Our Social World: Condensed Feb 07 2022 The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award—enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. Our Social World: Condensed inspires students to develop their sociological imaginations, to see the world and personal events from a new perspective, and to confront sociological issues on a day-to-day basis. The award-winning author team organizes the text around the "Social World" model, a conceptual framework that demonstrates the relationships among individuals (the micro level); organizations, institutions, and subcultures (the meso level); and societies and global structures (the macro level). The use of the Social World Model across chapters (represented in a visual diagram in the chapter openers) helps students develop the practice of using three levels of analysis, and to view sociology as an integrated whole, rather than a set of discrete subjects. The Condensed version is adapted from Our Social World: Introduction to Sociology. The Sixth Edition of the Condensed version is made approximately 30% shorter than the full edition by removing selected boxes, editing the main narrative, and combining four chapters into two (Family/Education, and Politics/Economics).
