When the great filmmaker Carlos Saura was a young man, he desired to create a book about his native Spain that would transgress the propaganda imagery of the Franco regime. He strove to depict his country as seen through his camera when he set out on a journey through Andalusia and central Spain in his Fiat 600 in the late 1950s. The trip left a deep impression on his first documentary film, ‘Cuenca’ (1958). Since his youth Saura has been fascinated not only by the process of photographing but also by its technology, as demonstrated by his museum-quality collection of hundreds of historical and self-made cameras. Torn between the two media at the beginning of his career, Saura eventually chose to become a filmmaker but has continued to take photographs. Vanished Spain offers a comprehensive insight into Saura’s photography with a focus on his black-and-white work of the 1950s: compelling images of landscapes, villages, bullfights and people of another era. Photographs of Saura’s diploma film project, ‘La Tarde de Domingo’ (1957), are also present in the book, making it the definitive representation of his photographic oeuvre. Ready-to-use forms and instructions that take care of the many issues, such as Texas inheritance laws and joint property. Synopsis: Delores Wright is the wealthy town matriarch and former elementary school principal and Bo Wells is the custodian who worked under her strict supervision for most of his life. When they find themselves stranded together in the old condemned schoolhouse, their reunion takes a dark turn and they relive their first meeting, decades earlier. It was 1952, when some schools were first integrated in this region nicknamed the “Mississippi of the North”. Bo’s wife, the school’s first black teacher, was found drowned in a nearby river, hanging by her ankle from an old rope swing after it was rumored she had struck a white child. The papers dismissed it as an accident resulting from the “wild and drunken actions of a young colored woman”. When Mrs. Wright reveals that she has dreams about the incident, Bo suspects she knows more than she admits. As the night grows colder and the failing health of Mrs. Wright becomes increasingly evident, Bo tries to understand his wife’s final moments and Mrs. Wright’s role in her death. She holds the key to his heart, and he wants it back. When Arie reveals her Gift, she thinks the worst is over. But she couldn’t be more wrong. The only one who can save her now is a mermaid named Rena. Rena is the youngest daughter of the Sea King, and she’s dreamed of the surface for years. But her first visit on her 16th birthday isn’t what she expects. She watches a Jinni fall from the sky—and chooses to save him, despite her mother’s warnings that all Jinn are evil. Once she meets Gideon, she can’t get him out of her mind. And maybe, with a little help from Arie and some magic of her own, she doesn’t have to... The Jinni Key is a loose ‘Little Mermaid’ retelling. Set in a world that humans share with mermaids, dragons, and the elusive Jinn, this is not the fairytale you remember... If you enjoy fantasy worlds, magical races, and surprising spins on classic fairy tales, then you’ll love this enchanting retelling of The Little Mermaid. WHAT READERS ARE SAYING: “There was very little that I predicted, when there was a moment of loss I truly felt it, and I loved the unique spins she placed on the well-known THE LITTLE MERMAID tale.” Rachael Martin (Goodreads Reviewer) "I went into this story super excited to find out more about Rena and Arie, and I was left unable to wait for the next book! I seriously read this book in one sitting (which left everything aching, but so worth it!). I absolutely loved The Stolen Kingdom, and book two did not disappoint. The Jinni Key’s world-building was actually one of my favorites, so complex and detailed and very fun." Sarah Sutton (Goodreads Reviewer) "I couldn't even put the book down because I had to know what happened... These are the kind of retellings that I love because while the base story is weaved in there lightly the story doesn't rely on The Little Mermaid. It goes so far past that and you are invested in everything that is happening..." Katelyn Spedden (Goodreads Reviewer) "There is so much action going on in this book and as the story moved on, the stakes kept getting higher and higher - I couldn't put it down (read it in a few hours) and I can't wait to read the next book in the series!" Elira Barnes (Goodreads Reviewer) "This was an amazing second book! All of Bethany's hard work paid off ten fold! I loved how all the relationships developed and all the animal moments. I especially love Rena and her quirky personality. She makes an amazing POV character." Andrea Roberts (Goodreads Reviewer) "Once again, Bethany Atazadeh takes some risks with this Little Mermaid retelling and mixes in a lot of original story and world elements, along with engaging characters to make it an intriguing and magical read that I was sad to see end." Janine (Goodreads Reviewer) "I loved finding out what happens next. I'm excited and am definitely going to read the third book. Captivating story." Kaylee White (Goodreads Reviewer) THE STOLEN KINGDOM SERIES READING ORDER: Book 1: The Stolen Kingdom: An Aladdin retelling Book 2: The Jinni Key: A Little Mermaid retelling Book 3: The Cursed Hunter: A Beauty and the Beast retelling Book 4: The Enchanted Crown: A Sleeping Beauty retelling THE QUEEN'S RISE SERIES (a connected trilogy in The Stolen Kingdom Universe) Book 1: The Secret Gift Book 2: The Secret Shadow Book 3: The Secret Curse From Yolanda Gampp, host of the massively popular, award-winning YouTube sensation “How to Cake It,” comes an inspiring “cakebook” with irresistible new recipes and visual instructions for creating spectacular novelty cakes for all skill levels. We donate our time and money to charities and causes we deem worthy, choose careers we consider meaningful, and patronize businesses and buy products we believe make the world a better place. Unfortunately, we often base these decisions on assumptions and emotions rather than facts. As a result, even our best intentions often lead to ineffective—and sometimes downright harmful—outcomes. How can we do better? While a researcher at Oxford, trying to figure out which career would allow him to have the greatest impact, William MacAskill confronted this problem head on. He discovered that much of the potential for change was being squandered by lack of information, bad data, and our own prejudice. As an antidote, he and his colleagues developed effective altruism, a practical, data-driven approach that allows each of us to make a tremendous difference regardless of our resources. Effective altruists believe that it’s not enough to simply do good; we must do good better. At the core of this philosophy are five key questions that help guide our altruistic decisions: How many people benefit, and by how much? Is this the most effective thing I can do? Is this area neglected? What would have happened otherwise? What are the chances of success, and how good would success be? By applying these questions to real-life scenarios, MacAskill shows how many of our assumptions about doing good are misguided. For instance, he argues one can potentially save more lives by becoming a plastic surgeon rather than a heart surgeon; measuring overhead costs is an inaccurate gauge of a charity’s effectiveness; and, it generally doesn’t make sense for individuals to donate to disaster relief. MacAskill urges us to think differently, set aside biases, and use evidence and careful reasoning rather than act on impulse. When we do this—when we apply the head and the heart to each of our altruistic endeavors—we find that each of us has the power to do an astonishing amount of good. My name is How To Make A Billion Leones From Home, and I am a book. Not any old book. A special book! I am special; not because I was written to make you wealthy, which I was. Ohh no! I have the special distinction of having been written with Sierra Leone in mind. You see, relative to the total number of books written every year, not many books are written with Sierra Leone in mind. So, I am chuffed to be alive and in your hands right now. Really chuffed!!! You give me life! Table of Contents Introduction It Is All His Fault! But I Married Too Young... Self-Justification Criticism and Contempt Escalation of the Situation The Silent Treatment Do NOT Bring Me Flowers Anymore The Importance of Physical Intimacy in a Successful Marriage Conclusion Author Bio Publisher Introduction All these years happily married and still going strong... Once while I was training under a psychologist, she told me that in her particular country, nobody had ever heard of marriage counseling, because the option of divorce, a couple splitting up was unheard of, in their culture, traditions, and upbringing. For them, marriage was a once-in-a-lifetime proposition, to be ended only after "till death do us part." And even then, many partners did not marry again, because they still considered themselves married to their spouses, even after becoming a widow or widower. I also have been brought up in such a supposedly old-fashioned milieu, and society, naturally thanks to our upbringing, culture, and one may almost say old-fashioned traditions, for every one of us, marriage is once and forever, and never ever to be broken up under any circumstances. So it was with great surprise, that I began to see the trend of divorces gaining popularity, because that had become a modern fashionable option, and if so many people in the West were doing it, this was of course the best way of getting out of a partnership which one had begun considering to be a bit of a drag, and look for more exciting options elsewhere. Sadly enough, you are going to be surprised to know that statistics say that 27% of married American men are going to have an extramarital affair, just because it happened and they could not control it. Isn't it interesting to know that just three generations ago, their own grandparents considered extramarital affairs to be a thing of shame, not a thing of which a virtuous responsible father or husband did, and faithfulness was a part of his principles, upbringing, tradition, and culture. He believed in his marriage vows. And so did his wife. And using him as an example, his children followed in his steps. But then suddenly in the 70s, 80s, and 90s, it began to be fashionable to divorce and marry again, not understanding about the emotional, psychological, spiritual, physical, and mental trauma this would have on all the members of the family, parents, and children. To make a bird, you'll need hundreds of tiny, hollow bones, so light you can barely feel them on your palm, so light they can float on air. Next you'll need feathers, for warmth and lift. There will be more besides - perhaps shells and stones for last touches - but what will finally make your bird tremble with dreams of open sky and soaring flight? This picture book shows how even the smallest of things, combined with wonder and a steady heart, can transform into works of magic. Bake a delicious apple pie--and take a trip with this culinary global adventure! An apple pie is easy to make...if the market is open. In To Make a Difference, Montreal entrepreneur and philanthropist Morris Goodman shares his personal and professional prescription for success and enduring happiness. Born in 1931 in Montreal to Ukrainian immigrants during the worst days of the Great Depression, Goodman recounts the events, strategies, and lucky breaks that led to a thriving company and a life of philanthropic accomplishments. From his first job as a pharmacy delivery boy to his graduation from the University of Montreal's Faculty of Pharmacy - when he had already started his own pharmaceutical company - through the crucial moments that created an international business, Goodman depicts stirring accounts of Montreal's Jewish community and the development of the global pharmaceutical industry. Along the way, he presents vivid, generous portraits of colleagues and business collaborators. To Make a Difference is a powerful rags-to-riches story but it is also much more - it is a heartfelt, candid, and inspiring exploration of what makes our lives rich, what we value, and why. Do you often wonder why? Why am I here? Do I serve a purpose? God says yes. No matter your age or your circumstances, you have a powerful purpose. Do you have a passion for something? The poor? A country? Justice? Just because you are in school doesn't mean you can't do something about it now. Your purpose and your passion intersect—you just have to find where. Today, more people want to know how to make a meaningful difference to what they care about. But for that, traditional approaches to learning often fall short. In this book, we offer a theoretical and practical way forward. We introduce the concept of social learning spaces for developing both new capabilities and a sense of agency. We provide a rich framework for focusing on the value of social learning spaces: how to generate this value, monitor it, and learn iteratively through the process. The book is a useful extension and refinement of 'communities of practice' for those familiar with the theory. For those who are not, the chapters will lay out a new way to approach learning. This volume is written to serve the needs of readers across fields, including researchers, educators, and leaders in business, government, healthcare, and international development. Acclaimed author/illustrator Amy Schwartz provides 11 great faces for children to try--happy, sad, giggly, angry, excited and more. Big, bold pictures of children on the left-hand page encourage even the youngest readers to imitate faces in the Mylar mirror that folds over every right-hand page.
