When Moses conversed with God at the burning bush, he asked God, "Who shall I say sent me?" God replied, "Tell them 'I am' sent me." In our burning bush prayer time when we talk to God will we take time to listen to what he wants to say? When we pray it is also important to listen to what God wants to say to us. There's a saying, "We have two ears and one mouth. We therefore should listen twice as much as we talk." There is purpose in our being. God has a plan for each of us. Prayer time with God is a time for talking and listening. How can we know what God wants us to do if we never take time to listen to what he has to say? If we are about God's business, we should try to find out the what and the why of his business. There is only one way to the Father, through Jesus Christ, and there is only one way we can discover what he wants and expects us to do. And that is through prayer and Scripture. The Scripture says, "This is the day that the Lord has made, let us rejoice and be glad in it." There are twenty-four hours in a day. Can we not spare him time in prayer? Jesus knew what his father wanted him to do because he kept in touch with his Father in prayer. God has called on us and left a message for us to call him (see Jeremiah 33:3) He's waiting to hear from us. This is an invitation we can't live without. Describes techniques designed to help people break through the limitations that keep them from achieving their goals and take positive control of their lives. Look out for Julie's new book, The Almost Legendary Morris Sisters. From the

beloved and bestselling memoirist comes a funny and affecting look at making the most of our friendships in an age of isolation. With her inimitable wit and disarming warmth, Julie Klam shares with us her experiences, advice, and insight in *Friendkeeping*, a candid, hilarious look at some of the most meaningful and enjoyable relationships in our lives: our friendships. After her bestselling *You Had Me at Woof*, about relationships with dogs, Klam now turns her attention to human relationships to great effect. She examines everything—from the curious world of online friendship to the intersection of friendship and motherhood. She even explores how to hang on to our friendships in the toughest circumstances: when *schadenfreude* rears its ugly head or when we don't like our friend's mate. Klam relays a mix of brand-new and time-tested wisdom—she finds that longtime friends really can grow up without growing apart; that communication is key; that friendship is one of life's great, free sources of happiness; that you're not a friend, just a doormat, if you don't get back what you give—and her discoveries range from amusing to deeply important. Charming, bracingly honest, and compulsively readable, *Friendkeeping* is an irresistible book, a treat that you'll want to share with your best friends right away. Brimming with keen observations and laugh-out-loud moments, it's delivered in the lively, accessible voice that Julie Klam's readers have come to know and love. This book is not about one story of loss or one grief therapy approach. This book contains exactly what grieving couples have asked for: what they wanted to know in exactly your situation; what they have mentioned and pointed out they would need or would have needed in that horrendous time of loss. Books written by bereaved parents often follow the formula: "My life was beautiful, then my child or baby died and then my life was never the same again. I had to write a book about it." These books are usually self-therapy, rather than a way to help others. Books by therapists often talk about their work from a theoretical basis that lacks personal experience. They discuss people who experience complicated or chronic grief as opposed to encouraging the resilience that lies within each and every one of us. I have experienced the loss of a child and I am a grief therapist, but this book is not a memoir about my loss. Neither is it just a book written from the perspective of a therapist having worked with countless clients experiencing loss. This book focuses on the effect parental bereavement has on the parents and their relationship. It is about surviving loss as a couple and the re-emerging from grief into a life of joy and melancholy, laughter and tears, happiness and sadness. Not either/or but BOTH/AND. This book will, teach you understanding and acceptance of the grieving process each and

everyone chooses. In a relationship, each partner is equally responsible to take part in sailing the ship together. *Surviving Loss as a Couple* is about how you can re-emerge from this crazy ride through the darkness of grief with renewed depth and understanding with your partner. This book is based on bereaved parents' needs, challenges and what they said has helped them, based on a worldwide survey I have conducted. It contains detailed descriptions of what has helped eighteen individuals and couples that I have interviewed, couples in varying situations and at different stages of their journey with grief. The all-encompassing framework for achieving the life of your dreams *It All Matters* presents a framework for the rest of your life. What are those dreams you would only dare to dream if there was no possibility of failure? How can you live a life of real intention and purpose instead of duty and obligation? Are you ready to take the leap? *It All Matters* shifts your perspective to let you see the shining path ahead. A true story of making a difference: “What does your family stand for? Read this book—it will change your life” (Daniel H. Pink). It all started when fourteen-year-old Hannah Salwen had a “eureka” moment. Seeing a homeless man in her neighborhood at the same moment when a glistening Mercedes coupe pulled up, she said “You know, Dad, if that man had a less nice car, that man there could have a meal.” Until that day, the Salwens had been caught up like so many of us in the classic American dream—providing a good life for their children, accumulating more and

more stuff, doing their part but not really feeling it. So when Hannah was stopped in her tracks by this glaring disparity, her parents knew they had to do something. As a family, they made the extraordinary decision to sell their Atlanta mansion, downsize to a house half its size, and give half of the sale price to a worthy charity. What began as an outlandish scheme became a remarkable journey that transported them across the globe and well out of their comfort zone. In the end they learned that they had the power to change a little corner of the world—and found that it changed them, too. “You feel lighter reading this book, as if the heavy weight of house and car and appliances, the need to collect these things to feel safe as a family, are lifted and replaced by something that makes much more sense.” —Los Angeles Times

On paper, Nora's life looks perfect. She's moving in with her boyfriend Dan, she has a stable job and a great group of friends. But she's stuck in what she refers to as "meta-life," the plight of overthinking and secondguessing to the point of self-sabotage. One day at work, Nora decides to thwart her meta-life by following her instincts. In what feels like a moment of revelation, she quits her job. Immediately, her meta-life goes into overdrive: What on earth was she thinking--and what is she going to do now? Fortunately, when a friend asks Nora to rewrite her Internet dating profile, she realizes that not only is she good at it, but she really enjoys it. Billing herself as a Cyrano de Bergerac for the lovelorn, Nora finally begins to find professional success. But soon, Nora's meta-life has latched onto the question she's asked so many clients: What are the five things she can't live without? Is her flourishing business one of them? Is Dan? With each new client and each step she takes in her own relationship, she must confront her biggest demon--her self-sabotaging "meta-life." But will she be able to slay it forever? "I had a real romance with this book." —Miranda July

A highly

anticipated collection, from the writer Maggie Nelson has called, “bracingly good...refreshing and welcome,” that explores the myriad ways in which desire and commodification intersect. From graffiti gangs and Grand Theft Auto to sugar daddies, Schopenhauer, and a deadly game of Russian roulette, in these essays, Chelsea Hodson probes her own desires to examine where the physical and the proprietary collide. She asks what our privacy, our intimacy, and our own bodies are worth in the increasingly digital world of liking, linking, and sharing. Starting with Hodson’s own work experience, which ranges from the mundane to the bizarre—including modeling and working on a NASA Mars mission— Hodson expands outward, looking at the ways in which the human will submits, whether in the marketplace or in a relationship. Both tender and jarring, this collection is relevant to anyone who’s ever searched for what the self is worth. Hodson’s accumulation within each piece is purposeful, and her prose vivid, clear, and sometimes even shocking, as she explores the wonderful and strange forms of desire. Tonight I’m Someone Else is a fresh, poetic debut from an exciting emerging voice, in which Hodson asks, “How much can a body endure?” And the resounding answer: “Almost everything.” To Live Without Warning is a story set in a future San Francisco, where public transportation is the only way to travel, and people with colds are required by machines called breathe-eraters to wear masks. Within this speculative fiction novel, there are aliens who disguise themselves as homeless people, and there are twins from an alien abduction, one human, one not, plus a virtual couple who live in a bungalow on a beach in a virtual Costa Rica who mix up their computer code to have a virtual child, and then there is a cat woman who can do all sorts of erotica with her tail, and a drummer who leads more than a band called Death, Ax and Grind. “Joshua Cromwell has a dream, one he has had for some time, where he’s a planet. After a mysterious woman tells him of the aliens that are about to attack the Earth, she takes him to her home in the tenderloin where he meets a robot the color and texture of an orange. His life seems to be very, very important to these aliens called the Hymenopts, but he would really rather not participate in whatever is about to happen, if only he had that choice. “This is a love story, a growing up story, and a coming home story. It’s about friendship and family and about the planet Earth. This is the story of how we begin to remember.” If you enjoy sci-fi fantasy fiction, you’ll probably enjoy To Live Without Warning. Most of my readers know that I’m not a great fantasy fan; however, as I grew up in San Francisco and play the drums myself, this novel had a unique appeal, plus I enjoy novels with an element of the metaphysical. Timothy LaBadie is a

good writer with a colorful imagination and spicy style. The novel is well-written and well-edited. LaBadie is the author of essays and fiction which stand out for their offbeat settings and timeless humor. Give him a try. - Kaye Trout, Kaye's Bookshelf, Reviewer's Bookwatch, Midwest Book Review, January 2008 For more information, please visit <http://www.tolivewithoutwarning.com>. "Guides readers toward the road less consumptive, offering practical advice and moral support while making a convincing case that individual actions . . . do matter." —Elizabeth Royte, author, Garbage Land and Bottlemania Like many people, Beth Terry didn't think an individual could have much impact on the environment. But while laid up after surgery, she read an article about the staggering amount of plastic polluting the oceans, and decided then and there to kick her plastic habit. In Plastic-Free, she shows you how you can too, providing personal anecdotes, stats about the environmental and health problems related to plastic, and individual solutions and tips on how to limit your plastic footprint. Presenting both beginner and advanced steps, Terry includes handy checklists and tables for easy reference, ways to get involved in larger community actions, and profiles of individuals—Plastic-Free Heroes—who have gone beyond personal solutions to create change on a larger scale. Fully updated for the paperback edition, Plastic-Free also includes sections on letting go of eco-guilt, strategies for coping with overwhelming problems, and ways to relate to other people who aren't as far along on the plastic-free path. Both a practical guide and the story of a personal journey from helplessness to empowerment, Plastic-Free is a must-read for those concerned about the ongoing health and happiness of themselves, their children, and the planet. Is this all you're living for? For years, pastor Paul Tripp understood we were "hardwired for forever." But he didn't understand that it was more than a valuable insight. It is a practical tool to help us face the disappointment of everyday life. Now he knows, and he can help you discover how to survive and thrive in the middle of your story, with the final chapter of heaven in view. Instead of embracing the world's motto--"you only live once"--follow Tripp as he unpacks the biblical truth of the world as a broken place, longing

for a second chance. And come alive as you discover the meaning and redemption all this brokenness can bring to your life today. With practical insights on how eternity impacts your relationships, your job, your kids, and your deepest struggles, you'll be encouraged to relax into the eternal story God is writing for you. You really are hardwired for eternity, and this book reveals how you can begin to view all that happens in your life as preparation for Forever. After being out of print for decades, Possum Living: How to Live Well Without a Job and (Almost) No Money is being reissued with an afterword by an older and wiser Dolly Freed. In the late seventies, at the age of eighteen and with a seventh-grade education, Dolly Freed wrote Possum Living about the five years she and her father lived off the land on a half-acre lot outside of Philadelphia. At the time of its publication in 1978, Possum Living became an instant classic, known for its plucky narration and no-nonsense practical advice on how to quit the rat race and live frugally. In her delightful, straightforward, and irreverent style, Freed guides readers on how to buy and maintain a home, dress well, cope with the law, stay healthy, save money, and be lazy, proud, miserly, and honest, all while enjoying leisure and keeping up a middle-class façade. Thirty years later, Freed's philosophy is world-renowned and Possum Living remains as fascinating, inspirational, and pertinent as it was upon its original publication. This updated edition includes new reflections, insights, and life lessons from an older and wiser Dolly Freed, whose knowledge of how to live like a possum has

given her financial security and the confidence to try new ventures. In *Life Without Lack*, Dallas Willard revolutionizes our understanding of Psalm 23 by taking this comfortably familiar passage and revealing its extraordinary promises: "The Lord is my shepherd, I shall not want. . . . Panic attacks are more common than they are thought to be. Millions of people suffer from them every day and don't even know it. Many of these people suffer in silence, for they fear what others may think of them. It's time to look back inside ourselves and remember who we really are: light and love. His reactions to these are told in graphic detail from a heart that has been broken more than the average has had to

bear. Yet there is an optimistic faith that says the best is yet to be. One who has suffered or is suffering the loss of a loved one will find words of comfort. Simple machines are around us all the time and we use them every day. You might not even think of them as machines. Each volume

includes a timeline and a list of 'Did You Know?' facts. In October of 2010, six men who were serving on the board of the Calista Elders Council (CEC) gathered in Anchorage with CEC staff to spend three days speaking about the subsistence way of life. The men shared stories of their early years growing up on the land and harvesting through the seasons, and the dangers they encountered there. The gathering was striking for its regional breadth, as elders came from the Bering Sea coast as well as the Yukon and Kuskokwim rivers. And while their accounts had some commonalities, they also served to demonstrate the wide range of different approaches to subsistence in different regions. This book gathers the men's stories for the current generation and those to come. Taken together, they become more than simply oral histories—rather, they testify to the importance of transmitting memories and culture and of preserving knowledge of vanishing ways of life.
