Community Courts are designed to handle a city's low-level offenses and quality-of-life crimes, such as littering, loitering, or public drunkenness. Court advocates maintain that these largely victimless crimes jeopardize the well-being of residents, businesses, and visitors. Whereas traditional courts might dismiss such cases or administer a small fine, community courts aim to meaningfully punish offenders to avoid disorder escalating to apocalyptic decline. **Courting the Community** is a fascinating ethnography that goes behind the scenes to explore how quality-of-life discourses are translated into court practices that marry therapeutic and rehabilitative ideas. Christine Zozula shows how

residents and businesses participate in meting out justice—such as through community service, treatment, or other sanctions—making it more emotional, less detached, and more legitimate in the eyes of stakeholders. She also examines both “impact panels,” in which offenders, residents, and business owners meet to discuss how quality-of-life crimes negatively impact the neighborhood, as well as strategic neighborhood outreach efforts to update residents on cases and gauge their concerns. Zozula’s nuanced investigation of community courts can lead us to a deeper understanding of punishment and rehabilitation and, by extension, the current state of the American court system. In 1987 Judge Russell Clark mandated tax increases to help pay for improvements to the Kansas City, Missouri, School District in an effort to lure white students and quality teachers back to the inner-city district. Yet even after increasing employee salaries and constructing elaborate facilities at a cost of more than \$2 billion, the district remained overwhelmingly segregated and student achievement remained far below national averages. Just eight years later the U.S. Supreme Court

began reversing these initiatives, signifying a major retreat from Brown v. Board of Education. In Kansas City, African American families opposed to the district court's efforts organized a takeover of the school board and requested that the court case be closed. Joshua Dunn argues that Judge Clark's ruling was not the result of tyrannical "judicial activism" but was rather the logical outcome of previous contradictory Supreme Court doctrines. High Court decisions, Dunn explains, necessarily limit the policy choices available to lower court judges, introducing complications the Supreme Court would not anticipate. He demonstrates that the Kansas City case is a model lesson for the types of problems that develop for lower courts in any area in which the Supreme Court attempts to create significant change. Dunn's exploration of this landmark case deepens our understanding of when courts can and cannot successfully create and manage public policy.
