Morris Award finalist Starfish. Rumi Seto spends a lot of time worrying she doesn't have the answers to everything. What to eat, where to go, whom to love. But there is one thing she is absolutely sure of—she wants to spend the rest of her life writing music with her younger sister, Lea. Then Lea dies in a car accident, and her mother sends her away to live with her aunt in Hawaii while she deals with her own grief. Now thousands of miles from home, Rumi struggles to navigate the loss of her sister, being abandoned by her mother, and the absence of music in her life. With the help of the "boys next door"—a teenage surfer named Kai, who smiles too much and doesn't take anything seriously, and an eighty-year-old named George Watanabe, who succumbed to his own grief years ago—Rumi attempts to find her way back to her music, to write the song she and Lea never had the chance to finish. Aching, powerful, and unflinchingly honest, Summer Bird Blue explores big truths about insurmountable grief, unconditional love, and how to forgive even when it feels impossible. Patterns are fascinating! They can be so beautiful that people come from all over the world to see them, or so familiar you hardly notice them. The magnum opus from Alejandro Jodorowsky—director of *The Holy Mountain*, star of Jodorowsky's *Dune*, spiritual guru behind *Psychomagic* and *The Way of Tarot*, innovator behind classic comics *The Incal* and *Metabarons*, and legend of Latin American literature. There has never been an artist like the polymathic Chilean director, author, and mystic Alejandro Jodorowsky. For eight decades, he has blazed new trails across a dazzling variety of creative fields. While his psychedelic, visionary films have been celebrated by the likes of John Lennon, Marina Abramovic, and Kanye West, his novels—praised throughout Latin America in the same breath as those of Gabriel García Márquez—have remained largely unknown in the English-speaking world. Until now. *Where the Bird Sings Best* tells the fantastic story of the Jodorowskys' emigration from Ukraine to Chile amidst the political and cultural upheavals of the 19th and 20th centuries. Like *One Hundred Years of Solitude*, Jodorowsky's book transforms family history into heroic legend: incestuous beekeepers hide their crime with a living cloak of bees, a czar fakes his own death to live as a hermit amongst the animals, a devout grandfather confides only in the ghost of a wise rabbi, a transgender ballerina with a voracious sexual appetite holds a would-be saint in thrall. Kaleidoscopic, exhilarating, and erotic, *Where the Bird Sings Best* expands the classic immigration story to mythic proportions. Praise "This epic family saga, reminiscent of Gabriel García Márquez's *One Hundred Years of Solitude* in structure and breadth, reads at a breakneck pace. Though ostensibly a novelization of the author's own family history, it is a raucous carnival of the surreal, mystical, and grotesque." —Publishers Weekly "A man whose life has been defined by cosmic ambitions." —The New York Times Magazine "A great eccentric original....A legendary man of many trades." —Roger Ebert For more information on Alejandro Jodorowsky, please visit www.restlessbooks.com/alejandro-jodorowsky Since its release for Apple's iPhone in 2009, *Angry Birds* has been one of the most successful video games in history. Although *Angry Birds* seemed to be an overnight success, the game was actually the result of years of struggle by Rovio Entertainment, the Finnish company that created it. The company's founder, Niklas Hed, his cousin Mikael Hed, and Peter Vesterbacka have established not just a profitable video game but a cultural phenomenon. In this thrilling narrative, readers examine the challenges and triumphs of building a company while keeping the spirit of fun behind the development of new products. This brilliant Coloring Book is bursting with fun-filled scenes from Bird Island featuring all your favorite feathered friends to color. Packed with pesky Pigs, angry Birds and soothing patterns: it's time to practice your art skills! This collection, which gathers together original articles by a global roster of contributors from a variety of disciplines, sets out to contextualize the increasingly convergent areas surrounding social, geosocial, and mobile media discourses. and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, The 48 Laws of Power is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game. At a time when literacy has become more of a political issue than a research or pedagogical one, this volume refocuses attention on work with young children that places them at the center of their literacy worlds. Drawing on robust and growing knowledge which is often marginalized because of political and legislative forces, it explores young children's literacies as inclusive, redefined, and broadened—encompassing technologies, the arts, multiple modalities, and teaching and learning for democracy, cultural sustainability and social justice. Highlighted themes include children's rights to grow through playful engagements with multiple literacies to interrogate their worlds; adults who expand and inspire children's consciousness and awareness of others and the world around them; the centrality of meaning making in all aspects of language and literacy development; a deep respect for diversities, including languages, cultures, sexual orientation, socioeconomic status and more; and an expansive understanding of the nature of texts. Teaching and Digital Technologies: Big Issues and Critical Questions helps both pre-service and in-service teachers to critically question and evaluate the reasons for using digital technology in the classroom. Unlike other resources that show how to use specific technologies – and quickly become outdated, this text empowers the reader to understand why they should (or should not) use digital technologies, when it is appropriate (or not), and the implications arising from these decisions. The text directly engages with policy, the Australian Curriculum, pedagogy, learning and wider issues of equity, access, generational stereotypes and professional learning. The contributors to the book are notable figures from across a broad range of Australian universities, giving the text a unique relevance to Australian education while retaining its universal appeal. Teaching and Digital Technologies is an essential contemporary resource for early childhood, primary and secondary pre-service and in-service teachers in both local and international education environments. This well-illustrated, comprehensive book summarizes what is known about the history, biology, and management of the California Quail.
