This is a memoir about being in your twenties, and all the foibles, misadventures, and heartbreak that accompany those years. Looking back on a time period that is hauntingly near to him, Taylor delves into relationships he's had that have left him bruised, broken and oft times calloused and caustic, whilst exploring the trials of being broke, rudderless and confused with adulthood. Everyone has seen or read a love story; this is not a love story. This is a story of quasi love, of unrequited feelings and spurned advances. Despite the afflictions and sorrow, the story is told in a humorous and often optimistic tone. Though the author talks about many girls, the bulk of the text is about or returns its focus to one girl, the one that got away. Will Taylor find his way back to this dame, or will he be

doomed to an impecunious life of lust and loneliness? Whether it's vintage Hollywood, the Florida everglades, the Atlantic City boardwalk, or a farmhouse in Western Canada, the twenty authors represented in this collection of mystery and suspense interpret the overarching theme of "moonlight and misadventure" in their own inimitable style where only one thing is assured: Waxing, waning, gibbous, or full, the moon is always there, illuminating things better left in the dark. These selected paragraphs distill the contents and give you a quick look inside The Flying Boat - A Story of Adventure and Misadventure: Look inside the book: Ting had occupied a special position in his father's household, and he remembered vaguely that he had been quite fond of Tingy in his early years; but he was at a loss to understand why the Chinaman appeared to have constituted himself his moral guardian--why he sent for copies of all his school reports, and wrote him such exceedingly dull comments on them. ...The narrow dirty streets, half the width of an ordinary room, paved with stone slabs, and crowded all day long with people chaffering in shrill voices, and picking their way through immense heaps of fish, pork and vegetables; the low open shops, displaying silks and porcelain, ornaments and bronzes, and a thousand other varieties of merchandise more or less costly; the numerous tea-shops and dining-rooms, more frequent even than public-houses in the east end of London; the immense variety of smells, in which Shanghai surely outrivals

Cologne: all these features of the native city soon ceased to have the charm of novelty; and the clean, well-paved, well-tended quarters of the European community differed little in general characteristics from the towns of the west. About Herbert Strang, the Author: The pseudonym was also employed for several series of anthologies, works 'edited by Herbert Strang' that included The Big Book of School Stories for Boys and The Oxford Annual for Scouts. ...Very little is known about the series of books titled Little Stories of Great Lives that were edited by Herbert Strang and written for young children. From the glacial lakes of Patagonia to the safari camps of Zambia, Charles Gaines has traversed the globe in search of the elusive catch. Traveling by helicopter, kayak, ship or houseboat, on lakes, rivers, oceans and everglades, he has visited five continents and over 20 countries following his primary passion: fly-fishing. But, as with any epic quest, the adventure—made up of wild stories, salty characters, breathtaking settings and

close calls—is often more rewarding than the slippery goal itself. In *Have Fly Rod, Will Travel*, Charles Gaines presents a collection of essays that each begin in pursuit of a fish, but ultimately wind through back roads, volcanic landscapes, game reserves and remote villages, taking the reader on expeditions that reach far beyond the bait and tackle. Along the way, he weaves in historical context, environmental concerns, and vividly detailed portraits of the fellow adventurers and guides who share his obsession for the sport. Tom McGuane calls Gaines's writing "fresh, original and downright elegant." John Rasmus, former editor-in-chief of *National Geographic Adventure* says "Gaines breaks your heart with his stories, his voice, and the rhythm and control in his prose...Charles Gaines captures the sport—and the passions it evokes—with a sense of adventure, grace, and magic." *Dialstone Lane* by W. W. Jacobs: Step into the world of early 20th-century England through this captivating novel. "Dialstone Lane" weaves a tale of love,

From the creator of Twitter's Medieval Death Bot comes Unfortunate Ends, an illuminating collection of in-depth looks at some of the most interesting cases from medieval coroners' rolls. From the bizarre to the mundane, each death tells a tale from a dangerous time to be alive, and even to die. Coroners' rolls list every inquest held for a death by misadventure – or accident – as well as grisly murders, some witnessed by others, some only coming to light when the hidden body was found. A handful of these deaths rise to the top, their tales too ridiculous or heartbreaking to not be spun again for the modern ear. Through death, Unfortunate Ends gives us a rare, first-hand look into everyday life for the common people of medieval England. Economics Uncut: A Complete Guide to

Life, Death and Misadventure, edited by Simon Bowmaker, contains several delightful chapters on topics central to economics and the family. Although the book's implicit thesis is to dazzle with the catholicity of economics, the chapters on marriage and divorce, reproduction, suicide, and abortion are lively introductions to these family topics, and other chapters make delightful reading on their own. Darius Conger, *Economics and the American Family: A Review of Recent Literature*, Choice This volume collects a wide array of economic explanations of social issues that are often thought to be beyond the realm of economic explanation. . . . This work will be valuable reading for general readers and undergraduate students. Graduate students in social sciences other than economics will find accessible economic explanations of many issues in their fields. Highly recommended. R.B. Emmett, Choice Expertly compiled and deftly edited by Simon W. Bowmaker *Economics Uncut: A Complete Guide to Life, Death and Misadventure* features

informed and informative essays and seminal articles by eighteen accomplished economists on a variety of economic issues. . . A superbly organized and presented compendium of seminal studies and commentaries adhering to high academic standards of methodology and reporting, Economics Uncut is an important and strongly recommended addition to academic library Economic Studies reference collection, as well as being quite accessible to the non-specialist general reader with an interest in the economic implications and impacts with respect to the social issues of the present day. Library Bookwatch/Internet Bookwatch The book's variety of subject matter, combined with its innovative yet academic approach, makes it both entertaining as well as thought-provoking. Emma Winberg, Economic Affairs Economics Uncut presents itself as a complete guide to Life, Death and Misadventure . Whatever the specific chapter topic, from pornography to crime, from suicide to assisted reproduction, cost benefit analyses abound, demand and

supply relations are discussed in an attempt to rationalize consumer preferences, choice and price levels and, thus, complex relationships are neatly reduced to mathematical equations, with tables and graphs being plentiful. Werner Bonefeld, *Journal of Contemporary European Studies* If you thought you could hide your secrets from the prying eyes of economists, think again. From sex to drugs to gambling to crime, this book will show you how the tools of economics can be used to understand just about any human behavior. This book will assuredly be the unofficial economist's guide to vice for the foreseeable future. Steven Levitt, University of Chicago and author of *Freakonomics* In this insightful and entertaining book, Simon Bowmaker introduces readers to the fascinating side of modern economics that applies economic analysis to a wide range of social issues from illegal drugs to religion and everything in between. In this form, economics is anything but the dismal science. This is a fun and enlightening book that shows readers what

many economists often forget that economics is a powerful tool for understanding the world around them. Kevin M. Murphy, University of Chicago, US Economics is generally associated with the financial pages of newspapers apart from front page discussion of major topics such as inflation, budget deficits, or unemployment. However, the topics discussed in many of the other pages of a typical newspaper, such as crime, divorce, or sport, are also appropriate for economic analysis. Economics is concerned with decisions and many important topics in today's society involve taking drugs or committing a crime or getting a divorce, for example, and so can be examined from an economic point of view. Many of these areas can be considered from different directions: legal, medical, political, religious, sociological, or psychological, for It is known as the Island of Gods - and what happens in Bali might leave the spiritual guardians of this dreamy holiday destination weeping tears of dismay or gazing down with contentment that all is

well in this Hindu domain. These are the events that made headlines around the world, or which were quietly played out behind a veil of tropical serenity. More than four million tourists, both rich and budget-conscious, visit the island each year; it is inevitable that things go wrong. Drugs, surfing, murder, love, death on the roads, hangovers, bombs, relaxation...they are all part of a cocktail of life in a land of looming volcanoes, hillside rice paddies and idyllic beaches Bali was the backdrop for two extraordinarily colourful weddings that ended in tears - the 'marriage' of Mick Jagger and Jerry Hall and the ceremony that saw an English model joined in matrimony to a Prince who never was. There are the drug smugglers, such as the infamous Bali Nine, Schapelle Corby and the English grandmother Lindsay Sandiford, and the story of an American hold-up man who hit the convenience stores with a knife and a Balinese wife who plotted the brutal murder of her British-Australian husband. Then there are the terrorists who killed more

than 200 tourists and local people in an infamous bombing and the shocking story of the 'Body in the Suitcase' Murder, when a wealthy US socialite was brutally murdered by her daughter and her boyfriend. Love & misadventure will take you on a rollercoaster ride through an ill-fated love affair, from the initial butterflies to the soaring heights-through to the devastating plunge. An instant New York Times bestseller, Dan Lyons' "hysterical" (Recode) memoir, hailed by the Los Angeles Times as "the best book about Silicon Valley," takes readers inside the maddening world of fad-chasing venture capitalists, sales bros, social climbers, and sociopaths at today's tech startups. For twenty-five years Dan Lyons was a magazine writer at the top of his profession--until one Friday morning when he received a phone call: Poof. His job no longer existed. "I think they just want to hire younger people," his boss at Newsweek told him. Fifty years old and with a wife and two young kids, Dan was, in a word, screwed. Then an idea hit. Dan had long reported

on Silicon Valley and the tech explosion. Why not join it? HubSpot, a Boston start-up, was flush with \$100 million in venture capital. They offered Dan a pile of stock options for the vague role of "marketing fellow." What could go wrong? HubSpotters were true believers: They were making the world a better place ... by selling email spam. The office vibe was frat house meets cult compound: The party began at four thirty on Friday and lasted well into the night; "shower pods" became hook-up dens; a push-up club met at noon in the lobby, while nearby, in the "content factory," Nerf gun fights raged. Groups went on "walking meetings," and Dan's absentee boss sent cryptic emails about employees who had "graduated" (read: been fired). In the middle of all this was Dan, exactly twice the age of the average HubSpot employee, and literally old enough to be the father of most of his co-workers, sitting at his desk on his bouncy-ball "chair." "A high-water mark in river running humor from the guides and the misguided." –Tim Cahill, author of Pass the Butterworms

and Pecked to Death by Ducks “Full of great tales, funny stories, and river lore, it will make some river runners eager to get back into the boats—and some wishing they had stayed home.” –Peter Stark, author of *Last Breath* and *Driving to Greenland*

“Just when you thought whitewater mayhem was no laughing matter, Michael Engelhard serves up *Hell’s Half Mile*, a potpourri of ticklish adventures and misadventures.” –Michael P. Ghiglieri, author of *Canyon*, *Over the Edge*, and *First Through Grand Canyon*

“Represents the best in humorous outdoors writing and the lowest in guide culture.” –John Weisheit, co-founder of Colorado River Guides and Conservation Director of Living Rivers

River wisdom postulates that there are two kinds of boaters: Those who have flipped and those who will. Most of the contributors to this anthology fall into the former category.

You will find stories of rafters, canoeists, kayakers, and dory men. You will meet two brave youths swimming the entire Grand Canyon, a bear hitching a ride in a boat, naked canoeists, egg-

slinging river guides, a floating turkey, and rangers assassinating a goat. You will witness epic wrecks, strange games and vehicles, and tourists getting lost on the river. They are all here: The misfits and misanthropes, the dreamers and daredevils, weekend warriors and professional guides, nataphobes and bibliophiles, "established voices" and undiscovered gems. Hell's Half Mile is likely to become a classic in the genre of humorous adventure writing. _____

*Michael Engelhard works as an outdoors instructor and river guide on the Colorado Plateau. He is the author of an essay collection, *Where the Rain Children Sleep*, and has contributed to a number of magazines. His most recent project is a book of stories about the western horse. When Clara Marie Stanton's ex-fiancé begins to spread rumors that her family suffers from hereditary insanity, it's all Clara can do to protect them from his desperate schemes and society's prejudice. Her family may be eccentric, yes, but they certainly aren't insane. Then Clara's Grandfather Drosselmeyer brings on an apprentice with a mechanical leg, and all pretense of normalcy takes wing. Theodore Kingsley, a shame-chased vagabond skilled in repairing clocks, wants a fresh start far from Kingsley Court and the disappointed father who declared him dead. Upon returning to England, Theodore meets clockmaker Drosselmeyer, who hires him as an apprentice, much to Clara's dismay. When Drosselmeyer spontaneously disappears in his secret flying owl machine, he leaves behind a note for Clara, beseeching her to make her dreams of adventure a reality by joining him on a merry scavenger hunt. Together, Clara and Theodore set off to follow Drosselmeyer's trail of clues, but they will have to stay one step ahead of

a villain who wants the flying machine for himself--at any cost. In this sequel to the wildly successful Hey Ranger: True Tales of Humor and Misadventure from America's National Parks, former ranger Jim Burnett casts his net globally in search of the most outrageous and humorous stories of man in his eternal quest to experience the natural world. Burnett tells of campers being belted by mysterious objects falling from the sky, like potatoes and ice cream; wildlife photos that went awry, including a ground squirrel that outwits a photographer; dumb crooks in parks, such as the drunk driver who mistakenly knocked on a judge's door to report an accident; and drivers who went over the hill and into the woods instead of to Grandma's house. Burnett also assembles contenders for the strangest questions ever asked of a park ranger, lessons on how not to pick a campsite, life lessons you can learn from a canoe trip, as well as some classic bear stories. As always, Burnett's stories are meant to inform as well as entertain, and serve as cautionary tales

on how not to become "a victim of your vacation." Told in Burnett's classic, conversational style, Hey Ranger 2 will not disappoint. Four Guys, One Girl, all crammed into one four-person tent? Imagine being the first of your team to rappel off a cliff, not knowing with certainty there will be enough rope before reaching that little ledge below. Or imagine climbing Mt. Shasta in winter only 1,500 feet from the summit when your crampon breaks. There are 15 Peaks in California above 14,000 feet elevation, and these are known as "The California 14ers," some of them more technical than others, but they all offer up challenges. This book offers a glimpse of what it is like to climb these majestic mountains. It is not surprising to anyone that has seen the awe-inspiring view from a mountain summit that the wonder of nature is experienced as a primal, spiritual feeling. Prayers of gratitude for this beautiful view and thanks for a successful climb are common. Those moments before you reach the summit are another story. Slogging away at altitude, step by exhausting step, you

move yourself forward by any means possible. Your brain gets a little foggy, and sometimes you blurt out whatever is on your mind. Fortunately anything you say above 13,000 feet doesn't count against you. There is something about reaching that mark that tends to make mountaineers spill their guts. For the most part, it was pretty entertaining as people disclosed secret crushes, hopes, erotic dreams, and private disappointment. At this altitude and often on exposed, airy ledges, we discovered the real truth: that not only did we have to count on each other, but that we actually could count on each other. This is why we call it The Truth Zone From Medieval Europe to Reconstruction; from a post-apocalyptic future to an alien world's Dark Ages, the drums pound in adrenaline-charged unison. Strap yourself in for a wild escape from the mundane, into adventures that transcend space and time. Allan of Barnsdale pledges loyalty to a doomed knight in exchange for inspiration to craft his tale of King Arthur...never

imagining they are en route to an ambush by outlaws in Sherwood Forest. Pick Garver returns to his hometown after the Civil War a hero to some, a turncoat to most, and less likely to be with his true love than when he left. Three warriors from vastly different races must battle a sorcerer, an invading armada, and each other, while desperately seeking honor in a world where treachery is the norm. Mechanic, armchair engineer and hot-dog pilot Rebble Rauser and his fellow citizens of the "Barbarian Nation" protect their sovereignty with blazing wing guns, but an old rival of Rebble's makes a surprise visit during a war in a chaotic American future. Virtual Pulp # 1 brings you new pulp-flavored tales in different genres, combining intelligent storytelling with the imaginative adventure-lust of yesteryear. "In this book, Marc Anthony Viola assists government and military professionals transitioning into the civilian world, using techniques from the U.S. intelligence community, It is intelligence "tradcrafft - applied to the

post-military career transition process. While Viola includes advice on resume writing and interviewing, the book goes beyond "how to find a job" to the challenge of conceptualizing a new vocation by exploring the personal journey of a former intelligence professional transitioning to the civilian sector. Viola uses his experiences and observations from his own military intelligence career in ways that are of interest and benefit to anyone thinking of changing careers."--BOOK JACKET. In more than 30 scathingly funny pieces, a diverse array of authors shows just how quickly a pleasant vacation can turn into an embarrassing anecdote. The stories show that when traveling, even the best of plans fall by the wayside. "Dark History of Penn's Woods is the perfect book to keep you up all night... It's ghostly, it's ghastly, and we guarantee some of the included photos will stay with you!" – Philly Mag When ships under the command of white Europeans first sailed into the Delaware Bay in 1609, southeastern Pennsylvania's

documented history of the strange and unusual began. This book tackles seven true "dark histories" from Chester and Delaware counties, which include tales of murder, witchcraft, cannibalism, tragic accidents and macabre events that actually happened in the Greater Philadelphia region. All stories are meticulously researched and placed within the greater context of Pennsylvania and world history. For example, the murder of three children by an indentured servant is placed within the context the kidnapping of children into servitude in England for sale to the Americas. The trial and execution of a woman for killing her infants is placed within the context of the rights of women in early America and how the court system failed them. The treatment of witchcraft is placed within the larger relationship of Quakers with the supernatural in Pennsylvania. This is not a book of ghost stories; this is an exploration of the real events that led people to believe in ghosts. It aims to strike a balance between a colloquial work that is

accessible by a variety of readers, and an solid academic work. Amusing, articulate, and controversial, this account follows the trail of the world's most infamous balding backpacker, returned last summer from a year's walk about on this crazy planet. Stories include George W. Bush's election, being homeless in California, a trip up the Twin Towers, and getting tear-gassed in Quebec. Summer Hayes is new to heartbreak when a guy she's dating cheats on her during her first year of college in Los Angeles. Now

distrusting men and determined to take advantage of her new single lifestyle, Summer decides to record every detail of her journey to redefine herself. She has no idea that her decision will soon lead her down a dangerous path and send her life spinning out of control. After surviving a freshman year that turns out to be even more superficial than high school, Summer moves back into the dorms at her dream school, where she has the coolest job on campus and a new group of friends. Unfortunately, there is only one thing missing: the perfect guy. Even as a past love captivates her thoughts, Summer willingly accepts lust instead of love and abandons all personal responsibility. Led by a desire for revenge, she engages in late-night debauchery, choosing to live without regrets. Now only time will tell if she can live up to her new mantra and finally forget about the one person who constantly occupies her thoughts. State of Summer shares the compelling journey of a California college student as she struggles to keep pace with the life she has created for herself and

faces the consequences of her lost innocence. Whether it's cartwheeling naked across a rugby field in front of an audience of one billion (including your dad); playing eleven-minute soft rock tracks on night-shift radio as cover for some adult magazine fumblings; getting your appendix removed to avoid an English lesson; or stealing KISS's groupies and charging the champagne to Gene Simmons' hotel room, we've all done something in our dim, dark past that must never be spoken of again. Yet, bizarrely, the editors of *Your Mother Would Be Proud* have managed to persuade a host of Australia's best-known celebrities, writers, comedians, actors, and musos to immortalize some of their most scurrilous secrets in print. The result is one of the most revealing collections of true life confessions ever to be compiled and it's all for a good cause! Justin Mitchell, a former newspaper reporter from Boulder, Colorado, is in his early 50s when, in 2003, he decides to teach English to kids in China. A six-week assignment in the burgeoning metropolis

of Shenzhen morphs into a year-long contract at a daily newspaper, and suddenly the twice-married father of one is thrust into a life-changing experience in the most transformative time in the country's history. Shenzhen Zen follows Mitchell over the ensuing decade as he lurches from job to job, bar to bar, bedroom to bedroom, and then finds love with an enigmatic woman who is the embodiment of a confident new China. This is an unflinchingly honest and touching story of insight and anguish, surrealism and tenderness, as the author undergoes a second coming of age against a backdrop of rapid globalization. Praise for Shenzhen Zen: "Justin Mitchell's beautifully told years-long adventure as an American in China brings to mind my Zippy the Pinhead's years-long tour of the 'Brand X' American landscape: there is much to confuse, much to fascinate, a good deal of enlightenment to experience and some very odd menu entrees to try. I feel like I spent ten years in Shenzhen myself after reading the book - in a good way. Who knows? China may be Zippy's next

road trip." - Bill Griffith, creator of Zippy the Pinhead

"Justin Mitchell's diary of his years in China transcends the usual expat memoir to give us something far funnier, more poignant, and sometimes tragic. This isn't Mitchell's story, but a window into the lives of men and women - especially women - in a time when China's breakneck change often left casualties in its wake." - James Palmer, author of *The Death of Mao: The Tangshan Earthquake and the Birth of the New China*

"Justin Mitchell gives us a portrait of Asia such as the average expatriate, living on an expense account in a towering high-rise, never attempts to see. It is an often-amusing, sometimes saddening, but always inspiring look at life in the raw." - John Berthelsen, Editor in Chief *Asia Sentinel*

"Justin Mitchell's account of his years in Shenzhen and Hong Kong is occasionally outrageous, often hilarious, sometimes poignant but ultimately affectionate. *Shenzhen Zen* is a worthy addition to the ranks of expat diaries. What sets it apart is its lack of sneering

condescension. Mitchell experiences joy, rejection, bureaucracy, lust, love, hangovers, and heartbreak. Through it all, he's more than an observer. He's an enthusiastic participant in life."- Dean Wright, President, Connell Wright Media; former global ethics editor, Reuters

"Dog meat for dinner. Copycat vibrators. Scummy landlords. In his highly entertaining memoir, Justin Mitchell captures the sordid essence of Shenzhen, Beijing, and Hong Kong in the early Noughties with aplomb and empathy."- Theresa Tan, author of A Clean Breast, former editor-in-chief of ELLE Singapore

Jack Hopkins, an ill-fated real-estate agent with an unhappy past, doesn't like what he does for a living. Luckily, though, he has two new job offers: Darlene Hunt wants to pay him ten million dollars to kill her husband, and her husband wants to hire him to kill Darlene Hunt. Before he can figure out who to work for, though, or how a private island off the coast of Mexico fits into it all, the dead bodies have already started piling up. The second novel from Millard Kaufman--nonagenarian author, Oscar-nominated screenwriter, and World War II Marine--*Misadventure* is a serpentine murder mystery set against a backdrop of LA real-estate schemes, ruby-wearing femmes fatale, and more love triangles than any one man should attempt to get into. Written with a style and flair that's reminiscent of *Chinatown* by way of the Coen Brothers, it's an

unforgettable addition to the genre--a noir par excellence, with wit to match. The mysterious Mr Prite leads us through thirteen tales of ghostly encounters, supernatural events and rather unfortunate happenings. We will learn that things are not always as simple as they seem: a clock, a shop, a rose ... while they may seem innocently tangible, something sinister may be lurking below the surface. A bargain is meant to benefit someone, but will it benefit you? In your eagerness, be sure to read the small print. This collection reminds us all to be careful what we wish for. Author Marc Cramer returns with another exciting and adventurous horse racing novel, which is sure to keep both the seasoned racing fan and fledgling bettor on the edge of his seat. Cramer fills his novel with witty and charismatic characters that are faced with several real-life racing and gambling scenarios that are sure to touch the hearts of its readers. In addition, he includes many traditional and expert handicapping angles and tidbits that will also help

The peremptory kind. With nothing but a set of map co-ordinates to guide me, what exactly was I to expect? The short answer? Trouble, for Mother Dearest is in rather a lot of it. And like daughter, like mother, for there's a shiny artefact in the offing, and only a few gigantic lindworms in the way. Who isn't up for a minor little challenge like that? It's off to Faerie with us, for the artefact in question was once the property of the legendary King EVELAERN; and who doesn't love a nice bit of ancient royal treasure? Only as it turns out, the declining kingdom of the Yllanfalen may hold some unexpected truths about my past... What a Mess! follows two siblings on a misadventure of epic proportions after the mess in their room becomes completely out-of-control! The cluttered chaos begins to explode from their doorway, sends them to the top of a

toymountain, spins them around in a dust-nado, and much more! Every page turn has dazzling and complex paper pop-ups -that will surely delight and amaze.
