Every year hundreds of new businesses are started. Sadly very few will actually survive beyond the start-up phase. One reason they fail is that the entrepreneurs behind these businesses don't fully understand the importance of the accounting and tax aspects of their business. The New Business Kit is designed to help you understand the financial aspects of starting and running a business, as well as key Federal and State regulations regarding issues such as business entity selection, employer obligations and tax responsibilities. These issues are complex and discussing their implications with a qualified professional is advised. Please don't hesitate to contact Perkins, Lund, Collar & Associates if we can be of assistance. Women in Business 2014 summarises the progress made by the OECD-MENA Women Business Forum (WBF) since the publication of its first Women in Business report in 2012. Business in North Korea: a paradoxical and fascinating situation is interpreted by a true insider. In 2002, the Swiss power company ABB appointed Felix Abt its country director for North Korea. The Swiss Entrepreneur lived and worked in North Korea for seven years, one of the few foreign businessmen there. After the experience, Abt felt compelled to write A Capitalist in North Korea to describe the multifaceted society he encountered. North Korea, at the time, was heavily sanctioned by the UN which made it extremely difficult to do business. Yet he discovered that it was a place where plastic surgery and South Korean TV dramas were wildly popular and where he rarely needed to walk more than a block to grab a quick hamburger. He was closely monitored and once faced accusations of spying, yet he learned that young North Koreans are hopeful—signing up for business courses in anticipation of a brighter, more open, future. In A Capitalist in North Korea, Abt shares these and many other unusual facts and insights about one of the world's most secretive nations. Vol I 2009: United States ' Alabama-Massachusetts. Unlike the "old" Latin America, today's Latin America is both readily accessible to smaller North American companies and is being transformed into a bustling business environment. However, for those without a native, in-depth understanding of the emerging changes within today's Latin American marketplace and a grasp of the cultural implications at hand, doing business in Latin America can still be challenging for smaller U.S. exporters and importers. This book serves as an insider's travel guide and trader's manual for understanding the region's market environment and best export sales opportunities in each of its countries. It lays the groundwork for finding and developing ideal prospects while avoiding pitfalls and foreigners' faux pas. Part I familiarizes readers with Latin America in general, profiling its nations from a business perspective; Part II explains how Latin American business attitudes developed from a historical perspective. The third section of the text focuses on the all-important art of making and keeping the deal. Seventeen in a series of annual reports comparing business regulation in 190 economies, Doing Business 2020 measures aspects of regulation affecting 10 areas of everyday business activity. This book shows the daily life of businessmen in a particularly productive area of Northern Italy, Lombardy. It provides insights into their business, entrepreneurialism, and of them as individuals, allowing the reader to immerse themselves in these businessmen's world, full of plans, ideas, hopes, and failures in the struggle to survive during a time of economic recession. The analysis reveals the importance of trust and networks as a way of opposing the vulnerability and risk involved in entrepreneurialism. As such, the book has an appeal that extends beyond anthropology. It will be of interest not only to students of sociology, Italian studies, and business studies, but also to anyone with an interest in seeing business through different lenses. Through its close ethnographic accounts of businessmen, it provides a different approach to capitalism and a reflection on human nature.
