Leavitt discusses his career in art museums, particularly the role of museum directors and his time at the Santa Barbara Art Museum and in the same position at 5 other museums, training for museum directors and standards for museum accreditation. He also speaks about his role as President of the American Association of Museums and gives a biographical background on how he came to museum directorship. Between 1850 and 1900, Milwaukee's rapid population growth also gave rise to high death rates, infectious diseases, crowded housing, filthy streets, inadequate water supplies, and incredible stench. *The Healthiest City* shows how a coalition of reform groups brought about community education and municipal action to achieve for Milwaukee the title of "the healthiest city" by the 1930s. This highly praised book reminds us that cutting funds and regulations for preserving public health results in inconvenience, illness, and even death. "A major work. . . . Leavitt focuses on three illustrative issues—smallpox, garbage, and milk, representing the larger areas of infectious disease, sanitation, and food control."—Norman Gevitz, *Journal of the American Medical Association* "Leavitt's research provides additional evidence . . . that improvements in sanitation, living conditions, and diet contributed more to the overall decline in mortality rates than advances in medical practice. . . . A solid contribution to the history of urban reform politics and public health."—Jo Ann Carrigan, *Journal of American History* Sixteen-year-old Lucy Gold is about to run away with a much older man to live off the grid in rural Pennsylvania, a rash act that will have vicious repercussions for both her and her older sister, Charlotte. As Lucy's default parent for most of their lives, Charlotte has seen her youth marked by the burden of responsibility, but never more so than when Lucy's dream of a rural paradise turns into a nightmare. *Cruel Beautiful World* examines the intricate, infinitesimal distance between seduction and love, loyalty and duty, chaos and control, as it explores what happens when you're responsible for things you cannot make right. Set against a backdrop of peace, love, and the Manson murders, the novel is a reflection of the era: exuberant, defiant, and precarious all at once. And Caroline Leavitt is at her mesmerizing best in this haunting, nuanced portrait of love, sisters, and the impossible legacy of family. Based on personal accounts by birthing women and their medical attendants, *Brought to Bed* reveals how childbirth has changed from colonial times to the late twentieth century. Judith Walzer Leavitt's classic study focuses on the traditional woman-centered home-birthing practices, their replacement by male doctors, and the movement from the home to the hospital. Leavitt narrates the shifting power of childbearing women and their physicians, as well as changes in infant and maternal mortality. She also discusses how

women have attempted to retrieve some of the traditional women--and family--centered aspects of childbirth. This 30th anniversary edition includes a new preface that reviews the burgeoning writing on the history of childbirth since its publication. (Guitar Method). This practical, comprehensive method is used as the basic text for the guitar program at the Berklee College of Music. Volume One builds a solid foundation for beginning guitarists and features a comprehensive range of guitar and music fundamentals, including: scales, melodic studies, chord and arpeggio studies, how to read music, special exercises for developing technique in both hands, voice leading using moveable chord forms, and more. “Very funny and unexpected, a material response to our times, plush as velvet.” –Rachel Cusk “A wickedly funny and emotionally expansive novel about all the bewildering ways we seek solace from the people and things that surround us.” – Jenny Offill David Leavitt returns with his signature “coolly elegant prose” (O, The Oprah Magazine) to deliver a comedy of manners for the Trump era. It is the Saturday after the 2016 presidential election, and in a plush weekend house in Connecticut, an intimate group of friends, New Yorkers all, has gathered to recover from what they consider the greatest political catastrophe of their lives. They have just sat down to tea when their hostess, Eva Lindquist, proposes a dare. Who among them would be willing to ask Siri how to assassinate Donald Trump? Liberal and like-minded editors, writers, a decorator, a theater producer, and one financial guy, Eva's husband, Bruce—the friends have come to the countryside in the hope of restoring the bubble in which they have grown used to living. Yet with the exception of one brash and obnoxious book editor, none is willing to accept Eva's challenge. Shelter in Place is a novel about house and home, furniture and rooms, safety and freedom and the invidious ways in which political upheaval can undermine even the most seemingly impregnable foundations. Eva is the novel's polestar, a woman who moves through her days accompanied by a roving, carefully curated salon. She's a generous hostess and more than a bit of a control freak, whose obsession with decorating allows Leavitt to treat us to a slyly comic look at the habitués and fetishes of the so-called shelter industry. Yet when, in her avidity to secure shelter for herself, she persuades Bruce to buy a grand if dilapidated apartment in Venice, she unwittingly sets off the chain of events that will propel him, for the first time, to venture outside the bubble and embark on a wholly unexpected love affair. A comic portrait of the months immediately following the 2016 election, Shelter in Place is also a meditation on the unreliable appetites—for love, for power, for freedom—by which both our public and private lives are shaped. Volume contains: 134 NY APP 305 (Howland v. Clendenin) 134 NY APP 313 (Knowlton v. Atkins) 134 NY APP 323 (Woolsey v. N.Y. Elev. R.R. Co.) 134 NY APP 269 (Peo. v. Ballard) Henrietta Leavitt was the first person to discover the scientific importance of a star's brightness—so why has no one heard of her? Learn all about a female pioneer of astronomy in this picture book biography with audio. Henrietta Swan Leavitt was born on July 4, 1868, and she changed the course of astronomy when she was just twenty-five years old. Henrietta spent years measuring star positions and sizes from photographs taken by the telescope at the Harvard College Observatory, where she worked. After Henrietta observed that certain stars had a fixed pattern to their changes, her discovery made it possible for astronomers to measure greater and greater distances—leading to our present understanding of the vast size of the universe. An astronomer of her time called Henrietta Leavitt “one of the most important women ever to touch astronomy,” and another close associate said she had the “best mind at the Harvard Observatory.” Henrietta Leavitt's story will inspire young women and aspiring scientists of all kinds and includes additional information about the solar system and astronomy. This eBook edition also includes audio accompaniment. Edmond Tilson (d.1660) and his family emigrated from England to Plymouth, Massachusetts during or before 1638.
