**The Great Stink of Paris and the Nineteenth-Century Struggle against Filth and Germs** Dec 24 2020 The scientific and social history surrounding the 1880 incident of a foul odor in Paris and the development of

public health culture that followed. Late in the summer of 1880, a wave of odors enveloped large portions of Paris. As the stench lingered, outraged residents feared that the foul air would breed an epidemic. Fifteen years later—when the City of Light was in the grips of another Great Stink—the public conversation about health and disease had changed dramatically. Parisians held their noses and protested, but this time few feared that the odors would spread disease. Historian David S. Barnes examines the birth of a new microbe-centered science of public health during the 1880s and 1890s, when the germ theory of disease burst into public consciousness. Tracing a series of developments in French science, medicine, politics, and culture, Barnes reveals how the science and practice of public health changed during the heyday of the Bacteriological Revolution. Despite its many innovations, however, the new science of germs did not entirely sweep away the older “sanitarian” view of public health. The longstanding conviction that disease could be traced to filthy people, places, and substances remained strong, even as it was translated into the language of bacteriology. Ultimately, the attitudes of physicians and the French public were shaped by political struggles between republicans and the clergy, by aggressive efforts to educate and “civilize” the peasantry, and by long-term shifts in the public’s ability to tolerate the odor of bodily substances. “A well-developed study in medically related social history, it tells an intriguing tale and prompts us to ask how our own cultural contexts affect our views and actions regarding environmental and infectious scourges here and now.” —New England Journal of Medicine “Both a captivating story and a sophisticated historical study. Kudos to Barnes for this valuable and insightful book that both physicians and historians will enjoy.” —Journal of the American Medical Association

*A Big Stink* Mar 07 2022 A delightfully illustrated story about passing gas and passing the buck, by a renowned scholar of gastrointestinal humor who has seen and smelled it all. The marriage of flatulence and wordplay is a potent source of pleasure as old as language itself. So says Edward H. Kafka-Gelbrecht, who has spent a lifetime studying the art of the unclaimed fart, from the courtroom to the convent. Now, in this illustrated tour de force, he airs a more personal story about a quiet elevator ride that is shattered by an ignoble gas. Starting with the classic “He who smelt it, dealt it” and the indignant riposte “She who denied it, supplied it,” the repartee heats up as the elevator rises. Can a reek that drives people apart instead bring two hearts together? A Big Stink’s beguiling blend of highbrow and lowbrow humor will delight oversharing families and word lovers alike. Illustrator Sophia Vincent Guy ramps up the fun with elegantly detailed illustrations sprinkled with Easter eggs. Sure to reduce even the most solemn adults to irrepressible giggles, A Big Stink is a ripping good read and a breath of foul air.
