investigative report makes clear, by opening its doors to neo-Nazis, white supremacists, gang members, criminals of all stripes, the overweight, and the mentally ill. Based on several years of reporting, Irregular Army includes extensive interviews with extremist veterans and leaders of far-right hate groups—who spoke openly of their eagerness to have their followers acquire military training for a coming domestic race war. As a report commissioned by the Department of Defense itself put it, “Effectively, the military has a ‘don’t ask, don’t tell’ policy pertaining to extremism.” Irregular Army connects some of the War on Terror’s worst crimes to this opening-up of the US military. With millions of veterans now back in the US and domestic extremism on the rise, Kennard’s book is a stark warning about potential dangers facing Americans—from their own soldiers.

Hideki and Ray each fight their way across the island, surviving heart-pounding ambushes and dangerous traps. But then the two of them collide in the middle of the battle... I Miss You! Jul 22 2023 Military families face stressful times that are unique to the military lifestyle. One of the most challenging situations, both for children and parents, is when a father, mother, or sibling is deployed for military service and must be away from the home. Children often experience sadness, anger, fear, anxiety, and loneliness, and they do not understand their own feelings or know how to express them. This book is designed to help children especially, but also their parents, during such difficult times. Based on many years of experience as a social worker, who has assisted military families experiencing stress, author Beth Andrews has created an excellent tool for allowing children and their loved ones to deal with the many emotions caused by deployment. The text and illustrations encourage children to discuss their feelings and to draw their own pictures to express themselves. The accompanying parents' guide is designed to validate parents' feelings and give them ways to help their children cope. Guided by this approach, a parent or caregiver can help their children understand why one of their parents or a sibling had to leave home, identify their reactions, cope with their feelings in a positive way, be assured that they are not alone, and try new activities to help themselves adjust. At a time when military families are asked to make many sacrifices in the service of their country, this reassuring book will be a welcome resource. Beth Andrews, LCSW (Grand Junction, CO), is a social worker and currently a clinical supervisor at Colorado West Mental Health Center.
