Husserl: A Guide for the Perplexed Sep 06 2021 Continuum's Guides for the Perplexed are clear, concise and accessible introductions to thinkers, writers and subjects that students and readers can find especially challenging. Concentrating specifically on what it is that makes the subject difficult to fathom, these books explain and explore key themes and ideas, guiding the reader towards a thorough understanding of demanding material. Edmund Husserl's work is a cornerstone of Continental philosophy and the phenomenological tradition. Husserl stands as a key influence on such major philosophers as Heidegger, Merleau-Ponty and Sartre, and is required reading for anyone studying phenomenology and European philosophy of the last 100 years. However, the complex ideas central to his work, and the rather convoluted language in which they are expressed, mean that arriving at a full and clear understanding of Husserlian phenomenology is no small undertaking. *Husserl: A Guide for the Perplexed* addresses directly those major points of difficulty faced by students of Husserl and leads them expertly through the maze of complex ideas and language. In identifying and working through common sources of confusion arising from Husserl's philosophy, the book builds up a comprehensive and authoritative overview of his thought and, more broadly, of phenomenology itself. The text covers the central tenets of phenomenology, Husserl's work on consciousness, and key philosophical topics in Husserl, including psychologism, intersubjectivity, the lifeworld

and the crisis of the sciences.

How to Live on Twenty-Four Hours a Day Apr 13 2022 This preface, though placed at the beginning, as a preface must be, should be read at the end of the book. I have received a large amount of correspondence concerning this small work, and many reviews of it-some of them nearly as long as the book itself-have been printed. But scarcely any of the comment has been adverse. Some people have objected to a frivolity of tone; but as the tone is not, in my opinion, at all frivolous, this objection

did not impress me; and had no weightier reproach been put forward I might almost have been persuaded that the volume was flawless! A more serious stricture has, however, been offered-not in the press, but by sundry obviously sincere correspondents-and I must deal with it. A reference to page 43 will show that I anticipated and feared this disapprobation. The sentence against which protests have been made is as follows:-"In the majority of instances he [the typical man] does not precisely feel a passion for his business; at best he does not dislike it. He begins his business functions with some reluctance, as late as he can, and he ends them with joy, as early as he can. And his engines, while he is engaged in his business, are seldom at their full 'h.p.'"
