Beginning Boy Scouts is an introduction to the youth program of the Boy Scouts of America. It is an unofficial guide to Boy Scouting to help parents, new leaders, and even scouting youth to better understand scouting goals and participate in Boy Scouting. It quickly answers numerous common questions and provides instruction and advice for parents and leaders -- to help know "what is first?" and how to get started, preparing for outdoor activities and summer camp, uniforms, leadership and the Patrol Method, earning awards and badges, Eagle planning and Eagle paperwork, and how to participate. It introduces the terminology and defines the common scouting lingo. Revised and updated. The Prepper's Guide to Foraging is not a plant identification guide in the traditional sense. It is instead a guide to using plants to supplement other means of food production and subsistence living. Author David Nash believes that there is not enough land available for to support a large-scale return to the hunter-gatherer lifestyle in the event of a large-scale disaster, but that botanical knowledge does provide an edge to the well prepared. This book advocates the acquisition of knowledge to allow its reader to safely identify, harvest, and use common North American plants. Wild plants can provide shelter, material, medicine, and food to help the reader extend stored food as well as to create items that may be otherwise unavailable during a crisis. Twenty-five easily identified plants common to the United States are described and illustrated with notations for their common usage. Each plant described in this book comes with one recipe for food as well as detailed instructions for at least one alternative use. Additional instructions for the preparation of standard medicinal items like tinctures, creams, and infusions are included as well as botanical guides to help identify other plants is included. Special emphasis has been added for North American trees. Be Prepared. Recognizing the lack of a national standard for wilderness first aid, The Boy Scouts of America formed a Task Force consisting of wilderness medicine specialists, medical epidemiologists, legal expertise, and educators to develop a curriculum and doctrine for a 16 hour wilderness first aid (WFA) course. Buck Tilton was the lead author of this project. As author he had to amalgamate the results of the literature research performed by the Task Force and through multiple revisions until this final product was developed. The Task Force is indebted to Buck for his hours of dedication to the project. Persons taking this course will have an appreciation of how wilderness first aid differs from standard, urban fist aid. Many readers will want to learn more about this fascinating and critical skill needed by all outdoor travelers. Some will be inspired to continue their education with a wilderness first responder course. This book contains the full doctrine that the Task Force approved. It provides a portable resource for use in the field as well as a text for the WFA course. It will be your introduction to the basic skills and knowledge all wilderness travelers should possess. AN INSTANT NEW YORK TIMES BESTSELLER • A REESE'S BOOK CLUB PICK Tired, stressed, and in need of more help from your partner? Imagine running your household (and life!) in a new way... It started with the Sh*t I Do List. Tired of being the “shefault” parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family—and then sent that list to her husband, asking for things to change. His response was...underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough: She needed a solution to this universal problem. Her sanity, identity, career, and marriage depended on it. The result is Fair Play: a time- and anxiety-saving system that offers couples a completely new way to divvy up domestic responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out what the invisible work in a family actually entails and how to get it all done efficiently. With 4 easy-to-follow rules, 100 household tasks, and a series of conversation starters for you and your partner, Fair Play helps you prioritize what's important to your family and who should take the lead on every chore, from laundry to homework to dinner. “Winning” this game means rebalancing your home life, reigniting your relationship with your significant other, and reclaiming your Unicorn Space—the time to develop the skills and passions that keep you interested and interesting.
