Expertise in Jazz Guitar Improvisation Feb 19 2023
Expertise in Jazz Guitar Improvisation is an examination of musical interplay and the ways implicit (sub-conscious) and explicit (conscious) knowledge appear during improvisation. The practice-based research inquiry includes: interviews and interplay with five world-class jazz guitarists, Lage Lund, Jack Wilkins, Ben Monder, Rez Abbasi and Adam Rogers; a modal matrix for analyzing structure, time and form in jazz guitar improvisation, and musical analysis based on cognitive theories. By explaining the cognitive and musical foundations for

expertise in jazz guitar improvisation, this book illuminates how jazz guitarists' strategies are crucially dependent on context, style and type of interplay. With accompanying video provided as an e-resource, this material will be of interest to anyone fascinated by Jazz and Psychology of Music.

The Art of Two-Line Improvisation Apr 09 2022 This collection of etudes, written during the 1970's, was composed as a result of Jimmy Wyble's explorations into the musical worlds of counterpoint, harmony and chord melody improvisation for the jazz guitar. The right and left hand fingerings presented in this book were also developed as techniques needed to improvise jazz in two lines. Jimmy uses very standard jazz guitar chord shapes in these etudes; however, these shapes move through the harmony in lines rather than block chord structures. This broken chord technique creates a unique contrapuntal sound that separates Jimmy from the rest of the fingerstyle jazz guitar world. It is hoped that jazz and classical guitarists playing and working through these etudes will see many familiar chord shapes moving in new ways and creating new sounds. These new harmonic sounds combined with beautiful melodies will inspire any guitarist to new levels of musical creativity. Written in notation and tablature. 92 pages.

A Guide to Non-Jazz Improvisation: Guitar Edition Feb 24 2021 The non-jazz improvisation series is a concept that germinated in Dick Weissman's mind while he was attending music school. He wrote a 15-piece arrangement of the old square dance tune, Cripple Creek, and wanted the trombone to take a solo as part of the arrangement.

When the trombonist kept playing a bebop solo that was totally unsuitable for the chart, Dick realized that - in addition to the many musicians who do not improvise - there are even jazz musicians who don't know how to improvise outside the limits of their own stylistic backgrounds. Fingerstyle and flatpicking techniques demonstrate the use of the guitar as an incredibly versatile instrument that holds its own in a variety of musical genres. Various guitar tunings are included. All examples are written out in traditional and tablature notation.
