Class-tested and coherent, this textbook teaches classical and web information retrieval, including web search and the related areas of text classification and text clustering from basic concepts. It gives an up-to-date treatment of all aspects of the design and implementation of systems for gathering, indexing, and searching documents; methods for evaluating systems; and an introduction to the use of machine learning methods on text collections. All the important ideas are explained using examples and figures, making it perfect for introductory courses in information retrieval for advanced undergraduates and graduate students in computer science. Based on feedback from extensive classroom experience, the book has been carefully structured in order to make teaching more natural and effective. Slides and additional exercises (with solutions for lecturers) are also available through the book's supporting website to help course instructors prepare their lectures. Whose Book is it Anyway? is a provocative collection of essays that opens out the copyright debate to questions of open access, ethics, and creativity. It includes views – such as artist's perspectives, writer's perspectives, feminist, and international perspectives – that are too often marginalized or elided altogether. The diverse range of contributors take various approaches, from the scholarly and the essayistic to the graphic, to explore the future of publishing based on their experiences as publishers, artists, writers and academics. Considering issues such as intellectual property, copyright and comics, digital publishing and remixing, and what it means (not) to say one is an author, these vibrant essays urge us to view central aspects of writing and publishing in a new light. Whose Book is it Anyway? is a timely and varied collection of essays. It asks us to reconceive our understanding of publishing, copyright and open access, and it is essential reading for anyone invested in the future of publishing. This book comes with collection of downloadable PDF

Background: The Fast and Furious operation was responsible for allowing approximately 2,000 firearms to illegally flow into the hands of criminals, including Mexican drug cartel associates. On December 14, 2010, Customs and Border Patrol Agent Brian Terry, a United States Marine, was killed while on patrol just miles from the Mexican border. The firearms found at the scene were semi-automatic rifles that were allowed to walk as part of Operation Fast and Furious. Congressional Republicans have investigated Fast and Furious since January 2011. Over the course of the investigation, the Justice Department has provided false information, stonewalled document requests, produced scores of blacked-out pages and duplicate documents, and refused to comply with two congressional subpoenas. In August 2012, the U.S. House of Representatives Office of General Counsel filed suit against the Justice Department. On January 19, 2016, United States District Judge Amy Berman Jackson issued her opinion and ordered DOJ release documents previously withheld under the President's executive privilege claim. On April 8, 2016, DOJ complied with the Judge's order, delivering more than 20,500 pages of documents to the Committee.

Intersubjectivity is a precondition for human life – for social organization as well as for individual development and well-being. Through empirical examination of social interactions in everyday and institutional settings, the authors in this volume explore the achievement and maintenance of intersubjectivity. The contributions show how language codes and creates intersubjectivity, how interactants move towards shared understanding in interaction, how intersubjectivity is central to phenomena and experiences often considered merely individual, and how intersubjectivity evolves through learning. While the core methodology of the studies is Conversation Analysis, the volume highlights the advantages of using several methods to tackle intersubjectivity. The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race. International best-selling author Doreen Virtue is a doctor of psychology and lifelong clairvoyant who has written extensively about angels, psychic development, and mind-body-spirit topics. Now three of her most popular books are collected in this single volume: • In *Angel Therapy*, Doreen delivers the angelic realm's messages of comfort and guidance that can help you with troubling emotions such as depression, boredom, confusion, and anger; and issues associated with careers, relationships, parenting, and much more. Allow the angels' words to heal your thoughts and beliefs, transforming them into empowering and loving viewpoints. • In *Healing with the Angels*, Doreen teaches esoteric and practical methods that can help you work more closely with your angels. You'll read transcripts of Doreen's angel-reading sessions and learn what the angels have to say about life after death, the future of our planet, and finding your Divine purpose. Also included is an exploration of the fascinating world of elementals and nature angels, as well as powerful angel affirmations and prayers for healing and manifesting. • *Archangels & Ascended Masters* is a thoroughly researched book in a lively encyclopedia format, listing 77 divinities from Greek, Roman, Egyptian, Asian, Babylonian, Tibetan, Buddhist, Celtic, Theosophical, New Age, Catholic, Cabalistic, Jewish, and Christian roots. Doreen carefully studied and wrote about the history of each of the deities, what role they serve today, how they can help us with specific life problems, and how to call upon each one. The Essential Doreen Virtue Collection is the perfect read for anyone who is looking to learn more about the angels and spirituality, as well as for those who want to finally have their favorite Doreen books together in one handy volume! From the #1 New York Times bestselling author Stephen King, four “disturbing, fascinating” (The Washington Post) novellas—including the story “1922,” a Netflix original film—that explore the dark side of human nature. “The pages practically turn themselves” (USA TODAY) in Full Dark, No Stars, an unforgettable collection centered around the theme of retribution. In “1922,” a violence awakens inside a man when his wife proposes selling off the family homestead, setting in motion a grisly train of murder and madness. In “Big Driver”, a mystery writer is brutally assaulted by a stranger along a Massachusetts back road and plots a revenge that will bring her face-to-face with another stranger: the one inside herself. In “Fair Extension,” making a deal with the devil not only saves a man from terminal illness but also provides rich recompense for a lifetime of resentment. In “A Good Marriage,” the trust forged by more than twenty years of matrimony is irrevocably shattered when a woman makes a chance discovery leading to the horrifying implications of just who her husband really is. Like Different Seasons and Four Past Midnight, which generated such enduring hit films as The Shawshank Redemption and Stand by Me, King’s Full Dark, No Stars is a “page-turner” (The New York Times) “as gripping as his epic novels” (St. Louis Post-Dispatch), and “an extraordinary collection, thrillingly merciless, and a career high point” (The Telegraph, UK). How big media uses technology and the law to lock down culture and control creativity. ""Free Culture is an entertaining and important look at the past and future of the cold war between the media industry and new technologies."" - Marc Andreessen, cofounder of Netscape. ""Free Culture goes beyond illuminating the catastrophe to our culture of increasing regulation to show examples of how we can make a different future. These new-style heroes and examples are rooted in the traditions of the founding fathers in ways that seem obvious after reading this book. Recommended reading to those trying to unravel the shrill hype around 'intellectual property.'"" - Brewster Kahle, founder of the Internet Archive. The current publishing environment has experienced a drastic change in the way content is created, delivered, and acquired, particularly for libraries. With the increasing importance of digital publishing, more than half the titles published in the United States are self-published. With this growth in self-published materials, librarians, publishers, and vendors have been forced to rethink channels of production, distribution, and access as it applies to the new content. Self-Publishing and Collection Development: Opportunities and Challenges for Libraries will address multiple aspects of how public and academic libraries can deal with the increase in self-published titles. While both academic and public libraries have started to grapple with the burgeoning issues associated with self-published books, many difficulties remain. To develop effective policies and procedures, stakeholders must now tackle questions associated with the transformation of the publishing landscape. Obstacles to self-publishing include the lack of reviews, the absence of cataloging and bibliographic control, proprietary formats for e-books, and the difficulty for vendors in providing these works. General chapters will include information on reviewing sources, cataloging and bibliographic control, and vendor issues. Information addressing public libraries issues will highlight initiatives to make self-published materials available at the Los Gatos Public Library in California and the Kent District Library in Michigan. Chapters on academic library issues will address why self-published materials are important for academic institutions, especially those with comprehensive collecting interests. Several self-published authors focus on how they attempt to make their works more suitable for public libraries. Finally, the book concludes with a bibliographic essay on self-publishing. As the term "traditional publishing" begins to fade and new content producers join the conversation, librarians, publishers, and vendors will play an important role in facilitating and managing the shift. The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.
