Goodhouse Jul 27 2021 A bighearted dystopian novel about the corrosive effects of fear and the redemptive power of love. With soaring literary prose and the tense pacing of a thriller, the first-time novelist Peyton Marshall imagines a grim and startling future. At the end of the twenty-first century—in a transformed America—the sons of convicted felons are tested for a set of genetic markers. Boys who test positive become compulsory wards of the state—removed from their homes and raised on "Goodhouse" campuses, where they learn to reform their darkest thoughts and impulses. Goodhouse is a savage place—part prison, part boarding school—and now a radical religious group, the Holy Redeemer's Church of Purity, is intent on destroying each campus and purifying every child with fire. We see all this through the eyes of James, a transfer student who watched as the radicals set fire to his old Goodhouse and killed nearly everyone he'd ever known. In addition to adjusting to a new campus with new rules, James now has to contend with Bethany, a brilliant, medically fragile girl who wants to save him, and with her father, the school's sinister director of medical studies. Soon, however, James realizes that the biggest threat might already be there, inside the fortified walls of Goodhouse itself. Partly based on the true story of the nineteenth-century Preston School of Industry, Goodhouse explores questions of identity and free will—and what it means to test the limits of human endurance.

What Got You Here Won't Get You There Aug 28 2021 Your

hard work is paying off. You are doing well in your field. But there is something standing between you and the next level of achievement. That something may just be one of your own annoying habits. Perhaps one small flaw - a behaviour you barely even recognise - is the only thing that's keeping you from where you want to be. It may be that the very characteristic that you believe got you where you are - like the drive to win at all costs - is what's holding you back. As this book explains, people often do well in spite of certain habits rather than because of them - and need a "to stop" list rather than one listing what "to do". Marshall Goldsmith's expertise is in helping global leaders overcome their unconscious annoying habits and become more successful. His one-on-one coaching comes with a six-figure price tag - but in this book you get his great advice for much less. Recently named as one of the world's five most-respected executive coaches by Forbes, he has worked with over 100 major CEOs and their management teams at the world's top businesses. His clients include corporations such as Goldman Sachs, Glaxo SmithKline, Johnson and Johnson and GE.

Devil in the Grove Apr 04 2022 Winner of the Pulitzer Prize "A must-read, cannot-put-down history." — Thomas Friedman, New York Times Arguably the most important American lawyer of the twentieth century, Thurgood Marshall was on the verge of bringing the landmark suit *Brown v. Board of Education* before the U.S. Supreme Court when he became embroiled in a case that threatened to change the course of the civil rights movement and cost him his life. In 1949, Florida's orange industry was booming, and citrus barons got rich on the backs of cheap Jim Crow labor with the help of Sheriff Willis V. McCall, who ruled Lake County with murderous resolve. When a white seventeen-year-old girl cried rape, McCall pursued four young black men who dared envision a future for themselves beyond the groves. The Ku Klux Klan joined the hunt, hell-bent on lynching the men who came to be known as "the Groveland Boys." Associates thought it was

suicidal for Marshall to wade into the "Florida Terror," but the young lawyer would not shrink from the fight despite continuous death threats against him. Drawing on a wealth of never-before-published material, including the FBI's unredacted Groveland case files, as well as unprecedented access to the NAACP's Legal Defense Fund files, Gilbert King shines new light on this remarkable civil rights crusader.

Wild Hundreds Aug 08 2022 Winner, 2017 Great Lakes Colleges Association New Writers Award (poetry category) Winner, 2016 BCALA Literary Award (poetry category) Winner of the 2014 Agnes Lynch Starrett Poetry Prize Finalist, 2015 NAACP Image Awards (poetry category) Wild Hundreds is a long love song to Chicago. The book celebrates the people, culture, and places often left out of the civic discourse and the travel guides. Wild Hundreds is a book that displays the beauty of black survival and mourns the tragedy of black death.

General of the Army Sep 09 2022 A captivating and fanatically thorough reevaluation of Marshall's life and times.

The Epic of America Apr 11 2020 Originally published in 1931 by Little, Brown, and Company.

Machine Art, 1934 Jan 21 2021 In 1934, New York's Museum of Modern Art staged a major exhibition of ball bearings, airplane propellers, pots and pans, cocktail tumblers, petri dishes, protractors, and other machine parts and products. The exhibition, titled Machine Art, explored these ordinary objects as works of modern art, teaching museumgoers about the nature of beauty and value in the era of mass production. Telling the story of this extraordinarily popular but controversial show, Jennifer Jane Marshall examines its history and the relationship between the museum's director, Alfred H. Barr Jr., and its curator, Philip Johnson, who oversaw it. She situates the show within the tumultuous climate of the interwar period and the Great Depression, considering how these unadorned objects served as a response to timely debates over photography, abstract art, the

end of the American gold standard, and John Dewey's insight that how a person experiences things depends on the context in which they are encountered. An engaging investigation of interwar American modernism, *Machine Art*, 1934 reveals how even simple things can serve as a defense against uncertainty.

What Kind of Nation Jan 13 2023 What Kind of Nation is a riveting account of the bitter and protracted struggle between two titans of the early republic over the power of the presidency and the independence of the judiciary. The clash between fellow Virginians (and second cousins) Thomas Jefferson and John Marshall remains the most decisive confrontation between a president and a chief justice in American history. Fought in private as well as in full public view, their struggle defined basic constitutional relationships in the early days of the republic and resonates still in debates over the role of the federal government vis-à-vis the states and the authority of the Supreme Court to interpret laws. Jefferson was a strong advocate of states' rights who distrusted the power of the federal government. He believed that the Constitution defined federal authority narrowly and left most governmental powers to the states. He was suspicious of the Federalist-dominated Supreme Court, whose members he viewed as partisan promoters of their political views at the expense of Jefferson's Republicans. When he became president, Jefferson attempted to correct the Court's bias by appointing Republicans to the Court. He also supported an unsuccessful impeachment of Federalist Supreme Court Justice Samuel Chase. Marshall believed in a strong federal government and was convinced that an independent judiciary offered the best protection for the Constitution and the nation. After he was appointed by Federalist President John Adams to be chief justice in 1801 (only a few weeks before Jefferson succeeded Adams), he issued one far-reaching opinion after another. Beginning with the landmark decision *Marbury v. Madison* in 1803, and through many cases involving states' rights, impeachment, treason, and executive

privilege, Marshall established the Court as the final arbiter of the Constitution and the authoritative voice for the constitutional supremacy of the federal government over the states. As Marshall's views prevailed, Jefferson became increasingly bitter, certain that the Court was suffocating the popular will. But Marshall's carefully reasoned rulings endowed the Court with constitutional authority even as they expanded the power of the federal government, paving the way for later Court decisions sanctioning many pivotal laws of the modern era, such as those of the New Deal, the Great Society, and the Civil Rights Act of 1964. In a fascinating description of the treason trial of Jefferson's former vice president, Aaron Burr, James F. Simon shows how Marshall rebuffed President Jefferson's claim of executive privilege. That decision served as precedent for a modern Supreme Court ruling rejecting President Nixon's claim that he did not have to hand over the Watergate tapes. More than 150 years after Jefferson's and Marshall's deaths, their words and achievements still reverberate in constitutional debate and political battle. *What Kind of Nation* is a dramatic rendering of a bitter struggle between two shrewd politicians and powerful statesmen that helped create a United States.

The China Mission: George Marshall's Unfinished War, 1945-1947 Jun 06 2022 An Economist Best Book of 2018 A spellbinding narrative of the high-stakes mission that changed the course of America, China, and global politics—and a rich portrait of the towering, complex figure who carried it out. As World War II came to an end, General George Marshall was renowned as the architect of Allied victory. Set to retire, he instead accepted what he thought was a final mission—this time not to win a war, but to stop one. Across the Pacific, conflict between Chinese Nationalists and Communists threatened to suck in the United States and escalate into revolution. His assignment was to broker a peace, build a Chinese democracy, and prevent a Communist takeover, all while staving off World War III. In his thirteen

months in China, Marshall journeyed across battle-scarred landscapes, grappled with Mao Zedong and Zhou Enlai, and plotted and argued with Generalissimo Chiang Kai-shek and his brilliant wife, often over card games or cocktails. The results at first seemed miraculous. But as they started to come apart, Marshall was faced with a wrenching choice. Its consequences would define the rest of his career, as the secretary of state who launched the Marshall Plan and set the standard for American leadership, and the shape of the Cold War and the US-China relationship for decades to come. It would also help spark one of the darkest turns in American civic life, as Marshall and the mission became a first prominent target of McCarthyism, and the question of “who lost China” roiled American politics. The China Mission traces this neglected turning point and forgotten interlude in a heroic career—a story of not just diplomatic wrangling and guerrilla warfare, but also intricate spycraft and charismatic personalities. Drawing on eyewitness accounts both personal and official, it offers a richly detailed, gripping, close-up, and often surprising view of the central figures of the time—from Marshall, Mao, and Chiang to Eisenhower, Truman, and MacArthur—as they stood face-to-face and struggled to make history, with consequences and lessons that echo today.

John Marshall Mar 23 2021 A soul-stirring biography of John Marshall, the young republic's great chief justice, who led the Supreme Court to power and brought law and order to the nation
[The Power of Geography](#) Jan 01 2022 From the author of the New York Times bestseller *Prisoners of Geography*, a fascinating, “refreshing, and very useful” (The Washington Post) follow-up that uses ten maps to explain the challenges to today’s world powers and how they presage a volatile future. Tim Marshall’s global bestseller *Prisoners of Geography* offered us a “fresh way of looking at maps” (The New York Times Book Review), showing how every nation’s choices are limited by mountains, rivers, seas, and walls. Since then, the geography hasn’t changed, but the

world has. Now, in this “wonderfully entertaining and lucid account, written with wit, pace, and clarity” (Mirror, UK), Marshall takes us into ten regions set to shape global politics. Find out why US interest in the Middle East will wane; why Australia is now beginning an epic contest with China; how Turkey, Saudi Arabia, and the UK are cleverly positioning themselves for greater power; why Ethiopia can control Egypt; and why Europe’s next refugee crisis looms closer than we think, as does a cutting-edge arms race to control space. Innovative, compelling, and delivered with Marshall’s trademark wit and insight, this is “an immersive blend of history, economics, and political analysis that puts geography at the center of human affairs” (Publishers Weekly).

Without Precedent May 17 2023 From the author of *Unlikely Allies* and *Indivisible* comes the remarkable story of John Marshall who, as chief justice, statesman, and diplomat, played a pivotal role in the founding of the United States. No member of America's Founding Generation had a greater impact on the Constitution and the Supreme Court than John Marshall, and no one did more to preserve the delicate unity of the fledgling United States. From the nation's founding in 1776 and for the next forty years, Marshall was at the center of every political battle. As Chief Justice of the United States—the longest-serving in history—he established the independence of the judiciary and the supremacy of the federal Constitution and courts. As the leading Federalist in Virginia, he rivaled his cousin Thomas Jefferson in influence. As a diplomat and secretary of state, he defended American sovereignty against France and Britain, counseled President John Adams, and supervised the construction of the city of Washington. D.C. This is the astonishing true story of how a rough-cut frontiersman—born in Virginia in 1755 and with little formal education—invented himself as one of the nation's preeminent lawyers and politicians who then reinvented the Constitution to forge a stronger nation. *Without Precedent* is the

engrossing account of the life and times of this exceptional man, who with cunning, imagination, and grace shaped America's future as he held together the Supreme Court, the Constitution, and the country itself.

John Marshall Jul 19 2023

Platform Revolution: How Networked Markets Are Transforming the Economy and How to Make Them Work for You Sep 16 2020 A

practical guide to the new economy that is transforming the way we live, work, and play. Uber. Airbnb. Amazon. Apple. PayPal. All of these companies disrupted their markets when they launched. Today they are industry leaders. What's the secret to their success? These cutting-edge businesses are built on platforms: two-sided markets that are revolutionizing the way we do business. Written by three of the most sought-after experts on platform businesses, Platform Revolution is the first authoritative, fact-based book on platform models. Whether platforms are connecting sellers and buyers, hosts and visitors, or drivers with people who need a ride, Geoffrey G. Parker, Marshall W. Van Alstyne, and Sangeet Paul Choudary reveal the what, how, and why of this revolution and provide the first "owner's manual" for creating a successful platform business. Platform Revolution teaches newcomers how to start and run a successful platform business, explaining ways to identify prime markets and monetize networks. Addressing current business leaders, the authors reveal strategies behind some of today's up-and-coming platforms, such as Tinder and SkillShare, and explain how traditional companies can adapt in a changing marketplace. The authors also cover essential issues concerning security, regulation, and consumer trust, while examining markets that may be ripe for a platform revolution, including healthcare, education, and energy. As digital networks increase in ubiquity, businesses that do a better job of harnessing the power of the platform will win. An indispensable guide, Platform Revolution charts out the brilliant future of platforms and reveals how they

will irrevocably alter the lives and careers of millions.

The Marshall Plan Nov 11 2022 Winner of the 2018 American Academy of Diplomacy Douglas Dillon Award Shortlisted for the 2018 Duff Cooper Prize in Literary Nonfiction “[A] brilliant book...by far the best study yet” (Paul Kennedy, *The Wall Street Journal*) of the gripping history behind the Marshall Plan and its long-lasting influence on our world. In the wake of World War II, with Britain’s empire collapsing and Stalin’s on the rise, US officials under new Secretary of State George C. Marshall set out to reconstruct western Europe as a bulwark against communist authoritarianism. Their massive, costly, and ambitious undertaking would confront Europeans and Americans alike with a vision at odds with their history and self-conceptions. In the process, they would drive the creation of NATO, the European Union, and a Western identity that continue to shape world events. Benn Steil’s “thoroughly researched and well-written account” (USA TODAY) tells the story behind the birth of the Cold War, told with verve, insight, and resonance for today. Focusing on the critical years 1947 to 1949, Benn Steil’s gripping narrative takes us through the seminal episodes marking the collapse of postwar US-Soviet relations—the Prague coup, the Berlin blockade, and the division of Germany. In each case, Stalin’s determination to crush the Marshall Plan and undermine American power in Europe is vividly portrayed. Bringing to bear fascinating new material from American, Russian, German, and other European archives, Steil’s account will forever change how we see the Marshall Plan. “Trenchant and timely...an ambitious, deeply researched narrative that...provides a fresh perspective on the coming Cold War” (The New York Times Book Review), *The Marshall Plan* is a polished and masterly work of historical narrative. An instant classic of Cold War literature, it “is a gripping, complex, and critically important story that is told with clarity and precision” (The Christian Science Monitor).

Don't Even Think About It Dec 20 2020 The director of the

Climate Outreach and Information Network explores the psychological mechanism that enables people to ignore the dangers of climate change, using sidebars, cartoons and engaging stories from his years of research to reveal how humans are wired to primarily respond to visible threats.

Mojo Feb 19 2021 Mojo is the moment when we do something that's purposeful, powerful, and positive and the rest of the world recognizes it. This book is about that moment--and how we can create it in our lives, maintain it, and recapture it when we need it. In his follow-up to the New York Times bestseller *What Got You Here Won't Get You There*, #1 executive coach Marshall Goldsmith shares the ways in which to get--and keep--our Mojo. Our professional and personal Mojo is impacted by four key factors: identity (who do you think you are), achievement (what have you done lately?), reputation (who do other people think you are--and what have you've done lately?), and acceptance (what can you change--and when do you need to just "let it go"?). Goldsmith outlines the positive actions leaders must take, with their teams or themselves, to initiate winning streaks and keep them coming. Mojo is: that positive spirit--towards what we are doing--now--that starts from the inside--and radiates to the outside. Mojo is at its peak when we are experiencing both happiness and meaning in what we are doing and communicating this experience to the world around us. The Mojo Toolkit provides fourteen practical tools to help you achieve both happiness and meaning--not only in business, but in life.

Atmosphere, Ocean and Climate Dynamics Sep 28 2021 For advanced undergraduate and beginning graduate students in atmospheric, oceanic, and climate science, *Atmosphere, Ocean and Climate Dynamics* is an introductory textbook on the circulations of the atmosphere and ocean and their interaction, with an emphasis on global scales. It will give students a good grasp of what the atmosphere and oceans look like on the large-scale and why they look that way. The role of the oceans in

climate and paleoclimate is also discussed. The combination of observations, theory and accompanying illustrative laboratory experiments sets this text apart by making it accessible to students with no prior training in meteorology or oceanography. * Written at a mathematical level that is appealing for undergraduates and beginning graduate students * Provides a useful educational tool through a combination of observations and laboratory demonstrations which can be viewed over the web * Contains instructions on how to reproduce the simple but informative laboratory experiments * Includes copious problems (with sample answers) to help students learn the material.

The Great Chief Justice Jun 18 2023 John Marshall remains one of the towering figures in the landscape of American law. From the Revolution to the age of Jackson, he played a critical role in defining the "province of the judiciary" and the constitutional limits of legislative action. In this masterly study, Charles Hobson clarifies the coherence and thrust of Marshall's jurisprudence while keeping in sight the man as well as the jurist. Hobson argues that contrary to his critics, Marshall was no ideologue intent upon appropriating the lawmaking powers of Congress. Rather, he was deeply committed to a principled jurisprudence that was based on a steadfast devotion to a "science of law" richly steeped in the common law tradition. As Hobson shows, such jurisprudence governed every aspect of Marshall's legal philosophy and court opinions, including his understanding of judicial review. The chief justice, Hobson contends, did not invent judicial review (as many have claimed) but consolidated its practice by adapting common law methods to the needs of a new nation. In practice, his use of judicial review was restrained, employed almost exclusively against acts of the state legislatures. Ultimately, he wielded judicial review to prevent the states from undermining the power of a national government still struggling to establish sovereignty at home and respect abroad. No chief justice and only one associate justice (William Douglas) served

longer on the Supreme Court. But, as Hobson clearly shows, Marshall's deserved place in the pantheon of great American jurists rests far more upon principles than longevity. This book better than any other tells us why that's true and worthy of our attention.

Triggers Mar 03 2022 Bestselling author and world-renowned executive coach Marshall Goldsmith examines the environmental and psychological triggers that can derail us at work and in life. Do you ever find that you are not the patient, compassionate problem solver you believe yourself to be? Are you surprised at how irritated or flustered the normally unflappable you becomes in the presence of a specific colleague at work? Have you ever felt your temper accelerate from zero to sixty when another driver cuts you off in traffic? Our reactions don't occur in a vacuum. They are usually the result of unappreciated triggers in our environment—the people and situations that lure us into behaving in a manner diametrically opposed to the colleague, partner, parent, or friend we imagine ourselves to be. These triggers are constant and relentless and omnipresent. So often the environment seems to be outside our control. Even if that is true, as Goldsmith points out, we have a choice in how we respond. In *Triggers*, his most powerful and insightful book yet, Goldsmith shows how we can overcome the trigger points in our lives, and enact meaningful and lasting change. Goldsmith offers a simple “magic bullet” solution in the form of daily self-monitoring, hinging around what he calls “active” questions. These are questions that measure our effort, not our results. There's a difference between achieving and trying; we can't always achieve a desired result, but anyone can try. In the course of *Triggers*, Goldsmith details the six “engaging questions” that can help us take responsibility for our efforts to improve and help us recognize when we fall short. Filled with revealing and illuminating stories from his work with some of the most successful chief executives and power brokers in the business

world, Goldsmith offers a personal playbook on how to achieve change in our lives, make it stick, and become the person we want to be.

John Marshall Apr 16 2023 The life of John Marshall, Founding Father and America's premier chief justice In 1801, a genial and brilliant Revolutionary War veteran and politician became the fourth chief justice of the United States. He would hold the post for 34 years (still a record), expounding the Constitution he loved. Before he joined the Supreme Court, it was the weakling of the federal government, lacking in dignity and clout. After he died, it could never be ignored again. Through three decades of dramatic cases involving businessmen, scoundrels, Native Americans, and slaves, Marshall defended the federal government against unruly states, established the Supreme Court's right to rebuke Congress or the president, and unleashed the power of American commerce. For better and for worse, he made the Supreme Court a pillar of American life. In *John Marshall*, award-winning biographer Richard Brookhiser vividly chronicles America's greatest judge and the world he made.

The Great Dissenter Oct 10 2022 The “superb” (The Guardian) biography of an American who stood against all the forces of Gilded Age America to fight for civil rights and economic freedom: Supreme Court Justice John Marshall Harlan. They say that history is written by the victors. But not in the case of the most famous dissenter on the Supreme Court. Almost a century after his death, John Marshall Harlan’s words helped end segregation and gave us our civil rights and our modern economic freedom. But his legacy would not have been possible without the courage of Robert Harlan, a slave who John’s father raised like a son in the same household. After the Civil War, Robert emerges as a political leader. With Black people holding power in the Republican Party, it is Robert who helps John land his appointment to the Supreme Court. At first, John is awed by his fellow justices, but the country is changing. Northern whites are

prepared to take away black rights to appease the South. Giant trusts are monopolizing entire industries. Against this onslaught, the Supreme Court seemed all too willing to strip away civil rights and invalidate labor protections. So as case after case comes before the court, challenging his core values, John makes a fateful decision: He breaks with his colleagues in fundamental ways, becoming the nation's prime defender of the rights of Black people, immigrant laborers, and people in distant lands occupied by the US. Harlan's dissents, particularly in *Plessy v. Ferguson*, were widely read and a source of hope for decades. Thurgood Marshall called Harlan's *Plessy* dissent his "Bible"—and his legal roadmap to overturning segregation. In the end, Harlan's words built the foundations for the legal revolutions of the New Deal and Civil Rights eras. Spanning from the Civil War to the Civil Rights movement and beyond, *The Great Dissenter* is a "magnificent" (Douglas Brinkley) and "thoroughly researched" (The New York Times) rendering of the American legal system's most significant failures and most inspiring successes.

The Common Law Apr 23 2021

George Bush's War Dec 12 2022 *George Bush's War* by Jean Edward Smith chronicles the complete history of the 1991 Persian Gulf War. Smith takes the reader from the politics of Desert Shield to the military action of Desert Storm.

John Marshall and the Heroic Age of the Supreme Court Jul 15 2020 John Marshall (1755--1835) was arguably the most important judicial figure in American history. As the fourth chief justice of the United States Supreme Court, serving from 1801 to 1835, he helped move the Court from the fringes of power to the epicenter of constitutional government. His great opinions in cases like *Marbury v. Madison* and *McCulloch v. Maryland* are still part of the working discourse of constitutional law in America. Drawing on a new and definitive edition of Marshall's papers, R. Kent Newmyer combines engaging narrative with new historiographical insights in a fresh interpretation of John

Marshall's life in the law. More than the summation of Marshall's legal and institutional accomplishments, Newmyer's impressive study captures the nuanced texture of the justice's reasoning, the complexity of his mature jurisprudence, and the affinities and tensions between his system of law and the transformative age in which he lived. It substantiates Oliver Wendell Holmes Jr.'s view of Marshall as the most representative figure in American law.

John Marshall Aug 20 2023 A New York Times Notable Book of 1996 It was in tolling the death of Supreme Court Chief Justice John Marshall in 1835 that the Liberty Bell cracked, never to ring again. An apt symbol of the man who shaped both court and country, whose life "reads like an early history of the United States," as the Wall Street Journal noted, adding: Jean Edward Smith "does an excellent job of recounting the details of Marshall's life without missing the dramatic sweep of the history it encompassed." Working from primary sources, Jean Edward Smith has drawn an elegant portrait of a remarkable man. Lawyer, jurist, scholars; soldier, comrade, friend; and, most especially, lover of fine Madeira, good food, and animated table talk: the Marshall who emerges from these pages is noteworthy for his very human qualities as for his piercing intellect, and, perhaps most extraordinary, for his talents as a leader of men and a molder of consensus. A man of many parts, a true son of the Enlightenment, John Marshall did much for his country, and John Marshall: Definer of a Nation demonstrates this on every page.

Finna May 25 2021 Sharp, lyrical poems celebrating the Black vernacular—its influence on pop culture, its necessity for familial survival, its rite in storytelling and in creating the safety found only within its intimacy "Terrific . . . illuminates life in this country in a strikingly original way."—Ron Charles, The Washington Post NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • The New York Public Library • Tordotcom

Definition of finna, created by the author: fin·na /'finə/
contraction: (1) going to; intending to [rooted in African American

Vernacular English] (2) eye dialect spelling of “fixing to” (3) Black possibility; Black futurity; Blackness as tomorrow These poems consider the brevity and disposability of Black lives and other oppressed people in our current era of emboldened white supremacy, and the use of the Black vernacular in America’s vast reserve of racial and gendered epithets. Finna explores the erasure of peoples in the American narrative; asks how gendered language can provoke violence; and finally, how the Black vernacular, expands our notions of possibility, giving us a new language of hope: nothing about our people is romantic & it shouldn’t be. our people deserve poetry without meter. we deserve our own jagged rhythm & our own uneven walk towards sun. you make happening happen. we happen to love. this is our greatest action.

John Marshall Mar 15 2023 Eighteenth- and 19th-century contemporaries believed Marshall to be, if not the equal of George Washington and Benjamin Franklin, at least very close to that pantheon. John Marshall: The Final Founder demonstrates that not only can Marshall be considered one of those Founding Fathers, but that what he did as the Chief Justice was not just significant, but the glue that held the union together after the original founding days. The Supreme Court met in the basement of the new Capitol building in Washington when Marshall took over, which is just about what the executive and legislative branches thought of the judiciary. John Marshall: The Final Founder advocates a change in the view of when the “founding” of the United States ended. That has long been thought of in one or the other of the signing of the Constitution, the acceptance of the Bill of Rights or the beginning of the Washington presidency. The Final Founder pushes that forward to the peaceful change of power from Federalist to Democrat-Republican and, especially, Marshall’s singular achievement -- to move the Court from the basement and truly make it Supreme.

Marshall McLuhan Oct 30 2021 Surveys the life and career of

the social theorist best known for the quotation, "The medium is the message," who helped shape the culture of the 1960s and predicted the future of television and the rise of the Internet.

George Marshall Nov 30 2021 The extraordinary career of General George C. Marshall—America’s most distinguished soldier-statesman since George Washington—whose selfless leadership and moral character influenced the course of two world wars and helped define the American century “I’ve read several biographies of Marshall, but I think [David] Roll’s may be the best of the bunch.”—Thomas E. Ricks, *New York Times Book Review* • “Powerful.”—*The Wall Street Journal* •

“Enthralling.”—Andrew Roberts • “Important.”—William I. Hitchcock • “Majestic.”—Susan Page • “Engrossing.”—Andrew J. Bacevich • “Judicious.”—Walter Isaacson • “Definitive.”—Kirkus
Winston Churchill called him World War II's "organizer of victory." Harry Truman said he was "the greatest military man that this country ever produced." Today, in our era of failed leadership, few lives are more worthy of renewed examination than Marshall and his fifty years of loyal service to the defense of his nation and its values. Even as a young officer Marshall was heralded as a genius, a reputation that grew when in WWI he planned and executed a nighttime movement of more than a half million troops from one battlefield to another that led to the armistice. Between the wars he helped modernize combat training and re-staffed the U.S. Army's officer corps with the men who would lead in the next decades. But as WWII loomed, it was the role of army chief of staff in which Marshall's intellect and backbone were put to the test, when his blind commitment to duty would run up against the realities of Washington politics. Long seen as a stoic, almost statuesque figure, he emerges in these pages as a man both remarkable and human thanks to newly discovered sources. Set against the backdrop of five major conflicts—two world wars, Palestine, Korea, and the Cold War—Marshall's education in military, diplomatic, and political

power, replete with their nuances and ambiguities, runs parallel with America's emergence as a global superpower. The result is a defining account of one of our most consequential leaders.

George Marshall Aug 16 2020 “Elegant and iconoclastic . . .

refreshing . . . persuasive.”—NEW YORK TIMES BOOK REVIEW

Here is the first biography to offer a complete picture of the life of George C. Marshall, chief of staff of the U.S. Army from 1939 to 1945 and the military leader who actually ran World War II for America as he oversaw all personnel and logistics. Following Marshall from his childhood in western Pennsylvania and his training at the Virginia Military Institute to his role during and after World War II and his death in 1959 at the age of seventy-eight, this biography casts light on the inspiration he took from historical role models, such as George Washington and Robert E. Lee, and his relationships with military brass, the Washington political establishment, and world leaders, from Harry Truman to Chiang Kai-shek. It also explores Marshall's triumphs and defeats during World War II, and his contributions through two critical years of the emerging Cold War—including the transformative Marshall Plan, which saved Western Europe from Soviet domination, and his failed attempt to unite China's Nationalists and Communists. Based on exhaustive research and filled with rich detail, George Marshall is sure to be hailed as the definitive work on one of the most influential figures in American history. “A grand but judicious biography of a fascinating man.”—Evan Thomas, author of *Ike's Bluff*

Compassionate Justice May 05 2022 Two parables that have become firmly lodged in popular consciousness and affection are the parable of the Good Samaritan and the parable of the Prodigal Son. These simple but subversive tales have had a significant impact historically on shaping the spiritual, aesthetic, moral, and legal traditions of Western civilization, and their capacity to inform debate on a wide range of moral and social issues remains as potent today as ever. Noting that both stories deal with

episodes of serious interpersonal offending, and both recount restorative responses on the part of the leading characters, *Compassionate Justice* draws on the insights of restorative justice theory, legal philosophy, and social psychology to offer a fresh reading of these two great parables. It also provides a compelling analysis of how the priorities commended by the parables are pertinent to the criminal justice system today. The parables teach that the conscientious cultivation of compassion is essential to achieving true justice. Restorative justice strategies, this book argues, provide a promising and practical means of attaining to this goal of reconciling justice with compassion.

Citizenship and Social Class, and Other Essays May 13 2020 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Thurgood Marshall Jun 25 2021 A NEW YORK TIMES NOTABLE BOOK • The definitive biography of the great lawyer and Supreme Court justice, from the bestselling author of *Eyes on the Prize* “Magisterial . . . in Williams’ richly detailed portrait, Marshall emerges as a born rebel.”—Jack E. White, *Time*
Thurgood Marshall was the twentieth century’s great architect of American race relations. His victory in the *Brown v. Board of*

Education decision, the landmark Supreme Court case outlawing school segregation in the United States, would have made him a historic figure even if he had never been appointed as the first African-American to serve on the Supreme Court. He had a fierce will to change America, which led to clashes with Martin Luther King, Jr., Malcolm X, and Robert F. Kennedy. Most surprising was Marshall's secret and controversial relationship with the FBI chief J. Edgar Hoover. Based on eight years of research and interviews with over 150 sources, Thurgood Marshall is the sweeping and inspirational story of an enduring figure in American life who rose from the descendants of slaves to become an American hero.

A Dictionary of Sociology Jul 07 2022 A consistent best-seller, the wide-ranging and authoritative Dictionary of Sociology was first published in 1994 and contains more than 2,500 entries on the terminology, methods, concepts, and thinkers in the field, as well as from the related fields of psychology, economics, anthropology, philosophy, and political science. For this fourth edition, Professor John Scott has conducted a thorough review of all entries to ensure that they are concise, focused, and up to date. Revisions reflect current intellectual debates and social conditions, particularly in relation to global and multi-cultural issues. New entries cover relevant contemporary concepts, such as climate change, social media, terrorism, and intersectionality, as well as key living sociologists. This Dictionary is both an invaluable introduction to sociology for beginners, and an essential source of reference for more advanced students and teachers.

Marshall the Miracle Dog Oct 18 2020 In the story of Marshall the Miracle Dog, readers glean hope. Even though Marshall has been the victim of unfathomable abuse, he is not broken. Found at the home of an animal hoarder, Marshall was rescued and later adopted by author Cyndi Willenbrock. From the start, readers sympathize with Marshall, as they follow him from discovery to

recovery. At first, Marshall is frightened and unsure of the strangers who bring him to safety; however, he learns to trust the kindness of others. Even though he is severely malnourished and loses a leg, he has a spirit that can only be described as miraculous! Marshall's astounding resilience inspires us all. He does not let circumstances beyond his control define him. Marshall the Miracle Dog begins with tragedy, but ends in triumph.

Partners in Command Nov 18 2020 A military analyst delivers a revelatory account of the remarkable, evolving relationship forged between George Marshall and Dwight Eisenhower during World War II and into the Cold War.

FDR Feb 02 2022 NATIONAL BESTSELLER - "A model presidential biography... Now, at last, we have a biography that is right for the man" - Jonathan Yardley, *The Washington Post* Book World One of today's premier biographers has written a modern, comprehensive, indeed ultimate book on the epic life of Franklin Delano Roosevelt. In this superlative volume, Jean Edward Smith combines contemporary scholarship and a broad range of primary source material to provide an engrossing narrative of one of America's greatest presidents. This is a portrait painted in broad strokes and fine details. We see how Roosevelt's restless energy, fierce intellect, personal magnetism, and ability to project effortless grace permitted him to master countless challenges throughout his life. Smith recounts FDR's battles with polio and physical disability, and how these experiences helped forge the resolve that FDR used to surmount the economic turmoil of the Great Depression and the wartime threat of totalitarianism. Here also is FDR's private life depicted with unprecedented candor and nuance, with close attention paid to the four women who molded his personality and helped to inform his worldview: His mother, Sara Delano Roosevelt, formidable yet ever supportive and tender; his wife, Eleanor, whose counsel and affection were instrumental to FDR's public and individual achievements; Lucy

Mercer, the great romantic love of FDR's life; and Missy LeHand, FDR's longtime secretary, companion, and confidante, whose adoration of her boss was practically limitless. Smith also tackles head-on and in-depth the numerous failures and miscues of Roosevelt's public career, including his disastrous attempt to reconstruct the Judiciary; the shameful internment of Japanese-Americans; and Roosevelt's occasionally self-defeating Executive overreach. Additionally, Smith offers a sensitive and balanced assessment of Roosevelt's response to the Holocaust, noting its breakthroughs and shortcomings. Summing up Roosevelt's legacy, Jean Smith declares that FDR, more than any other individual, changed the relationship between the American people and their government. It was Roosevelt who revolutionized the art of campaigning and used the burgeoning mass media to garner public support and allay fears. But more important, Smith gives us the clearest picture yet of how this quintessential Knickerbocker aristocrat, a man who never had to depend on a paycheck, became the common man's president. The result is a powerful account that adds fresh perspectives and draws profound conclusions about a man whose story is widely known but far less well understood. Written for the general reader and scholars alike, FDR is a stunning biography in every way worthy of its subject.
