A One Woman Man Oct 01 2021 Bestselling author Travis Hunter returns with a stunning new novel about family, success, and just how far a man will go to protect those he loves. Dallas Dupree is a one woman man. A handsome and successful teacher, he is both worshipped and envied in his Atlanta neighborhood and chooses to live and raise his daughter, Aja, in the ghetto where he grew up rather than desert his roots. The only problem is that the one woman for him—his beloved Yasmin—passed away giving birth to his daughter. Now Dallas struggles through a string of empty relationships, unable to commit his heart because no woman can measure up to Yasmin. However, when Dallas plays with the wrong woman, he finds the consequences may cost him much more than he can afford. Dallas's sister Carmen has issues of her own. All of her life she has struggled with a weight problem that had caused a lack of self esteem. Now she is an affluent doctor who lives in the suburbs with her handsome new husband, Sterling. When a family crisis forces her to take in her wayward niece, she realizes that the picture perfect world she worked so hard to create is an illusion. Their older brother, Priest, is pretty secretive about how he makes his money—and he does make a lot of it. He has been a father figure to both Dallas and Carmen, but now that they are all grown up, they want nothing to do with their shady older brother. But when Dallas and Carmen are in

trouble, they turn to the one person who has always been there for them—and learn there is more to Priest than meets the eye.

All Alone on the 68th Floor Jan 24 2021 Barbara Res found her way into Engineering in college. Although she had the highest Mathematics grades in her school and excelled at Science, she was steered into a career of teaching because she was a girl. Rebelling against the conventional wisdom, she planned first to major in computers and then later picked engineering because of the challenge. She graduated in 1972 as one of three women in a class of 800 and entered the rough and tumble world of construction. Unfortunately, construction remains a heavily male dominated industry, but in 1972, it was a "no woman's land," and Res met resistance at every turn, in the form of discrimination, sexual harassment and intimidation. She was literally barred from the work site, a move that prevented her from advancing in her job. She quit several positions because of discrimination. Finally, she took a chance on a part time position she parlayed into a career beginner with a major Construction company in NY. After holding several "men's jobs" in contracting, Res met Donald Trump, at the Grand Hyatt project he was developing for the hotel company. She impressed him and when he had a new ground up project, he installed her as Executive in charge of Construction. The project was the world

famous Trump Tower and the rest is history - a history filled with travail and triumph. All on the 68th Floor tells the story of Res's journey, what she endured and accomplished. It also describes the process of building in a way that entertains and instructs. The book is chock full of anecdotes about the rich and famous who lived and shopped at the luxurious Trump Tower and presents a picture of Donald and Ivana Trump as builders, that the world has yet to see. The author also talks about other projects, like the restoration of the Plaza Hotel and the development of the West side of Manhattan.

Contracts and contractors, unions and government, politics and payoffs, all of the intrigue that goes into developing property, getting approvals, getting tenants and finally building skyscrapers. But the essence of the book is frankly feminism. It is a call to women to be themselves and do what ever job they think they can do, whatever they want to do and not allow stereotypes to influence them. It is a rebuke to the notion that women need to think or act like men, stating to the contrary that there should be no norms to follow and that people should be individuals following their instincts and not allowing society to define who they are by what they do. Res points out the dismal statistics about the number of women in construction, about the discrimination that still exists and issues a call to action to women, businesses and politics to take steps to get more women into this

lucrative field, for which they are well suited. This book has something for everyone and is guaranteed to amuse, inspire and challenge everyone who reads it.

Keeping Hope Alive Jul 10 2022 The moving memoir of one brave woman who, along with her daughters, has kept 90,000 of her fellow citizens safe, healthy, and educated for over 20 years in Somalia. Dr. Hawa Abdi, "the Mother Teresa of Somalia" and Nobel Peace Prize nominee, is the founder of a massive camp for internally displaced people located a few miles from war-torn Mogadishu, Somalia. Since 1991, when the Somali government collapsed, famine struck, and aid groups fled, she has dedicated herself to providing help for people whose lives have been shattered by violence and poverty. She turned her 1300 acres of farmland into a camp that has numbered up to 90,000 displaced people, ignoring the clan lines that have often served to divide the country. She inspired her daughters, Deqo and Amina, to become doctors. Together, they have saved tens of thousands of lives in her hospital, while providing an education to hundreds of displaced children. In 2010, Dr. Abdi was kidnapped by radical insurgents, who also destroyed much of her hospital, simply because she was

a woman. She, along with media pressure, convinced the rebels to let her go, and she demanded and received a written apology. Dr. Abdi's story of incomprehensible bravery and perseverance will inspire readers everywhere.

One Woman's Journey Nov 21 2020 I was vaguely aware of all the meth heads and dealers in the room watching me fall apart. "Give her a shot," I heard

Chulengo say to someone. I didn't know whom he was talking to or what he was talking about, and before I even tried to figure it out, a strange man kneeled on the ground next to me. He grabbed my arm and told me to try to relax. I lay there lifeless, watching him and not knowing my life was getting ready to take a turn for the worst. He tightened a belt around my upper arm and closed my fist. I felt his fingers sliding up and down my arm. He pierced my skin with a sharp needle, and I saw my blood squirt back into the tube, mixing with whatever was in there. Slowly, he pushed the contents into my arm. My body became hot and the blood rushed to my head. I coughed so hard and felt my eyes widen and my heart beat faster. I had never felt a rush quite like this one. I had never been this high before. Every ounce of sadness and pain left my body and every tear I had left dried up. My whole world as I knew it had just changed in an instant.

One Woman's Army Feb 17 2023 When America entered World War II, the surge of patriotism was not confined to men. Congress authorized the organization

of the Women's Army Auxiliary Corps (later renamed Women's Army Corps) in 1942, and hundreds of women were able to join in the war effort. Charity Edna Adams became the first black woman commissioned as an officer. Black members of the WAC had to fight the prejudices not only of males who did not want women in their "man's army," but also of those who could not accept blacks in positions of authority or responsibility, even in the segregated military. With unblinking candor, Charity Adams Earley tells of her struggles and successes as the WAC's first black officer and as commanding officer of the only organization of black women to serve overseas during World War II. The 6888th Central Postal Directory Battalion broke all records for redirecting military mail as she commanded the group through its moves from England to France and stood up to the racist slurs of the general under whose command the battalion operated. The Six Triple Eight stood up for its commanding officer, supporting her boycott of segregated living quarters and recreational facilities. This book is a tribute to those courageous women who paved the way for patriots, regardless of color or gender, to serve their country.

The Only Woman in the Room Feb 22 2021 THE NEW YORK TIMES BESTSELLER THE USA TODAY BESTSELLER Bestselling author Marie Benedict reveals the story of a brilliant woman scientist only remembered

for her beauty. Her beauty almost certainly saved her from the rising Nazi party and led to marriage with an Austrian arms dealer. She devised a plan to flee in disguise from their castle, and the whirlwind escape landed her in Hollywood. She became Hedy Lamarr, screen star. But she kept a secret more shocking than her heritage or her marriage: she was a scientist. And she had an idea that might help the country fight the Nazis and revolutionize modern communication...if anyone would listen to her. A powerful book based on the incredible true story of the glamour icon and scientist, *The Only Woman in the Room* is a masterpiece that celebrates the many women in science that history has overlooked. A Lab of One's Own Dec 23 2020 A "beautifully written" (Kirkus Reviews, starred review) memoir-manifesto from the first female director of the National Science Foundation about the entrenched sexism in science, the elaborate detours women have take to bypass the problem, and how to fix the system. If you think sexism

thrives only on Wall Street or Hollywood, you haven't visited a lab, a science department, a research foundation, or a biotech firm. Rita Colwell is one of the top scientists in America: the groundbreaking microbiologist who discovered how cholera survives between epidemics and the former head of the National Science Foundation. But when she first applied for a graduate fellowship in bacteriology, she was told, "We don't waste fellowships on women." A lack of support from some male superiors would lead her to change her area of study six times before completing her PhD. *A Lab of One's Own* is an "engaging" (Booklist) book that documents all Colwell has seen and heard over her six decades in science, from sexual harassment in the lab to obscure systems blocking women from leading professional organizations or publishing their work. Along the way, she encounters other women pushing back against the status quo, including a group at MIT who revolt when they discover their labs are a fraction of the size of their male colleagues. Resistance gave female scientists special gifts: forced to change specialties so many times, they came to see things in a more interdisciplinary way, which turned out to be key to making new discoveries in the 20th and 21st centuries. Colwell would also witness the advances that could be made when men and women worked together—often under her direction, such as when she headed a team

that helped to uncover the source of anthrax used in the 2001 letter attacks. *A Lab of One's Own* is "an inspiring read for women embarking on a career or experiencing career challenges" (Library Journal, starred review) that shares the sheer joy a scientist feels when moving toward a breakthrough, and the thrill of uncovering a whole new generation of female pioneers. It is the science book for the #MeToo era, offering an astute diagnosis of how to fix the problem of sexism in science—and a celebration of women pushing back.

She quickly demonstrated her keen intellect and mathematical skills, playing a crucial role in Fighter Command's underground Filter Room. Her Husband was a Woman! Aug 31 2021 Tracking the changing representation of female gender-crossing in the press, this text breaks new ground to reveal findings where both desire between women and cross-gender identification are understood. Her Husband was a Woman! exposes real-life case studies from the British tabloids of women who successfully passed as men in everyday life, perhaps marrying other women or fighting for their country. Oram revises assumptions about the history of modern gender and sexual identities, especially lesbianism and transsexuality. This book provides a fascinating resource for researchers and students, grounding the concepts of gender performativity, lesbian and queer identities in a broadly-based survey of the historical evidence.

Bernardine Evaristo is the winner of the 2019 Booker Prize and the first black woman to receive this highest literary honor in the English language. *Girl, Woman, Other* is a magnificent portrayal of the intersections of identity and a moving and hopeful story of an interconnected group of Black British women that paints a vivid portrait of the state of contemporary Britain and looks back to the legacy of Britain's colonial history in Africa and the Caribbean. The twelve central characters of this multi-voiced novel lead vastly different lives: Amma is a newly acclaimed playwright whose work often explores her Black lesbian identity; her old friend Shirley is a teacher, jaded after decades of work in London's funding-deprived schools; Carole, one of Shirley's former students, is a successful investment banker; Carole's mother Bummi works as a cleaner and worries about her daughter's lack of rootedness despite her obvious achievements. From a nonbinary social media influencer to a 93-year-old woman living on a farm in Northern England, these unforgettable characters also intersect in shared aspects of their identities, from age to race to sexuality to class. Sparklingly witty and filled with emotion, centering voices we often see othered, and written in an innovative fast-moving form that borrows technique from poetry, *Girl, Woman, Other* is a polyphonic and richly textured social novel that shows a side of Britain we rarely see, one that reminds us of all

that connects us to our neighbors, even in times when we are encouraged to be split apart.

Born into a conservative Italian American family, di Prima grew up in Brooklyn but broke away from her roots to follow through on a lifelong commitment to become a poet, first made when she was in high school. Immersing herself in Manhattan's early 1950s Bohemia, di Prima quickly emerged as a renowned poet, an influential

More Than a Woman Oct 13 2022 The author of the international bestseller *How to Be a Woman* returns with another “hilarious neo-feminist manifesto” (NPR) in which she reflects on parenting, middle-age, marriage, existential crises—and, of course, feminism. A decade ago, Caitlin Moran burst onto the scene with her instant bestseller, *How to Be a Woman*, a hilarious and resonant take on feminism, the patriarchy, and all things womanhood. Moran’s seminal book followed her from her terrible 13th birthday through adolescence, the workplace, strip-clubs, love, and beyond—and is considered the inaugural work of the irreverent confessional feminist memoir genre that continues to occupy a major place in the cultural landscape. Since that publication, it’s been a glorious ten years for young women: Barack Obama loves *Fleabag*, and Dior make “FEMINIST” t-shirts. However, middle-aged women still have some nagging, unanswered questions: Can feminists have Botox? Why isn’t there such a thing as “Mum Bod”? Why do hangovers suddenly hurt so much? Is the camel-toe the new erogenous zone? Why do all your clothes suddenly hate you? Has feminism gone too

far? Will your To Do List ever end? And WHO'S LOOKING AFTER THE CHILDREN? As timely as it is hysterically funny, this memoir/manifesto will have readers laughing out loud, blinking back tears, and redefining their views on feminism and the patriarchy. More Than a Woman is a brutally honest, scathingly funny, and absolutely necessary take on the life of the modern woman—and one that only Caitlin Moran can provide.

The Woman They Could Not Silence Sep 12 2022 From the New York Times, USA Today, and Wall Street Journal bestselling author of The Radium Girls comes another dark and dramatic but ultimately uplifting tale of a forgotten woman whose inspirational journey sparked lasting change for women's rights and exposed injustices that still resonate today. 1860: As the clash between the states rolls slowly to a boil, Elizabeth Packard, housewife and mother of six, is facing her own battle. The enemy sits across the table and sleeps in the next room. Her husband of twenty-one years is plotting against her because he feels increasingly threatened--by Elizabeth's intellect, independence, and unwillingness to stifle her own thoughts. So Theophilus makes a plan to put his wife back in her place. One summer morning, he has her committed to an insane asylum. The horrific conditions inside the Illinois State Hospital in Jacksonville, Illinois, are overseen by Dr. Andrew

McFarland, a man who will prove to be even more dangerous to Elizabeth than her traitorous husband. But most disturbing is that Elizabeth is not the only sane woman confined to the institution. There are many rational women on her ward who tell the same story: they've been committed not because they need medical treatment, but to keep them in line--conveniently labeled "crazy" so their voices are ignored. No one is willing to fight for their freedom and, disenfranchised both by gender and the stigma of their supposed madness, they cannot possibly fight for themselves. But Elizabeth is about to discover that the merit of losing everything is that you then have nothing to lose... Bestselling author Kate Moore brings her sparkling narrative voice to *The Woman They Could Not Silence*, an unputdownable story of the forgotten woman who courageously fought for her own freedom--and in so doing freed millions more. Elizabeth's refusal to be silenced and her ceaseless quest for justice not only challenged the medical science of the day, and led to a giant leap forward in human rights, it also showcased the most salutary lesson: sometimes, the greatest heroes we have are those inside ourselves. "The glowing ghosts of the radium girls haunt us still."--NPR Books for *The Radium Girls*

The Female Man Oct 21 2020 Four alternate selves from radically different realities come together in this "dazzling" and "trailblazing work" (The Washington Post). Widely acknowledged as Joanna Russ's masterpiece, The Female Man is the suspenseful, surprising, darkly witty, and boldly subversive chronicle of what happens when Jeannine, Janet, Joanna, and Jael—all living in parallel worlds—meet. Librarian Jeannine is waiting for marriage in a past where the Depression never ended, Janet lives on a utopian Earth with an all-female population, Joanna is a feminist in the 1970s, and Jael is a warrior with claws and teeth on an Earth where male and female societies are at war with each other. When the four women begin traveling to one another's worlds, their preconceptions on gender and identity are forever challenged. With "palpable anger . . . leavened by wit and humor" (The New York Times), Russ both employs and upends genre conventions to deliver a wickedly satiric and exhilarating version of when worlds collide and women get woke. This ebook includes the Nebula Award-winning bonus short story "When It Changed," set in the world of The Female Man.

The Voice that Won the Vote Apr 07 2022 In August of 1920, women's suffrage in America came down to the vote in Tennessee. If the Tennessee legislature approved the 19th amendment it would be ratified, giving all American women the right to vote. The historic moment came down to a single vote and the voter who tipped the scale toward equality did so because of a powerful letter his mother, Febb Burn, had written him urging him to "Vote for suffrage and don't forget to be a good boy." The Voice That Won the Vote is the story of Febb, her son Harry, and the letter than gave all American women a voice.

One Woman in the War Jun 21 2023 Before the publication of this book, Alaine Polcz was widely recognized as a psychologist ministering to the needs of disturbed and incurably ill children and their families, as the author of numerous articles and several books on thanatology, and as the founder of the hospice movement in Hungary.
