Letters from the Sphinx Jun 07 2022 Spanning one hundred years and three continents, *Letters from the Sphinx* tells the story of the William Allens, an Old World family swept up in a New World sea of change. Incorporating sources from the United Kingdom and Egypt; previously unpublished diaries, photographs, and letters held in private collections; and journals housed at the Huntington Library, the biography describes one man's desperate pursuit of self that takes him from England to Egypt and back again before he sets sail, sick and alone, for Southern California. His story—and that of his wife and children—unfolds in unexpected ways against the backdrop of the San Gabriel Valley at a time when the foothills were a riot of golden poppies and the earth was untilled and bursting with opportunity.

Design, User Experience, and Usability: UX Research and Design Dec 21 2020 This three volume set LNCS 12779, 12780, and 12781 constitutes the refereed proceedings of the 10th International Conference on Design, User Experience, and Usability, DUXU 2021, held as part of the 23rd International Conference, HCI International 2021, which took place in July 2021. Due to COVID-19 pandemic the conference was held virtually. The total of 1276 papers and 241 posters included in the 39 HCII 2021 proceedings volumes was carefully reviewed and selected from 5222 submissions. The papers of DUXU 2021, Part I, are organized in topical sections named: UX Design Methods and Techniques; Methods and Techniques for UX Research; Visual Languages and Information Visualization; Design Education and Practice.

Miniature Secret Garden Aug 09 2022 Rediscover coloring with this pocket edition of Johanna Basford's multi-million bestseller *Secret Garden*. Take a ramble through a secret garden created in beautifully detailed pen-and-ink illustrations. Bring them to life with color, while discovering the wealth of tiny creatures just waiting to be found in the pages. With gorgeous artworks, this book will appeal to all ages.

Magical Jungle: 36 Postcards to Color and Send Aug 21 2023 From Johanna Basford, 36 postcards for coloring in and sending to friends (or keeping for yourself!) These clever postcards feature beautiful drawings from *Magical Jungle*, illustrator and ink evangelist Johanna Basford's wondrous expedition through the jungle. Color in the cards to bring to life speckled tree frogs and dainty hummingbirds, prowling tigers and playful monkeys, and then share the magic with your friends—that is, if you can bear to part with them! Each postcard is an invitation to an exotic rainforest teeming with creatures large and small. For explorers of all ages.

Dosage Form Design Parameters May 06 2022 *Dosage Form Design Parameters, Volume II*, examines the history and current state of the field within the pharmaceutical sciences, presenting key developments. Content includes drug development issues, the scale up of formulations, regulatory issues, intellectual property, solid state properties and polymorphism. Written by experts in the field, this volume in the *Advances in Pharmaceutical Product Development and Research* series deepens our understanding of dosage form

design parameters. Chapters delve into a particular aspect of this fundamental field, covering principles, methodologies and the technologies employed by pharmaceutical scientists. In addition, the book contains a comprehensive examination suitable for researchers and advanced students working in pharmaceuticals, cosmetics, biotechnology and related industries. Examines the history and recent developments in drug dosage forms for pharmaceutical sciences Focuses on physicochemical aspects, preformulation solid state properties and polymorphism Contains extensive references for further discovery and learning that are appropriate for advanced undergraduates, graduate students and those interested in drug dosage design Handbook of Rehabilitation in Older Adults Jan 22 2021 This book discusses the state of the research and cutting-edge practice with regard to chronic illnesses and rehabilitation in older adults. It emphasizes biopsychosocial and culturally appropriate rehabilitation approaches to reduce the degree of disability and maximize independence in the activities of daily living among the burgeoning aging population. Organized in four sections—Introduction and Overview, Major Illnesses and Problems in Aging Populations, Evaluation of Functional Rehabilitation Approaches for Aging Populations, and Future Clinical Research Needs—the book includes chapters on the “graying” of the West with implications for increased chronic illnesses and disabilities; a review of biopsychosocial rehabilitation approaches; important “aging” issues such as slips-and-falls, musculoskeletal pain, chronic disabling conditions such as cancer and cardiovascular disease, and work-related factors to maintain work engagement in older workers. The US Census Bureau projects that by the year 2030, about 20% of the U.S. population will be 65 or older, contributing to the increased concern about healthcare and rehabilitation issues among older adults. /div This work will be of interest to healthcare, rehabilitation, vocational, human resource and disability management professionals, policy makers as well as researchers in areas of aging, gerontology, chronic illness, disability, rehabilitation, social work, medicine and psychology.

Magical Jungle Oct 11 2022 From the internationally bestselling creator of *Lost Ocean* and *Secret Garden* comes a beautiful new adult coloring book that takes you on a wondrous expedition through the jungle Follow ink evangelist Johanna Basford down an inky trail through the *Magical Jungle* and discover a forgotten world of flora and fauna just waiting to be colored in this new coloring book for adults. Through intricate pen and ink illustrations, color-inners of all ages are invited to explore an exotic rainforest teeming with creatures large and small. Encounter speckled tree frogs and dainty hummingbirds, prowling tigers and playful monkeys. Let your imagination run wild in the leafy treetop canopy or find yourself drawn to the delicate world of sensational blossoms and tropical plants below. Now printed on specially selected ivory paper. This paper has been specifically created for Johanna Basford’s coloring books. It has a medium tooth which is perfect for creating beautiful colored pencil effects or chalk pastel backgrounds but also wonderful for pens, which will glide effortlessly over its surface. Filled with stunningly detailed illustrations, *Magical Jungle* is a blissful and relaxing at-home activity for people of all ages. “The colorists have a queen, and her name is Johanna Basford.” —New York Magazine “Consider trading in your yoga mat for a set of markers and peruse the gorgeous gardens of Basford’s imagination.” —The Huffington Post

Understanding Sustainability in Early Childhood Education May 26 2021 This unique book explores research related to education for sustainability within early childhood education in the United Kingdom. Divided into the four home nations, it examines what education for sustainability looks like in practice, discusses the different application and positions of each region, and considers the contribution of early childhood education to support the Sustainable Development Goals. Each chapter considers the relevant early years framework and includes associated case studies which highlight connections between statutory guidance, policy and positive early years pedagogical practice. The authors use an education for sustainability lens to explore the critical issues and explicit and implicit links embedded in each of the curricula frameworks. Each chapter acknowledges the context of outdoor learning with discussion related to different interpretations of ecological sustainability. This exploration should help readers to consider the idea of sustainability within early childhood education. The book considers early childhood education as a distinct and valuable phase beyond the readiness for school discourse and recognises the importance of having skilful and knowledgeable adults to work with young children from birth. It offers a unique resource for students, practitioners, leaders and researchers engaged in the study of education for sustainability in early childhood and the importance of the early years for the development of life-long pro-environmental attitudes.

Canada: The State of the Federation 2017 Dec 13 2022 In October 2015, the federal Liberals came to power with sweeping plans to revamp Canada's democratic and federal institutions - a modernizing agenda intended to revitalize Canada's democratic architecture. The centrepiece of the agenda was the replacement of Canada's first-past-the-post electoral system, but they also promised to revitalize relations with the provinces, bring Indigenous Peoples into the intergovernmental fold, and to change the ways in which senators and

Supreme Court justices are appointed. How has the reform agenda fared? Has it resulted in a more effective and democratic set of political and federal institutions? Or has it largely failed to deliver on these objectives? What, more broadly, is the state of Canada's democratic and federal institutions? The Queen's Institute of Intergovernmental Relations used the occasion of Canada's 150th birthday to examine these pressing issues. The 2017 volume in the State of the Federation series focuses on enduring questions about the functioning of federalism and intergovernmental relations in Canada, including how we should evaluate the quality of Canada's institutions and practices in light of our federal structure, and how current institutional arrangements and their possible alternatives fare according to these criteria.

The History of the International Biometric Society Jan 02 2022 The International Biometric Society (IBS) was formed at the First International Biometric Conference at Woods Hole on September 6, 1947. *The History of the International Biometric Society* presents a deep dive into the voluminous archival records, with primary focus on IBS's first fifty years. It contains numerous photos and extracts from the archival materials, and features many photos of important leaders who served IBS across the decades. Features: Describes events leading up to and at Woods Hole on September 6, 1947 that led to the formation of IBS Outlines key markers that shaped IBS after the 1947 formation through to the modern day Describes the regional and national group structure, and the formation of regions and national groups Describes events surrounding the key scientific journal of IBS, *Biometrics*, including the transfer of ownership to IBS, content, editors, policies, management, and importance Describes the other key IBS publications - *Biometric Bulletin*, *Journal of Agricultural Biological and Environmental Statistics*, and regional publications Provides details of International Biometric Conferences and key early symposia Describes IBS constitution and by-laws processes, and the evolution of business arrangements Provides a record of international officers, including regional presidents, national group secretaries, journal editors, and the locations of meetings Includes a gallery of international Presidents, and a gallery of Secretaries and Treasurers *The History of the International Biometric Society* will appeal to anyone interested in the activities of our statistical and biometrical forebearers. The focus is on issues and events that engaged the attention of the officers of IBS. Some of these records are riveting, some entertaining, some intriguing, and some colorful. Some of the issues covered were difficult to handle, but even these often resulted in changes that benefited IBS.

Worlds of Wonder Apr 17 2023 From the creator of the worldwide bestsellers *World of Flowers* and *Lost Ocean*, a beautiful new coloring book that takes you on a captivating journey through imagined and fantastical realms. This isn't just a book; rather, it is a magical portal to many wondrous worlds. Within these pages you'll find tree-top castles, floating islands, and fairytale villages, all waiting to be brought to life in your colors. Go on an adventure and let your imagination roam from world to world, discovering enchanted sea turtles, curious cats, and lost song birds along the way. In this new coloring book, Johanna Basford lends her signature style of inky illustration to a series of brand new inkscapes and themes, all with a sprinkling of her much-loved botanicals. Get ready to discover whole new worlds of colors!

Lost Ocean Jan 14 2023 "A Penguin original coloring book"--Back cover.

Lost Ocean Artist's Edition Nov 12 2022 A special artist's edition of the hugely bestselling *Lost Ocean* with 24 illustrations from the original book, ready to color and frame. From the artist who launched a global adult coloring trend comes this special artist's edition of the bestselling coloring book *Lost Ocean*. This collection features 24 of the most popular illustrations from the book, presented single-sided on extra thick cardstock in a large-scale format, easy to remove and ideal for framing, display, or art projects.

Selected Health Conditions and Likelihood of Improvement with Treatment Apr 05 2022 The Social Security Administration (SSA) administers two programs that provide disability benefits: the Social Security Disability Insurance (SSDI) program and the Supplemental Security Income (SSI) program. SSDI provides disability benefits to people (under the full retirement age) who are no longer able to work because of a disabling medical condition. SSI provides income assistance for disabled, blind, and aged people who have limited income and resources regardless of their prior participation in the labor force. Both programs share a common disability determination process administered by SSA and state agencies as well as a common definition of disability for adults: "the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months." Disabled workers might receive either SSDI benefits or SSI payments, or both, depending on their recent work history and current income and assets. Disabled workers might also receive benefits from other public programs such as workers' compensation, which insures against work-related illness or injuries occurring on the job, but those other programs have their own definitions and eligibility criteria. *Selected Health Conditions and Likelihood of*

Improvement with Treatment identifies and defines the professionally accepted, standard measurements of outcomes improvement for medical conditions. This report also identifies specific, long-lasting medical conditions for adults in the categories of mental health disorders, cancers, and musculoskeletal disorders. Specifically, these conditions are disabling for a length of time, but typically don't result in permanently disabling limitations; are responsive to treatment; and after a specific length of time of treatment, improve to the point at which the conditions are no longer disabling.

Vasculopathies May 14 2020 This volume presents one of the clinical foundations of vasculopathies: the biological markers and risk factors associated with cardiovascular disease. A detailed biological and clinical framework is provided as a prerequisite for adequate modeling. Chapter 1 presents cardiovascular risk factors and markers, where the search for new criteria is aimed at improving early detection of chronic diseases. The subsequent chapters focus on hypertension, which involves the kidney among other organs as well as many agents, hyperglycemia and diabetes, hyperlipidemias and obesity, and behavior. The last of these risk factors includes altered circadian rhythm, tobacco and alcohol consumption, physical inactivity, and diet. The volumes in this series present all of the data needed at various length scales for a multidisciplinary approach to modeling and simulation of flows in the cardiovascular and ventilatory systems, especially multiscale modeling and coupled simulations. The cardiovascular and respiratory systems are tightly coupled, as their primary function is to supply oxygen to and remove carbon dioxide from the body's cells. Because physiological conduits have deformable and reactive walls, macroscopic flow behavior and prediction must be coupled to nano- and microscopic events in a corrector scheme of regulated mechanisms. Therefore, investigation of flows of blood and air in anatomical conduits requires an understanding of the biology, chemistry, and physics of these systems together with the mathematical tools to describe their functioning in quantitative terms.

Identity and Transnationalism Oct 31 2021 Identity and Transnationalism discusses the identity and transnational experiences of the new second-generation African immigrants in the US, bringing together the lived experiences of the new African diaspora and exploring how they are shaping and reshaping being and becoming black. In the half a century since the passage of the Immigration and Nationality Act of 1965, close to 1.4 million black African immigrants have come to the United States (Pew Research Center 2015). Nevertheless, in proportion to its growing size, the New African Diaspora in the United States, particularly the second generation constitutes one of the least studied groups. In seeking to redress the dearth of scholarship on the New African Diaspora in the United States, the contributors to this book have documented the lives and experiences of second-generation African immigrants. Based on fresh data, the chapters provide insight into the intersection of immigrant cultures and mainstream expectations, as the second-generation African immigrants seek to define and redefine being and becoming American. Specifically, the authors discuss how the second-generation Africans contest being boxed into embracing a Black identity that is the product of specific African American histories, values, and experiences not shared by recent African immigrants. The book also examines the second generations' connections with their parents' ancestral countries and whether and for what reasons they participate in transnational activities. Authored and edited by key immigration scholars, Identity and Transnationalism represents a ground-breaking contribution to the nascent discussion of the New African Diaspora's second generation. It will be of great interest to scholars of Cultural Anthropology, The New African Diaspora, African Studies, Sociology and Ethnic studies. This book was originally published as a special issue of African and Black Diaspora.

Physical Medicine and Rehabilitation: An Update for Internists, An Issue of Medical Clinics of North America Jul 08 2022 This issue of Medical Clinics, guest edited by Dr. David A. Lenrow, is devoted to Physical Medicine and Rehabilitation. Articles in this issue include: Therapeutic Exercise; Rehabilitation of Patients Post-CVA; Traumatic Brain Injury; Amputee Care; Rehabilitation of Complex Medical Patients; Cancer Rehabilitation; Care of the Patient with Spinal Cord Injury; Back and Neck Pain; Musculoskeletal Rehabilitation; Sports Medicine; Geriatric Rehabilitation; and Determination of Post-acute Hospitalization Level of Care.

Adjunctive Rehabilitation Approaches to Oncology, An Issue of Physical Medicine and Rehabilitation Clinics of North America, E-Book Jul 16 2020 This issue will include articles on Prehabilitation; Building a survivorship program in cancer rehabilitation; Aerobic and resistive training: pragmatic integration in cancer rehabilitation; Alternative exercise traditions in cancer rehabilitation; Cancer treatment induced fibrosis: associated functional morbidity; Cancer-related fatigue: The master disabler; and many more!

Human Migration in the Arctic Sep 10 2022 This book discusses the past, present, and future of migration in the Arctic. It addresses many of the critical dynamics of immigration and migration, and emerging challenges that now confront the region. What can be learned from the past? What are the challenges and solutions of tomorrow? Migration in the Arctic is a fascinating and topical - but less studied - phenomenon that influences

various societal levels, such as education. The book introduces research on economic, social, and educational perspectives of migration in the region. It provides analysis of minorities immigrating to the North without neglecting the viewpoint of indigenous people of the Arctic. Contributors comprise researchers from various Arctic countries. Multidisciplinary research provides a unique viewpoint to the theme. The book is suitable for researchers and teachers of higher education as well as anyone interested in Arctic studies and (im)migration.

Applying the Roper-Logan-Tierney Model in Practice - E-Book Sep 29 2021 New edition of a successful textbook which demonstrates the theory and practice of one of the most popular models of nursing. Karen Holland, Jane Jenkins and their colleagues carefully explain and explore how the Roper-Logan-Tierney Model can help today's student learn how to care for patients in a variety of health care contexts and use it as a framework for their nursing practice. Rich with 'real-life' case studies and thought provoking exercises, this book has a helpful problem solving approach which strongly encourages further learning and reflection. New edition of a successful textbook which explains the theory and practice of one of the most popular models of nursing Structured approach to a core range of 'activities of living' clearly illustrate how they interconnect and may be promoted, or compromised, by health and illness, and influenced by external factors Explains the theory to show how it can be applied in practice to assess, plan, deliver and evaluate individualised nursing care A helpful case study approach enables readers see how the model works in 'real life' Written by experts who actively encourage a problem-solving approach to nursing care and practice Additional exercises are designed to encourage further learning and reflective practice, as well as develop skills in literature searching and evidence-based care Helpful appendices include a range of reference material such as the Care Plan Documentation and Audit Tool, Laboratory Reference Values, the Roper-Logan Tierney Assessment Schedule and other commonly used nursing documentation Ideal for use in a variety of contemporary health care delivery environments including the acute and community-based settings

Encyclopedia of Tissue Engineering and Regenerative Medicine Feb 03 2022 Encyclopedia of Tissue Engineering and Regenerative Medicine, Three Volume Set provides a comprehensive collection of personal overviews on the latest developments and likely future directions in the field. By providing concise expositions on a broad range of topics, this encyclopedia is an excellent resource. Tissue engineering and regenerative medicine are relatively new fields still in their early stages of development, yet they already show great promise. This encyclopedia brings together foundational content and hot topics in both disciplines into a comprehensive resource, allowing deeper interdisciplinary research and conclusions to be drawn from two increasingly connected areas of biomedicine. Provides a 'one-stop' resource for access to information written by world-leading scholars in the fields of tissue engineering and regenerative medicine Contains multimedia features, including hyperlinked references and further readings, cross-references and diagrams/images Represents the most comprehensive and exhaustive product on the market on the topic

Human-Centered Urban Planning and Design in China: Volume II Aug 17 2020 This book provides insights and discusses human-centered urban design and placemaking, human activities and urban mobility in China. It argues that sustainable urban design and mobility should be "people-centered" and concerned about "placemaking" in the new era of Chinese urbanization. Successful urban design and placemaking should adopt interdisciplinary approaches to planning and designing "space" and "place". A core vision is the delivery of urban spaces that can cater to the needs of an increasingly diverse crowd of urban dwellers calling cities home. The book prompts Chinese urbanists to reconsider and explore a sustainable and people-first planning and design approach with Chinese characteristics. The breadth and depth of this book is of particular interest to those faculty members, students, practitioners and the general public who are interested in subjects like urban design, transport planning, mobility analysis and planning, housing and community development, infrastructure planning, environmental planning, social equity and beyond. This book discussing human-centered urban design and placemaking, human activities and urban mobility is part of a 2 volume set. Volume I deals with human-centered urban planning and development, rural planning and urban-rural coordination in China.

Essentials of Cancer Survivorship Aug 29 2021 The growing number of cancer survivors presents a new challenge to generalists and specialists involved in their care. Prior cancer treatments may compound known comorbidities or contribute to future health risks. The ultimate success of cancer treatments ultimately depends on the meticulous management of post-cancer care, and this requires a clinical workforce that is engaged and ready. Cancer survivorship has now become recognized as an independent field of research and clinical practice. This new concise guide is intended for cancer clinicians as well as generalists and specialists who meet cancer survivors in their practices for routine check-ups or specialized consultations. With an expanding population known to have complex medical, psychosocial and emotional needs, we hope this book

sparks interest and provides answers for those involved in their care.

Smart Computing Paradigms: New Progresses and Challenges Feb 20 2021 This two-volume book focuses on both theory and applications in the broad areas of communication technology, computer science and information security. It brings together contributions from scientists, professors, scholars and students, and presents essential information on computing, networking, and informatics. It also discusses the practical challenges encountered and the solutions used to overcome them, the goal being to promote the “translation” of basic research into applied research, and of applied research into practice. The works presented here will also demonstrate the importance of basic scientific research in a range of fields.

The Fountain Jun 26 2021 Don't just live longer— live better! Everyone wants to feel fitter, sexier, more energetic, more productive, and younger—but what if the solutions were already here? What if there were already ways to ease the negative effects of aging and prevent diabetes, heart disease, cancer, Parkinson's disease, and Alzheimer's disease from ever starting? What if we could translate all the exotic science and research breakthroughs of today into a practical plan that could help us win the war on aging? Here's the truth: We can. *The Fountain* is a sensible, comprehensive, and scientifically based anti-aging guide packed with essential information. With actionable advice, biting humor, and savvy insight, Dr. Rocco Monto, a top national health expert and board-certified orthopedic surgeon, explains why we age so poorly now and how the latest breakthroughs in science and medicine can help change this. Focusing on the four pillars of science, diet, exercise, and medicine, Dr. Monto's findings interlace the clinical and the cultural and suggest that simple choices provide profound results. Debunking long-held diet and fitness myths while highlighting safe, effective therapies backed by cutting-edge research, Dr. Monto includes the diet, supplements, exercise, mental training, and new medications to help us all live longer, happier, healthier, and more productive lives. Much more than a compilation of longevity research, *The Fountain* is an essential toolkit that will redesign lifestyles and forever transform the way we look at aging. As the book blends fascinating stories with new research findings, illustrations, infographics, and exclusive interviews, it also educates you on how aging really works and provides practical ways to hack the system.

Johanna's Christmas Jun 19 2023 From the creator of the worldwide bestsellers *Secret Garden* and *Lost Ocean*, a beautiful new adult coloring book, printed on ivory paper and featuring delicate tangles of holly and ivy, bauble-laden Christmas trees, and mountains of exquisitely wrapped gifts. From flurries of delicate snowflakes to deliciously decorated gingerbread houses and reindeer-led sleighs, *Johanna's Christmas* is a celebration of this wonderful holiday season that invites you to pick up your pens and pencils to color, complete, or embellish each of the festive artworks. Each of the 37 images in this book is printed single-sided on perforated paper, so you can color and remove the images—the perfect frameable holiday gift! Now printed on specially selected ivory paper. This paper has been specifically created for Johanna Basford's coloring books. It has a medium tooth which is perfect for creating beautiful colored pencil effects or chalk pastel backgrounds but also wonderful for pens, which will glide effortlessly over its surface.

Secret Garden Artist's Edition May 18 2023 From the same ink artist and original publisher who brought you *SECRET GARDEN* and *ENCHANTED FOREST* (both international bestsellers), comes an exciting new coloring format: the poster book. Over-sized, printed on a single side on extremely thick card stock of 400 gsm, and easy to pull out for framing, *SECRET GARDEN: THE ARTIST'S EDITION* provides larger spaces for an easier coloring experience. This poster book features 20 enlarged designs from Johanna Basford's first book, *SECRET GARDEN*, currently a #1 New York Times Bestseller.

Computational Intelligence in Healthcare Applications Oct 19 2020 *Computational Intelligence in Healthcare Applications* discusses a variety of techniques designed to represent, enhance and empower inter-domain research based on computational intelligence in healthcare. The book serves as a reference for the pervasive healthcare domain which takes into consideration new convergent computing and other applications. The book discusses topics such as mathematical modeling in medical imaging, predictive modeling based on artificial intelligence and deep learning, smart healthcare and wearable devices, and evidence-based predictive modeling. In addition, it discusses computer-aided diagnostic for clinical inferences and pervasive and ubiquitous techniques in healthcare. This book is a valuable resource for graduate students and researchers in medical informatics, however, it is also ideal for members of the biomedical field and healthcare industry who are interested in learning more about novel technologies and their applications in the field. Presents advanced procedures to address and enhance available diagnostic methods Focuses on identifying challenges and solutions through an integrated approach that shapes a path for new research dimensions Discusses the implementation of deep learning techniques for the detection and classification of diseases

Ivy and the Inky Butterfly Mar 16 2023 Bring your own colour to the story. From colouring book queen Johanna

Basford, a lavishly illustrated fable about a girl named Ivy who stumbles upon a secret door leading to the magical world of Enchantia. A charming story that interacts playfully with beautiful, colourable artwork in Johanna's signature style, Ivy and the Inky Butterfly is a one-of-a-kind adventure for the whole family and readers of all ages to customise, colour and cherish. Johanna has picked a crisp ivory paper that accentuates and compliments your chosen colour palette. The smooth, untextured pages allows for beautiful blending or gradient techniques with coloured pencils, or are perfect for pens, allowing the nib to glide evenly over the surface without feathering.

Next-Generation Sequencing in Pharmacogenetics/Genomics Apr 24 2021

Contemporary Research Methods in Pharmacy and Health Services Apr 12 2020 Emerging methods, as well as best practices in well-used methods, in pharmacy are of great benefit to researchers, graduate students, graduate programs, residents and fellows also in other health science areas. Researchers require a text to assist in the design of experiments to address seemingly age-old problems. New interventions are needed to improve medication adherence, patients' lived experiences in health care, provider-patient relationships, and even various facets of pharmacogenomics. Advances in systems re-engineering can optimize health care practitioners' roles. Contemporary Research Methods in Pharmacy and Health Services includes multi-authored chapters by renowned experts in their field. Chapters cover examples in pharmacy, health services and others transcendent of medical care, following a standardized format, including key research points; valid and invalid assumptions; pitfalls to avoid; applications; and further inquiry. This is a valuable resource for researchers both in academia and corporate R&D, primarily in pharmacy but also in health services, and other health disciplines. Social science researchers and government scientists can also benefit from the reading. Provides multi-authored chapters by renowned experts in their field Includes examples for pharmacy and health services and others that are transcendent of medical care Covers key research points, valid and invalid assumptions, pitfalls to avoid, applications, and further inquiry

How to Draw Inky Wonderlands Jun 14 2020 A welcoming drawing guide for creating beautiful worlds and wondrous wildlife from bestselling artist Johanna Basford Through her bestselling coloring books and distinctive illustrations, Johanna Basford's beautiful forests, ocean depths, and hidden magical kingdoms have enchanted millions of people around the world. In this lovely and accessible guide, she shares the fun, simple, no-skills-needed secrets to creating your own wondrous realms through fanciful, expressive line drawing. With step-by-step exercises, inspiring prompts, and still plenty of pages to color, you'll be free to let your creativity run wild. How to Draw Inky Wonderlands invites you to develop your personal drawing style and master creating marvelous creatures and landscapes using only the pen or pencil in your hand and the wildest reaches of your imagination.

Hotelier Indonesia Sep 17 2020 Dear Hotelier Indonesia Readers, Amazing year in 2016, will be soon over and we are all have to be ready to face the year of 2017. Let's start with Mariá Zarraluqui (Vice President of Global Development for Meliá Hotel International Group) interview on Page 26. She will explain how to observe and discover a new & potential market for Meliá Hotels International that can enter. AHTIC | ASIA HOTEL & TOURISM INVESTMENT CONFERENCE - SRILANKA 2016 was successfully held by Bench Events', see the conclusion here on Page 44 In HotSpa section we have Spa Alila which is committed to providing treatments blending ancient Asian healing techniques with age-old beauty recipes that feature the curative benefits of fresh, natural, and quality ingredients. Check yourself here on Page 54 See what Swiss-Belhotel International's Chairman and President Gavin M. Faull said about THE NEW CONNECTED AND BUDGET FRIENDLY SWISS-BELEXPRESS KUTA on Page 64 And.... many other information that you, as a hotelier need to know. Well then , I hope you like it. Send your comments and idea if you have one , simply send your email direct to me at : herysudrajat@hotelier-indonesia.com Enjoy reading. More to come and Happy New Year 2017 !!!

Treatment Strategies and Survival Outcomes in Breast Cancer Nov 19 2020 Treatment strategies for breast cancer are wide-ranging and often based on a multi-modality approach, depending on the stage and biology of the tumour and the acceptance and tolerance of the patient. They may include surgery, radiotherapy, and systemic therapy (endocrine therapy, chemotherapy, and targeted therapy). Advances in technologies such as oncoplastic surgery, radiation planning and delivery, and genomics, and the development of novel systemic therapy agents alongside their evaluation in ongoing clinical trials continue to strive for improvements in outcomes. In this Special Issue, we publish a collection of studies looking at all forms of therapeutic strategies for early and advanced breast cancer, focusing on their outcomes, notably survival.

Rehabilitation of the Hand and Upper Extremity Dec 01 2021 Long recognized as an essential reference for

therapists and surgeons treating the hand and the upper extremity, *Rehabilitation of the Hand and Upper Extremity* helps you return your patients to optimal function of the hand, wrist, elbow, arm, and shoulder. Leading hand surgeons and hand therapists detail the pathophysiology, diagnosis, and management of virtually any disorder you're likely to see, with a focus on evidence-based and efficient patient care. Extensively referenced and abundantly illustrated, the 7th Edition of this reference is a "must read" for surgeons interested in the upper extremity, hand therapists from physical therapy or occupational therapy backgrounds, anyone preparing for the CHT examination, and all hand therapy clinics. Offers comprehensive coverage of all aspects of hand and upper extremity disorders, forming a complete picture for all members of the hand team—surgeons and therapists alike. Provides multidisciplinary, global guidance from a Who's Who list of hand surgery and hand therapy editors and contributors. Includes many features new to this edition: considerations for pediatric therapy; a surgical management focus on the most commonly used techniques; new timing of therapeutic interventions relative to healing characteristics; and in-print references wherever possible. Features more than a dozen new chapters covering Platelet-Rich Protein Injections, Restoration of Function After Adult Brachial Plexus Injury, Acute Management of Upper Extremity Amputation, Medical Management for Pain, Proprioception in Hand Rehabilitation, Graded Motor Imagery, and more. Provides access to an extensive video library that covers common nerve injuries, hand and upper extremity transplantation, surgical and therapy management, and much more. Helps you keep up with the latest advances in arthroscopy, imaging, vascular disorders, tendon transfers, fingertip injuries, mobilization techniques, traumatic brachial plexus injuries, and pain management—all clearly depicted with full-color illustrations and photographs.

Toxic Organizational Cultures and Leadership Jul 28 2021 Toxic organizational cultures and leadership have led to major reputational failures, with the greatest impact felt by the people who dedicate their careers to working for these organizations. And yet organizations do not become toxic overnight. They do not consciously set out to break rules and regulations, nor do they actively seek wrongdoing. This book defines toxic culture, explains how toxic cultures emerge over time, and provides practical approaches supported by in-depth research for overcoming a toxic culture at the individual, team, and organizational level. Pragmatic and applicable, the book provides a call to action that can be applied in any type of organization. While the role of leadership in toxic cultures is acknowledged, the book sets out four distinct stages to embedding toxic cultures and draws on examples from leading organizations and companies to illustrate each stage. The book then identifies interventions and levers that can be implemented by executives, boards, and HR practitioners to prevent toxicity and to change toxic cultures back to healthy, positive workplaces. Drawing on research and interviews with senior HR leaders and executives, the book provides: An understanding of the four stages of toxic cultures and the impact of performance pressures in driving toxicity An appreciation of the role of senior leadership and personality traits Practical tools and guidance on interventions for practitioners to build and sustain a healthy and positive workplace Senior executives, HR, and organizational development practitioners in local and global organizations spanning a range of industry sectors will find this book invaluable. The book is also highly relevant to consultants working in the field of corporate culture and change.

Developing Thinking and Understanding in Young Children Mar 04 2022 The third edition of this essential book presents a comprehensive and accessible overview of contemporary theory and research about young children's developing thinking and understanding. Sue Robson's detailed exploration of the ideas and theories is enlivened by transcripts of children's activities and conversations taken from practice and contemporary research, helping readers to make links between theory, research and practice. This new edition brings together up-to-date research into neuroscience and digital learning, combining theory with discussions for best practice. Each chapter also includes ideas for further reading and suggested activities. Key chapters explore the following: Theories of cognitive development The social, emotional and cultural contexts of children's thinking Developments in brain science and young children The central roles of play and language in young children's developing thinking Children's conceptual development; visual thinking and thinking in music This book is crucial reading for all those interested in how young children develop through their thoughts and actions, including students of Early Years studies, teachers and early years practitioners.
