Letting Go Sep 03 2023 Letting Go describes a simple and effective means by which to let go of the obstacles to Enlightenment and become free of negativity. During the many decades of the author's clinical psychiatric practice, the primary aim was to seek the most effective ways to relieve human suffering in all of its many forms. The inner mechanism of surrender was found to be of great practical benefit and is described in this book. Dr Hawkins's previous books focused on advanced states of awareness and Enlightenment. Over the years, thousands of students had asked for a practical technique by which to remove the inner blocks to happiness, love, joy, success, health and, ultimately, Enlightenment. This book provides a mechanism for letting go of those blocks. The mechanism of surrender that Dr Hawkins describes can be done in the midst of everyday life. The book is equally useful for all dimensions of human life: physical health, creativity, financial success, emotional healing, vocational fulfillment, relationships, sexuality and spiritual growth. It is an invaluable resource for all professionals who work in the areas of mental health, psychology, medicine, self-help, addiction recovery and spiritual development.

[The Map of Consciousness Explained](#) Nov 24 2022 An accessible exploration of best-selling author's most famous work, The Map of Consciousness, that helps readers experience healing and transcendence. We are all born with a level of consciousness, an energetic frequency within the vast field of consciousness. And with The Map of Consciousness, we can truly understand the total spectrum of human consciousness. Using a unique muscle-testing method, Dr. David R. Hawkins conducted more than 250,000 calibrations during 20 years of research to define a range of values, attitudes, and emotions that correspond to levels of consciousness. This range of values-along with a logarithmic scale of 1 to 1,000-became the Map of Consciousness, which Dr. Hawkins first wrote about in his best-selling book, Power vs. Force. With the Map, Dr. David R. Hawkins laid out the entire spectrum of consciousness, from the lower levels of Shame, Guilt, Apathy, Fear, Anger, and Pride; to Courage, Acceptance, and Reason; all the way up to the more expanded levels of Love, Ecstasy, Peace, and Enlightenment. These "higher" energy fields are a carrier wave of immense life energy. An essential primer on the late Dr. David R. Hawkins's teachings on human consciousness and their associated energy fields, The Map of Consciousness Explained offers readers an introduction and deeper understanding of the Map, with visual charts and practical applications to help them heal, recover, and evolve to higher levels of consciousness and energy. This book is a light unto the path of any individual who wants to become more effective in any area of life.

[Drawdown](#) Aug 10 2021 • New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world “At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope.” —Per Espen Stoknes, Author, What We Think About When We Try Not To Think About Global Warming “There's been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom.” —David Roberts, Vox “This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook.” —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth's warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.

Hawkins to guide readers on the path to enlightenment. This collection of inspiring quotes from world-renowned consciousness researcher and mystic Dr. David R. Hawkins can help readers elevate their level of consciousness. In doing so, they will explore ways to understand truth, raise their awareness, and find enlightenment and infinite peace. Readers will engage with some of Dr. Hawkins's most profound insights from his classic works, such as: To best serve the world, seek enlightenment and transcend illusions rather than contribute to them. Success comes about automatically from knowing where to look. Not what to look for, but where to look. We do not look at what we have, nor at what we do, but at what we are. Once we find within ourselves what we've been searching for, we won't have to bother looking "out there." We can't own that which is great within ourselves unless we learn to recognize it in others. Peace comes with total inner surrender to what is. By continuously letting go, it is possible to stay in that state of freedom. Feelings come and go, and eventually you realize that you are not your feelings, but that the real "you" is merely witnessing them.

Transcending the Levels of Consciousness Feb 25 2023 The now widely known Map of calibrated levels of Consciousness was presented in Power vs. Force in 1995 and has been translated into all the world's major languages. This was followed by The Eye of the I (2001), I: Reality and Subjectivity (2003), and Truth vs. Falsehood (2005), which explored the levels of Truth reflected throughout society. Transcending the Levels of Consciousness returns to the exploration of the ego's expressions and inherent limitations and gives detailed explanations and instructions on how to transcend them. As with the reading of Dr. Hawkins' previous books, the reader's level of consciousness is advanced as a consequence of exposure to the information itself. This opens up avenues to the relief of suffering for oneself and others, which fulfills the purpose of the work and the intention to facilitate the reader's own Enlightenment.

I Jan 27 2023 Experience spiritual enlightenment and personal transformation from world-renowned author, psychiatrist, clinician, spiritual teacher, and researcher of consciousness, David R. Hawkins, M.D., Ph.D. This book combines consciousness studies with transpersonal psychology, providing an accessible gateway into the deeper dimensions of self and reality. It concludes the presentation of a long-predicted major advance in critical human knowledge. It explains and describes the very substrate and essence of consciousness as it evolved from its primordial appearance as life on earth on up through evolution as the human ego, and hence, to the ego's transcendence as the spiritual Reality of Enlightenment and the Presence of Divinity. It completes the description of the evolution of human consciousness from the level of approximately 800 to its peak experience at 1,000, which historically has been the ultimate possibility in the human domain. This is the realm of the mystic whose truth stems solely from the radical subjectivity of divine revelation. The text of the material is taken from lectures, dissertations, and dialogues with students, visitors, and spiritual aspirants from around the world who have different spiritual and religious backgrounds and varying levels of consciousness. On the referenced Scale of the Levels of consciousness, which calibrates the levels of Truth from 1 to 1,000, Power versus Force calibrates at 850, The Eye of the I at 980, and the final volume of the trilogy, I, calibrates at a conclusive 999.8. The uncommon clarity and lucidity with which the highly evolved subject matter is presented facilitates understanding. As with the reading of Power versus Force or The Eye of the I, the reader's level of consciousness increases measurably as a consequence of exposure to this material itself, which is presented from a powerful field of exposition. Conflict is resolved within the mind of the student by means of recontextualization, which solves the dilemma. Argument and adversity are resolvable by identifying the positionalities of the ego which are the basis of human suffering. Some Chapters Include: The Process Spiritual Purification The 'Ego' and Society Spiritual Reality Realization The Realization of Divinity The Radical Reality of the Self The Mystic The Levels of Enlightenment The Nature of God The Obstacles Transcending the World The Emotions "Mind" Considerations Karma The Final Doorway The Transcendence The Inner Path "No Mind" The Way of the Heart The Recontextualization Spiritual Research Homo Spiritus This masterpiece is a revolutionary tool for personal transformation, blending quantum physics with spirituality, and a perfect read for anyone seeking enlightenment and a deeper understanding of the universe.

The Ego Is Not the Real You Apr 17 2022 Learn to let go of the illusions of the ego and discover the real you with this collection of inspiring quotes on the ego, mind, and spiritual enlightenment from human-consciousness expert Dr. David R. Hawkins. Are you willing to let go of seeing yourself as the ego believes you to be? Are you willing to go further, to know that the ego itself is an illusion? In this book, select teachings from Dr. David R. Hawkins's extensive body of work will guide you in the process of realization, surrender, and transformation. When we let go of the old ways of thinking, our attachments, and the false promises of the ego, we discover the truth that we are one with All. Features classic passages, including: It is not really necessary to subdue the ego, but merely to stop identifying with it. Every life experience, no matter how "tragic," contains a hidden lesson. When we discover and acknowledge the hidden gift that is there, a healing takes place. Enlightenment is not a condition to be obtained; it is merely a certainty to be surrendered to, for the Self is already one's Reality. It is the Self that is attracting one to spiritual information. To be enlightened merely means that consciousness has realized its most inner, innate quality as nonlinear subjectivity and its capacity for awareness. The only energy that has more power than the strength of the collective ego is that of Spiritual Truth. "This book is small in size, but it can have a massive impact on your life. It will take you through the process of a total transformation of consciousness—if you choose to apply its teachings deeply within yourself." — From the Introduction by Fran Grace, Ph.D.
