Jonas Grinn è un ragazzo di tredici anni, legato alla famiglia e con un sogno proibito: diventare campione nazionale di Kayt, sport popolare nel quale giovani piloti si cimentano a bordo di macchine volanti alimentate dall'energia solare. Il suo talento sembra spianargli la strada verso un destino di gloria: ma il mondo da favola inizia presto ad oscurarsi. Cosa c'è davvero dietro le corse? Qual è la vera natura del Signor D, l'uomo che lo spinge oltre ogni limite pur di arrivare alla vittoria? Amicizia e lealtà si scontreranno con l'ambizione e l'immoralità. Forte di un'educazione esemplare inculcata da una figura paterna formidabile, Jonas e i suoi inseparabili amici proveranno a vincere su forze molto più grandi di loro. I heard my human driving down the dirt road... As he got out of the truck and went to open the trailer, nothing could have prepared me for what I saw inside. Grinn is a friendly farm dog who is surprised one day to learn that his new partner is Barrett...a donkey. How will these two unlikely friends protect the cattle when coyotes come one night? You're in for quite a ride in The Adventures of Grinn and Barrett. It's simple in the fact that he has a well-paid job, routinely partakes in sexual encounters and enjoys the occasional drink. The extraordinary part kicks in when you understand what it is exactly that Jack does for a living. Jack is a 'Grinn and bear it' representative or what's more commonly known as a Grimm reaper. This is his story and it's the story of just how cruel life can be when you allow your past to steal your future. Noise-induced hearing loss (NIHL) can be incurred from occupational or recreational noise exposure. Regardless, NIHL is a preventable form of hearing loss; with accurate knowledge of risk and protective strategies, it can be avoided in almost all cases. Nonetheless, it presents with astounding global incidence, prevalence, and financial toll; there is an immediate need to redesign and strengthen hearing conservation efforts. Two primary factors categorize high-risk NIHL populations: 1) over-exposure to dangerous noise, and 2) individual vulnerability to auditory injury from dangerous noise. At present, established NIHL-risk criteria exist to identify noise over-exposure, accomplished by measuring the sound-level and duration of the exposure; however, there is currently no way to identify individuals who are inherently more vulnerable to auditory injury, as variable vulnerability has never been sufficiently explained. There is a strong possibility that the contribution of external-ear amplification could influence individual vulnerability in NIHL-risk, as amplification is likely to vary across individuals due to ear size and shape. This research tested the hypothesis that 1) participant's NIHL-risk estimation will considerably differ after accounting for individual external-ear amplification, and 2) external-ear amplification can be estimated by non-invasive and less-technical proxy metrics (e.g., pinna size, earcanal size, body height). 158 participants (age 4-8, 13-17, and 18+ years) completed a demographic questionnaire, otoscopy, tympanometry, pinna measurement, and external-ear amplification measurements during noise stimuli. Noise stimuli included a 58 dB-A pink-noise presented in the free-field and a 53 dB-A pink-noise presented via insert-earphones. Two external-ear measurements (one for each stimulus, respectively) were obtained: 1) amplification derived from combined external-ear structures (i.e., pinna, concha, earcanal), and 2) amplification derived solely from the earcanal structure. External-ear amplification measurement #1 was obtained by placing a probemicrophone near the eardrum, and calculating the pink-noise sound-level difference between the microphone inside the ear and another microphone which measured the sound-level outside the ear; external-ear amplification measurement #2 was obtained by comparing the sound-level recorded by the microphone inside the participant's ear to the sound-level observed inside a 2.0 cc reference coupler. Individual variability in noise-dose and subsequent NIHL-risk was estimated in hypothetical scenarios after adjusting for the participant's external-ear amplification added to the sound-level of the exposure. Correlations between external-ear amplification and hypothesized proxy metrics were evaluated. Amplification derived from combined external-ear structures (i.e., pinna, concha, and earcanal) was highly variable (5-19 dB-A), confirming large variability in estimated individual NIHL-risk for free-field exposures; participants with highest amplification were estimated to accrue up to 7x higher in-ear noise-dose than participants with lowest amplification. This type of amplification can be reliably estimated using the proxy metric of pinna height (p This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. Ozzie Grinn inherits the largest insurance company in the world. Everything runs smoothly for nearly three years, but then he suddenly discovers that in just a matter of weeks or possibly even days, he could lose the entire insurance empire his deceased father, H. Martin Grinn, III, worked a lifetime to build. Racing against the clock to thwart the hostile takeover attempt, Ozzie and his wife, Sly, enlist the help of some of the sharpest minds in the world—four people they'd trust with their lives. But the group quickly finds that it's no simple task to stop the small reinsurance company, Monolith Re, from swallowing up Lion's Grinn International. While Ozzie's team search frantically for answers in the U.S. and Europe, Ozzie and one of his closest friends are nearly gunned down and then kidnapped on a street in London. Meanwhile, as ridiculous as it seems, the possibility looms larger by the hour that the largest, most prestigious insurance company in the world will be taken over by a tiny, renegade, reinsurer! Ozzie and his wife are shocked beyond words when they finally learn who's behind the takeover attempt. This is a collection of stories, in script format. The primary cast: Brother Grinn - a.k.a. Brother Grinn, twin brother of Brother Grinn AND Brother Grinn - a.k.a. Brother Grinn, twin brother of - you guessed it - Brother Grinn. You are confused? Well, have some pity for the author. This is a family friendly book and Eric makes cameo appearances to keep the Brothers Grinn in line. The Brothers Grinn proffer their words of wisdom on children's fairy tales, marriage, sex and fidelity. The Godfather and Lord of the Rings legends suffer the Brothers' brand of humour. They also pick on the self-proclaimed stalwarts of our age - politicians, priests and (yucks) bankers. Not all readers might agree with their views but all are guaranteed to have a chuckle or even, full blown guffaws. Besides the original stories, the Brothers Grinn also review and respond to comments from all over the world. The responses usually pick up the themes of the comments and are often tongue-in-cheek and irreverent, but always without malice or offence. Quite often, the Brothers Grinn posted their replies within minutes of receiving the comments. These added to the punch and vibrancy of the exchanges. Where required, the comments went through minor editing for typos. However, where the typos added to the punch of the comments, these remain unedited. As the final manuscript was voluminous, the Brothers Grinn released two books. These are not in any order or sequence. The other title is: Brothers Grinn - Humour, Parody, Satire This continues with more on children's fairy tales, love, sex, and alphabets taught in an adult and fun way. Marvin Grinn vê sua vida mudar ao descobrir que é portador de um livro repleto de segredos e possibilidades mágicas. Em meio a aulas de feitiços, duelos, aventuras e pessoas especiais, o menino com os olhos de duas cores descobre seu verdadeiro potencial e o importante papel que desempenhará como bruxo. Uma história envolvente sobre amizade, aventura e autoconhecimento. In "Chew, Chew, Chew," experience a man confronted by a storyteller with a fantastic tale about surviving a town full of zombies; in "Heave and Hell, I Do," listen to a woman's tale about how heaven and hell raged war, and how the world ended; in "A Sexy Death," witness two women's "girl's night out," being more than what they bargained for; and in "Reaper's Death," experience a man taking over the grimmest job that has ever existed. The Brothers Grinn proffer their unique brand of humour on issues such as family values and children's fairy tales. They also offer their words of wisdom on animal welfare, love, sex, marriage, the environment and - gasp - even politics (Yes, they do sink to gutter levels). Not all readers might agree with their views but all are guaranteed to have a chuckle or even, full blown guffaws. Besides the original stories, the Brothers Grinn also review and respond to comments from all over the world. The responses usually pick up the themes of the comments and are often tongue-in-cheek and irreverent (irrevent(?) irrevenent(?) irrererent(?) - okay, you got the message but always without malice or offence. The Brothers Grinn have another title: *Brothers Grinn - Oh God, father and more* This continues with more fairy tales, love, marriage and sex, and also parodies the Godfather and Lord of the Rings series.
