Updated and revised to include ten years of new developments in real estate investment, Real Estate Finance and Investment Manual, Ninth Edition is the definitive guide to financing for all real estate investors. Understand all the financing options, learn how to choose an appropriate strategy, read about insider techniques, and get hands-on experience with case studies and helpful checklists. **WARNING:** This book is not about politics nor does it promote being a jerk; however, victims, wimpy-minded, and lazy people will hate it. This real estate handbook is not like the others: it has flow charts and over 100 common (and not-so-common) real estate agent tasks presented as simple, step-by-step recipes. And it has pictures. And it's funny (or at least grin-worthy). In other words, it's comprehensive and not boring. The best part is: as a collection of brief articles, this book is easy to digest in small bites; however, because real estate tasks are so interrelated, each article is heavily cross-referenced. This way, the reader may delve deep into any topic (or train of thought) by either turning the page or by following a cross-reference. Such layout makes for easy navigation now and in the future, because you'll wanna return to certain articles over and over again. So, you can read it from cover-to-cover, or you can choose your own real estate adventure, reading only the bits that fit your current curiosity. You will learn: How-to choose a broker who fits your needs; How-to maximize your prospecting efforts (including 105 ways

to meet prospects); How-to pre-qualify buyers and sellers (so you don't waste time on duds); How-to discover what your buyers really want; How-to show property and help your buyers decide; How-to conduct a slam-dunk listing presentation; How-to attract buyers to your listings; How-to draft offers/create contracts/negotiate (including low-ball and multiple offer situations); How-to get your clients to the closing table; How-to avoid commission breath and ensure you get paid; How-to study the marketplace through statistical analysis; How-to value real property and pick The Right Price; How-to business plan/track agent stats/identify and alleviate bottlenecks; How-to create a niche for more income; How-to create and practice scripts; How-to create and refine systems; How-to banish victimhood and take charge of your real estate sales business. Plus much, much more! Frankly, this book should cost \$100, but the author wants to give it away cheap. Get yours now before he changes his mind. This workbook provides information which is needed to prepare for successful real estate development. It offers a comprehensive guide for the planning and implementing of the development process.
