Three persons looking for Maria enjoy the fun of a street fair and finally spot the lost girl from the top of a ride. People frequently mark their lives with some occurrences or experiences that stay in their memories forever. Sometimes it is the experience of a child being born or the visit to wonderful places. For some of us the experiences that we have lived through, have transformed our senses to a spiritual meaning as if for the first time we become aware that God is greater than what we were made to believe, or of the concept that others have of God, the visit of an Angel, or a vision that is so real as if we are totally aware and awake. Dr Luis, as I call him, is a very successful doctor in Mexico. In reality he does not have any need to write this esoteric book that may be exposed to his colleagues who may lack understanding of what Dr. Luis has experienced, but here he is doing just that in the next pages that you are about to read. As you will discover he has been contacted in a spectacular way by sacred energies...events that cannot be easily explained and living experiences that have changed his life forever. This book is based on that and on all of his experiences. The information that he is sharing in his book, is not only about his personal experiences, but also about the information that other beings from other dimensions have revealed to him about humanity. What do you think they have said about us? What could be so fascinating that he had the tremendous need to write about it? The answer is in these pages, but I will give you a clue; we are about to experience a change of consciousness that has never ever happened before on planet Earth. The power of what we can do is astonishingly marvelous, including accessing alternating dimensions. It is all about health and our DNA. It is about a quantum jump that is in front of us. Walk through these pages with Dr. Luis while he describes his life experiences and what was communicated to him by means of infinite love coming from beings who revealed the potential future for humanity. - Lee Carroll Author of the book series; Kryon and The Indigo Children Conjuring entrancing tales of Mexican American mystics and misfits, Marytza K. Rubio shatters the boundaries of reality with this fiercely imaginative debut. "The first witch of the waters was born in Destruction. The moon named her Maria." Set against the tropics and megacities of the Americas, Maria, Maria takes inspiration from wild creatures, tarot, and the porous borders between life and death. Motivated by love and its inverse, grief, the characters who inhabit these stories negotiate boldly with nature to cast their desired ends. As the enigmatic community college professor in "Brujería for Beginners" reminds us: "There's always a price for conjuring in darkness. You won't always know what it is until payment is due." This commitment drives the disturbingly faithful widow in "Tijuca," who promises to bury her husband's head in the rich dirt of the jungle, and the sisters in "Moksha," who are tempted by a sleek obsidian dagger once held by a vampiric idol. But magic isn't limited to the women who wield it. As Rubio so brilliantly elucidates, animals are powerful magicians too. Subversive pigeons and hungry jaguars are called upon in "Tunnels," and a lonely little girl runs free with a resurrected saber-toothed tiger in "Burial." A colorful catalog of gallery exhibits from animals in therapy is featured in "Art Show," including the Almost Philandering Fox, who longs after the red pelt of another, and the recently rehabilitated Paranoid Peacocks. Brimming with sharp wit and ferocious female intuition, these stories bubble over into the titular novella, "Maria, Maria"—a tropicth family drama set in a reimagined California rainforest that explores the legacies of three Marias, and possibly all Marias. Writing in prose so lush it threatens to creep off the page, Rubio emerges as an ineffable new voice in contemporary short fiction. NATIONAL BESTSELLER • Pope Francis illuminates the Lord's Prayer, the most important prayer in all of Christianity, offering readers a guide to living a life of meaning, purpose and strength. In conversation with Father Marco Pozza, a theologian and prison chaplain in Padua, Italy, Pope Francis offers unprecedented insight into Jesus's most profound words, as he explores the importance of embracing social justice, benevolence, and forgiveness in our hearts and minds. Looking to address the concerns and hopes of today's men and women, Our Father: Reflections on the Lord's Prayer is a guide to living a life full of meaning, purpose, and strength. "We need courage to pray the Our Father," writes Pope Francis, "to truly believe that God is the Father who accompanies us, forgives us, gives us bread, is attentive to all that we ask, clothes us even better than the flowers of the field. To believe is a big risk." Challenging this doubt and fear, he issues a call to "dare . . . help one another to dare." With excerpts from some of the Pontiff's most cherished teachings, this beautiful work offers words of encouragement and inspiration for all who are seeking hope and direction in our often tumultuous world. "You are not born an entrepreneur. It's a skill that you learn along the way." When the skincare company Rodial launched its cult 'snake' serum, the press quickly called the business an 'overnight success'. However, Rodial's founder Maria Hatzistefanis had been toiling for 18 years, building the company from scratch in her bedroom. Now, the beauty boss sets out to demonstrate in this very accessible book that its success stemmed from sheer hard work, tireless efforts and a lot of patience. Fashion-loving Maria set out with a dream to build a beauty business and - despite not excelling at school, and being fired from her first job - she has achieved it. She did it by dreaming big, working hard, surrounding herself with the best, taking risks, creating buzz and building her own personal brand, which is now a favourite with high-profile models and media personalities including Poppy Delevingne, Daisy Lowe and Kylie Jenner. Crucially, she believes anyone can do this and her book, brimming with good sense, great advice, tips and secrets - all presented in an easy, friendly style - shows how. The Flowering of Ecology presents an English translation of Maria Sibylla Merian's 1679 'caterpillar' book, Der Raupen wunderbare Verwandlung und sonderbare Blumen-Nahrung. Her processes in making the book and an analysis of its scientific content are presented in a historical context. Merian raised insects for five decades, recording the food plants, behavior and ecology of roughly 300 species. Her most influential invention was an 'ecological' composition in which the metamorphic cycles of insects (usually moths and butterflies) were arrayed around plants that served as food for the caterpillars. Kay Etheridge analyzes the 1679 caterpillar book from the viewpoint of a

biologist, arguing that Merian's study of insect interactions with plants, the first of its kind, was a formative contribution to natural history. The papers collected in this volume (including a comprehensive introduction) investigate semantic and discourse-related aspects of subordination and coordination, in particular the relationship between subordination/coordination at the sentence level and subordination/coordination – or hierarchical/non-hierarchical organization – at the discourse level. The contributions in part I are concerned with central theoretical questions; part II consists of corpus-based cross-linguistic studies of clause combining and discourse structure, involving at least two of the languages English, German, Dutch, French and Norwegian; part III contains papers addressing specific – predominantly semantic – topics relating to German, English or French; and the papers in part IV approach the topic of subordination, coordination and rhetorical relations from a diachronic (Old Indic and Early Germanic) perspective. The book aims to contribute to a better understanding of information packaging on the sentence and text level related, within a particular language as well as cross-linguistically. The alternation between the auxiliaries BE and HAVE, which this collection examines, is often discussed in connection with generative analyses of split intransitivity. But this book's purpose is to place the phenomenon in a broader context. Well-known facts in the Romance and Germanic language families are extended with data from lesser studied languages and dialects (Romanian, Paduan), and also with experimental and historical data. Moreover, the book goes beyond the usual language families in which the phenomenon has been studied, with the inclusion of two chapters on Chinese and Korean. The theoretical background of the contributors is also broad, ranging from current Generative approaches to Cognitive and Optimality-Theoretical frameworks. Readers interested in the structural, historical, developmental, or experimental aspects of auxiliary selection should profit from this book's comprehensive empirical coverage and from the plurality of contemporary linguistic analyses it contains. This work offers a new portrayal of Queen Maria Carolina of Naples as a woman of power with weaknesses and ambitions, and analyzes the Queen's actions, from her political choices to her alliance and betrayals. A careful examination of the period (1781-1785) covered by the diary shows that the daily life of the Queen and offers key evidence of her political acumen and her personal relationships. Recca cross-analyses unpublished personal documents, which include the integral diary and private correspondence. The book focuses on the political influence that Queen Maria Carolina wielded beside her husband, King Ferdinand IV, and the criticism that has been made by contemporary historians and intellectuals who have often tended to discredit the sovereign for personal rather than political reasons. Pope Francis celebrates women in the Church and the world, seen through the lens of Mary, the mother of Jesus, in this enlightening new work. "Mary was not omnipotent, she was a normal woman: full of grace, but normal. The power is that grace of the Holy Spirit. Mary is full of the Holy Spirit, who accompanies her for her entire life."—Pope Francis In Ave Maria, Pope Francis explores and unpacks line by line the meaning of the Ave Maria prayer, while celebrating women and all they do as leaders, friends, sisters, and mothers. Teaming up again with theologian Marco Pozza, Francis illuminates Mary's simple and complex nature and how her example challenges all of us to lead lives of faith, hope, and perseverance. In the end, she is an icon not just for the religious but for all who look to grow more deeply in their purpose in life. Maria Lawton, known as the "Azorean Green Bean," is proud to announce the arrival of her debut cookbook, "Azorean Cooking: From My Family Table to Yours," a collection of more than 50 recipes that celebrates the traditions of Azorean cooking, culture, and family. "For more than four years, I have made it my mission to preserve my family recipes," said Lawton. "At first, I just wanted to make sure they would be passed down to my children and future generations - but now, I want to share them with everyone who might miss their Azorean mother or grandmother's cooking, or whoever wants to know how to recreate the tastes and smells of the past. This has been a wonderful journey home for me, and I hope this helps others on their journey, too." In the book, Lawton shares powerful memories of her family and cooking experiences as she walks readers through an array of recipes, ranging from popular Azorean dishes - including Arroz Doce (Sweet Rice Pudding), Massa Sovada (Sweet Bread) and Sopa de Couve (Kale Soup) - to classics like Cozido (Boiled Dinner), Cacoila (Marinated Pork), and Camarao Mozambique (Shrimp Mozambique). Throughout the collection, Lawton makes the cooking process simple, educational, and enjoyable, with a constant focus on a delicious end result. Lawton was born on the semi-tropical island of Sao Miguel, the largest of nine islands that make up the Azores, an autonomous region of Portugal located nearly a thousand miles off its coast in the Atlantic Ocean. At age six, Lawton moved to the United States with her family and settled in a Portuguese community in southeastern Massachusetts. Growing up, Lawton was teased with a number of names like "Portagee," "Fava Bean" and "Greenhorn," but would always answer with, "Thank you - I'm proud of it!" Her nickname today of "Azorean Green Bean" is an embrace of these cultural elements and a reflection of pride. "A hilarious read." —Rachel Bloom, co-creator and star of the award-winning TV series Crazy Ex-Girlfriend "The Book of Honors for Empress Maria of Austria is a chronicle of the remarkable celebrations organized by the Jesuit Colegio de San Pedro y San Pablo in Madrid to honor the piety and generosity of its major benefactor after her death in 1603. Maria bequeathed virtually the whole of her estate

to the Jesuits in Madrid, including a parcel of land where the Jesuit Fathers built their new College, opened in 1608. The Jesuits of Madrid educated the likes of Lope de Vega, Calderón de la Barca, Francisco de Quevedo, and many other illustrious Spaniards from all walks of life. Maria de Austria's legacy, therefore, was to have an enormous impact on Spanish Golden Age literature and culture. Following the conventions of the highly specialized genre of royal funeral exequies, the Book of Honors includes an encomiastic dedication by the Rector of the College to the house of Austria and to María's daughter, Margaret of Austria, like her mother, a nun of the Discalced Order of St. Clara of Madrid. This is followed by a description of the catafalque and the decoration of the church. The book then reproduces a lengthy Latin prayer delivered by the Jesuit theologian Juan Luis de la Cerda. The funeral sermon follows, preached by the Jesuit Jerónimo de Florencia. While much of the rest of the book consists of an anthology of the poems crafted by the Jesuit Fathers and their pupils to honor the empress, the most unique and interesting aspect of the book is the description and reproduction of the 36 hieroglyphs or emblems that were mounted on the walls of the church as part of the decorative iconographical program. They were intended as visual reinforcements for the main points of the funeral sermon, resulting in a highly original interconnection between the spoken word and the visual appeal of the series of emblematic images."--Publisher's website. When Hurricane María made landfall in Puerto Rico in September 2017, it left no part of the archipelago unscathed. The hurricane triggered floods and mudslides, washed out roads, destroyed tens of thousands of homes, farms, and businesses, caused the largest blackout in US history, knocked out communications, led to widespread food, drinking water, and gasoline shortages, and caused thousands of deaths. The seventeen oral histories collected in *Mi María: Surviving the Storm* share stories of surviving the storm and its long aftermath as people waited for relief and aid that rarely arrived. Zaira and her husband floated on a patched air mattress for sixteen hours while floodwaters rose around them. The road washed out in front of Emmanuel as he desperately tried to drive his pregnant wife who had begun labor to the hospital. Luis and his father anxiously counted the days that the dialysis clinic remained closed and lifesaving treatment was unavailable, while Miliana's mother was sent home from the hospital—undiagnosed—only to fall critically ill in her own home. Weaving together long-form oral histories and shorter testimonios, the book offers a multivocal peoples' history of disaster that fosters a greater understanding of the failures of governmental disaster response and the correlating perseverance of the people impacted by these failures, highlighting the colonial relationship between Puerto Rico and the United States. Ultimately, the ways in which these oral histories demonstrate the strength of community response to disaster in Puerto Rico are pertinent to other parts of the world that are being impacted by our current climate emergency. In this bilingual version of the classic rhyme, set in Peru, Maria takes her llama to school one day. In 2011, the annual conference series *Going Romance* celebrated its 25th edition in Utrecht, the founder city of the enterprise. Since its inception in the eighties of the last century, the local initiative has developed into the major European discussion forum for research focussing on the contribution of (one of the) Romance languages to general linguistic theorizing as well as on the working out of in-depth analyses of Romance data within linguistic frameworks. The annual meeting took place on December, 8-10. The present volume is the 5th of the series *Romance Languages and Linguistic Theory* published by John Benjamins. We publish here a selected set of peer-reviewed articles bearing on topics in phonology, morphology, syntax and semantics, that represent both issues of theoretical nature as well as developments in the field of acquisition. The articles are of great interest for specialists of Romance and for general linguists appreciating parameters and/or language acquisition. Among the contributions are three papers presented by invited speakers (Andrea Calabrese, Ricardo Etxepare and Jason Rothman), while two other very prominent Romance linguists figure as co-authors (Aafke Hulk, Luigi Rizzi). Imposters are third person DPs that are used to refer to the speaker/writer or addressee, such as : (i) Your humble servant finds the time before our next encounter very long. (ii) This reporter thinks that the current developments are extraordinary. (iii) Daddy will be back before too long. (iv) The present author finds the logic of the reply faulty. This volume explores verbal and pronominal agreement with imposters from a cross-linguistic perspective. The central questions for any given language are: (a) How do singular and plural imposters agree with the verb? (b) When a pronoun has an imposter antecedent, what are the phi-features of the pronoun? The volume reveals a remarkable degree of variation in the answers to these questions, but also reveals some underlying generalizations. The contributions describe imposters in Bangla, Spanish, Albanian, Indonesian, Italian, French, Romanian, Mandarin and Icelandic. Why wait for the holidays to celebrate?
