Today, however, punishing rents and the increasingly prohibitive cost of ownership have turned housing into the foremost symbol of inequality and an economy gone wrong. Nowhere is this more visible than in the San Francisco Bay Area, where fleets of private buses ferry software engineers past the tarp-and-plywood shanties of the homeless. The adage that California is a glimpse of the nation's future has become a cautionary tale. With propulsive storytelling and ground-level reporting, New York Times journalist Conor Dougherty chronicles America's housing crisis from its West Coast epicenter, peeling back the decades of history and economic forces that brought us here and taking readers inside the activist movements that have risen in tandem with housing costs.

The Golden Gate at Chautauqua (Classic Reprint) Jul 27 2020 Excerpt from The Golden Gate at Chautauqua The Gate is simply a symbol. It shows that a way has been won by a candidate for admission into St. Paul's Grove and into the Hall of Philosophy. It is a Golden Gate because of the privilege which it confers, and the value of the work which we trust has been wrought for and in the individual, through the ministry of the Chautauqua Literary and Scientific Circle. From Western China to the Golden GateOct 29 2020 Excerpt from From Western China to the Golden Gate: The Experiences of an American University Graduate in the Orient I wish to transport you to a remote point in the west of China, the great city of Chentu; a city so far removed from the United States that when it is noon in New York, it is within eight minutes of midnight there. For while New York is seventy-four degrees west from Greenwich, Chentu is one hundred and four degrees east, so that one hundred and seventy-eight degrees of longitude intervene; nearly one-half the circuit of the globe. When New York is booming with the rush and clangor of noonday, in Chentu the great iron gates which afford entrance and exit have long been closed, for they are locked at sunset; the wooden barriers which separate one section of the city from another have been shut for two hours, and the only signs of life are the night-watchmen making their rounds. With ickering Chinese lantern and vibrating gong. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Black Death at the Golden Gate: The Race to Save America from the Bubonic Plague Jan 13 2022 A spine-chilling saga of virulent racism, human folly, and the ultimate triumph of scientific progress. For Chinese immigrant Wong Chut King, surviving in San Francisco meant a life in the shadows. His passing on March 6, 1900, would have been unremarkable if a city health officer hadn't noticed a swollen black lymph node on his groin—a sign of bubonic plague. Empowered by racist pseudoscience, officials rushed to quarantine Chinatown while doctors examined Wong's tissue for telltale bacteria. If the devastating disease was not contained, San Francisco would become the American epicenter of an outbreak that had already claimed ten million lives worldwide. To local press, railroad barons, and elected officials, such a possibility was inconceivable—or inconvenient. As they mounted a cover-up to obscure the threat, ending the career of one of the most brilliant scientists in the nation in the process, it fell to federal health officer Rupert Blue to save a city that refused to be rescued. Spearheading a relentless crusade for sanitation, Blue and his men patrolled the squalid streets of fast-growing

San Francisco, examined gory black buboes, and dissected diseased rats that put the fate of the entire country at risk. In the tradition of Erik Larson and Steven Johnson, Randall spins a spellbinding account of Blue's race to understand the disease and contain its spread—the only hope of saving San Francisco, and the nation, from a gruesome fate.

Little Toot through the Golden GateJan 30 2021 Little Toot had never been to San Francisco. As he steamed under the Golden Gate Bridge and saw the sunlit bay filled with busy boats of all kinds and the high hills perched above the city, Little Toot knew he was going to have fun. And Little Toot did have fun until the San Francisco fog crept over the bay and engulfed the tiny tugboat. Little toot was lost!

By the Golden Gate Or San Francisco Dec 24 2022 Excerpt from *By the Golden Gate or San Francisco: The Queen City of the Pacific Coast, With Scenes and Incidents Characteristic of Its Life* This work now offered to the public owes its origin largely to the following circumstance: On the return of the author from California and the city of Mexico, in November, 1901, his friend, the Rev. John N. Marvin, President of the Diocesan Press, asked him to contribute some articles to the Diocese of Albany. From these "sketches" of San Francisco this book has taken form. There are chapters in the volume which have not appeared in print hitherto, and such portions as have been already published have been thoroughly revised. Much of the work has been written from copious notes made in San Francisco, and impressions received there naturally give a local colouring to it in its composition. From the Crescent City to the Golden Gate Via the Sunset Route of the Southern Pacific Company (Classic Reprint) Jun 05 2021 Excerpt from *From the Crescent City to the Golden Gate Via the Sunset Route of the Southern Pacific Company* Oh! The Sunset Route, surely. Indeed, it is, in my opinion, the only route one should take during the winter months. I prefer it over all the others at all times of the year, even. It is below the snow line, you know, and is built in a very superior manner; it has the most excellent eating-houses of any of the trans continental lines, makes good time, runs through a thousand kinds of country, presenting a greater variety of scenery than any other route, and has the reputation of taking you into Los Angeles or San Francisco on time, to a second, and always without a scratch. It is a marvellously nice thing, my boy, to crawl into your section every night, while skipping across the country at the rate of from twenty-five to thirty-five miles an hour, and feel that same degree of safety one feels upon retiring in his own house. I can see at once, from what you say, that we should make a mistake in going by any other route, at least at this time of the year. Golden Gate to Hell Gate (Classic Reprint) May 05 2021 Excerpt from Golden Gate to Hell Gate I doubt not that Hammond has told the same story about me. The important thing is, that we made the trip - we did it together, and our friendship has suffered no serious impairment. Constant and inevitable palship for 5000 miles of canon, desert, and a submarine country pike, makes a severe test of friendship. To bridal couples who may come to contemplate it as a transcontinental honeymoon, I offer a vigorous disparagement. As soon as Hammond and I had decided to make a stagger at it, ' we began to find a great deal of trouble in restraining ourselves from stopping everybody on the street and breaking the news. A Merry Crusade to the Golden Gate (Classic Reprint) Nov 30 2020 Excerpt from A Merry Crusade to the Golden Gate That it presents to the fraters who have traveled from all points Of the continent, and from across the seas, a souvenir which will pleasantly remind them of their pilgrimage to the land of sunshine in a year most favorable and opportune, and one intended to commemorate the assembling, upon the golden shores of the vast Pacific, some forty thousand Sir Knights in Triennial Conclave. That the reader, recognizing the difficulties Of adequate treatment of so great a subject, may find in the interest it inspires an indulgent excuse Of any shortcomings. Truly, we have traveled over but a mere portion of this broad land Of ours, but enough, quite enough, to give an idea of its wonders and vastness and to impress the noble and patriotic thought of Thoreau and Cook, SO essential to all of us: Nothing can be hoped for you if this bit Of mould under your feet is not Sweeter to you than any other in the world. Our American Tour; Being a Run of Ten Thousand Miles Aug 27 2020 Excerpt from Our American Tour; Being a Run of Ten Thousand Miles: From the Atlantic to the Golden Gate, in the an Autumn of 1869 N the 10th Of July 1869, we waved adieu to our friends from the deck Of the noble steamer Cuba, and, under happy auspices, steamed down the Mersey. The saloons, the state-rooms, the whole appointments, and in particular the weather, were great improvements upon those described by Charles Dickens in his account Of his trip to Boston, on the occasion Of his first visit to America, in the good ship Britannia. Assured that the Cunard line had never lost the life Of a passenger, and surveying our magnificent vessel, with her excellent arrangements, her able captain, picked Officers and men, we felt satisfied that neither the lifeboats nor lifebelts, SO plentifully provided, were likely to be required. A quiet order prevailed on board, every Officer and man was at his post, doing his appointed duty with a military precision, which to us was reassuring as well as novel. The City of the Golden Gate Oct 22 2022 Excerpt from The City of the Golden Gate: A Description of San Francisco in 1875 Never was there a more unsightly spot for a city. A long ragged peninsula, mottled with mammoth sand dunes, over which swept the sharp

Winds and chilling fogs of summer, and pitiless storms of winter; isolated from the mainland, barren, verdureless horrid to the eye, with the broad Pacific dashing its waves against it on one side, and a stormy inland sea beating upon it on the other - no wonder the heart of the pioneer sunk within him as he gazed upon the inhospitable wilds for the first time. It was no less uninviting in its social aspect. An old church, and a cluster of adobe huts at the Mission; a lot of wretched rookeries at the Presidio; a few hide and tallow ware: houses on the beach - that was all. The population was made up of Greasers, Digger Indians, a few white traders, deserters from whale ships, and adventurers of no nationality in particular, the whole numbering a few hundred souls. Its very name, yerba buena, was strange to American ears. Yet it was manifest to the sharp observer that nature had intended the place for a great city. Nearly twenty years before the first Argonaut had planted his foot upon its site, Captain Bonneville, the famous explorer, predicted that here would rise one of the great marts of commerce and naval stations of the world. The Bay of San Francisco is a vast inland sea. It has an extreme length of over seventy miles, a mean width of ten miles, and a circumference if we include San Pablo and Suisun bays, which are properly its arms - of two hundred and fifty-six miles. Within the circle of its deep water all the navies of the world could safely ride at anchor, for the mighty portals of the Golden Gate protect it against the surf of the Pacific. It is as picturesque as it is grand. A noble amphitheater of hills, Grecian in form and contour, exquisitely varied in play of light and shadow, encircles it. It is dotted with islands and margined with sunny slopes; two vast rivers, the Sacramento and the San Joaquin, bring their tribute of water to it, and innumerable minor streams - children of the valley and the mountain - discharge their crystal treasures into its bosom. It is the home of the sea-gull and the pelican, the porpoise and sturgeon. Even the shark, the sea-lion and the devil-fish not infrequently visit its deeper recesses. New Guardians for the Golden GateMar 15 2022 National parks are a distinctively American idea. But it takes people to make them happen. This unique, insider's account tells how Bay Area activists forged bipartisan local and national support for an unprecedented campaign to create a great new national park. In 1970, beginning with the former Army lands originally reserved to protect San Francisco Bay, the grassroots People for a Golden Gate National Recreation Area succeeded in preserving all of the spectacular land that frames the Golden Gate. Spanning more than thirty eventful years, Amy Meyer tells the story of how dedicated citizens, including visionary conservationist Edgar Wayburn, master politician Phillip Burton, and a battalion of lesser-known but key allies made our democratic system work for the common good and won their fight to save these dramatic and historic lands for all of the American people. Pictures by noted California photographers capture the park's grandeur and new activities. New Guardians for the Golden Gate tells how a bold vision, dedicated citizens, and a variety of old and new conservation strategies saved these magnificent lands for all time.

Paying the Toll Apr 23 2020 Since its opening in 1937, the Golden Gate Bridge has become an icon for the beauty and prosperity of the San Francisco Bay Area, as well as a symbol of engineering achievement. Constructing the bridge posed political and financial challenges that were at least as difficult as those faced by the project's

builders. To meet these challenges, northern California boosters created a new kind of agency: an autonomous, self-financing special district. The Golden Gate Bridge and Highway District developed into a powerful organization that shaped the politics and government of the Bay Area as much as the bridge shaped its physical development. From the moment of the bridge district's incorporation in 1928, its managers pursued their own agenda. They used all the resources at their disposal to preserve their control over the bridge, cultivating political allies, influencing regional policy, and developing an ambitious public relations program. Undaunted by charges of mismanagement and persistent efforts to turn the bridge (as well as its lucrative tolls) over to the state, the bridge district expanded into mass transportation, taking on ferry and bus operations to ensure its survival to this day. Drawing on previously unavailable archives, *Paying the Toll* gives us an inside view of the world of high-stakes development, cronyism, and bureaucratic power politics that have surrounded the Golden Gate Bridge since its inception.

[The Golden Gate \(Classic Reprint\)](#) Jul 19 2022 Excerpt from *The Golden Gate* Fleeta had troops of friends, and often went to gay parties, where the girls danced gracefully, and swung their beautiful dresses daintily, and felt quite like little women; where the boys bowed like princes, and slipped pretty confect ions or ?owers into the hands of the maidens they liked best and where brilliant lights and gay music kept the party awake long after their young eyes should have been closed in sleep. On the other hand, Gretchen's friends were very few. Her companions were the children of the street, whose wicked words often made her tremble, though she would sometimes wind her thin arm about some tattered little shoulder, and whisper that it was wicked to swear, and that mother said God wished everybody to be gentle and good. Both of the little girls had heard the blessed lesson which the Son of God taught, and IS ever teaching, to the sons of men. There are no rich and poor in His school, and whether Fleeta was shown in her gilded Bible the words. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. By Motor to the Golden Gate (Classic Reprint) Apr 15 2022 Excerpt from By Motor to the Golden Gate "Qui s'excuse s'accuse." Which, I suppose, proves this a defence to start with! But having been a few times accused, there are a few explanations I want very much to make. When this cross-continent story was first suggested, it seemed the simplest sort of thing to undertake. All that was necessary was to put down experiences as they actually occurred. No imagination, or plot or characterization - could anything be easier? But when the serial was published and letters began coming in, it became unhappily evident that writing fact must be one of the most unattainably difficult accomplishments in the world. In the first place, only those who, having lived long in a particular locality and knowing it in all its varying seasons, are qualified truly to present its picture. The observations of a transient tourist are necessarily superficial, as of one whose experiences are merely a series of instantaneous impressions; at one time colored perhaps too vividly, at another fogged; according to the sun or rain at one brief moment of time. It would be very pleasant to write nothing but eulogies of people and places, but after all if a personal narrative were written like an advertisement, praising everything, there would be no point in praising anything, would there? The Golden Gate and Back Sep 08 2021 Excerpt from *The Golden Gate and Back: Travel Letters Grand Canyon, Arizona, May 9, 1913.* - Shortly after Mrs. Smith and I returned from the Pacific coast two years ago, I met an acquaintance who greeted me by saying, Well, I read your pieces in the paper. A good many times the Agitator has opened its gracious columns to me, and numerous friends have been kind enough to say nice things regarding my letters of travel. It is doubtless true that many people, whether they themselves have traveled or mostly stop at home, enjoy -descriptions of faraway scenes, and of lands that differ from their own. I like to feel that not only my friends but also others whom I have never met, do me the honor to read what I find pleasure in writing. And so I am going to talk to you all again through the paper, and I begin with this toast. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Five Years Within the Golden Gate (Classic Reprint) Mar 27 2023 Excerpt from *Five Years Within the Golden Gate* The northern part of the great valley above mentioned is drained by the Sacramento river and its tributaries. The southern part is watered, but less effectually, by the San Joaquin stream, which also receives a number of subordinate feeders. Both these main rivers, approaching each other for some distance, at length mingle their waters at a point nearly midway in the great valley, a little distance above San Francisco, through the noble bay of which, so denominated, they finally escape to the ocean. The bay itself is about seventy miles long by fifteen broad, being, at the entrance, narrowed into a channel only about a mile broad, but fully five long, through which its waters escape in a current at the entrance, as the tide ebbs and flows to and from the ocean. But for that channel or strait, the inner waters would remain like a noble lake. This channel or strait, from the western side of the bay, passes on the northern shore between high promontories, which gradually ascend to the Coast Range Mountains, and in the same manner on the opposite side to the bold but less elevated coast on the south. Over the Range to the Golden Gate Jun 17 2022 Excerpt from *Over the Range to the Golden Gate: A Complete Tourist's Guide to Colorado, New Mexico, Utah, Nevada, California, Oregon, Puget Sound and the Great North-West* The country traversed is most interesting, abounding in scenes of the greatest variety, from the broad and billowy expanse of the boundless prairie to the rugged grandeur of the American Alps,

from the picturesque quaintness of New Mexico and the nomadic wildness of the Indian reservations to the polished civilization of metropolitan cities. There is no journey which can be taken on the continent of North America that presents so much of interest to the tourist, and which can be taken with such a comparatively moderate outlay of time and money, as the one described in the following pages. New Mexico, Colorado, Nevada, California, Oregon, Washington Territory! What a field for investigation, investment or pleasure! These are the lands of gold, of silver, of coal, of agriculture, of all fruits known to the temperate and sub-tropical zones. These are the lands of new endeavors, of fresh impulses, and for these reasons are of special interest to tourists, business men, and seekers after health and pleasure. Aside from the interesting character of the subject discussed, there is also a special value in the work now presented to the reader, inasmuch as great care has been taken to gather information that shall be found statistically accurate. In a work of this character\_ it is difficult to combine accurate information with matters of general interest in such a way that neither shall have an undue prominence. The writer has endeavored to attain this desirable medium. One thing is certain, nothing in this book is venal in its character. The opinions here expressed are those of the writer; the descriptions of scenes given here are reproductions of the feelings inspired by those scenes. There has been no bias in any direction. On the contrary, every effort has been made to write judicially, and at the same time, retain the enthusiasm which the traveler naturally feels in beholding new sights and scenes. As an aid to the traveler abundant illustrations have been prepared, which will give the purchaser of this book an idea of what he may expect to see; and which, after he has beheld these places, will serve as a reminder of those pleasant scenes which by their assistance can never fade from his memory.
