Carbonate Microfabrics Jan 14 2023 Carbonate Microfabrics is the first attempt to bring together in one reference the application of microfabric analysis to the solution of problems in the fields of geology, geophysics and geotechnique. This book, the result of a symposium and workshop on carbonate microfabrics, explores the relationship of microfabrics to fundamental properties and processes in carbonates. Carbonate Microfabrics will be of particular interest to geologists and is intended to be of general interest to researchers in such related fields as geochemistry, geophysics, and geotechnique.
