“As poet, prophet, and priest, Thurman builds upon a powerful legacy of ancestral hope: belief in a liberating God who can always be found ‘in and among the struggling.’” —Yolanda Pierce A universal beacon of hope and endurance for people of all faiths seeking to meet the challenges, uncertainties, and joys of life Howard Thurman’s *Meditations of the Heart* is a beautiful collection of over 150 prayers, poems, and meditations on prayer, community, and the joys and rituals of life by one of our greatest spiritual leaders. Thurman, a spiritualist and mystic, was renowned for the quiet beauty of his reflections on humanity and our relationship with God. In a new foreword, Yolanda Pierce, dean of Howard University’s School of Divinity, calls attention to the justice-centered theological framework of Thurman’s words. Pierce notes how Thurman brings to light an image of God who can always be found “in and among the struggling,” both in times of weariness and in strength. First written for and shared with his congregation of the Church for the Fellowship of All Peoples in San Francisco, California, these meditations sustain, elevate, and inspire. They are a universal beacon of hope and endurance for people of all faiths seeking to meet the challenges, uncertainties,

and joys of everyday life with a renewed and liberating faith. "Can preaching recover a Blues sensibility and dare speak with authority in the midst of tragedy? America is living stormy Monday, but the pulpit is preaching happy Sunday. The world is experiencing the Blues, and pulpiteers are dispensing excessive doses of non-prescribed prosaic sermons with severe ecclesiastical and theological side effects." —from chapter 1 Uniquely gifted preacher Otis Moss III helps preachers effectively communicate hope in a desperate and difficult world in this new work based on his 2014 Yale Lyman Beecher Lectures. Moss challenges preachers to preach with a "Blue Note sensibility," which speaks directly to the tragedies faced by their congregants without falling into despair. He then offers four powerful sermons that illustrate his Blue Note preaching style. In them, Moss beautifully and passionately brings to life biblical characters that speak to today's pressing issues, including race discrimination and police brutality, while maintaining a strong message of hope. Moss shows how preachers can teach their congregations to resist letting the darkness find its way into them and, instead, learn to dance in the dark. Strongly influenced by his grandmother, a former slave, who raised him and a Quaker mystic under whom he studied,

Thurman adopted a philosophy of activism rooted in faith, guided by spirit, and maintained in peace. Editor Donna Schaper selects forty inspiring passages from the works of this spiritual advisor to Dr. Martin Luther King, Jr. to accompany readers on their own spiritual journeys. Ideal for traveling through the seasons of Advent and Lent. Spain has had a long history of exiles. Since the destruction of the last Muslim territories in Granada in 1492, wave after wave of its people have been driven from the country. *The Disinherited* paints a vivid picture of Spain’s diverse exiles, from Muslims, Jews and Protestants to Liberals, Socialists and Communists, artists, writers and musicians. Kamen describes the ways in which many of these expelled citizens have shaped Spanish culture - or impoverished it by leaving - and enriched their adopted homes through their creative responses to exile and to encounters with new worlds, Picasso, Miró, Dali and Buñuel among them. Henry Kamen’s compelling and sympathetic account tells the story of their incalculable impact on the world. Famously known as the text that Martin Luther King Jr. sought inspiration from in the days leading up to the Montgomery bus boycott, Howard Thurman’s *Jesus and the Disinherited* helped shape the civil rights movement and changed our nation’s history forever. In this classic theological treatise, the acclaimed theologian and religious leader Howard Thurman (1900-1981) demonstrates how the gospel may be read as a manual of resistance

for the poor and disenfranchised. Jesus is a partner in the pain of the oppressed and the example of His life offers a solution to ending the descent into moral nihilism. Hatred does not empower--it decays. Only through self-love and love of one another can God's justice prevail. "One of the great religious leaders of [the twentieth] century" tells his story of growing up under segregation and finding his calling as a minister (Atlanta Journal-Constitution). Howard Thurman was a singular man—a minister, philosopher, and educator whose vitality and vision touched the lives of countless people of all races, faiths, and cultures. In his moving autobiography, Dr. Thurman tells of his lonely years growing up in a segregated town, where the nurturing black community and a profound interest in nature provided his deepest solace. That same young man would go on to become one of the great spiritual leaders of our time. Over the course of his extraordinary career, Thurman served as a dean of Rankin Chapel and professor of theology at Howard University; minister of the interdenominational Fellowship Church in San Francisco, of which he was a cofounder; dean of Marsh Chapel of Boston University; and honorary canon of the Cathedral Church of St. John the Divine in New York. He was deeply engaged in work with the Howard Thurman Educational Trust until his death in 1981. This is Thurman's story in his own inspiring words. "Inspiring . . . a tale of trial and triumph. It should be read by everyone." —Vernon Jordan,

president of the National Urban League "Now we can peer with delight into the soul of this master and grasp some of the sense of religious genius which has been the source of all that blessed teaching." —Rabbi Joseph B. Glaser, former executive vice president, Central Conference of American Rabbis "The reader's admiration for this educator and spiritual healer grows naturally as the story unfolds." —The Atlanta Journal-Constitution "Thurman leads his readers . . . with an air of gracious ease and imperturbable dignity." —Kirkus Reviews This book examines the meaning of Jesus' humanity, his divinity, and the special significance of his teachings to the poor and the oppressed. The discussion of these issues is shaped around the theology of Howard Thurman (1900-1981), one of the greatest religious thinkers of his generation. It is the only such work which thoroughly defines Thurman's significance as an African American folk theologian who both adopts and transcends his religious heritage. Thurman is depicted as a 'folk theologian' who both perpetuates and transforms African American folk religion. The core of Thurman's theology revolves around his reinterpretation of the meaning of the concept of 'humanity' and 'divinity'. The search for a 'Black Christ', black messiah, has been a prominent feature of African American religious thought in the past two centuries. This book addresses Thurman's treatment of Jesus within the ebb-and-flow of the debates in this area. This is the first work devoted exclusively to the

subject of Christology as the center of Thurman's theology. Returning to his birthplace after nearly three decades in the United States to bury his estranged father, a man discovers that he has inherited a fortune that he promptly decides to give away to some needy Filipino, only to discover that his generosity co In this sequel to Ibrahim Fawal's critically acclaimed On the Hills of God (winner of the PEN Oakland Award), the young Palestinian Yousif Safi searches throughout Jordan for Salwa, his bride, from whom he was separated during their forced exodus after the catastrophe (Nakba) of 1948. Amidst the squalor of refugee camps, and beside himself with anxiety for Salwa, Yousif joins his countrymen in trying to exist while waiting to be restored to their homeland. Why, they ask, did this tragedy befall their country and its people? Why had the holy land been turned into a battleground? And now they've become a people without a land. As weeks turn to months and months to years, the Palestinians' hopes dim, yet Yousif does find his beloved Salwa, and they joyfully begin their new life together. The Disinherited follows the young couple as expatriate workers in Kuwait, then as students in Cairo. Always they are working and organizing, joining with their fellows to develop schools, newspapers, and increasingly militant organizations. Their dream is to unite the Palestinian people around the world, and to regain their homeland. In measured, epic storytelling, Fawal masterfully weaves a second chapter in the story of the

Palestinian diaspora. A spiritual advisor to Martin Luther King, Jr.; the first black dean at a white university; cofounder of the first interracial pastored, intercultural church in the United States, Howard Thurman offered a transcendent vision of our world. This lyrical collection of select published and unpublished works traces his struggle with the particular manifestations of violence and hatred that mark the twentieth century. His words remind us all that out of religious faith emerges social responsibility and the power to transform lives. In "Letter from Birmingham Jail," Martin Luther King Jr. explains why blacks can no longer be victims of inequality. In this classic theological treatise, the acclaimed theologian and religious leader Howard Thurman (1900-1981) demonstrates how the Gospel may be read as a manual of resistance for the poor and disenfranchised. "Richly endowed. . . . It is the centerpiece of the black prophet-mystic's lifelong [work]."--Vincent Harding This study is limited to the formative phase of the Pentecostal movement from the late nineteenth century to the early 1930s. The Depression years were years of phenomenal growth for the Pentecostals, but by then the movement had entered a different stage of development; much of the spontaneous element had become ritualized and what had been a fluid movement had largely crystallized into a number of denominations. While my primary focus has been on Pentecostalism as a social movement, I have been ever mindful of the interaction

between theological and sociological influences, between ideas and action. - Introduction. Two Cree women tell the story of how they took on the Canadian government and helped change the lives of thousands. This oral autobiography of two remarkable Cree women tells their life stories against a backdrop of government discrimination, First Nations activism, and the resurgence of First Nations communities. Nellie Carlson and Kathleen Steinhauer, who helped to organize the Indian Rights for Indian Women movement in western Canada in the 1960s, fought the Canadian government's interpretation of treaty and Aboriginal rights, the Indian Act, and the male power structure in their own communities in pursuit of equal rights for Aboriginal women and children. After decades of activism and court battles, First Nations women succeeded in changing these oppressive regulations, thus benefitting thousands of their descendants. Those interested in human rights, activism, history, and Native Studies will find that these personal stories, enriched by detailed notes and photographs, form a passionate record of an important, continuing struggle. Howard Thurman was famously known as one of the towering giants of American religion in the twentieth century. His writings have influenced some of the most important religious and political figures of the last century, from Martin Luther King to Barack Obama. Theologians

such as James Cone and Cornel West regularly signal their indebtedness to him. He was a mystic, a preacher, an educator, a theologian, and much more. It is impossible to understand the African American church today without an appreciation for his contributions. And yet, while Thurman's name is often recognized, his seminal ideas have not received the attention they deserve. In this volume, internationally known leaders like Marian Wright Edelman, Parker Palmer, and Barbara Brown Taylor invite the reader into creative engagement with Thurman's writings. Anchored in the Current illuminates how Thurman's life and wisdom lead these influential names on the ancient quest to connect with the Ultimate, all while discovering the contemporary need to seek racial justice and sharpening the minds and faith of those who come after us. Readers will find important and enduring answers in the works of this indispensable prophet and teacher. Born in segregated Daytona, Florida, in 1900, Howard Thurman grew up dreaming of a better life a life where his mother and grandmother would not have to cook and clean for other people; a life where he could become a college man, honoring his late father's wishes and his own dreams. Through hard work, perseverance, and the support of friends and family, young Howard transcended the limits on Negro education in Daytona and earned a scholarship to an out-of town high school. His dream did not come easily and was nearly lost, until a kind act by a stranger at a railroad

station aided Howard in a time of need. A moving testament to the bonds of community and the power of faith, Howard Thurman's Great Hope illuminates the early life of the man who became a seminal civil rights leader and an inspiration to the nation. #1 NEW YORK TIMES BESTSELLER • From the bestselling author of One of Us Is Lying comes your next obsession. An elegantly written study that charts the relationship between Christianity and social service in Britain since the eighteenth century and presents a challenging new interpretation

of the links between Christian decline and democratic traditions. Martin Luther King, Jr. (1929-1968) was popularly viewed as a moderate civil rights leader; however, there are parts of his career that do not quite fit into this general view. While scholars have tried to understand his intellectual development, there has been debate over the range of his influences. Although many studies have credited the Western philosophers that he examined in school, modern scholars have begun to pay closer attention to the impact that the African American religious tradition had on his way of thinking. This paper considers both direct and indirect evidence to link King to the underrepresented African American religious intellectual network in order to get a better grasp of his philosophical foundations. It examines King's work within the context of one of his lesser known influences, Howard Thurman (1900-1981). Thurman's 1949 book, *Jesus and the Disinherited*, made a big impact on King's spiritual and political perspectives. To help understand why King made the move from working for civil rights in Montgomery in the mid 1950s to protesting the United States' involvement in Vietnam in the 1960s, this paper examines the school of thought he was working out of. It considers three main themes of *Jesus and the Disinherited* -- concern for the disinherited, systemic critique and the love-ethic -- and traces them from King's civil rights work to his position on Vietnam. The material presented will provide a clearer understanding

of King's overall views and show that he was always quite radical in nature. It will also make a strong argument that indirect historical evidence needs to be considered when studying King's intellectual foundations. The faith journeys of a major mentor to the civil rights movement Teacher. Minister. Theologian. Writer. Mystic. Activist. No single label can capture the multiplicity of Howard Thurman's life, but his influence is evident in the most significant aspects of the civil rights movement. In 1936, he visited Mahatma Gandhi in India and subsequently brought Gandhi's concept of nonviolent resistance across the globe to the United States. Later, through his book *Jesus and the Disinherited*, he foresaw a theology of American liberation based on the life of Jesus as a dispossessed Jew under Roman rule. Paul Harvey's biography of Thurman speaks to the manifold ways this mystic theologian and social activist sought to transform the world to better reflect "that which is God in us," despite growing up in the South during the ugliest years of Jim Crow. After founding one of the first intentionally interracial churches in the country—the Church for the Fellowship of All Peoples in San Francisco—he shifted into a mentorship role with Martin Luther King Jr. and other civil rights leaders. He advised them to incorporate more inward seeking and rest into their activism, while also recasting their struggle for racial equality in a more cosmopolitan, universalist manner. As racial justice once again comes to the forefront of

American consciousness, Howard Thurman's faith and life have much to say to a new generation of the disinherited and all those who march alongside them. Famously known as the text that Martin Luther King Jr. sought inspiration from in the days leading up to the Montgomery bus boycott, Howard Thurman's *Jesus and the Disinherited* helped shape the civil rights movement and changed our nation's history forever. In this classic theological treatise, the acclaimed theologian and religious leader Howard Thurman (1900-1981) demonstrates how the gospel may be read as a manual of resistance for the poor and disenfranchised. Only through self-love and love of one another can God's justice prevail. Howard Thurman's book on community. In this book, Thurman calls us at once to affirm our own identity, but then to look behind that identity to that which we have in common with all life. In the small hours of the morning of June 3, 1914, a woman and her husband were found dead in a sparsely furnished apartment in Paris. Only when the identity of the couple was revealed in the English press a fortnight later did the full story emerge. The man, Henry Sackville-West, had shot himself minutes after the death of his wife; but Henry's suicidal despair had been driven equally by the failure of his claim to be the legitimate heir to Knole, one of the largest

and stately houses in England. Henry's father, Lord Sackville, had been introduced to Pepita de Oliva, a beautiful Spanish dancer born in the backstreets of Malaga, in 1852. Their affair lasted until Pepita's death in 1871, and produced five children, of whom Henry was the youngest. One of his older sisters, Victoria, would eventually become mistress of Knole through a judicious marriage. But Henry and the other illegitimate members of the family, Max, Flora, and Amalia, were gradually eased from the historical record. *The Disinherited* rescues them from the shadows to which they had been consigned, revealing the secrets and lies that lay at the heart of an English dynasty. It is an absorbing and moving tale of sibling rivalry as the brothers and sisters struggle for their father's love and against the stain of illegitimacy that had condemned them to lives of poverty and disappointment. Best remembered as the founder of Hampton Institute and mentor of Booker T. Washington, Samuel Chapman Armstrong played a crucial role in white philanthropy and educational strategies toward nonwhite people in late-nineteenth-century America. Until now, however, there has been no scholarly biography of Armstrong—his story has usually been subsumed within that of his famous protégé. In *Educating the Disfranchised and Disinherited*, Robert Francis Engs illuminates both Armstrong's life and an important chapter in the history of American race relations. Armstrong was the son of missionaries to

Hawaii, and as Engs makes clear, his early experiences in a multiracial, predominantly non-European society did much to determine his life's work--the uplift of "backward peoples." After attending Williams College, Armstrong commanded black troops in the Civil War and served as a Freedmen's Bureau agent before founding Hampton in 1869. At the institute, he implemented a unique combination of manual labor education and teacher training, creating an educational system that he believed would enable African Americans and other disfranchised peoples to rise gradually toward the level of white civilization. Recent studies have often blamed Armstrong for "miseducating" an entire generation of African Americans and for Washington's failings as a "race leader." Indeed, as Engs notes, Armstrong's educational designs were paternalistic in the extreme, and in addressing certain audiences, he could sometimes sound like a consummate racist. On the other hand, he frequently expressed a deep devotion to the ultimate equality of African Americans and incorporated the best of his black graduates into the Hampton staff. Sorting through the complexities and contradictions of Armstrong's character and vision, Engs's masterful biography provides new insights into the failures of emancipation and into the sometimes flawed responses of one heir to antebellum abolition and egalitarian Christianity. The Author: Robert Francis Engs is associate professor of history at the University of

Pennsylvania and the author of *Freedom's First Generation: Black Hampton, Virginia, 1861-1890*. This book explores the link between Paul's belief that Jesus is Israel's Messiah, and his interpretation of the Abrahamic Land Promise in Galatians. Countering claims that Paul replaces the Promised Land with the gift of the Spirit or salvation, Esau McCaulley argues that Paul expands this inheritance to include the whole earth; believing that, as the seed of Abraham and David, Jesus is entitled to the entire world as his inheritance and kingdom. McCaulley argues that scholars have neglected Paul's expanded interpretation of the inheritance of the earth, rarely appreciate the role that messianism plays in Galatians, and fail to acknowledge that Second Temple authors often portrayed royal and messianic figures as God's means of fulfilling the promises made to Abraham and Israel, via the establishment of kingdoms. Through a comparison of texts from the Pseudepigrapha, apocrypha, and the Dead Sea Scrolls with Galatians 3:1-4:7, 5:21, McCaulley argues Paul's interpretation of Jesus's death is a manifestation of Second Temple messianism because it ends the covenant curses outlined in Deuteronomy and begins the restoration of the inheritance to Abraham's offspring through the establishment of Jesus's worldwide kingdom; he concludes that Paul's interpretation of the Abrahamic inheritance is inseparable from his belief that Jesus is Israel's Messiah.
