Personnel Administration in Education Sep 20 2020 Focusing on personnel administration in education, this text covers fiscal management, curriculum development, physical plant management and employee supervision. It also discusses ethical issues, such as sexual harassment, AIDS in the workplace and rising healthcare costs.

Values Clarification in Counseling and Psychotherapy Apr 15 2020 This work meets a long-standing need in the helping professions by being the first and only comprehensive book on how counselors and psychotherapists can work with clients around values, goal-setting, decision-making and action planning. Helping clients determine their priorities, set goals, make decisions, and take action to improve their lives are common tasks for virtually all helping professionals when engaging with clients. This is the process known as "values clarification" (or "Values Clarification"). While counselors and psychotherapists widely practice values clarification—some knowingly, others unaware—they typically do so with a limited understanding of its theory, methods and various applications. This book demonstrates, with great precision, case studies, and hundreds of clinical examples, how counselors and psychotherapists in many fields can ask good clarifying questions, conduct clarifying interviews, and employ dozens of values clarification strategies with individuals, couples, families, and groups. To illustrate how values clarification can be used to explore a myriad of

counseling topics, the examples throughout the text are often grouped around more specific applications for marriage and family counseling, career counseling, substance abuse and recovery counseling, geriatric counseling, grief counseling, pastoral counseling, financial counseling, school counseling, rehabilitation counseling, counselor/clinical education and supervision, health counseling, and personal growth. There are clear descriptions of what values clarification is and is not, theory and research, multicultural and diversity issues, and how counselors and therapists can handle value and moral conflicts with clients. Values clarification is compared and contrasted to other approaches to counseling and psychotherapy, including person-centered, cognitive-behavioral, reality therapy-choice theory, existential, individual psychology, solution-focused, narrative, motivational interviewing, acceptance and commitment therapy, appreciative inquiry, life coaching, and positive psychology.

***After the New Social Democracy Jun 29 2021* Lively and authoritative, this study offers a distinctive contribution to political ideas. It should appeal to all of those interested in politics, philosophy, social policy and social studies.**

***Blue Pelican Java Nov 22 2020* "Blue Pelican Java" is a somewhat unusual high school computer science textbook. Most computer science texts will begin with a section on the history of computers followed with a flurry of definitions that are just "so many words" to the average student. The approach here is to first give the student some experience upon which to hang the definitions that come later. The usual**

practice of introducing classes and objects is deferred until the student has a firm grasp of the fundamentals (loops, decision structures, etc). Thus, the beginning student is not overwhelmed by the simultaneous introduction of OOPs and the fundamentals. The book includes plenty of exercises (many in "contest" form), programming projects, and a huge appendix.

WAEC in Review Dec 16 2022 WAEC in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing. LIPACE Pilot Study Guide is not only a landmark achievement in the educational history of Liberia but a remarkable strive towards the proper preparation of Liberian students for future diets of the WAEC exam. As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam.—David S. Massaquoi, Sr., director of Education, The Salvation Army–Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our

students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the “Turning the Tide” project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam.—Lartey Bemah, principal of Bopolu Public School (2012-2013), Gbarpolu County, Liberia

New General Mathematics for Junior Secondary Schools Feb 23 2021 This well-established series, the most popular in Nigeria, has been fully revised to reflect recent developments in mathematics education at junior secondary level and the views of the many users of the books. It has especially been revised to fully cover the requirements of the new NERDC Universal Basic Education Curriculum.

The Successors Aug 20 2020

Educationeering Jul 31 2021 Educationeering describes the author's areas of professional and academic concern for the

past 55 years. Educationeering can be defined as directing the triple academic functions of Research, Teaching and Responsive Social Engagement towards the education challenges of society. Prof. Obanya is an international Education Strategist and his original ideas are widely discussed throughout Africa.

Handbook of Research on Science Teaching and Learning Aug 12 2022 Sponsored by the National Science Teachers Association, this handbook provides a uniquely comprehensive and current survey of the best research in science education compiled by the most renowned researchers. More than summaries of findings, the content provides an assessment of the significance of research, evaluates new developments, and examines current conflicts, controversies, and issues in the major science disciplines: biology, chemistry, physics, and earth science.

Public Examinations Examined May 29 2021 High-stakes public examinations exert a dominant influence in most education systems. They affect both teacher and student behavior, especially at the middle and upper levels of secondary education. The content of past examinations tends to dictate what is taught and how it is taught and, more important, what is learned and how it is learned. By changing aspects of these examinations, especially their content and format, education systems can have a strong positive impact on teacher behavior and student learning, help raise student achievement levels, and better prepare students for tertiary-level education and for employment. Examination agencies, many of which have followed the same procedures over

decades, can learn from the successes and failures of other systems. This book addresses current issues related to the development, administration, scoring, and usage of these high-stakes public examinations, identifying key issues and problems related to examinations in many emerging market economies as well as in advanced economies. The book's primary audience consists of public examination officials on national, regional, and state examination boards, but the book should also be of interest to senior education policy makers concerned with certification and learning achievement standards, to academics and researchers interested in educational assessment, to governmental and education agencies responsible for student selection, and to professionals at development organizations. "This extremely well-written and comprehensive book offers a timely review of the diversity of public examination practices worldwide; of the tensions between examinations and learning; and of the technical expertise involved in the creation of valid, reliable, and fair assessments. It reminds us that as "the diploma disease" takes hold with an ever-greater intensity at every stage of education worldwide, and the commercial business of testing flourishes, those concerned with educational quality and meaningful learning must be on guard to prevent the assessment tail wagging the educational dog." Angela W. Little, Professor Emerita, Institute of Education, University College London "This book is very well structured and written and draws on the authors' remarkable global knowledge across countries and histories. It will be a great asset both to administrators responsible for examinations and

to academics and other professionals who seek to understand the nature and impact of examinations of different types and in different settings.†? Mark Bray, UNESCO Chair Professor of Comparative Education, University of Hong Kong; and former Director, UNESCO International Institute for Educational Planning “I am sure that Public Examinations Examined, which thoroughly analyzes the practice of public examinations in different countries and makes profound and well-grounded conclusions, will arouse very great interest and will serve to further improve public examinations.†? Victor Bolotov, Distinguished Professor, Higher School of Economics, National Research University, Moscow; member, Russian Academy of Education; and former Deputy Minister of Education, Russian Federation

The Last Good Man Feb 06 2022 A man has lived on his own beside a wild, unforgiving coastline for many years. His companions are the birds, the land and the sea. From a choice made long ago, he keeps himself separate from the world of people and he gains a fierce pleasure from his environment. His solitude is broken by his discovery, one early morning on the flat sands of low tide, of a child washed up on the beach, but still alive. This is a novel of redemption, the story of a man experiencing the world as though for the first time.

Harvest of Corruption Nov 03 2021

The Daughter Apr 27 2021 As the Rohingya crisis exploded, observers of Myanmar were shocked to see Aung San Suu Kyi, champion for the causes of liberal democracy and human rights, stand by as atrocities tore apart the western reaches of her country. The Daughter is an in-depth exploration of this

icon-turned-leader and of the people, ideas, and experiences that have shaped her political identity. What emerges is not a shift in ideology but a consistent picture of the contrasts and multidimensionality that have defined her--prisoner and leader, principled resistor and pragmatic politician, the Lady and Mother Suu. Translated and updated from the original German, The Daughter is essential reading for professionals, journalists, and other observers seeking to understand Aung San Suu Kyi's role in Myanmar.

***Inside the black box* Jun 17 2020 Offers practical advice on using and improving assessment for learning in the classroom.**

Sustainable Development and Social Responsibility—Volume 2 Oct 14 2022 This book gathers high-quality research papers presented at the 2nd AUE international research conference, AUEIRC 2018, which was organized by the American University in the Emirates, Dubai, and held on November 13th-15th, 2018. The book is broadly divided into two main sections: Sustainability and Smart Business, and Sustainability and Creative Industries. The broad range of topics covered under these sections includes: risk assessment in agriculture, corporate social responsibility and the role of intermediaries, the impact of privatizing health insurance, political events and their effect on foreign currency exchange, the effect of sustainable HR practices on financial performance, sustainability integration in the supply chain and logistics, gender inequality in the MENA economies, the panel data model, the model of sustainable marketing in the era of Industry 4.0, micro-enterprises as a tool for combating unemployment, the impact of financial education and control

on financial behavior, measuring financial and asset performance in agricultural firms, a comprehensive strategic approach to sustainability in the UAE, sustainability and project finance, HR analytics, FaD or fashion for organizational sustainability, a conceptual framework of sustainable competitive advantages, psychology of organizational sustainability, Blockchain technology and sustainability, veganism and sustainability, institution building from an emotional intelligence perspective, sustainable concrete production using CWP, occupants' behavior and energy usage in Emirati houses, the effect of shop lighting on consumer behavior, multimedia applications in digital transformation art, integrating biomimicry principles in sustainable architecture, experimental sustainable practices in fashion education, technology-assisted student-centered learning for civil engineering, and a 10-step design process for architectural design studios. All contributions present high-quality original research work, findings and lessons learned in practical development.

**The Changing Distribution of Earnings in OECD Countries
Oct 22 2020** Examining what people are paid and how pay differences have changed over time, this title presents new theories that challenge thinking on the impact of education, technology, globalization and the rigidity of labour markets.

**Sustainable Transformation in African Higher Education
Jan 17 2023** The book is a must read for policy makers, academics, university administrators and post graduate

research students in the broad field of education and in higher education studies in particular. The book brings together a wealth of information regarding the imperatives of transformation in Africa's higher education systems. Not only do some of the chapters provide critical discussion about the conceptualisation of transformation, the majority of the chapters reflect on empirical evidence for transformation in diverse fields of mathematics, science, gender, the training of doctoral students and the governance and management of universities. This central theme of sustainable change and reform runs across the chapters of the book. For students, the book provides exemplars of practical research in higher education. For scholars in higher education and policy makers, specific issues for reform are identified and discussed.

Handbook of Research on the Role of Human Factors in IT Project Management Apr 20 2023 The role humans play in the field of information technology continues to hold relevance even with the industry's rapid growth. People contribute heavily to the physical, cognitive, and organizational domain of computing, yet there is a lack of exploration into this phenomenon. Humanoid aspects of technology require extensive research in order to avoid marginalization and insufficient data. The Handbook of Research on the Role of Human Factors in IT Project Management is a collection of innovative research on the methods and applications of the task of human characteristics in the design and development of new technology. While highlighting topics including digitalization, risk management,

and task analysis, this book is ideally designed for IT professionals, managers, support executives, project managers, managing directors, academicians, researchers, and students seeking current research on the dynamics of human influence in technological projects.

The Politics Industry Jul 11 2022 Our political system in America is broken, right? Wrong. The truth is, the American political system is working exactly how it is designed to work, and it isn't designed or optimized today to work for us—for ordinary citizens. Most people believe that our political system is a public institution with high-minded principles and impartial rules derived from the Constitution. In reality, it has become a private industry dominated by a textbook duopoly—the Democrats and the Republicans—and plagued and perverted by unhealthy competition between the players. Tragically, it has therefore become incapable of delivering solutions to America's key economic and social challenges. In fact, there's virtually no connection between our political leaders solving problems and getting reelected. In *The Politics Industry*, business leader and path-breaking political innovator Katherine Gehl and world-renowned business strategist Michael Porter take a radical new approach. They ingeniously apply the tools of business analysis—and Porter's distinctive Five Forces framework—to show how the political system functions just as every other competitive industry does, and how the duopoly has led to the devastating outcomes we see today. Using this competition lens, Gehl and

Porter identify the most powerful lever for change—a strategy comprised of a clear set of choices in two key areas: how our elections work and how we make our laws. Their bracing assessment and practical recommendations cut through the endless debate about various proposed fixes, such as term limits and campaign finance reform. The result: true political innovation. The Politics Industry is an original and completely nonpartisan guide that will open your eyes to the true dynamics and profound challenges of the American political system and provide real solutions for reshaping the system for the benefit of all. THE INSTITUTE FOR POLITICAL INNOVATION The authors will donate all royalties from the sale of this book to the Institute for Political Innovation.

Women of Owu Oct 02 2021 This is an African retelling of Euripides: an unnervingly topical story of a people and a beloved city destroyed by the brutality of war. The play was first performed in Lagos in 2003 under the distinguished director Chuck Mike, and subsequently toured the UK.

Conference Proceedings. The Future of Education Jun 22 2023
Behind the Cloud Dec 04 2021 How did salesforce.com grow from a start up in a rented apartment into the world's fastest growing software company in less than a decade? For the first time, Marc Benioff, the visionary founder, chairman and CEO of salesforce.com, tells how he and his team created and used new business, technology, and philanthropic models tailored to this time of extraordinary change. Showing how salesforce.com not only survived the dotcom implosion of 2001, but went on to define itself as the leader of the cloud

computing revolution and spark a \$46-billion dollar industry, Benioff's story will help business leaders and entrepreneurs stand out, innovate better, and grow faster in any economic climate. In *Behind the Cloud*, Benioff shares the strategies that have inspired employees, turned customers into evangelists, leveraged an ecosystem of partners, and allowed innovation to flourish.

Professional Counseling Excellence through Leadership and Advocacy Dec 24 2020 This text will be a valuable resource for counseling students and educators to assist in the incorporation of leadership and advocacy training into the counseling curriculum, based on the new standards set forth by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Readers will acquire a broad scope and vision of leadership and advocacy which includes client advocacy, advocacy for the counseling profession, and social justice. It identifies the historical context of leadership and advocacy, provides a framework from which to understand these concepts, and provides concrete examples of leadership and advocacy happening in the field today. Chapters describe the design of an effective counselor education curriculum, supervision of counselors, and leadership and advocacy practice in various counseling settings. Edited by leaders in the field of counselor education and endorsed by Chi Sigma Iota, this text will provide students with the knowledge, skills, and qualities to succeed as leaders and advocates throughout their counseling careers.

Purple Hibiscus May 09 2022 “One of the most vital and original novelists of her generation.” —Larissa MacFarquhar,

The New Yorker From the bestselling author of *Americanah* and *We Should All Be Feminists* Fifteen-year-old Kambili and her older brother Jaja lead a privileged life in Enugu, Nigeria. They live in a beautiful house, with a caring family, and attend an exclusive missionary school. They're completely shielded from the troubles of the world. Yet, as Kambili reveals in her tender-voiced account, things are less perfect than they appear. Although her Papa is generous and well respected, he is fanatically religious and tyrannical at home—a home that is silent and suffocating. As the country begins to fall apart under a military coup, Kambili and Jaja are sent to their aunt, a university professor outside the city, where they discover a life beyond the confines of their father's authority. Books cram the shelves, curry and nutmeg permeate the air, and their cousins' laughter rings throughout the house. When they return home, tensions within the family escalate, and Kambili must find the strength to keep her loved ones together. *Purple Hibiscus* is an exquisite novel about the emotional turmoil of adolescence, the powerful bonds of family, and the bright promise of freedom.

Gene function in schistosomes: recent advances towards a cure Mar 07 2022 Schistosomes are human parasites distributed worldwide in tropical and sub-tropical latitudes, especially in developing countries and impoverished regions. These neglected tropical disease (NTD) pathogens causes debilitating illnesses, which include hepatosplenomegaly, hepatic fibrosis, haemorrhagic necrotic ulcerations in the intestinal mucosa, urogenital tract diseases, in addition to cardiopulmonary, renal and neurologic lesions due to egg

accumulation in the liver, intestines, uro-genital tissues and other sites. Urogenital schistosomiasis is a risk factor for bladder cancer and increases the risk of transmission of HIV infection. Despite extensive effort to control this NTD over the years, deployment on a considerable scale of commercially available drugs in endemic populations has induced the emergence of resistant isolates and raised the need to identify new targets for alternative therapies. Because of the availability of genomes of the three major species of human schistosomiasis, and through advances in functional genomics and live imaging, studies on schistosomes have now come into focus as models to investigate adaptations to parasitism and developmental biology of trematodes and cestodes, and indeed flatworms and Lophotrochozoans, at large. This Research Topic aims at gathering state-of-art essays on schistosome genetics, genetics, pathobiology and immunobiology. It also aims to highlight advances in understanding of the host-parasite relationship, in paradigms that address this NTD, and to discuss new perspectives and advances in chemotherapy and immunoprophylaxis.

Daily Graphic May 21 2023

The Battle of the Fields Jan 05 2022 This book will appeal not only to historians and geographers, but to many who maintain a deep interest in the British countryside and its past, and to those who continue to share a fascination for the Second World War, in particular the 'home front'.

Carlos Villa Mar 27 2021 "Carlos Villa has been described as the preeminent Filipino American artist--a legend in artistic circles for his groundbreaking approaches and his influence

on countless artists--but he remains little known to many fans and scholars of modern and contemporary art. Carlos Villa: Worlds in Collision is the first museum retrospective of his work, presented at the San Francisco Art Institute and the Asian Art Museum of San Francisco. Villa was trained at the San Francisco Art Institute in the 1950s as an abstract expressionist, and over time he transformed his practice to address issues of ethnic and cultural diversity. He concurrently assumed a leadership role in 'Third World' and 'multicultural' international art movements, and his large-scale works reference non-Western traditions, including tattoo, scarification, ritual, and ceremony. He was also an important theorist, curator, and organizer of public forums that he called 'actions.' This book traces the arc of his career from 1969 until his death in 2013, with emphasis on his feathered works from the 1970s, as well as later works that address aspects of the history of Filipinos in the United States. It illuminates the social and cultural roots--and global importance--of Villa's art and teaching career as he sought to forge a new kind of art-world inclusion that reflected his own experience, commitment to diversity, and boundary-bending imagination"--

School Science Practical Work in Africa Nov 15 2022 School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research-informed practices on school science practical work. The book

highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical work that is strongly advocated is inquiry-based learning, which signals a definite paradigm shift from the traditional teacher-dominated to a learner-centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work, and professional development in teaching practical work. This book will be of great interest to academics, researchers and post-graduate students in the fields of science education and educational policy.

***Securing the Vote* Jan 25 2021** During the 2016 presidential election, America's election infrastructure was targeted by actors sponsored by the Russian government. ***Securing the Vote: Protecting American Democracy* examines the challenges arising out of the 2016 federal election, assesses current technology and standards for voting, and recommends steps that the federal government, state and local governments, election administrators, and vendors of voting technology should take to improve the security of election infrastructure. In doing so, the report provides a vision of voting that is more secure, accessible, reliable, and verifiable.**

***Yearbook of International Organizations 2014-2015 (Volume 4)* Feb 18 2023** The Yearbook of International Organizations provides the most extensive coverage of non-profit international organizations currently available. Detailed

profiles of international non-governmental and intergovernmental organizations (IGO), collected and documented by the Union of International Associations, can be found here. In addition to the history, aims and activities of international organizations, with their events, publications and contact details, the volumes of the Yearbook include networks between associations, biographies of key people involved and extensive statistical data. Providing both an international organizations and research bibliography, Volume 4 cites over 46,000 publications and information resources supplied by international organizations, and provides nearly 18,000 research citations under 40 subject headings. This volume also includes a research bibliography on international organizations and transnational associations.
