The present volume represents a selection of papers presented at the International Symposium on Ideophones held in January 1999 in St. Augustin, Germany. They center around the following hypotheses: Ideophones are universal; and constitute a grammatical category in all languages of the world; ideophones and similar words have a special dramaturgic function that differs from all other word classes: they simulate an event, an emotion, a perception through language. In addition to this unique function, a good number of formal parallels can be observed. The languages dealt with here display strikingly similar patterns of derivational processes involving ideophones. An equally widespread common feature is the introduction of ideophones via a verbum

dicendi or complementizer. Another observation concerns the sound-symbolic behavior of ideophones. Thus the word formation of ideophones differs from other words in their tendency for iconicity and sound-symbolism. Finally it is made clear that ideophones are part of spoken language — the language register, where gestures are used — rather than written language. This work provides a history of the Rinzai Zen monastic institution in Medieval Japan. A house is a site, the bounds and focus of a community. It is also an artifact, a material extension of its occupants' lives. This book takes the Japanese house in both senses, as site and as artifact, and explores the spaces, commodities, and conceptions of community associated with it in the modern era. As Japan modernized, the principles that had traditionally related house and family began to break down. Even where the traditional class markers surrounding the house persisted, they became vessels

for new meanings, as housing was resituated in a new nexus of relations. The house as artifact and the artifacts it housed were affected in turn. The construction and ornament of houses ceased to be stable indications of their occupants' social status, the home became a means of personal expression, and the act of dwelling was reconceived in terms of consumption. Amid the breakdown of inherited meanings and the fluidity of modern society, not only did the increased diversity of commodities lead to material elaboration of dwellings, but home itself became an object of special attention, its importance emphasized in writing, invoked in politics, and articulated in architectural design. The aim of this book is to show the features of this culture of the home as it took shape in Japan. Originally published: Seoul, Korea: Yekyong Pub. Co., c2002. Explore the knowledge and teachings of the old masters in this well illustrated and easy to understand riding book based

on the knowledge of the old riding masters. The Academic Art of Riding is rooted in the belief that one must train one's horse not only physically but also mentally. Fine communication with the horse as a partner is not only the way to accomplish this, but also the result. The described gymnastic exercises are made to build up the horse and keep it healthy. Starting with the horse's basic training and work in hand, the reader also gets insight into lateral movements and exercises above ground. Furthermore, methods for training and physiotherapy for horses in need of correction, as well the correct seat of the rider, are described. There is also included a checklist which allows the rider to assess their horse. Explores how Soto monks between the 13th and 16th centuries developed new forms of monastic organization and Zen instructions and new applications for Zen rituals within lay life; how these innovations helped shape rural society; and how remnants of them remain in the modern Soto school, now the lar This book aims to provide an account of both what and how onomatopoeia communicate by applying ideas from the relevance theoretic framework of utterance interpretation. It focuses on two main aspects of the topic: the contribution that onomatopoeia make to communication and the nature of multimodal communication. This is applied in three domains (food discourse, visual culture in Asia and translation) in the final sections of the book. It will be of interest to scholars working in the fields

of pragmatics, semantics, cognitive linguistics, stylistics, philosophy of language, literature, translation, and Asian studies. The world is no doubt full of self-improvement books. What sets Toshio Egawa's book apart is that its focus is more about being at The Top than about getting there. Of course, the traits that get you there and the traits that keep you there overlap in many cases. One could go further to say that it is not always clear whether one is on the way to the top, is at the top or is on the way down from the top. But there are ethical goals and self-reflections; social attitudes and pragmatic shrewdness, as well as a sense of time passing, which should be cultivated in any case if one is to live a full and meaningful life. The Top may not be a place that we can easily locate. As Egawa-san puts it: ""Being alive, we should, at least until we have aged too much, recompense and respect our situation by undertaking responsible work as human beings. Before we know it, we

would have reached a certain age beyond which daily quietude, good health and physical safety become paramount. All the rest power, position, business results, assets, lust, et cetera are but brief moments, simply passing scenery." This thirteenth-century text by Nichiren extols the Lotus Sutra and critiques the other schools of Japanese Buddhism active at that time. Nichiren was arrested by the Kamakura government in 1271 and sentenced to exile on Sado Island. There he was in constant danger of assassination, and wrote the *Kaimokusho* to convince his remaining followers to follow his example in Buddhism. To do this, Nichiren criticized religions other than Buddhism, and then Buddhist sutras other than the Lotus Sutra. He asked the question "Am I not the practitioner of the Lotus Sutra and answered this question by quoting five testimonies to the truthfulness of his faith. He also identifies the three kinds of arrogant people and equates them with the three kinds of

enemies of the Lotus Sutra. Nelson Mandela has become a legend in his own lifetime; the embodiment of the struggle for liberation in South Africa and the symbol of its triumph. In this biography, the author describes Mandela's life, work and ideas from his childhood in the royal family of the Thembu people to his membership of the African National Congress, including the many years in captivity on Robben Island and the birth of the hope that came with his release. *Aikibatto* is a system of sword and staff exercises for aikido students, as well as for anyone interested in the Japanese martial arts. This book presents the basics and principles of the sophisticated sword arts developed by the Japanese warrior aristocracy, the samurai. Although the aikibatto exercises are primarily developed for aikido students, they contain much of the normal curriculum of traditional iaido and kenjutsu. Anyone interested in the arts of the katana, the formidable Japanese sword, will find much

of value in this book. Stefan Stenudd is a 7 dan Aikikai Shihan aikido instructor, former Vice Chairman of the International Aikido Federation and President of the Swedish Budo & Martial Arts Federation, who has practiced aikido and iaido since 1972. He is also a writer of both fiction and non-fiction. This volume brings together a range of studies on various aspects of English and its use in Southern Africa. Experts in their field have written chapters on topics including the history and development of English in South Africa, the characteristics of particular pan-ethnic varieties of English which have evolved in South Africa (including black, Indian and colored varieties) as well as the unique features of the English of South Africa's southern neighbours: Swaziland, Zimbabwe, Zambia and Malawi. Other contributions focus on English in relation to issues such as standardisation, lexicography, education, language planning, language attitudes and

interaction patterns. The book will be of primary interest to students of linguistics and language, but should also be relevant to educationists, sociologists and historians. solicited; on sale July 29 - 144 pg, FC, \$14.99 US This volume presents a comprehensive survey of the lexicon and word formation processes in contemporary Japanese, with particular emphasis on their typologically characteristic features and their interactions with syntax and semantics. Through contacts with a variety of languages over more than two thousand years of history, Japanese has developed a complex vocabulary system that is composed of four lexical strata: (i) native Japanese, (ii) mimetic, (iii) Sino-Japanese, and (iv) foreign (especially English). This hybrid composition of the lexicon, coupled with the agglutinative character of the language by which morphology is closely associated with syntax, gives rise to theoretically intriguing interactions with word formation processes that are not easily found with inflectional, isolate, or polysynthetic types of languages. There are two systems of Abhidharma,

according to Tibetan tradition, lower and higher. The lower system is taught in the Abhidharmakosa, while the higher system is taught in the Abhidharmasamuccaya. Thus the two books form a complementary pair. Asanga, author of the Abhidharmasamuccaya, is founder of the Yogacara school of Mahayana Buddhism. His younger brother Vasubandhu wrote the Abhidharmakosa before Asanga converted him to Mahayana Buddhism. Yet the Kosa is written in verse, usual for Mahayana treatises, while the Samuccaya follows the traditional prose question and answer style of the older Pali Abhidharma texts. Walpola Rahula, in preparing his 1971 French translation of this Mahayana text from the Sanskrit, Chinese, and Tibetan, has brought to bear on its many technical terms his extensive background and great expertise in the Pali canon. J. W. de Jong says in his review of this work: "Rahula deserves our gratitude for his excellent translation of this

difficult text." Sara Boin-Webb is well known for her accurate English translations of Buddhist books from the French. She has now made accessible in English Rahula's French translation, the first into a modern language, of this fundamental text. "...an important book for any serious library in Buddhist Studies..." -- Choice

Since January 2004, a violent separatist insurgency has raged in southern Thailand, resulting in more than three thousand deaths. Though largely unnoticed outside Southeast Asia, the rebellion in Pattani and neighboring provinces and the Thai government's harsh crackdown have resulted in a full-scale crisis. Tearing Apart the Land by Duncan McCargo, one of the world's leading

scholars of contemporary Thai politics, is the first fieldwork-based book about this conflict. Drawing on his extensive knowledge of the region, hundreds of interviews conducted during a year's research in the troubled area, and unpublished Thai-language sources that range from anonymous leaflets to confessions extracted by Thai security forces, McCargo locates the roots of the conflict in the context of the troubled power relations between Bangkok and the Muslim-majority "deep South." McCargo describes how Bangkok tried to establish legitimacy by co-opting local religious and political elites. This successful strategy was upset when Thaksin Shinawatra became prime minister in 2001 and set out to reorganize power in the region. Before Thaksin was overthrown in a 2006 military coup, his repressive policies had exposed the precariousness of the Bangkok government's influence. A rejuvenated militant movement had

emerged, invoking Islamic rhetoric to challenge the authority of local leaders obedient to Bangkok. For readers interested in contemporary Southeast Asia, insurgency and counterinsurgency, Islam, politics, and questions of political violence, *Tearing Apart the Land* is a powerful account of the changing nature of Islam on the Malay peninsula, the legitimacy of the central Thai government and the failures of its security policy, the composition of the militant movement, and the conflict's disastrous impact on daily life in the deep South. Carefully distinguishing the uprising in southern Thailand from other Muslim rebellions, McCargo suggests that the conflict can be ended only if a more participatory mode of governance is adopted in the region.
