The Carp Jul 25 2023 As a group, carp provide 4 million metric tonnes of fish annually - over a quarter of all fish culture worldwide. For the first time, a book is available in English that concentrates solely on the carp as an economic rather than an ornamental fish with a panel of international experts producing a comprehensive, practical volume about carp production and management. Starting with a brief look at the biology of cyprinids, the book then discusses the methods and management of carp farming, from water quality to the economics of fish production in ponds. Novel methods to improve stock, including genetic engineering, are covered and case studies give added value to the text. As carp farming turns from traditional to intensive methods, farmers, researchers and technicians in industry will welcome this benchmark volume, which also is a valuable reference book for graduate and postgraduate students and lecturers in aquaculture.

**Wartime Sites in Paris** Jan 27 2021 Paris, the City of Light, is the most popular tourist destination in Europe. Celebrated in painting, literature, film, and song, Paris never ceases to delight its millions of visitors. This book is a guide to historical sites in Paris associated with the Second World War, which official French histories call La Guerre 39-45. Understandably, the dark years of the German Occupation are a time the French prefer not to remember at all. Why should they? Would anyone expect them to put a plaque on the former Gestapo headquarters at 74, avenue Foch or 9, rue des Saussaies? As the Resistance developed, screams from the interrogation rooms kept neighbors awake at night. But these places, all described here, are harrowing reminders, often unmarked, of a time of humiliation and privation, unspeakable cruelties and brutal murders, but also of heroism and hope.
