globally diverse world. The text's expansive coverage of race and ethnic relations across the globe highlights major points of difference and similarity between the United States and a number of other societies, as well as includes a unique case study comparing four different countries. This unique comparative approach is vital with the increasing ethnic diversity in most contemporary societies as well as the prominence of ethnic conflicts in virtually all world regions. Current statistics, figures, maps, and citations provide up-to-the-minute insight. The Tenth Edition also includes an all-new chapter devoted to Arab Americans. In addition, end-of-chapter critical-thinking questions encourage readers to think in a sociological mode and examine current issues using concepts presented in the text. Technology for Facilitating Humanity and Combating Social Deviations: Interdisciplinary Perspectives

Dec 02 2021
Technology has been used to perpetrate crimes against humans, animals, and the environment, which include racism, cyber-bulling, illegal pornography, torture, illegal trade of exotic species, irresponsible waste disposal, and other harmful aberrations of human behavior. Technology for Facilitating Humanity and Combating Social Deviations: Interdisciplinary Perspectives provides a state-of-the-art compendium of research and development on socio-technical approaches to support the prevention, mitigation, and elimination of social deviations with the help of computer science and technology. This book provides historical backgrounds, experimental studies, and future perspectives on the use of computing tools to prevent and deal with physical, psychological and social problems that impact society as a whole.

An International Perspective
Oct 20 2020 While the health effects of many aspects of life, from diet to marital status, have been extensively explored, little study has been made of the health effects of work. Covering such topics as on-the-job dangers, the role of unions in worker protection, and occupational health in both developed and developing countries, this collection of articles conclusively demonstrates the negative impact that neglect of citizens'

working lives has on public health. With more Americans dying each year from job-related causes than were killed in a decade of combat in Vietnam, "Health and Work Under Capitalism" is a long-overdue and unusually significant book.

Perspectives on Argumentation
Oct 12 2022
Wayne Brockriede's contribution to studies of argumentation continues to influence contemporary research. Perspectives on Argumentation identifies the pertinent theories and contemporary applications on which students can build their own skills of reasoning and can understand the argument practices of others. Book jacket.

Canada, Latin America, and the New Internationalism
Sep 18 2020 Post-war Canadian foreign policy has been characterized by two enduring themes - an ongoing commitment to multilateralism on the one hand, and a substantial commitment to continentalism on the other. In the early 1970s the post-war structures for international politics and economics entered a period that led to a dramatic transformation based on the relative decline of the United States (punctuated by the end of the cold war), the rise of economic interdependence and the new internationalism, and the emergence of citizen-centered foreign policy. These three factors have had a substantial impact on both Canada's role in the world and its relationships with its main political and economic

partners.

Research Perspectives on the Role of Informatics in Health Policy and Management
Nov 01 2021
Healthcare providers require timely and accurate information about their patients. As such, a great amount of effort and resources are spent to ensure that the right information is presented to the right people at the right time. Research Perspectives on the Role of Informatics in Health Policy and Management focuses on the advancements of Health Information Science in order to solve current and forthcoming problems in the health sector. Managers, policy makers, researchers, and Masters and PhD students in healthcare related fields will use this book to provide necessary insight on healthcare delivery and also to inspire new ideas and practices to effectively provide patients with the greatest quality care.
Educational Publishing in Global Perspective
Mar 25 2021
The chain of stakeholders associated with educational books is long and impressive. By contrast, our information about the educational book publishing industry has been fragmented at best. To consolidate and share this information, a seminar on "Understanding the Educational Book Industry" was organized by the World Bank in Washington, D.C., September 9-10, 1997. This report reflects the deliberations that emerged from that seminar. The seminar

focused on four themes: policies for the provision of educational materials; the publishing industry growth in developing countries; thorny issues such as procurement, protection, and copyright; and longer-term solutions. Over the last three years the World Bank has lent approximately US\$550 million in one form or another for textbook components within education projects. With textbooks continuing to be such a rarity in developing countries, we need to pause and ask the questions: Are current processes effective? Do we know enough about the educational book industry to claim that we have helped to promote literate societies? This report attempts to answer these and other questions toward the ultimate goal of educating society.

Ideological Perspectives on Canada Dec 14 2022 In *Ideological Perspectives on Canada*, Patricia Marchak builds on her earlier descriptions of Canadian reality - its liberalism and socialism - to argue that today's corporatism differs from its forerunners in both its values and its definition of society. Marchak argues that liberalism and socialism have many commonalities, such as the goals of equality and freedom for citizens. Corporatism, however, is opposed to equality and promotes an authoritarian hierarchy, resembling the older conservative ideology. To support her argument, Marchak provides a general overview of the study of ideologies, analyzes liberalism and socialism in the context of

Canada, and uses Marxist theory to explain past and present class structure and the emergence of a corporatist social structure. A valuable contribution to the debate about the society we live in, *Ideological Perspectives on Canada* attempts to look at ideologies from an objective standpoint, while admitting that analysts can never fully remove themselves from the web of their own society, which in the Canadian case is steeped in liberalism, socialism, and corporatism.

Argumentation Theory: A Pragma-Dialectical Perspective

Apr 13 2020 The book offers a compact but comprehensive introductory overview of the crucial components of argumentation theory. In presenting this overview, argumentation is consistently approached from a pragma-dialectical perspective by viewing it pragmatically as a goal-directed communicative activity and dialectically as part of a regulated critical exchange aimed at resolving a difference of opinion. As a result, the book also systematically explains how the constitutive parts of the pragma-dialectical theory of argumentation, which are discussed in a number of separate publications, hang together. The following crucial topics are discussed: (1) argumentation theory as a discipline; (2) the meta-theoretical principles of

pragma-dialectics; (3) the model of a critical discussion aimed at resolving a difference of opinion; (4) fallacies as violations of a code of conduct for reasonable argumentative discourse; (5) descriptive research of argumentative reality; (6) analysis as theoretically-motivated reconstruction; (7) strategic manoeuvring aimed at combining achieving effectiveness with maintaining reasonableness; (8) the conventionalization of argumentative practices; (9) prototypical argumentative patterns; (10) pragma-dialectics amidst other approaches. *Argumentation Theory: A Pragma-Dialectical Perspective* is clearly written and makes argumentation theory understandable to all scholars and advanced students interested in argumentation research.

Real Estate Perspectives May 07 2022

Strength and Struggle Sep 30 2021 "Strength and Struggle: Perspectives from First Nations, Inuit, and Métis Peoples in Canada is part of McGraw-Hill Ryerson's Lit Collection of supplementary student resources for high school English courses. This title is a 149-page, soft-cover book that includes a rich array of short stories, poetry, music lyrics, graphic art, articles, essays, and other pieces that will have students laughing, crying, talking, and thinking. It is a true celebration of First Nations, Inuit and Métis writing and art. This resource is designed to be appropriate for a grade 10 or 11 reader."--

Judiciaries in Comparative Perspective

Aug 18 2020 An independent and impartial judiciary is fundamental to the existence and operation of a liberal democracy. Focussing on Australia, Canada, New Zealand, South Africa, the United Kingdom and the United States, this comparative 2011 study explores four major issues affecting the judicial institution. These issues relate to the appointment and discipline of judges; judges and freedom of speech; the performance of non-judicial functions by judges; and judicial bias and recusal, and each is set within the context of the importance of maintaining public confidence in the judiciary. The essays highlight important episodes or controversies affecting members of the judiciary to illustrate relevant principles.

Perspectives in Nutrition

Jun 08 2022 *The Shaping of America: A Geographical Perspective on 500 Years of History* Mar 05 2022 Volume one examines how an immense diversity of ethnic and religious groups ultimately created a set of distinct regional societies. Volume two emphasizes the flux, uncertainty, and unpredictability of the expansion into continental America, showing how a multitude of individuals confronted complex and problematic issues.

Perspectives in Nutrition

Jan 15 2023 *The Canadian Senate in*

Bicameral Perspective Feb 21 2021 The Canadian Senate in Bicameral Perspective is the first scholarly study of the Senate in over a quarter century and the first analysis of the upper house as one chamber of a bicameral legislature. David E. Smith's aim in this work is to demonstrate the interrelationship of the two chambers and the constraints this relationship poses for Senate reform. He analyses past literature on the Senate and current proposals for reform - such as a Triple-E Senate - and compares Canada's upper chamber with those of Australia, the United States, Germany, and the United Kingdom, noting a revival of interest in Canada and abroad in upper chambers and bicameralism. Drawing on parliamentary debates and committee reports, as well as a range of broad secondary sources, The Canadian Senate in Bicameral Perspective examine the Canadian Senate within the international context, shedding light on its role as a political institution and arguing for a renewed investigation into its future.

Ideological Perspectives on Canada

Why Regions Matter: Small Worlds in Comparative Perspective

Mar 17 2023 May 15 2020 Bringing together experts on regionalism and federalism this collection explores the impact of legislative regions on parties and voters. It reflects on the 1980 publication of Small Worlds by David Elkins and Richard Simeon, which outlined how and why voters

and policies differ across Canadian provinces. Using recent data, the essays in this collection provide a comparative re-examination of the impact of regions. The book explores attitude divergence in Canada and in the US, the role and impact of regional parties in Quebec, Scotland and Bavaria, the impact of multi-level governance on how citizens understand and discharge their duties and the capacity of sub-state political systems to influence general political attitudes. The result is an empirical and analytical contribution to regionalism and federalism studies that demonstrates how and why regions matter. This book was published as a special issue of *Regional and Federal Studies*. Pragmatic Idealism Dec 22 2020 Melakopides defines Canadian internationalism as "pragmatic idealism," a balanced synthesis of idealism and pragmatism, and demonstrates concretely how it reflects the principles, interests, and values of the country's mainstream political culture. Focusing on Canada's record in the areas of peacekeeping and peacemaking, arms control and disarmament, foreign development assistance, human rights, and ecological concerns, Melakopides reveals that at the heart of Canadian foreign policy are the concepts and the practice of moderation, communication, mediation, cooperation, caring, and sharing. Pragmatic Idealism is an inspiring challenge to the assumption that all foreign policy is premised on

realpolitik. Students, scholars, and practitioners of Canadian foreign policy as well as historians, Canadianists, members of NGOs, and interested members of the general public will find it an engaging and enlightening experience.

Judicial Activism in

Comparative Perspective Jan 23 2021 The theme of this book is judicial activism in industrialized democracies, with a chapter on the changing political roles of the courts in the Soviet Union. Eleven contributors describe the extent to which the highest courts in their country of expertise have embraced the making of public policy.

Evolutionary Perspectives on Social Psychology

Jul 29 2021 This wide-ranging collection demonstrates the continuing impact of evolutionary thinking on social psychology research. This perspective is explored in the larger context of social psychology, which is divisible into several major areas including social cognition, the self, attitudes and attitude change, interpersonal processes, mating and relationships, violence and aggression, health and psychological adjustment, and individual differences. Within these domains, chapters offer evolutionary insights into salient topics such as social identity, prosocial behavior, conformity, feminism, cyberpsychology, and war. Together, these authors make a rigorous argument for the further integration of the two diverse and sometimes

conflicting disciplines. Among the topics covered: How social psychology can be more cognitive without being less social. How the self-esteem system functions to resolve important interpersonal dilemmas. Shared interests of social psychology and cultural evolution. The evolution of stereotypes. An adaptive socio-ecological perspective on social competition and bullying. Evolutionary game theory and personality. Evolutionary Perspectives on Social Psychology has much to offer students and faculty in both fields as well as evolutionary scientists outside of psychology. This volume can be used as a primary text in graduate courses and as a supplementary text in various upper-level undergraduate courses.

Human Rights in Cross-

Cultural Perspectives Feb 04

2022 Human rights violations are perpetrated in all parts of the world, and the universal reaction to such atrocities is overwhelmingly one of horror and sadness. Yet, as Abdullahi Ahmed An-Na'im and his contributors attest, our viewpoint is clouded and biased by the expectations native to our own culture. How do other cultures view human rights issues? Can an analysis of these issues through multiple viewpoints, both cross-cultural and indigenous, help us reinterpret and reconstruct prevailing theories of human rights?

Perspective Jun 15 2020 Poor corporate governance was identified as one of the root causes of the recent Asian financial crisis. The absence of effective disciplines on corporate managers, coupled with complicated and opaque relationships between corporations, their owners ...

Education and Disability in Cross-Cultural Perspective

Nov 20 2020 A radical departure from previous chronicles of education for people with disabilities, this book views special education from a broader perspective. Its central thesis is that cultural values and expectations play a dominant role in understanding the structure and function of special education. While theories of the social construction of disability have been written about in a growing body of research since the 1960s, no attempt has been made to create a cross-cultural framework. This work offers such a framework. Eight chapters, written by educators in each country's educational system cover the following nations: China, Great Britain, Hungary, Japan, Iran, Pakistan, United States, and Zimbabwe. Historical discussions in each chapter provide a context for current practice. An index and illustrations are also included.

Contemporary Perspectives

in Leisure Aug 10 2022 We are entering a new era of leisure. Quality rather than quantity is now the focus of researchers, policymakers and managers. Technological change, an ageing population and a harsh economic climate are changing the values and

practices of leisure, as well as the relationship between leisure, society and the individual. Contemporary Perspectives in Leisure uses a variety of disciplinary approaches to introduce the most important trends in contemporary leisure in the Twenty-First Century. With contributions from some of the leading international figures in modern leisure studies, the book examines key philosophical and theoretical debates around leisure, with reference to concepts such as happiness, enjoyment and quality of life, as well as the most interesting contemporary themes in leisure studies, from youth leisure and 'dark' leisure to technology and adventure. Understanding changes in leisure helps us to better understand changes in wider society. Contemporary Perspectives in Leisure is a perfect companion to any course in leisure studies, and useful reading for any student or scholar working in sociology, cultural studies, recreation, tourism, sport, or social psychology.

The Serious Leisure Perspective May 27 2021 The "Serious Leisure Perspective" (SLP) is a theoretical framework that can help us

understand the complexities of modern leisure as both an activity and an experience. Bringing together the study of serious leisure, casual leisure and project-based leisure, it is an essential component of the Leisure Studies curriculum and an invaluable tool for exploring the significance of leisure in contemporary society. This book is the first to offer a comprehensive introduction to the Serious Leisure Perspective, from fundamental principles and key concepts to in-depth and wide-ranging case studies of serious leisure pursuits. The book introduces the history of the SLP and its position alongside other social theories that attempt to explain the nature and function of leisure. It explores important themes such as consumption, gender relations, social capital and quality of life, and delves deeply into the leisure of amateurs, hobbyists, career volunteers and occupational devotees. Every chapter includes a range of useful pedagogical features, such as review questions and group exercises, to help the student to grasp the importance of understanding leisure as a way of understanding contemporary social life and society.

Combining cutting-edge theory and method with an engaging and practical interface, this is an essential text for all Leisure Studies courses and illuminating reading for any student working in Tourism, Events, Sport, Recreation, Sociology or Cultural Studies. **First Nations** Aug 30 2021 First published in 1993, First Nations: Race, Class, and Gender Relations remains unique in offering systematically, from a political economy perspective, an analysis that enables us to understand the diverse realities of Aboriginal people within changing Canadian and global contexts. The book provides an extended analysis of how changing social dynamics, organized particularly around race, class, and gender relations, have shaped the life chances and conditions for Aboriginal people within the structure of Canadian society and its major institutional forms. The authors conclude that prospects for First Nations and Aboriginal people remain uncertain insofar as they are grounded in contradictory social, economic, and cultural, and political realities. *Industrial Relations in International Perspective* Apr 06 2022
