First published in 2005. Routledge is an imprint of Taylor & Francis, an informa company. Two thousand years before Dante, Michelangelo and the Medici of the Renaissance, the extraordinary Etruscans civilized central Italy. 3 generations of the ambitious Porenna-Laris clan 2 powerful rival cities threaten to tear apart this noble family 1 mysterious Flutist guides their journey to the afterlife. Meanwhile, The Great Prediction heralds doom. Amidst pestilence, tyranny, deceit and murder, sophisticated Etruria prospers. Magnificent temples, sumptuous dwellings and roads with arched bridges dot the land. Men revere women. Women own property. Couples eat together at banquets wearing fashionable tunics and stylish leather shoes, while the rest of the cosmos goes barefoot. Wealth, wisdom and artistic beauty abound. Opulent tombs provide for eternal contentment. Praise the gods! Glory to the Etruscans! Rosalind Burgundy brings the unique Etruscans to life in the stirring epic Song of The Flutist This volume gathers brand new essays from some of the most respected scholars of ancient history, archaeology, and physical anthropology to create an engaging overview of the lives of women in antiquity. The book is divided into ten sections, nine focusing on a particular area, and also includes almost 200 images, maps, and charts. The sections cover Mesopotamia, Egypt, Anatolia, Cyprus, the Levant, the Aegean, Italy, and Western Europe, and include many lesser-known cultures such as the Celts, Iberia, Carthage, the Black Sea region, and Scandinavia. Women's experiences are explored, from ordinary daily life to religious ritual and practice, to motherhood, childbirth, sex, and building a career. Forensic evidence is also treated for the actual bodies of ancient women. Women in Antiquity is edited by two experts in the field, and is an invaluable resource to students of the ancient world, gender studies, and women's roles throughout history. This timely volume embraces and interprets the increasingly broad and deep canon of life narratives by African Americans. The contributors discover and recover neglected lives, texts, and genres, enlarge the wide range of critical methods used by scholars to study these works, and expand the understanding of autobiography to encompass photography, comics, blogs, and other modes of self-expression. This book also examines at length the proliferation of African American autobiography in the twenty-first century, noting the roles of digital genres, remediated lives, celebrity lives, self-help culture, non-Western religious traditions, and the politics of adoption.

The life narratives studied range from an eighteenth-century criminal narrative, a 1918 autobiography, and the works of Richard Wright to new media, graphic novels, and a celebrity memoir from Pam Grier." This new collection presents a rich selection of innovative scholarship on the Etruscans, a vibrant, independent people whose distinct civilization flourished in central Italy for most of the first millennium BCE and whose artistic, social and cultural traditions helped shape the ancient Mediterranean, European, and Classical worlds. Includes contributions from an international cast of both established and emerging scholars Offers fresh perspectives on Etruscan art and culture, including analysis of the most up-to-date research and archaeological discoveries Reassesses and evaluates traditional topics like architecture, wall painting, ceramics, and sculpture as well as new ones such as textile archaeology, while also addressing themes that have yet to be thoroughly investigated in the scholarship, such as the *obesus etruscus*, the function and use of jewelry at different life stages, Greek and Roman *topoi* about the Etruscans, the Etruscans' reception of ponderation, and more Counters the claim that the Etruscans were culturally inferior to the Greeks and Romans by emphasizing fields where the Etruscans were either technological or artistic pioneers and by reframing similarities in style and iconography as examples of Etruscan agency and reception rather than as a deficit of local creativity Accompanying CD-ROM contains ... "all relevant illustrations from the book, arranged in alphabetical order according to mythological character. To increase the usefulness of the [CD-ROM], supplementary images not in the book have been added[.]"--P. xv. Survey of Etruscan civilization throughout its history, featuring art, architecture, and the role of women. The Etruscans and the History of Dentistry offers a study of the construction and use of gold dental appliances in ancient Etruscan culture, and their place within the framework of a general history of dentistry, with special emphasis on appliances, from Bronze Age Mesopotamia and Egypt to modern Europe and the Americas. Included are many of the ancient literary sources that refer to dentistry - or the lack thereof - in Greece and Rome, as well as the archaeological evidence of ancient dental health. The book challenges many past works in exposing modern scholars' fallacies about ancient dentistry, while presenting the incontrovertible evidence of the Etruscans' seemingly modern attitudes to cosmetic dentistry. A new standard work about the Etruscans that has been beautifully illustrated for a broad audience. This comprehensive survey of Etruscan civilization, from its origin in the Villanovan Iron Age in the ninth century B.C. to its absorption by Rome in the first century B.C., combines well-known aspects of the Etruscan world with new discoveries and fresh insights into the role of women in Etruscan society. In addition, the Etruscans are contrasted to the Greeks, whom they often emulated, and to the Romans, who at once admired and disdained them. The result is a compelling and complete picture of a people and a culture. This in-depth examination of Etruria examines how differing access to mineral wealth, trade routes, and agricultural land led to distinct regional variations. Heavily illustrated with ancient Etruscan art and cultural objects, the text is organized both chronologically and thematically, interweaving archaeological evidence, analysis of social structure, descriptions of trade and burial customs, and an examination of pottery and works of art. Murlo and the Etruscans explores this and other mysteries in a collection of twenty essays by leading specialists of Etruscan and classical art, all of whom have been associated with the Murlo site. Numerous photographs and drawings accompany the essays. The first eleven chapters survey specific groups of Etruscan objects and challenge the view of Etruscan art as provincial or derivative. Interpretations of the magnificent series of decorated terra cotta frieze plaques and other architectural elements contribute to an understanding of Murlo and related Etruscan centers. Plaques depicting a lively Etruscan banquet offer a way to detect differences between Etruscan and ancient Greek society. The remaining nine chapters treat various aspects of Etruscan art, often moving beyond ancient Murlo, both geographically and temporally. They examine funerary symbolism, sculpted amber, and amber trade contacts along the ancient Adriatic Coast; depictions of domesticated cats; votive terra cottas of human anatomical parts and how they help in understanding Etruscan medicine; and the adaptation of Greek style, myth, and iconography in Etruscan art. "These essays will have a broad impact on the study of the ancient Mediterranean. They will certainly be required

reading not only for Etruscologists but for anyone with an interest in the world of classical antiquity. The range of subjects, moving in wide arcs around the archaeological site at Murlo, brings the site into focus in a way that a series of standard archaeological site reports could not."--Kenneth Hamma, J. Paul Getty Museum "There is a fine and commendable interweaving and intertwining of thoughts and scholarly research throughout Murlo and the Etruscans. It will be a useful reference source for the art of Etruscan coroplast, wherein lies the forte of the Etruscan sculptor!"--Mario A. **Odyssey of an Etruscan Noblewoman** A new classic about the ancient world! Forced on an unwanted journey by foot, cart, barge and ship, manipulated by powerful kings, cunning men, women and gods, Scribe Larthia faces torture, rape, exile, prostitution and the knife. *Odyssey of an Etruscan Noblewoman* is an action-packed adventure of an unusual woman's survival in the sixth century B.C.E. when all scribes were male. Larthia--married, childless Etruscan noblewoman, disguises herself as a man to exercise her gift of scribing. Opening the Tomb of the Ancestors marks her fate. Abducted and forced on an unwanted journey, Larthia uses her charm, sex and scribing tools to outwit her enemies from Tarchna (modern Tarquinia), to Rome, Sicily and on to Athens and beyond through the turbulent Mediterranean waters. Against her will, she voyages to Egypt where she is initiated as priestess into the rites of the Cult of Isis. Helped by a mortal god and sponsored by the pharaoh, Larthia maneuvers her way back to Etruria only to find chilling surprises. Aided by a stranger, the merchant-vintner from Curtun, she must challenge destiny and discover where she will be for eternity. Rosalind Burgundy is to the Etruscans what Mary Renault is to the Greeks, and Colleen McCullough is to the Romans. SEE AUTHOR DISPLAY WHAT READERS ARE SAYING ABOUT *Odyssey of an Etruscan Noblewoman* *Odyssey of an Etruscan Noblewoman* is a wonderful narrative with realistic characters, filled with excitement and surprises to satisfy any reader. It is indeed a well-written book. Ralph Ferraro, Director The Italian American Press [www.italianamericanpress.com](http://www.italianamericanpress.com) ...*Odyssey* is a book that draws the reader in immediately and takes them deeper and deeper into life of early Italy, the people and their rituals. Through Burgundy's creation of Larthia, we are treated to a unique experience of a noblewoman's trials and triumphs despite much adversity. This book would go well with a feast fit for a king (or princess!), goblets of wine and an occasional cold wind blowing. Lane Wiley, Book Reviewer, Sierra Mountain Times Newspaper Twain Harte, California *Odyssey of an Etruscan Noblewoman* is a universal tale of a woman's strengths, weaknesses and will to survive—that is as timely today as it was centuries ago during an era historically dominated by the Egyptians, Greeks and Romans. Charles K. South Palm Beach, Florida A real page-turner! I couldn't wait to see how Larthia would deal with each new dilemma she faced, and in each case it was cleverly and unexpectedly. An exciting read. Along the way, the author includes tidbits of Etruscan, Roman, Greek and Egyptian cultures so that you learn about them almost without realizing it. I wholeheartedly recommend this book! Dean R., Durham, North Carolina The author's passion for Etruscan history must have led her on a mysterious and very personal journey back in time. *Odyssey of an Etruscan Noblewoman* reveals Ms. Burgundy's true inner self as she leads the reader onto her fantastic adventure and into the heart and soul of her character. A niche book that will go mainstream! One of the reasons for the study of the Greek and Roman classics is their perpetual relevance. In no area can this position be more clearly defended than in the investigation of the feminine condition, for it was here that basic attitudes derogatory to the sex were molded by legal and social systems, by philosophers and poets, and by the thinking of men long since gone. *Women in the Ancient World* brings together essays that examine philosophy, social history, literature, and art, and that extend from the early Greek period through the Roman Empire. Their wide range of critical perspectives throws new light on the personal, political, socio-economic, and cultural position of women. "Lavishly illustrated with 117 color images, 2 maps, and 15 black and white photographs, and including list of readings and an index, the Guide will be of interest to both general Museum visitors and scholars."--BOOK JACKET. The Etruscans can be shown to have made significant, and in some cases perhaps the first, technical advances in the central and northern Mediterranean. To the Etruscan people we can

attribute such developments as the tie-beam truss in large wooden structures, surveying and engineering drainage and water tunnels, the development of the foresail for fast long-distance sailing vessels, fine techniques of metal production and other pyrotechnology, post-mortem C-sections in medicine, and more. In art, many technical and iconographic developments, although they certainly happened first in Greece or the Near East, are first seen in extant Etruscan works, preserved in the lavish tombs and goods of Etruscan aristocrats. These include early portraiture, the first full-length painted portrait, the first perspective view of a human figure in monumental art, specialized techniques of bronze-casting, and reduction-fired pottery (the bucchero phenomenon). Etruscan contacts, through trade, treaty and intermarriage, linked their culture with Sardinia, Corsica and Sicily, with the Italic tribes of the peninsula, and with the Near Eastern kingdoms, Greece and the Greek colonial world, Iberia, Gaul and the Punic network of North Africa, and influenced the cultures of northern Europe. In the past fifteen years striking advances have been made in scholarship and research techniques for Etruscan Studies. Archaeological and scientific discoveries have changed our picture of the Etruscans and furnished us with new, specialized information. Thanks to the work of dozens of international scholars, it is now possible to discuss topics of interest that could never before be researched, such as Etruscan mining and metallurgy, textile production, foods and agriculture. In this volume, over 60 experts provide insights into all these aspects of Etruscan culture, and more, with many contributions available in English for the first time to allow the reader access to research that may not otherwise be available to them. Lavishly illustrated, *The Etruscan World* brings to life the culture and material past of the Etruscans and highlights key points of development in research, making it essential reading for researchers, academics and students of this fascinating civilization. The lively ferment in Etruscan studies, generated in part by recent archaeological discoveries and fostered by new trends in interpretation, has produced a wealth of information about the people historians traditionally considered as inaccessible. Now, scholars are reconstructing a portrait of the wealthy, sophisticated Etruscans whose territory once extended from the Po River to the Bay of Naples. Unfortunately, the wider English-speaking public has had no single resource which synthesizes these new findings and interpretations about the Etruscans. In fact, some sources continue to propagate the traditional myth of the "enigmatic and isolated Etruscans." In response, the eminent Etruscan scholar Larissa Bonfante asked seven other internationally known classicists to join her in providing this "handbook" for the non-specialist as an authoritative and readable guide to the burgeoning Etruscan scholarship. As Bonfante explains in the introductory chapter, "The Etruscans provide an excellent opportunity of turning archaeology into history: this we tried to do, in our chapters, according to our individual directions. Nancy Thomson de Grummond traces the interest in and knowledge of the Etruscans from the earliest days. Mario Torelli provides an independent account of Etruscan history, based on monuments and sources. Jean MacIntosh Turfa belies the cliché of the Etruscans' traditional 'isolation' by surveying the material evidence for their trade with the Phoenicians, Greeks, and other neighbors in the Mediterranean. Marie-Fran'oise Briguet, Friedhelm Prayon, David Tripp, and I survey Etruscan art, architecture, coinage, and daily lives, respectively, Emeline Richardson contributes what she calls a 'primer' in the Etruscan language, a basic archaeological introduction to the Etruscan language, meant to help newcomers read the inscriptions on many of the monuments illustrated and to see these with the interdisciplinary approach so characteristic of, and necessary in, Etruscan studies." The book is profusely illustrated with over 300 photos and maps. Notes and bibliographic references lead to standard texts on the Etruscans and to the more specialized literature in the field. The result is a reliable and lively volume which brings readers into the mainstream of the latest Etruscan scholarship. Combining a guide for the Museum visitor with scholarly discussions of all objects on display, this catalogue provides background on the society, history, technology, and commerce of the Etruscan and Faliscan cultures from the ninth through the first centuries B.C. Several groups of material illustrate social, historical, and technological phenomena currently at the forefront of scholarly debate and study, such as the crucial period of the turnover from Iron Age hut villages to the fully urbanized princely Etruscan cities, the development and extent of ancient

literacy, and the position of women and children in ancient societies. Many special objects seldom found or generally inaccessible in the United States include Faliscan tomb groups, Etruscan inscriptions, helmets, and trade goods. The catalogue presents and analyzes objects of warfare, weaving, animals, religious beliefs, architectural and terracotta roofing ornaments, Etruscan bronze-working for utensils, weapons, and artwork, and fine, generic portraiture. It discusses the symbolic meaning of such objects deposited in tombs as a chariot buried with a Faliscan lady at Narce, a senator's folding stool buried in a later tomb at Chiusi, and a pair of horse bits with the teeth of a chariot team still adhering to them where the teeth fell when sacrificed for a funeral in the fifth-century necropolis at Tarquinia—much later than the horse sacrifice was previously known in Etruria. This fascinating volume contains a collection of travel writings by D. H. Lawrence, first published after his death in 1932. In this text Lawrence compares the vibrant world of the Etruscan civilization with the dilapidation of Benito Mussolini's Italy during the late 1920s. The Etruscan civilization is the relatively modern moniker given to the civilization originating from ancient Italy in the areas of modern Tuscany, western Umbria, and northern Lazio. Not much is known of the Etruscans, and in this fascinating exploration of their culture, Lawrence pieces together what he can in order to furnish a unique insight into this lost race. The chapters of this volume include: D. H. Lawrence, Cerveteri, Tarquinia, The Painted Tombs of Tarquinia, Vulci, and Volterra. We are republishing this antiquarian volume now complete with a new prefatory biography of the author. For this paperback edition, an updated bibliographical essay discusses the latest research and discoveries in the field. The Etruscan civilisation, which flourished from the 8th until the 5th century BC in what is now Tuscany, is one of the most fascinating and mysterious in history. An uninhibited, elemental people, the Etruscans enthralled D.H. Lawrence, who craved their 'old wisdom', the secret of their vivacity and love of life. To him they represented the antithesis of everything he despised in the modern world, perhaps because their spontaneity and naturalness struck a chord with his own quest for personal and artistic freedom - so often censured or repressed. Lawrence approaches the enigmatic Etruscans as a poet, passionately and searchingly, and so the reader is swept up in his luminous descriptions of a utopian world where dancing and feasting, art and music were everything. The exhilaration of Lawrence in his Etruscan adventures stands in stark contrast to his intimations of the darkness of Mussolini's Italy - at a time when Europe was beginning its inexorable drift towards tragedy. The last of Lawrence's travel books, 'Etruscan Places' is an ephemeral and vivid account, replete with hauntingly evocative descriptions of the way of life of this once great civilisation. The Etruscans were a powerful people, marked by an influential civilization in ancient Italy. But despite their prominence, the Etruscans are often portrayed as mysterious—a strange and unknowable people whose language and culture have largely vanished. Lucy Shipley's *The Etruscans* presents a different picture. Shipley writes of a people who traded with Greece and shaped the development of Rome, who inspired Renaissance artists and Romantic firebrands, and whose influence is still felt strongly in the modern world. Covering colonialism and conquest, misogyny and mystique, she weaves Etruscan history with new archaeological evidence to give us a revived picture of the Etruscan people. The book traces trade routes and trains of thought, describing the journey of Etruscan objects from creation to use, loss, rediscovery, and reinvention. From the wrappings of an Egyptian mummy displayed in a fashionable salon to the extra-curricular activities of Bonaparte, from a mass looting craze to a bombed museum in a town marked by massacre, the book is an extraordinary voyage through Etruscan archaeology, which ultimately leads to surprising and intriguing places. In this sharp and groundbreaking book, Shipley gives readers a unique perspective on an enigmatic people, revealing just how much we know about the Etruscans—and just how much still remains undiscovered. From the author of *The Rainbow*, a travelogue of his journey through central Italy during the reign of Mussolini. Written in 1927 after visiting several Etruscan cities in central Italy, six of the seven essays contained in *Sketches of Etruscan Places* were posthumously published in 1932. The seventh, "The Florence Museum" is published here for the first time, along with forty-five illustrations reproduced with D. H. Lawrence's own captions. The second part of this volume contains eight additional essays about Florence and the

Tuscan countryside.
