In this book, twelve scholars of early modern history analyse

various categories and cases of deception and false identity in the age of geographical discoveries and of forced conversions: from two-faced conversos to serial converts, from demoniacs to stigmatics, and from self-appointed ambassadors to lying cosmographer. La vita è una farsa e Andrea lo sa bene. Il sistema che ci vuole tutti schiavi, il cyberbullismo e la depressione sono il suo pane quotidiano. Quanti ostacoli avrà ancora da affrontare, remando contro corrente con la sua inseparabile canoa? L'odio per la madre e la leggera pietà per suo padre sembrano guidarlo inesorabilmente al suicidio, rimandato

puntualmente al giorno dopo, in attesa della fine perfetta. Vincenzo invece è il prodotto della nostra società, del capitalismo e della recessione ma anche di scelte sbagliate. Vincenzo un giorno finirà per uscire dalla gabbia dei polli per intraprendere una più soddisfacente carriera, quella del barbone a tempo pieno. Andrea e Vincenzo si incontrano per caso in un giorno che già andava male di suo, in un posto sbagliato e in un momento della loro esistenza assolutamente contorto ma i due finiranno per essere amici e per volersi bene, nonostante la differenza d'età, ceto sociale e percorso umano. Il loro legame li porterà a

volersi ed allontanarsi fino a quando uno non potrà più fare a meno dell'altro. Tra una battuta, una birra e altre situazioni paradossali che capitano ai due protagonisti mentre si aiutano a riscoprire se stessi, si susseguono litigi, ricordi e considerazioni sulla vita ed il suo senso. The archaeology of the graphic novel does not shed light on the historical origins of the comic book; on the contrary, it tries to discover the conceptual genesis of this narrative form. If the research methodology is archaeological, in fact, the theoretical approach is the same as neuro-narratology, in the light of which four important stages are

suggested. These stages define the comic novel as a "natural" literary genre, a mimesis of the process transposing reality into images and constituting the basis of thought. The figure of Rodolphe Töpffer is not excluded from this process. Thanks to his theories and his work, he leads us to hypothesize that the comic book was more "novelistic" at its origin than it is in its current forms: the path to the novel, then, would not be so much of an evolution, but rather a return to the origins. Each half-year consists of two volumes, *Partie médicale* and *Partie paramédicale*. Il dono è l'essenza. Per evolvere e trovare la strada, il veggente

intraprende un viaggio alla ricerca di una figura misteriosa del passato. Quali misteri saranno rivelati?
