Tips, strategies, tactics, forms, and real-word advice for starting - or building - a family law practice. Written by a successful and happy family lawyer, this book explains the skills and knowledge necessary to thrive in a challenging area of the law. It takes a no-nonsense approach in explaining the most critical issues for developing a successful career. Examples and practice tips show how to gain experience, understand the business aspects of a practice, develop and maintain the ideal client mix, and manage staff and finances. CD-ROM with forms and related materials. With topics ranging from the glory of marriage to passing on one's legacy, this **Foundations for the Family** book shares a consistent and convincing message that must be heard by Christians: it is time to rebuild our families. This interdisciplinary volume examines the relationship between community resilience and family resilience, identifying contributing factors on the micro-, meso-, and macro-level. Scholars and practitioners focus on how community-level policies and programs facilitate the distribution of resources, assets, and opportunities that provide valuable assistance to families who are struggling or in crisis due to economic hardship, mental illness, and the effects of natural and human made disasters. Additionally, representatives of local government and community agencies on the "front lines" of developing policies and programs to assist families provide valuable context for understanding the ways communities provide environments that encourage and nurture family resilience. Among the topics covered: How cities promote resilience from a public health perspective Family resilience following the Deepwater Horizon oil spill Resilience in women from trauma and addiction Trauma-sensitive schooling for elementary-age students Developing family resilience through community based missions Resilience and the Community will be of interest to policy-makers, researchers, and practitioners seeking to facilitate the development of evidence-based resilience practices, programs, and/or policies for those working with families at risk. **A Powerful Approach to Bringing God's Grace to Kids** Did you know that the way we deal (or don't deal) with our kids' misbehavior shapes their beliefs about themselves, the world, and God? Therefore it's vital to connect with their hearts--not just their minds--amid the daily behavior battles. With warmth and grace, Jim and Lynne Jackson, founders of **Connected Families**, offer four tried-and-true keys to handling any behavioral issues with love, truth, and authority. You will learn practical ways to communicate messages of grace and truth, how to discipline in a way that motivates your child, and how to keep your relationship strong, not antagonistic. Discipline is more than just a short-term attempt to modify your child's actions--it's a long-term investment to help them build faith, wisdom, and character for life. When you discover a better path to discipline, you'll find a more well-behaved--and well-believed--kid. Learning how to get along with family not only strengthens the family and each member's emotional security, it also provides individuals with valuable relationship-building tools and skills that will serve them well outside the family—in school and at work and throughout the larger web of life's relationships—friends, classmates, teachers, co-workers, bosses, neighbors, romantic partners, and one's own children. Studies show that strong family relationships help teens stay away from drugs and alcohol. Strong bases also help them stay out of trouble with the authorities, such as police or school officials. For many teens, improved school performance is also a benefit of strong family relationships. There is no one secret to help you get along in complex relationships. There are, however, sensible tips to help you not only merely get along with family members, but build healthy,

enriching, rewarding, and enduring relationships that will provide strength, support, and security throughout your life. This volume enables readers to pursue healthy relationships with these tips and serves as an essential guidebook to the most central and important relationships of your life. Readers are encouraged to be actively involved with the 10 Great Questions to Ask and Myths & Facts that are provided. This book highlights key principles emerging from the process of implementing an entire community and government approach to supporting families at risk of vulnerability. Drawing on the expertise of a number of practitioners and researchers, it also examines the efficacy of some of the early intervention and prevention strategies developed through the Australian Communities for Children initiative. It will be of particular interest to community services, education and child welfare practitioners and policy makers involved with, or contemplating involvement in, implementing a place-based collective impact approach to child development, wellbeing and protection. How can we better engage with families at risk in a digital world? How can we deliver holistic, integrated support? How can we redesign our family support systems? What kind of leadership and governance will it take to implement the kind of systems change that delivers improved outcomes? These are critical questions we need to engage with if we are to collaboratively redesign inadequate, siloed approaches and build family-friendly communities that improve the lives of children and families. This book has been written for parents who have used donor insemination to build their families and also for those considering whether donor insemination is the right option for them. The parents who share their stories in this book tell of the range of thoughts and feelings that they experienced from the time they discovered they needed help to build their families. They discuss the issues they faced concerning the decision to be honest and open with their children and how they talked with them. Here Ken Daniels brings together information from interviews with parents who have used donor insemination and those considering doing so. This interview material offers the reader unique insights from those who have built their families with the assistance of DI.

How to Build-and Keep-Generational Wealth! How can a family build "safe and sure" wealth... that lasts for generations? That's the question answered by *Perpetual Wealth*. You'll discover how families can create wealth together to serve the good of all. The authors call it "Family Financing," and it's about much more than money! Among the many fascinating and insightful points, you'll learn: Why "typical" financial advice sabotages long-term wealth The "4 Cornerstones of Generational Wealth" that ensure an inheritance will be wisely used, not wasted Why life insurance is "better than a bank" for growing wealth 13 "rules" for raising financially responsible children Plus, how to invest in the future of your family... and leave a lasting legacy *Perpetual Wealth* also includes an engaging story of a fictional family that will show you examples and ideas for: Family retreats to learn and grow together Writing a family mission statement Using Family Financing for leadership development Guidelines for family saving, lending, and borrowing And much more "The idea of *Perpetual Wealth* has always fed my Soul Purpose. "Perpetual" meaning long-term legacy, and "Soul Purpose" meaning what I was put on earth to do/give. Those two go together in a way that drives my energies every day. This book gives you some concrete steps to take with your family to work on both legacy and your own sense of your gifts (and your family's gifts) to the world." - Garrett Gunderson

New York Times bestselling author and Chief Wealth Architect of Wealth Factory Create a Loving and Safe Environment for Your Blended Family Blended families face unique challenges, and sadly, good intentions aren't always enough. With so many complex relationships involved, all the normal rules for family life change, even how you apply something as simple as the five love languages. That's why Gary Chapman, the bestselling author of *The 5 Love Languages®* and national expert on stepfamilies, Ron Deal, join together in this book to teach you how the five love languages can help your blended family. They'll teach you: About the unique dynamics of stepfamilies How to overcome fear and trust issues in marriage How to develop healthy parenting and step-parenting practices How the love languages should—and should not—be applied You're going to face many challenges, but with the right strategies and smart work, your family can be stronger and healthier together. Fear is a natural part of daily life. It's so common that, often, we don't even notice it. And yet, it dominates our decisions. Because of the value we as a society put on fear, we idolize safety, appearances, materialism, and power, turning to those things in hopes that they will lessen our anxieties. But Jesus preached a different way. In *Fearless Families: Building Brave Homes in an Uncertain World*, author and pastor Kevin A. Thompson shows us that, when we are led by love, we will choose: trust over safety heart over appearances connection over materialism submission over power Thompson demonstrates how, as we make choices based on these values, our fears will decrease and our love will increase. Children in today's world are inundated with information about who to be, what to do and how to

live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B. Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform.

Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well. This book has been written for parents who have used donor insemination to build their families and also for those considering whether the donor insemination option is the right option for them. The parents who share their stories in this book tell of the range of thoughts and feelings that they experienced from the time they discovered they needed help to build their families. They discuss the issues they faced concerning the decision to be open and honest with their children and how they talked with them.

Here Ken Daniels combines parents' expectations with his and others' research and thinking. The result is a book that will contribute to the health and well-being of families that have been built with the assistance of donor insemination. Creative ideas, real-life stories, and Scriptural guidance for being the family that loves being together. Building Family Ties with Faith, Love, and Laughter is the second of three books in the Faithful Families series where Dave applies his practical, conversational, and humorous approach to the challenge of building strong spiritual ties to each other as a family. Topics include: Contentment, Security, Loyalty, Gratitude, Spontaneity, Communication, and more. Preaching is his gift, but Pastor Dave Stone's family is his life's blessing. While raising three kids with his wife, Beth, as well as shepherding the diverse families of his congregation, his heart, and passion for building strong families rings louder than ever. He knows that raising faithful families is a key to the future of the church. "Dave's book is full of no nonsense, common sense suggestions, and biblically inspired truth. As a parent of two "under construction" children still finding their way in a fallen world, I am keenly aware of the importance of living a life of faithful integrity in order to actually teach it to our kids. I, of course, have failed miserably on occasion. But then, I didn't have Dave's book like you do!"—Kathie Lee Gifford In Building a Successful Family Business Board ,

the authors show why private firms need the in-depth expertise and objective feedback that a well-chosen board, including qualified independent directors, can provide, and demonstrates how owners and directors can work together to ensure a long and profitable life for the firm. Low-income families have scant savings to cushion a job loss or illness, and can find economic mobility impossible without funds to invest in education, homes, or businesses. And though a lack of resources leaves such families vulnerable, income-support programs are often closed to those with a bit of savings or even a car. Considering welfare-to-work reforms, the increasingly advanced skill demands of the American workforce, and our stretched Social Security system, such an approach is inadequate to lift families out of poverty. Asset-based policies--allowing or even helping low-income families build wealth--are an increasingly popular strategy to facilitate financial stability. Selected as one of Motley Fool's "5 Great Books You Should Read" Advice on managing your wealth from bestselling author Bill Bonner From trusted New York Times bestselling author Bill Bonner comes a radical new way to look at family money and a practical, actionable guide to getting and maintaining

multigenerational wealth. Family Fortunes: How to Build Family Wealth and Hold on to It for 100 Years is packed with useful information, interwoven with Bonner's stories about his own family's wealth philosophy and practices. A comprehensive guide that shows how families can successfully preserve their estates by ignoring most of what people think they know about "the rich" and, instead, training and motivating all family members to work together toward a very uncommon goal. This book is a must-read for all individual investors—even those who do not plan to leave money to their children—because it challenges many of the most ubiquitous principles and rules of investing. You might expect a book on family wealth to be extremely conservative in its outlook. Instead, the Bonners announce what is practically a revolutionary manifesto. They explain: Why family money should NOT be invested in "safe, conservative" investments Why charitable giving is usually a waste of money, or worse Why it is NOT a good idea to let children go their own way Why you can't trust wealth "professionals" and why you should never entrust your money to money

managers Why giving your children as much education as possible is NOT a good idea Why Warren Buffett and the rest of the rich people asking for higher tax rates are wrong to take "the pledge" Why Wall Street is a graveyard for capital, why most celebrity CEOs are a threat to the businesses they run, why modern capitalism is a failure, and more You will come away with a very different idea as to what family wealth is all about. It is not stodgy. Not boring. Not moss-backed and reactionary. On the contrary, it is the most dynamic, forward-looking capital in the world. The essential guide to passing wealth from one generation to the next, *Family Fortunes* is filled with concrete, practical advice you can put to use right away. The truth is, child rearing is not complicated. Therefore, it is not hard. There will be difficult moments, of course, . . . but if a parent is experiencing the rearing of a child or children as generally difficult--as emotionally, intellectually, and even physically exhausting, then the parent is doing something wrong. --John Rosemond, *Family Building*

Trusted family psychologist John Rosemond has a revolutionary message for today's parents: Your grandparents' generation knew a lot more about raising children than all of today's experts. The experts have turned child rearing into a complicated, exhausting chore rather than the simple, straightforward task it should be. In *Family Building: The Five Fundamentals of Effective Parenting*, Rosemond outlines the five key principles of traditional parenting that are crucial to raising well-behaved children today. * It's about the family, not the children. * Where discipline is concerned, it's about communication, not consequences; leadership not relationship. * It's about respecting others, not high self-esteem. * It's about manners and morals, not skills. * It's about responsibility, not high achievement. Each chapter includes questions from real parents faced with real-life parenting challenges, and in his typical no-nonsense style, Rosemond provides practical solutions. *Family Building* restores common sense to parenting and puts the parents back in charge. Once again, John Rosemond delivers child-rearing wisdom that no parent should miss. "Family isn't always your relatives. It's the ones who accept you for who you are. The ones who would do anything to see you smile, and who love you no matter what." -Unknown

Teachers do so much more than just teach academics. They build a sense of community within their classrooms, creating a home away from home where they make their students feel safe, included, and loved. With its heartfelt message and colorfully whimsical illustrations, "Our Class is a Family" is a book that will help build and strengthen that class community. Kids learn that their classroom is a place where it's safe to be themselves, it's okay to make mistakes, and it's important to be a friend to others. When hearing this story being read aloud by their teacher, students are sure to feel like they are part of a special family. And currently, during such an unprecedented time when many teachers and students are not physically IN the classroom due to COVID-19 school closures, it's more important than it's ever been to give kids the message that their class is a family. Even at a distance, they still stick together.

Fatherhood is complex and confusing. Modern culture isn't helping. Dads today need real practical insight to navigate toward God's design for fatherhood. Jeremy has collected some of his favorite insights into one book that we trust will help serve you as a compass for fatherhood. This book presents a transtheoretical 'response system framework' for understanding family practice. This framework organizes theoretical information, assessment protocols, skills, and intervention strategies into a learning structure that helps students understand myriad client situations and the intervention strategies that would be most appropriate for those specific situations. Using this over-arching structure, and focusing on two systems of response--action systems (how family members behave and interrelate) and processing systems (how family members interpret/feel)--Ragg guides readers through the five parts of the book with the goal of building holistic family intervention skills. These five parts are comprised of: 'Family thinking', or knowledge of family systems; 'Assessing families'; 'Building the Working Alliance'; 'Change-Focused Intervention'; and 'Working with Multi-Problem and High-Risk Families.'

Just Schools examines the challenges and possibilities for building more equitable forms of collaboration among non-dominant families, communities, and schools. The text explores how equitable collaboration entails ongoing processes that begin with families and communities, transform power, build reciprocity and agency, and foster collective capacity through collective inquiry. These processes offer promising possibilities for improving student learning, transforming educational systems, and developing robust partnerships that build on the resources, expertise, and cultural practices of non-dominant families. Based on empirical research and inquiry-driven practice, this book describes core concepts and provides multiple examples of effective practices. "This is the most compelling work to date on school and community engagement. It will be required reading for all my future classes."

—Muhammad Khalifa, University of Minnesota "Full of practical steps that educators and administrators can and must take to build strong collaborations with families." —Mark R. Warren, University of Massachusetts

Boston “This important publication provides a way forward for educators, families, students and community members to co-create “Just Schools” by honoring, validating, and celebrating each other’s knowledge, skills, power and resources.” —Karen Mapp, Harvard Graduate School of Education

This book examines the representation of infertility, assisted reproduction, miscarriage, adoption and surrogacy in a wide range of media, including blogs, vlogs, social media posts and factual programming. In so doing, it illustrates how pregnancy loss, involuntary childlessness and non-traditional mothering are being depicted across the media landscape. Whilst the topic of motherhood has emerged as a significant area of academic debate, narratives of unsuccessful or unconventional mothering have remained largely absent, even at a time when there is a growing conversation about infertility online. Timely, pertinent and original, the book demonstrates the importance of a broader and more informed cultural discussion about fertility and family building. Today more Americans are part of a second-marriage family than a first. Inevitably, these newly blended “stepfamilies” will be confronted by their own special problems and needs. This insightful problem-solving guide offers solid solutions—and includes real-life stories from families who've been through the adjustment process. Written by an award-winning author who specializes in health and family care, the book covers a wide range of issues—emotional, financial, disciplinary, and interpersonal. Naturally, there is no “one-size-fits-all” solution for second-marriage families. Each is unique, with its own composition, personalities, and problems. But with patience and understanding, this new family can work, live, and eventually love—together. Includes special sections on: * Family communication * Former spouses * Grandparents and step-grandparents * Juggling households * Commuting children * Discipline * School issues * Family customs and rituals * Religious differences * Reducing stress * Adult time * Money issues * Holiday planning * Vacations * Curfews and other rules

Most family business owners and wealth creators share an important vision: perpetuating family and wealth for many generations to come. To ensure wealth continuity, many families put into place various structures, plans, and processes, including estate plans (which may include multiple trusts), ownership succession plans, governance structures/strategies, and others. These sometimes-elaborate plans are aimed at preserving family wealth. In reality, for many families, they don’t. In fact, it has been estimated that a majority of estate plans in place fail, largely as a result of family conflict or communication problems. Author David Lansky reveals here that too many one-size-fits-all and elaborate continuity plans fail to take into account the idiosyncratic family factors that can interfere with continuity planning. Lansky details further how building the right foundation will help families implement the best continuity plans. Addressing that foundation effectively includes understanding the building blocks that make it up, assessing their strengths, and developing strategies to improve them. The specific building blocks include: • Learning Capacity • Familyness • Safe Communication Culture • Commitment to Personal Development • Effective Leadership of Change

While richly informative, this book is not intended as a training manual, but rather as a starting point for important ideas and conversations. In fact, the goal of this book is to help families consider several related factors that go into a foundation for continuity, and to build more effective continuity plans and strategies based on their assessments. Parenting is perhaps the most important job you'll ever have, and it may be the hardest. The way you interact with your kids today will leave an imprint and produce results for generations. What could be more important than gaining tools to be the best parents we can be? That's what *Reset Families* is all about. You'll walk away from this book with ideas and practical tools to help you end power struggles, have fun and build strong connections with your kids, set clear expectations. Is it really possible to have the home life you want with the people you love? The most exciting part of any home improvement show is the big reveal—that moment when a drab, run-down house becomes a breathtaking new home. What if you could have that with your home life? That’s what the *DIY Guide* is all about. In it, you’ll find practical tools for transforming your home life and dramatically improving your family’s culture from Shannon Warden and Dr. Gary Chapman, author of the New York Times #1 Bestseller *The 5 Love Languages*®. Each chapter teaches you a new home life skill and pairs it with a home improvement metaphor that makes it fun and easy to remember. You can’t hire a contractor for this work, but if you’re willing to put in the sweat equity (hard work), you’ll see results fast. Don’t wait any longer. Get started today and give your relational space the renovations it deserves. The Matthewses knew their family wasn't done growing. Diana prayed for the perfect parents. Dias was waiting patiently for his Papa and Momma to take him home. They were all determined to have a family and were strangers that lived half a world away from each other. This is the true story of how a family grew through adoption. This experience is told through the memories of the original four Matthews' family members and Diana and her

brother Dias. This heart-warming book will give readers young and old, in a family or waiting for their Forever Families another reason to believe that dreams do come true! "Diana, now nine years old, had no idea that she was available to be adopted. She dreamed of the perfect parents she would want. She had not seen Dias for a long time. Diana wondered about how he was doing... two years had gone by." Navigate the complex decisions and critical relationships necessary to create and sustain a healthy family business—and business family. Though "family business" may sound like it refers only to mom-and-pop shops, businesses owned by families are among the most significant and numerous in the world. But surprisingly few resources exist to help navigate the unique challenges you face when you share the executive suite, financial statements, and holidays. How do you make the right decisions, critical to the long-term survival of any business, with the added challenge of having to do so within the context of a family? The HBR Family Business Handbook brings you sophisticated guidance and practical advice from family business experts Josh Baron and Rob Lachenauer. Drawing on their decades-long experience working closely with a wide range of family businesses of all sizes around the world, the authors present proven methods and approaches for communicating effectively, managing conflict, building the right governance structures, and more. In the HBR Family Business Handbook you'll find:

- A new perspective on what makes family businesses succeed and fail
- A framework to help you make good decisions together
- Step-by-step guidance on managing change within your business family
- Key questions about wealth, unique to family businesses, that you can't afford to ignore
- Assessments to help you determine where you are—and where you want to go
- Stories of real companies, from Marchesi Antinori to Radio Flyer
- Chapter summaries you can use to reinforce what you've learned

Keep this comprehensive guide with you to help you build, grow, and position your family business to thrive across generations. HBR Handbooks provide ambitious professionals with the frameworks, advice, and tools they need to excel in their careers. With step-by-step guidance, time-honed best practices, and real-life stories, each comprehensive volume helps you to stand out from the pack—whatever your role. From surrogacy and adoption, to transgender pregnancy and finding child care, parenting as an LGBTQ person is complex. This book is an authoritative, comprehensive, and easy-to-read guide to parenthood and family building for LGBTQ people. The path to becoming a parent is complicated for LGBTQ people. Some LGBTQ people don't consider parenthood because of stereotypes and barriers, while others are interested in parenthood but unsure about the first steps or overwhelmed by the path to take. Still others are discouraged by the attitudes of their family, community, or religion. This book provides LGBTQ parents and prospective parents with the detailed, evidence-based knowledge they need to navigate the transition to parenthood, and help their children thrive. Dr. Abbie E. Goldberg, psychologist and researcher, uses the results of her LGBTQ Family Building Project to help challenge traditional beliefs that have often been weaponized against LGBTQ people to prevent or discourage them from becoming parents. Dr Goldberg walks readers through the various steps and decision points in becoming a parent, describes key research findings on family building, and offers key questions and reader-friendly checklists to easily enable readers to evaluate the LGBTQ friendliness and overall "fit" of adoption agencies, health care providers, day cares, and other institutions. Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of

practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States. Describes how successful families build a loving environment, effectively resolve problems, and cope with human relations issues Learn how to work with and relate to the family of each child in an early childhood education program. Includes ideas about transforming the way schools and programs relate to families - each one according to their unique assets and needs with the goal of enriching and enlivening the school community and ensuring better outcomes for each child and the entire program. It will emphasize strategies for getting to know each family the way you get to know an individual person, and learn about their interests, their strengths, their style of interacting and their needs/challenges to encourage programs to move away from one-size-fits-all approaches to family engagement. Family meetings are proven ways to involve everyone-kids and adults-in planning, solving problems, creating traditions, and staying close. This inviting book makes family meetings meaningful, manageable, and fun for everyone. Includes 52 agendas and many write-on pages. "'Indebted' takes readers into the homes of middle-class families throughout the nation to reveal the hidden consequences of student debt and the ways that financing college has transformed family life"--Amazon This honest and enlightening book from one Christian parent to another is filled with encouragement and time-tested techniques for anyone who wants to ensure the health and happiness of their own family. Jim Burns will be the first to tell you that no family is perfect – including his own – and in *10 Building Blocks for a Strong Family*, he emphasizes the heartening news that most parents do a good job of parenting but just don't know it. Here parents will find personal stories from interviews with parents and experts on family relationships, covering almost every aspect of parenting – from helping children deal with stress to learning to play together as a family. When readers learn the 10 essential principles for creating a strong, close-knit household, they'll discover a family that shines with love for God and one another! When opening your toolbox for building your family team, you might find it quite scarce or even empty. How can you train your children and cultivate a healthy culture? How do you begin to stop thinking about family as a collection of individuals and more as a team? What are the practical steps you can take to rest and reevaluate your rhythm regularly? In *31 Creative Ways to Build Your Family Team*, Kelsey and Jeremy layout simple ways to start thinking about family intentionally. Each day brings a new idea, change or tip that can range from being serious to whimsical for families with kids of all ages! Take this one month journey with your spouse and come out the other side with new ideas and a deeper understanding of how to build your family team. Going through *31 Creative Ways to Build Your Family Team* will: -Give you practical tools for training and engaging that you can implement right away-Transform your family culture-Connect on a deep level regularly-Cultivate a team-identity-Create family rhythms and ways to continually improve on them-Help you develop language to grow in healthy communication
